

**CITY COUNCIL AGENDA
CITY HALL, 291 N. MAIN STREET
PORTERVILLE, CALIFORNIA
MAY 19, 2015, 5:30 PM**

Call to Order

Roll Call

ORAL COMMUNICATIONS

This is the opportunity to address the City Council on any matter scheduled for Closed Session. Unless additional time is authorized by the Council, all commentary shall be limited to three minutes.

CITY COUNCIL CLOSED SESSION:

A. Closed Session Pursuant to:

1- Government Code Section 54956.8 – Conference with Real Property Negotiators/Property: APN: 261-190-006. Agency Negotiator: John Lollis and Jenni Byers. Negotiating Parties: City of Porterville and Dr. William Gnekow. Under Negotiation: Terms and Price.

2 - Government Code Section 54957.6 – Conference with Labor Negotiator. Agency Negotiator: John Lollis, Steve Kabot, and Patrice Hildreth. Employee Organizations: Porterville City Employees Association; Management and Confidential Series; Porterville Police Officers Association; Fire Officer Series; Porterville City Firefighters Association; Public Safety Support Unit; and all Unrepresented Management Employees.

3 - Government Code Section 54956.95 – Liability Claim: Claimant: Dalilah Micaela Gonzalez Pacheco, a Minor, by and through her Guardian Ad Litem Maria De Jesus Pacheco. Agency claimed against: City of Porterville.

4 - Government Code Section 54956.9(d) (3) – Conference with Legal Counsel – Anticipated Litigation – Significant Exposure to Litigation: One Case concerning a Demand for Withdrawal of Notice of Immediate Termination dated April 23, 2015 regarding the City's Reclamation Area Lease Agreement in which facts are not yet known to potential plaintiff.

5 - Government Code Section 54956.9(d)(4) – Conference with Legal Counsel – Anticipated Litigation – Initiation of Litigation: 28 Cases.

**6:30 P.M. RECONVENE OPEN SESSION AND REPORT ON
REPORTABLE ACTION TAKEN IN CLOSED SESSION**

Pledge of Allegiance Led by Council Member Reyes

- II. Staff Informational Reports
 1. Water Conservation Phase II, Water System Status

ORAL COMMUNICATIONS

This is the opportunity to address the Council on any matter of interest, whether on the agenda or not. Please address all items not scheduled for public hearing at this time. Unless additional time is authorized by the Council, all commentary shall be limited to three minutes.

CONSENT CALENDAR

All Consent Calendar Items are considered routine and will be enacted in one motion. There will be no separate discussion of these matters unless a request is made, in which event the item will be removed from the Consent Calendar. All items removed from the Consent Calendar for further discussion will be heard at the end of Scheduled Matters.

1. Authorization to Advertise for Proposals - A&E Design Services for Transit Operations and Maintenance Facility

Re: Considering authorization to advertise for Statements of Qualifications (SOQ) or Requests for Proposals (RFP) for Architectural and Engineering (A&E) design firms for the planning, design and specification development for construction of a new bus operation and maintenance facility.

2. Intent to Set a Public Hearing for Concrete Improvements Construction by City - North Grand Avenue Reconstruction Project (Newcomb Street to Prospect Street)

Re: Considering the scheduling of a public hearing on June 16, 2015, regarding the proposed construction of concrete improvements along the north side of West North Grand Avenue.

3. Approval of Amendment No. 6 to Joint Powers Agreement between the City of Porterville and Tulare County Health and Human Services Agency

Re: Considering approval of one year extension to the agreement with Tulare County Health and Human Services Agency (TCHHSA) for a Recycle-Only Household Hazardous Waste Collection Facility.

4. Amendment to Employee Pay and Benefit Plan -- Porterville City Firefighters Association

Re: Approving amendments pursuant to the Memorandum of Understanding between the City and PCFA for the period July 1, 2014, through June 30, 2015.

5. City Council Member Requested Agenda Item - Request for the City Council to Consider Establishing a Moratorium on New Residential Development Exceeding Ten (10) Units, as well as Commercial Projects that Require Significant Water Usage

Re: Considering a request by City Council Member Ward to add an item onto the June 2, 2015, Council Agenda.

6. City Council Member Requested Agenda Item - Request for the City Council to Consider Hiring Additional Code Enforcement Officers to Enforce Water Restrictions

Re: Considering a request by City Council Member Ward to add an item onto the June 2, 2015, Council Agenda.

7. **City Council Member Requested Agenda Item - Request for the City Council to Consider How City Employees Could Donate and Support Non-Profit Organizations**
Re: Considering a request by City Council Member Ward to add an item onto the June 2, 2015, Council Agenda.

A Council Meeting Recess Will Occur at 8:30 p.m., or as Close to That Time as Possible

PUBLIC HEARINGS

8. **Public Hearing to Consider a Water Rate Increase**
Re: Consideration of a resolution adopting increased water user fees.

SCHEDULED MATTERS

9. **Consideration of Preliminary 2015-16 Budget**
Re: Review and discussion of the City's anticipated capital projects work plan and Fund activities for the 2015/2016 Fiscal Year.
10. **Consideration of Prohibiting the Installation of Natural Grass in Commercial and Industrial Zoned Areas, and to Require a Permit for the Installation of Natural Grass Exceeding 300 Square Feet in Residential Zoned Areas**
Re: Considering the modification of the City's Development Code to prohibit the installation of natural grass in commercial and industrial zoned areas, and to require a permit for the installation of natural grass exceeding 300 square feet in residential zoned areas.
11. **Governor's Executive Order for Statewide Mandatory Water Reductions, and Status and Review of Declaration of Local Emergency**
Re: Consideration of a report of statewide mandatory water reductions, and review of the Declaration of Local Emergency.

CLOSED SESSION

Any Closed Session Items not completed prior to 6:30 p.m. will be considered at this time.

ORAL COMMUNICATIONS

OTHER MATTERS

ADJOURNMENT - to the meeting of June 2, 2015

In compliance with the Americans with Disabilities Act and the California Ralph M. Brown Act, if

you need special assistance to participate in this meeting, or to be able to access this agenda and documents in the agenda packet, please contact the Office of City Clerk at (559) 782-7464. Notification 48 hours prior to the meeting will enable the City to make reasonable arrangements to ensure accessibility to this meeting and/or provision of an appropriate alternative format of the agenda and documents in the agenda packet.

Materials related to an item on this Agenda submitted to the City Council after distribution of the Agenda packet are available for public inspection during normal business hours at the Office of City Clerk, 291 North Main Street, Porterville, CA 93257, and on the City's website at www.ci.porterville.ca.us.

CITY COUNCIL AGENDA – MAY 19, 2015

SUBJECT: 1. Water Conservation Phase II, Water System Status

SOURCE: Public Works

COMMENT : On March 17, 2015, the State Water Resources Control Board ("State Water Board" or "Board") adopted an expanded emergency conservation regulation to safeguard the state's remaining water supplies as California enters a fourth consecutive dry year. The effective date of the expanded emergency conservation regulation was March 27, 2015.

The 2015 emergency conservation regulation prohibits:

- Using potable water to wash sidewalks and driveways;
- Allowing runoff when irrigating with potable water;
- Using hoses with no shutoff nozzles to wash cars;
- Using potable water in decorative water features that do not recirculate the water;
- Irrigating outdoors during and within 48 hours following measurable rainfall.

The prohibitions above apply to businesses and residents. In addition, the 2015 emergency regulation also focuses on the restaurant and hospitality sector:

- Restaurants are prohibited from serving water to their customers unless the customer requests it; and
- Hotels and motels must offer their guests the option to not have their linens and towels laundered daily, and prominently display this option in each guest room.

Large urban water suppliers (serving >3000 connections) must:

- Impose restrictions on outdoor irrigation;
- Notify customers about leaks that are within the customer's control;
- Report on water use monthly; and
- Report on compliance and enforcement.

On April 1, 2015, the Governor issued an Executive Order that the Water Board shall impose restrictions to require that commercial, industrial, and institutional properties, such as campuses, golf courses, and cemeteries, immediately implement water efficiency measures to reduce potable water usage in an amount consistent with the reduction targets mandated by the Executive Order.

The Water Board shall prohibit irrigation with potable water of ornamental turf on public street medians. The Water Board shall prohibit irrigation with potable water outside of newly constructed homes and buildings that is not delivered by drip or microspray systems. The Water Board shall direct urban water suppliers to develop rate structures and other pricing mechanisms, including, but not limited to, surcharges, fees, and penalties, to maximize water conservation consistent with statewide water restrictions. (The April 21, 2015, ruling on the

Item No.

San Juan Capistrano case, regarding tiered rates, has put this item of the Governor's plan in question).

The current regulations limit the number of days per week that outdoor irrigation is allowed. Urban water suppliers with water shortage contingency plans can rely on limitations in their plans if they exist. Plans with no limitations must restrict outdoor watering to two-days-per-week. Water shortage contingency plans can be amended to impose day-per-week restrictions in lieu of implementing the two-days-per-week plan.

Violations of prohibited activities are considered infractions and are punishable by fines of up to \$500 for each day in which the violation occurs. Any peace officer or employee of a public agency charged with enforcing laws and authorized to do so by ordinance may issue a citation to the violator.

The City of Porterville will be responding to enforcement by issuing a courtesy reminder for all unwitnessed occurrences and staff will be processing all reported issues.

Witnessed violators will be processed by the following:

- 1st occurrence will be subject to a warning;
- 2nd occurrence within a 12-month period will result in a citation of a \$100 fine;
- 3rd occurrence within a 12-month period will result in a citation of a \$200 fine;
- 4th occurrence within a 12-month period will result in a citation of a \$500 fine.

The State Water Board can issue cease and desist orders against water agencies that don't impose mandatory outdoor irrigation restrictions upon their retail customers. Water suppliers that violate cease and desist orders are subject to civil liability of up to \$10,000 a day.

On April 1, 2015, the Governor issued an Executive Order that directed the State Water Board to implement mandatory water reductions in cities and towns across California to reduce potable urban water usage by 25 percent statewide. On April 18, 2015, the State Water Board released revised proposed regulations that would require the City of Porterville to meet a 32% water usage reduction as compared to 2013. The Board hearing was May 5th, 2015. The required date of implementation is June 1, 2015.

In order for the City of Porterville to meet the 32% reduction in water usage, it is recommended the City transition from Phase II to Phase III of the City's Water Conservation Plan. The main component of Phase III is the limitation to two-days-per-week outdoor watering. A Public Hearing is scheduled for June 2, 2015, to consider moving into Phase III of the City's Water Conservation Plan.

The water system has been impacted from the lack of rain the last three years despite recent storms. Water production for the calendar year to date, April 2015, is a match on the 5-year average and a 16% decrease from 2013. As part of the emergency regulation, the City is required to report monthly water production data. The production for the month of April 2015 was 274 million gallons; residential consumption for the same month was 110.7 gallons per capita day (GPCD).

The Chart below is from numbers reported to the Department of Water Resources for March 2015.

Item No.

Water Utility	March GPCD	% Residential use	Population Served	2015 Production Million Gallons
City of Porterville	78.5	76	61,946	198.5
City of Hanford	90.7	67	57,050	239.3
City of Tulare	91.7	50	61,170	347.9
City of Visalia	97	71	137,626	582.1

Drought Response Phase II

At-a-Glance

- **Mandatory Odd/Even Watering Schedule**, based on address. Residents will be allowed three days a week to water lawns and landscapes. No watering allowed on Mondays.
- Watering is prohibited between the hours of 5:00 AM to 10:00 AM and 5:00 PM to 10:00 PM.
- Excessive water runoff is prohibited.
- The washing of sidewalks and driveways is prohibited.
- Vehicles shall only be washed on designated watering days and with a hose equipped with a shut-off nozzle.
- The operation of ornamental water features is prohibited unless the fountain uses a recycling system.
- Non-compliance with Phase II water conservation regulations could result in citations up to \$500.

DROUGHT RESPONSE PHASE II

The City of Porterville has adopted a Phase II Drought Response Plan. As part of the Phase II plan, the City has restricted watering days to three days per week, based on address.

Mandatory Odd/Even Watering Schedule

CITY COUNCIL AGENDA – MAY 19, 2015

SUBJECT: Authorization to Advertise for Proposals - A&E Design Services for Transit Operations and Maintenance Facility

SOURCE: Public Works

COMMENT: The Transit division is requesting authorization to advertise for Statements of Qualifications (SOQ) or Requests for Proposals (RFP) for Architectural and Engineering (A&E) design firms for the planning, design and specification development for construction of a new bus operation and maintenance facility. This new bus operation and maintenance facility will be built south of the Transit CNG fueling bays on the same property.

The City desires the services from A&E firms to design a certified LEED Gold or Platinum Central Bus Facility. LEED or Leadership in Energy & Environmental Design is recognized across the globe as the premier mark of achievement in green building. LEED-certified buildings cost less to operate, reducing energy and water bills by as much as 40%.

Staff also desires to use a Construction Manager/General Contractor (CMGC) firm, in light of the past experiences with the Animal Shelter and Public Safety Building projects, during the design process. A CMGC firm uses a qualification-based process, and provides value engineering, constructability views, and innovative cost saving measures.

Value engineering is a systematic, multi-disciplined approach designed to optimize the value of each dollar spent. It has proven to be a successful method for reducing project costs while maintaining a project's functional objectives. The success of value engineering can be maximized by tailoring the basic value engineering process to the specific needs of each project and by integrating the value engineering effort into the overall design development process.

The Federal Transit Administration (FTA) Circular 4220.1E, June 19, 2003, encourages grantees to use value engineering clauses in contracts for construction projects and requires it on Major Capital Projects (MCP's).

Assembly Bill No. 2498, Chapter 752 authorizes the California Department of Transportation (Caltrans) to engage in a CMGC project delivery method for projects, however staff would like to explore CMGC use as it relates to the City's Charter.

Funding was approved in the 2014/2015 Annual Budget for the Architectural and

Item No. 1.

Engineering design services. Funding for the project will come from Federal Transit Administration (FTA) capital assistance and Local Transportation Funds (LTF) for an estimated total project cost of \$500,000. Eighty percent of the project cost (\$400,000) will be provided by the FTA and twenty percent (\$100,000) will be provided by Local Transportation Funds (LTF).

RECOMMENDATION: That the City Council:

1) Authorize the Acting Public Works Director to advertise a request for Statements of Qualifications (SOQ) or Requests for Proposals (RFP) for A&E design services for the Transit Operation and Maintenance facility; and

2) Authorize the Acting Public Works Director to work with the City Attorney, Federal Transit Administration, and the California Department of Transportation to determine the use of Construction Manager/General Contractor and value engineering method as it relates to the City Charter.

CITY COUNCIL AGENDA – MAY 19, 2015

SUBJECT: Intent to Set a Public Hearing for Concrete Improvements Construction by City - North Grand Avenue Reconstruction Project (Newcomb Street to Prospect Street)

SOURCE: Public Works

COMMENT: The West North Grand Reconstruction Project is under construction and is about forty percent (40%) complete. The pending annexation on the north side of West North Grand Avenue has created a dilemma in regards to reimbursement of concrete improvements. The construction plans and specifications were prepared prior to the annexation, and concrete improvements with the exception of the curb and gutter were excluded from the plans. Lack of a binding reimbursement procedure between the City and County properties is why the concrete improvements were not included in the original construction documents. Section 20-40.1 of the Municipal Code stipulates that the improvements, once constructed, shall be reimbursed to the City of Porterville upon the issuance of a new building permit. Section 20-40.2 of the Municipal Code allows the City to recover the cost of the concrete improvements when the owner pulls a building permit(s) from the City and said permit(s) has a valuation of \$18,421 or more within a two (2) year period.

In addition, Section 20-40.8 of the Municipal Code requires that each property owner affected by the project be notified of a Public Hearing. The notification will clearly describe the City's intent to seek reimbursement for the concrete improvements constructed by the City. This section also requires that City Council hold at least one additional Public Hearing prior to the establishment of a fee. Once the fee is established, the City shall record a general notice of "reimbursement fee" with the office of the Tulare County Recorder. The recorded document will officially notify the current owner and potential buyers that the property is subject to a concrete reimbursement fee.

The additional concrete improvements will exceed the construction contingency amount authorized by Council at the time of the award of the contract. It is estimated the additional cost for the herein stated concrete improvements will be between \$150,000 and \$200,000. Once the public notification process is complete, and when an agreed-upon price is obtained, staff will seek Council authorization to augment the project budget. Staff has discussed this change with the contractor, in concept, and both parties mutually agree.

RECOMMENDATION: That the City Council:

1. Set a Public Hearing for June 16, 2015, to discuss the proposed construction of concrete improvements along the north side of West North Grand Avenue; and
2. Authorize staff to publish the public notice and notify all affected properties of the Public Hearing.

CITY COUNCIL AGENDA – MAY 19, 2015

SUBJECT: Approval of Amendment No. 6 to Joint Powers Agreement between the City of Porterville and Tulare County Health and Human Services Agency

SOURCE: Public Works

COMMENT: The City entered into an agreement with Tulare County Health and Human Services Agency (TCHHSA) on September 29, 2009, to establish a Household Hazardous Waste (HHW) Collection Facility in Porterville. This agreement is for a Recycle-Only HHW Collection Facility which only accepts latex paint; used oil; used oil filters; antifreeze; spent lead-acid batteries; nickel-cadmium, alkaline, or carbon-zinc batteries; intact spent fluorescent lamps; and intact spent high intensity discharge (HID) lamps. The current agreement is set to expire on June 30, 2015, and TCHHSA would like to renew the agreement for another year.

The City of Porterville will continue to be responsible for providing the site, facility, and staffing for collection and documentation of the Collection Facility. TCHHSA will continue to be responsible for obtaining any necessary permits and provide equipment and collection containers to operate, transportation and disposal of materials, and signage and flyers. The City's cost is approximately \$2,500 annually and is funded from the Solid Waste Fund.

Staff recommends that City Council authorize the Mayor to sign Amendment No. 6 to the agreement with Tulare County Health and Human Services Agency extending the original agreement for one more year.

RECOMMENDATION: That the City Council approve and authorize the Mayor to sign Amendment No. 6 to the Agreement with Tulare County Health and Human Services Agency.

JOINT POWERS AGREEMENT

THIS AGREEMENT, is entered into as of 9/29/09, between the COUNTY OF TULARE, referred to as COUNTY, and the City of Porterville, referred to as CONTRACTOR, with reference to the following:

A. COUNTY wishes to jointly establish and operate a recycle-only household hazardous waste collection facility ("Facility") as defined in California Health and Safety Code Section 25218.1(n) within the City of Porterville; and

B. CONTRACTOR and COUNTY each have the power to establish, operate and maintain such a Facility as recognized by California Health and Safety Code Sections 25201(c) and 25218.8; and

C. CONTRACTOR is willing to enter into this Agreement with COUNTY upon the terms and conditions set forth herein and CONTRACTOR and COUNTY are authorized by Government Code Section 6500 et seq. to enter into this Joint Powers Agreement.

ACCORDINGLY, IT IS AGREED:

1. **TERM:** This Agreement shall become effective as of October 1, 2009 and shall expire at 11:59 PM on June 30, 2010 unless otherwise terminated as provided in this Agreement.
2. **SERVICES TO BE PERFORMED:** See attached **EXHIBIT A**
3. **RESPONSIBILITIES:** The CONTRACTOR and COUNTY enter into this Agreement for exchange of services. CONTRACTOR and COUNTY shall generally be responsible for:

City:
 1. Provide and make available an appropriate site ("Site"), including such buildings as are available, for the Facility at its Corporation Yard located at 555 N. Prospect, Porterville, CA;
 2. Provide staff to oversee the Facility and receive, segregate, containerize and label recyclable household hazardous waste materials from the public during operating hours as established by the City.
 3. CITY shall limit materials to be accepted at the Facility to those recyclable household hazardous waste materials listed in paragraph 1 of subsection (b), Section 25218.8, Article 10.8, Chapter 6.5, Division 20, Health and Safety Code (see subsection c of Exhibit A).

- County:
1. Obtain any necessary permits and Hazardous Waste Generator ID Numbers for the Facility;
 2. Evaluate the suitability of existing buildings made available by CITY at the Site;
 3. Provide such equipment, containers, and labels as may be necessary to operate the Facility;
 4. Provide expertise and advice necessary to operate the Facility;
 5. Transport, or arrange for transport, of recyclable household hazardous waste materials collected at the Facility for proper recycling or disposal.

Responsibilities are more particularly described in Exhibit A.

4. **NO SEPARATE ENTITY:** There will be no separate and distinct public entity created pursuant to this Agreement.
5. **LEAD AGENCY:** COUNTY shall be the lead agency and will be primarily responsible for all activities and obligations set forth herein unless otherwise indicated.
6. **RULES AND REGULATIONS:** COUNTY will, with consultation and approval from CITY, develop all necessary and appropriate policies, rules, and regulations, for the use of, and public access to, the Facility.
7. **COMPLIANCE WITH LAW:** The parties agree to jointly operate and maintain the Facility in accordance with applicable Federal, State, and local laws, regulations and directives, including, without limitation, those provided in Division 20, Chapter 6.5, Article 10.8 of the Health and Safety Code (commencing with Section 25218). With respect to CONTRACTOR'S employees, CONTRACTOR shall comply with all laws and regulations pertaining to wages and hours, state and federal income tax, unemployment insurance, Social Security, disability insurance, workers' compensation insurance, and discrimination in employment.
8. **PAYMENT FOR SERVICES:** The annual funding provided by County under this Agreement is limited to a maximum of \$75,000.
9. **INDEPENDENT CONTRACTOR STATUS:**
 - (a) This Agreement is entered into by both parties with the express understanding that CONTRACTOR will perform all services required under this Agreement as an independent contractor. Nothing in this Agreement shall be construed to constitute the CONTRACTOR or any of its agents, employees or officers as an agent, employee or officer of COUNTY.

(b) CONTRACTOR agrees to advise everyone it assigns or hires to perform any duty under this agreement that they are not employees of COUNTY. Subject to any performance criteria contained in this Agreement, CONTRACTOR shall be solely responsible for determining the means and methods of performing the specified services and COUNTY shall have no right to control or exercise any supervision over CONTRACTOR as to how the services will be performed. As CONTRACTOR is not COUNTY'S employee, CONTRACTOR is responsible for paying all required state and federal taxes. In particular, COUNTY will not:

1. Withhold FICA (Social Security) from CONTRACTOR'S payments.
2. Make state or federal unemployment insurance contributions on CONTRACTOR'S behalf.
3. Withhold state or federal income tax from payments to CONTRACTOR.
4. Make disability insurance contributions on behalf of CONTRACTOR.
5. Obtain unemployment compensation insurance on behalf of CONTRACTOR.

(c) Notwithstanding this independent contractor relationship, COUNTY shall have the right to monitor and evaluate the performance of CONTRACTOR to assure compliance with this Agreement.

10. **GOVERNING LAW:** This Agreement shall be interpreted and governed under the laws of the State of California without reference to California conflicts of law principles. The parties agree that this contract is made in and shall be performed in Tulare County, California.

11. **RECORDS AND AUDIT:** CONTRACTOR shall maintain complete and accurate records with respect to the services rendered and the costs incurred under this Agreement. In addition, CONTRACTOR shall maintain complete and accurate records with respect to any payments to employees or subcontractors. All such records shall be prepared in accordance with generally accepted accounting procedures, shall be clearly identified, and shall be kept readily accessible. Upon request, CONTRACTOR shall make such records available within Tulare County to the Auditor of Tulare County and to his agents and representatives, for the purpose of auditing and/or copying such records for a period of five (5) years from the date of final payment under this Agreement.

12. **CONFLICT OF INTEREST:**

(a) CONTRACTOR agrees to, at all times during the performance of this Agreement, comply with the law of the State of California regarding conflicts of interests

and appearance of conflicts of interests, including, but not limited to Government Code Section 1090 et seq., and the Political Reform Act, Government Code Section 81000 et seq. and regulations promulgated pursuant thereto by the California Fair Political Practices Commission. The statutes, regulations and laws previously referenced include, but are not limited to, prohibitions against any public officer or employee, including CONTRACTOR for this purpose, from making any decision on behalf of COUNTY in which such officer, employee or consultant/contractor has a direct or indirect financial interest. A violation can occur if the public officer, employee or consultant/contractor participates in or influences any COUNTY decision which has the potential to confer any pecuniary benefit on CONTRACTOR or any business firm in which CONTRACTOR has an interest, with certain narrow exceptions.

(b) CONTRACTOR agrees that if any facts come to its attention which raise any questions as to the applicability of conflicts of interests laws, it will immediately inform the COUNTY designated representative and provide all information needed for resolution of this question.

13. **INSURANCE:** Prior to approval of this Agreement by COUNTY, CONTRACTOR shall file with the Clerk of the Board of Supervisors evidence of the required insurance as set forth in **EXHIBIT B** attached.

14. **INDEMNIFICATION:** COUNTY and CONTRACTOR shall hold each other harmless, defend and indemnify their respective agents, officers and employees from and against any liability, claims, actions, costs, damages or losses of any kind, including death or injury to any person and/or damage to property, arising out of the activities of COUNTY or CONTRACTOR or their agents, officers and employees under this Agreement. This indemnification shall be provided by each party to the other party regarding its own activities undertaken pursuant to this Agreement, or as a result of the relationship thereby created, including any claims that may be made against either party by any taxing authority asserting that an employer-employee relationship exists by reason of this Agreement, or any claims made against either party alleging civil rights violations by such party under Government Code section 12920 et seq. (California Fair Employment and Housing Act). This indemnification obligation shall continue beyond the term of this Agreement as to any acts or omissions occurring under this Agreement or any extension of this Agreement.

15. **AUTHORITY TO ACT:** Authority to act under this Agreement on behalf of each party is hereby vested with the City Manager of CITY and the Environmental Health Director of COUNTY, or their designees.

16. **TERMINATION:**

(a) Without Cause: County will have the right to terminate this Agreement without cause by giving thirty (30) days prior written notice of intention to terminate pursuant to this provision, specifying the date of termination. County will pay to the CONTRACTOR the compensation earned for work performed and not previously paid for to the date of termination. County will not pay lost anticipated profits or other economic loss. The payment of such compensation is subject to the restrictions on payment of compensation otherwise provided in this Agreement, and is conditioned upon receipt from CONTRACTOR of any and all plans, specifications and estimates, and other documents prepared by CONTRACTOR in accordance with this Agreement. No sanctions will be imposed.

(b) With Cause: This Agreement may be terminated by either party should the other party:

- (1) be adjudged a bankrupt, or
- (2) become insolvent or have a receiver appointed, or
- (3) make a general assignment for the benefit of creditors, or
- (4) suffer any judgment which remains unsatisfied for 30 days, and which would substantively impair the ability of the judgment debtor to perform under this Agreement, or
- (5) materially breach this Agreement, or
- (6) material misrepresentation, either by CONTRACTOR or anyone acting on CONTRACTOR's behalf, as to any matter related in any way to COUNTY's retention of CONTRACTOR, or
- (7) other misconduct or circumstances which, in the sole discretion of the COUNTY, either impair the ability of CONTRACTOR to competently provide the services under this Agreement, or expose the COUNTY to an unreasonable risk of liability.

County will pay to the CONTRACTOR the compensation earned for work performed and not previously paid for to the date of termination. The payment of such compensation is subject to the restrictions on payment of compensation otherwise provided in this Agreement, and is conditioned upon receipt from CONTRACTOR of any and all plans, specifications and estimates, and other documents prepared by CONTRACTOR by the date of termination in accordance with this Agreement. County will not pay lost anticipated profits or other economic loss, nor will the County pay compensation or make reimbursement to cure a breach arising out of or resulting from such termination. If this Agreement is terminated and the expense of finishing the CONTRACTOR's scope of work exceeds the unpaid balance of the agreement, the CONTRACTOR must pay the difference to the County. Sanctions taken will be possible rejection of future proposals based on specific causes of non performance.

(c) Effects of Termination: Expiration or termination of this Agreement shall

not terminate any obligations to indemnify, to maintain and make available any records pertaining to the Agreement, to cooperate with any audit, to be subject to offset, or to make any reports of pre-termination contract activities. Where CONTRACTOR's services have been terminated by the County, said termination will not affect any rights of the County to recover damages against the CONTRACTOR.

(d) **Suspension of Performance:** Independent of any right to terminate this Agreement, the authorized representative of COUNTY for which CONTRACTOR's services are to be performed, may immediately suspend performance by CONTRACTOR, in whole or in part, in response to health, safety or financial emergency, or a failure or refusal by CONTRACTOR to comply with the provisions of this Agreement, until such time as the cause for suspension is resolved, or a notice of termination becomes effective.

17. **LOSS OF FUNDING:** It is understood and agreed that if the funding is either discontinued or reduced for this project for the COUNTY, that the COUNTY shall have the right to terminate this Agreement. In such event, the affected party shall provide the other party with at least thirty (30) days prior written notice of such termination.

18. **SOFTWARE WARRANTY:** CONTRACTOR warrants that any software furnished hereunder, or any software used by it to perform the services to be provided under this Agreement, will continue processing accurately for the term of this Agreement and any extension thereof and that the use of said software will not cause incorrect scheduling or reporting or other improper operations or results.

19. **FORM DE-542:** CONTRACTOR acknowledges that this Agreement is subject to filing obligations pursuant to Unemployment Insurance Code Section 1088.8. Accordingly, COUNTY has an obligation to file a report with the Employment Development Department, which report will include the CONTRACTOR's full name, social security number, address, the date this contract was executed, the total amount of the contract, the contract's expiration date or whether it is ongoing. CONTRACTOR agrees to cooperate with COUNTY to make such information available and to complete Form DE- 542. Failure to provide the required information may, at COUNTY's option, prevent approval of this Agreement, or be grounds for termination by COUNTY.

20. **NOTICES:**

(a) Except as may be otherwise required by law, any notice to be given shall be written and shall be either personally delivered, sent by facsimile transmission or sent by first class mail, postage prepaid and addressed as follows:

COUNTY:

CONTRACT UNIT

TULARE HEALTH & HUMAN SERVICES AGENCY

5957 S. Mooney Boulevard

Visalia, CA 93277

Phone No.: 559-737-4686

Fax No.: 559-737-4059

CONTRACTOR:

CITY OF PORTERVILLE

291 N. Main Street

Porterville, CA 93257-3737

Phone No.: (559) 782-7514

Fax No.: (559) 782-8937

(b) Notice personally delivered is effective when delivered. Notice sent by facsimile transmission is deemed to be received upon successful transmission. Notice sent by first class mail shall be deemed received on the fifth day after the date of mailing. Either party may change the above address by giving written notice pursuant to this paragraph.

21. **ASSIGNMENT/SUBCONTRACTING:** Unless otherwise provided in this Agreement, COUNTY is relying on the personal skill, expertise, training and experience of CONTRACTOR and CONTRACTOR'S employees and no part of this Agreement may be assigned or subcontracted by CONTRACTOR without the prior written consent of COUNTY.

22. **DISPUTE RESOLUTION:** If a dispute arises out of or relating to this Agreement, or the breach thereof, and if said dispute cannot be settled through negotiation, the parties agree first to try in good faith to settle the dispute by non-binding mediation before resorting to litigation or some other dispute resolution procedure, unless the parties mutually agree otherwise. The mediator shall be mutually selected by the parties, but in case of disagreement, the mediator shall be selected by lot from among two nominations provided by each party. All costs and fees required by the mediator shall be split equally by the parties, otherwise each party shall bear its own costs of mediation. If mediation fails to resolve the dispute within 30 days, either party may pursue litigation to resolve the dispute.

23. **FURTHER ASSURANCES:** Each party will execute any additional documents and perform any further acts that may be reasonably required to effect the purposes of this Agreement.
24. **CONSTRUCTION:** This Agreement reflects the contributions of all undersigned parties and accordingly the provisions of Civil Code section 1654 shall not apply to address and interpret any alleged uncertainty or ambiguity.
25. **HEADINGS:** Section headings are provided for organizational purposes only and do not in any manner affect the scope, meaning or intent of the provisions under the headings.
26. **NO THIRD-PARTY BENEFICIARIES INTENDED:** Unless specifically set forth, the parties to this Agreement do not intend to provide any other party with any benefit or enforceable legal or equitable right or remedy.
27. **WAIVERS:** The failure of either party to insist on strict compliance with any provision of this Agreement shall not be considered a waiver of any right to do so, whether for that breach or any subsequent breach. The acceptance by either party of either performance or payment shall not be considered to be a waiver of any preceding breach of the Agreement by the other party.
28. **EXHIBITS AND RECITALS:** The recitals and the exhibits to this Agreement are fully incorporated into and are integral parts of this Agreement.
29. **CONFLICT WITH LAWS OR REGULATIONS/SEVERABILITY:** This Agreement is subject to all applicable laws and regulations. If any provision of this Agreement is found by any court or other legal authority, or is agreed by the parties to be, in conflict with any code or regulation governing its subject matter, only the conflicting provision shall be considered null and void. If the effect of nullifying any conflicting provision is such that a material benefit of the Agreement to either party is lost, the Agreement may be terminated at the option of the affected party. In all other cases the remainder of the Agreement shall continue in full force and effect.
30. **ENTIRE AGREEMENT REPRESENTED:** This Agreement represents the entire agreement between CONTRACTOR and COUNTY as to its subject matter and no prior oral or written understanding shall be of any force or effect. No part of this Agreement may be modified without the written consent of both parties.
31. **ASSURANCES OF NON-DISCRIMINATION:** CONTRACTOR shall not discriminate in employment or in the provision of services on the basis of any

characteristic or condition upon which discrimination is prohibited by state or federal law or regulation.

(a) It is recognized that both the Contractor and the County have the responsibility to protect County employees and clients from unlawful activities, including discrimination and sexual harassment in the workplace. Accordingly, Contractor agrees to provide appropriate training to its employees regarding discrimination and sexual harassment issues, and to promptly and appropriately investigate any allegations that any of its employees may have engaged in improper discrimination or harassment activities. The County, in its sole discretion, has the right to require Contractor to replace any employee who provides services of any kind to County pursuant to this Agreement with other employees where County is concerned that its employees or clients may have been or may be the subjects of discrimination or harassment by such employees. The right to require replacement of employees as aforesaid shall not preclude County from terminating this Agreement with or without cause as provided for herein.

32. NON-DISCRIMINATION IN STATE AND FEDERALLY ASSISTED PROGRAMS:

(a) By signing this Agreement CONTRACTOR agrees to comply with Title VI and VII of the Civil Rights Act of 1964 as amended; section 504 of the Rehabilitation Act of 1973 as amended; the Age Discrimination Act of 1975 as amended; the Food Stamp Act of 1977 as amended and the non-discrimination compliance regulations contained in 7 CFR 272.6; Title II of the Americans with Disabilities Act of 1990; The Unruh Act, California Civil Code section 51 et seq., as amended; California Government Code sections 11135-11139.5 as amended; California Government Code section 12940 (c), (h), (i), (j) and (l); California Government Code section 4450; Title 22, California Code of Regulations sections 98000-98413; the Dymally-Altorre Bilingual Services Act (California Government Code sections 7290-7299.8); section 1808 of the Removal of Barriers to Interethnic Adoption Act of 1996; and other applicable federal and state laws, as well as their implementing regulations [including 45 Code of Federal Regulations (CFR) Parts 80, 84 and 91, 7 CFR Part 15, and 29 CFR Part 42], by ensuring that employment practices and the administration of public assistance and social services programs are nondiscriminatory, to the effect that no person shall because of ethnic group identification, age, sex, color, disability, medical condition, national origin, race, ancestry, marital status, religion, religious creed or political belief be excluded from participation in or be denied the benefits of, or be otherwise subject to discrimination under any program or activity receiving federal or state financial assistance; and will immediately take any measures necessary to effectuate this Agreement.

(b) This assurance is given in consideration of and for the purpose of obtaining any and all federal and state assistance; and the CONTRACTOR hereby gives assurance that administrative methods/procedures, which have the effect of subjecting individuals to discrimination, will be prohibited.

(c) CONTRACTOR agrees to compile data, maintain records and submit reports as required, to permit effective enforcement of the aforementioned laws, rules and regulations and permit authorized county, state and federal government personnel, during normal working hours, to review such books and accounts as needed to ascertain compliance. If there are any violations of this assurance, the state shall have the right to invoke fiscal sanctions or other legal remedies in accordance with Welfare and Institutions Code section 10605, or Government Code sections 11135-11139.5, or any other laws, or the issue may be referred to the appropriate federal agency for further compliance action and enforcement of this assurance. This assurance is binding on the CONTRACTOR directly or through contract, license, or other provider services, as long as it receives federal or state assistance.

THE PARTIES, having read and considered the above provisions, indicate their agreement by their authorized signatures below.

SIXTH AMENDMENT TO AGREEMENT

Tulare County Agreement Number 24233 is amended on _____, between the **COUNTY OF TULARE**, hereinafter referred to as "COUNTY" and **CITY OF PORTERVILLE**, hereinafter referred to as "CONTRACTOR" with reference to the following:

A. The COUNTY and CONTRACTOR entered into Agreement No. 24233, on September 29, 2009 to jointly establish and operate a recycle-only household hazardous waste collection facility ("Facility") as defined in California Health and Safety Code Section 25218.1(n) within the City of Porterville.

B. The COUNTY and CONTRACTOR amended Agreement No. 24233 on July 27, 2010 to extend the date of termination to June 30, 2011.

C. The COUNTY and CONTRACTOR amended Agreement No. 24233 on July 12, 2011 to extend the date of termination to June 30, 2012.

D. The COUNTY and CONTRACTOR amended Agreement No. 24233 on July 24, 2012 to extend the date of termination to June 30, 2013.

E. The COUNTY and CONTRACTOR amended Agreement No. 24233 on May 14, 2013 to extend the date of termination to June 30, 2014.

F. The COUNTY and CONTRACTOR amended Agreement No. 24233 on April 22, 2014 to extend the date of termination to June 30, 2015.

G. The COUNTY and CONTRACTOR agree to amend Agreement No. 24233 to extend the date of termination to June 30, 2016.

H. This amendment shall become effective July 1, 2015.

ACCORDINGLY, IT IS AGREED:

I. Effective July 1, 2015 Paragraph 1 entitled Term in the original Agreement is hereby revised to identify the new termination date of June 30, 2016.

II. Except as provided above, all other terms and conditions of Agreement No. 24233 shall remain in full force and effect.

CITY COUNCIL AGENDA – MAY 19, 2015

SUBJECT: Amendment to Employee Pay and Benefit Plan -- Porterville City Firefighters Association

SOURCE: Administrative Services

COMMENT: Within the scope of the Meyers-Milias-Brown Act, City representatives have met with the Porterville City Firefighters Association (PCFA) and have reached an agreement which should be ratified subsequent to the agenda distribution restating current benefits as well as amendments pertaining to wages, benefits and working conditions.

City Council acceptance and approval of an executed MOU is most commonly demonstrated by Council authorization to change or amend, when applicable, those documents as are necessarily known to implement the points of agreement contained in the MOU.

RECOMMENDATION: That the City Council approve the draft resolution amending the Employee Pay and Benefit Plan.

ATTACHMENTS: 1. Attachment 1 - Draft Resolution

Appropriated/Funded: MB

Review By:

Department Director:

Patrice Hildreth, Administrative Services Dir

Final Approver: John Lollis, City Manager

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF
PORTERVILLE AMENDING THE EMPLOYEE PAY AND BENEFIT PLAN
FOR THE PORTERVILLE CITY FIREFIGHTERS ASSOCIATION

WHEREAS, the City Council has determined and reiterated that an Employee Pay and Benefit Plan, Classification Plan, Personnel System Rules and Regulations, Health Plan and Retirement Plan are essential for the proper administration of the City's affairs, including employee recruitment and retention, and for proper supervision of City employees; and

WHEREAS, the City Council recognizes the necessity of amending and/or changing the contents of such plans and regulations from time to time, and of executing instruments to implement and to keep the provisions thereof current, and to maintain the relevancy of the same; and

WHEREAS, there has been concurrence on a Memorandum of Understanding with the Porterville City Firefighters Association for the period from July 1, 2014, until June 30, 2015, covering provisions to amend the Employee Pay and Benefit Plan as they relate to employees holding positions represented by such recognized employee organization.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Porterville that the Employee Pay and Benefit Plan for employees holding positions represented by the aforementioned recognized employee organization is hereby amended as follows:

I. TERM OF MEMORANDUM OF UNDERSTANDING

Twelve months, i.e., from July 1, 2014 through June 30, 2015.

II. FBOR APPEAL PROCESS

Effective the pay period after the Memorandum of Understanding is fully executed, or as soon thereafter as possible, the disciplinary appeal process for the classification

represented by PCFA shall be as set forth in Attachment 2 which is agreed to be consistent with FBOR Section 3254.5.

III. UNIFORM ALLOWANCE

The uniform allowance for PCFA employees shall be increased to \$1,000 per year and disbursement shall be split into two payments of \$500 (pay-period ending on 6/30 and 12/31).

IV. TRAINING ALLOWANCE

Effective the pay period after the Memorandum of Understanding is fully executed, or as soon thereafter as possible, PCFA employees shall receive \$500 annually for fire-related training approved by the Department Head. Pursuant to past practice in the Fire Department, \$300 of this amount may be used toward membership in a local gym. PCFA employees shall participate in professional development opportunities provided at the Porterville Fire Department Regional Training Facility if available within a (3) month period from the date of the employee's request for training. The fee for Porterville Fire Department sponsored courses, taken by fire series employees at the Regional Training Facility, shall be no larger than to cover actual costs. Administrative fees shall not be applicable. No training expenses will be paid for classes taken to attain an A.A. or A.S. Degree to be eligible for educational incentive compensation.

V. EDUCATIONAL INCENTIVE

Effective the pay period after the Memorandum of Understanding is fully executed, or as soon thereafter as possible, educational incentive for PCFA employees shall be amended to:

Fire Officer Certificate: 2% upon satisfactory completion of all course work required by the Office of the State Fire Marshal, State Fire Training, for Fire Officer Certification (prior to being appointed to a position that required this certificate).

Chief Fire Officer Certificate: 3% upon satisfactory completion of all course work required by the Office of the State Fire Marshal, State Fire Training for Chief Fire Officer Certification.

VI. SALARIES

Effective the pay period after the Memorandum of Understanding is fully executed, or as soon thereafter as possible, PCFA employees shall receive a two-percent (2%) salary increase.

VII. ONE TIME OFF SCHEDULE PAYMENT

Effective the pay period after the Memorandum of Understanding is fully executed, or as soon thereafter as possible, PCFA employees shall receive a one-time payment equivalent to one percent (1%) of the employees' annual base salary.

VIII. EMPLOYEE HEALTH CONTRIBUTIONS

Effective the pay period after the Memorandum of Understanding is fully executed, or as soon thereafter as possible, PCFA employees shall begin contributing two percent (2%) per month of the employee's base salary towards employee's own medical coverage on the City's health plan.

IX. EMPLOYEE HEALTH BENEFIT AMENDMENTS

The City shall implement changes to the healthcare benefit of PCFA employees as set forth in Attachment 1 and Exhibits. Said changes may be subject to minor modification, to the benefit of the employees, as and when all City bargaining units approve them. Further, said changes to the employee's healthcare benefit shall not become effective until such time as all bargaining units approve same.

X. CALIFORNIA PUBLIC EMPLOYEES RETIREMENT SYSTEM (CALPERS)

PCFA shall continue to pay 4% toward the Employer's CalPERS contribution. Said contribution shall remain in effect until and unless changed by mutual agreement. It is expressly understood and agreed that PCFA continues to dispute the City's right to collect said 4% from the members of the bargaining unit from July 1, 2014, until the date of ratification of the Memorandum of Understanding for the 2014-2015 fiscal year.

Effective July 1, 2014, the City's CalPERS employer's contribution rate for the Public Safety group increased from 31.234% to 32.507% (a difference of 1.27%). The City agrees to absorb that cost.

XI. WORKERS COMPENSATION BENEFIT

Effective the pay period after the Memorandum of Understanding is fully executed and officially approved, or as soon thereafter as possible, the Workers Compensation benefit provided to PCFA employees shall be modified to provide no additional benefit other than those required by applicable State law. This item is separate and apart from any Carve-Out negotiations and/or agreement.

XII. STATEMENT OF CONTINUING BENEFITS AND WORKING CONDITIONS

All other terms and conditions previously negotiated shall remain in full force and effect and continue unless expressly discontinued.

BE IT FURTHER RESOLVED that the Mayor of the City of Porterville is hereby authorized to execute those documents as are necessary to implement the provisions hereof.

PASSED, APPROVED AND ADOPTED this 19th day of May, 2015.

Milt Stowe, Mayor

ATTEST:
John D. Lollis, City Clerk

Patrice Hildreth, Chief Deputy City Clerk

HEALTHCARE BENEFIT AMENDMENTS

December 18, 2014

Effective January 1, 2015, or as soon thereafter as possible, the City of Porterville ("City") proposes to amend the Employees' Healthcare benefits as follows:

1. An orthodontic benefit shall be added to the City's dental plan. Said benefit shall be for children up to age 19 only, and will have a lifetime maximum benefit of \$1,000 per child.
2. Dental implants shall be added as a covered benefit to the City's dental plan. The plan's current maximum limits shall apply to said covered benefit.
3. Progressive and transitional lenses shall be added as a covered benefit to the City's vision plan. All current maximum limits shall apply to said benefit.
4. Deductible rates for medical coverage (not including dental and vision) will increase from \$150 to \$175 for individual; and from \$300 to \$350 for family.
5. Dependent rate tier structure for medical coverage, and contribution rates for medical, dental and vision coverage shall be amended as set forth in the attached Exhibit A.
6. Co-insurance rates for out-of-network providers shall be increased from 20% to 30%. In-network rates shall remain at 20%.
7. Generic prescriptions shall be mandatory, unless specifically requested otherwise by the treating physician.
8. Mail order for all maintenance medication shall be encouraged.
9. The City shall make available Flexible Spending Accounts ("FSA") including a Healthcare FSA and Dependent Care FSA.
10. The City's Fitness Incentive Program shall be amended to eliminate quarterly fitness incentive testing. Instead, Employees who participate in the voluntary program shall receive incentive pay for verifiable healthy lifestyle choices. Eligible activities shall include verifiable regular physical exercise, completion of a certified weight loss or nutrition program, and completion of a certified smoking cessation program. The Risk Manager shall have the authority to approve or deny the eligibility of any and all proposed activities. The proposed program is more specifically set out in attached Exhibit B.

REGULAR PHYSICAL EXERCISE

Monthly Incentive Rates

	"Good"	"Excellent"	"Superior"
Monthly Workouts	10-13 times	14-17 times	18 or more
Incentive Pay	\$30	\$40	\$50

- 1 A maximum of one workout per day shall be eligible. Further, eligible workouts must last at least one hour in duration and should include cardio exercise.
- 2 To be eligible, workouts must be verifiable (i.e. sign in/out sheets at City fitness facilities witnessed/signed by HR staff or employee supervisor; or printout provided from professional third-party gym/fitness membership/classes.)
- 3 To be eligible, participants must submit their completed workout logs (forms to be provided by HR) to HR by the 10th day of each month for the prior month. Incentive pay shall be disbursed to participants on a quarterly basis. Forms submitted after the 10th day, or not containing the appropriate supervisor/HR sign-off or verified third-party gym/class printout shall not be eligible.
- 4 Employees who knowingly sign and/or submit inaccurate/fraudulent sign in/out sheets or workout logs shall be prohibited from participating in the Regular Physical Exercise program for one year from the date of discovery. The Risk Manager maintains the right to make such a determination.

SMOKING CESSATION PROGRAM

Incentive Rate	A one-time payment of up to \$200
----------------	-----------------------------------

Participating employees shall be eligible for a one time incentive payment up to \$200 for completion of a certified smoking cessation class which shall be pre-approved by the Risk Manager. Proof of completion must be provided to receive payment.

WEIGHT LOSS & NUTRITION PROGRAM

Incentive Rate	Two payments of up to \$50 per Calendar Year
----------------	--

Participating employees shall be eligible for up to two payments of \$50 each per year for completion of a certified weight loss or nutrition program, which shall be pre-approved by the Risk Manager. Proof of completion must be provided to receive payment.

The Risk Manager shall have the authority to approve or deny the eligibility of any and all proposed programs.

FFBOR APPEAL PROCESS

The following administrative appeal procedures are adopted pursuant to Government Code §3254.5 of the Firefighters Procedural Bill of Rights Act ("FFBOR"). In the event that the FFBOR is amended to allow an administrative appeal in accordance with the standard procedure of the City's Personnel Rules and Regulations, this FFBOR administrative appeal procedure will revert back to such Personnel procedures to the extent permitted by law.

1. DEFINITIONS

- a. The term "firefighter" means an employee who is considered a "firefighter" under Government Code § 3251(a) except for the Fire Chief who is identified as such. For purposes of this policy, "firefighter" does not include anyone in a volunteer capacity. As referenced in Government Code § 3251(a), any employee who has not successfully completed the probationary period established by the City as a condition of employment, is not included in the definition of "firefighter" and is not covered under this procedure. The classifications of employees who are considered a "firefighter" under this policy include: Firefighter and Fire Engineer.
- b. The term "punitive action" means any action that may lead to dismissal, demotion, reduction in salary in excess of the equivalent of twenty four (24) work hours, or suspension in excess of the equivalent of twenty four (24) hours.

2. FIRE OFFICER RIGHTS TO CONFERENCE REGARDING DISCIPLINE

Any regular, full-time firefighter in the competitive City service shall have the right to a conference of disciplinary suspension, salary reduction, demotion, or dismissal. The employee shall follow the City Personnel Policy to initiate a review of a proposed disciplinary action to and through the completion of the Skelly process.

3. APPEAL OF A DISCIPLINARY DECISION NOT INVOLVING DISCHARGE, DEMOTION, REDUCTION IN SALARY IN EXCESS OF THE EQUIVALENT OF TWENTY FOUR (24) WORK HOURS OR SUSPENSION IN EXCESS OF THE EQUIVALENT OF TWENTY FOUR (24) WORK HOURS

Pursuant to Government Code § 11445.20, the following informal hearing procedure shall be utilized for an appeal by a firefighter of a disciplinary decision not involving discharge, demotion reduction in salary in excess of the equivalent of twenty four (24) work hours or a suspension in excess of the equivalent of twenty four (24) work hours.

- a. Notice of Appeal – Within ten (10) calendar days of receipt by a firefighter of notification of punitive action as set forth above, the firefighter shall notify the Fire Chief in writing of the firefighter's intent to appeal the punitive action. The notice of appeal shall specify the action being appealed and the substantive and procedural grounds for the appeal.
- b. Presiding Officer – In an informal hearing, the City Manager or his/her designee shall be the presiding officer. The City Manager or his/her designee shall

conduct the informal hearing in accordance with these procedures. The determination of the City Manager shall be final and binding. If the City Manager cannot serve as the hearing officer because of actual bias, prejudice or interest as defined by Government Code § 11425.40, then the mediator from the California State Mediation and Conciliation Service shall serve as the Presiding Officer. In such cases, the determination of the Presiding Officer shall be final and binding.

- c. Burden of Proof - The employer shall bear the burden of proof at the hearing.

The Department shall have the burden of providing by a preponderance of the evidence the facts which form the basis for the charge and that the punitive action was reasonable under the circumstances.

- d. Conduct of Hearing –

- i. The formal rules of evidence do not apply, although the Presiding Officer shall have discretion to exclude evidence which is incompetent, irrelevant or cumulative, or the presentation of which will otherwise consume undue time.
- ii. The parties may present opening statements.
- iii. The parties may present evidence through documents and testimony.
 - aa. Witnesses shall testify under oath.
 - bb. Subpoenas may be issued pursuant to Government Code §§ 11450.05 – 11450.50.
 - cc. At the discretion of the Presiding officer, the parties may be entitled to confront and cross-examine witnesses.
- iv. Following the presentation of evidence, if any, the parties may submit oral and/or written closing arguments for consideration by the hearing officer.

- e. Recording of the Hearing – The hearing shall be audio recorded. The cost to receive a transcript of the hearing shall be borne by the party requesting the transcript.

- f. Representation – The firefighter may be represented by an association representative or attorney of his or her choice at all stages of the proceedings. All costs associated with such representation shall be borne by the firefighter.

- g. Decision – The decision shall be in writing pursuant to Government Code §11425.50. The decision shall be served by first class mail, postage prepaid, upon the firefighter as well as his/her attorney or representative, shall be

accompanied by an affidavit or certificate of mailing, and shall advise the firefighter that the decision is final and binding.

4. FIRE OFFICER RIGHTS TO APPEAL PUNITIVE ACTION INVOLVING DISCHARGE DEMOTION, REDUCTION IN SALARY IN EXCESS OF THE EQUIVALENT OF TWENTY FOUR (24) HOURS OF SUSPENSION IN EXCESS OF THE EQUIVALENT OF TWENTY FOUR (24) WORK HOURS

A. Notice of Appeal

If the employee wishes to appeal the decision of the appointing authority, the employee must file a written Notice of Appeal, in a form acceptable to the City Manager, with the City Manager's Office within ten (10) working days after receipt of the appointing authority's decision.

1. The employee shall be entitled to a hearing before a Hearing Panel on the merits of the charges if the employee files a Notice of Appeal, and any such notice shall be deemed a specific denial of all parts of the accusation not expressly admitted. Failure to file a Notice of Appeal shall constitute a waiver of the employee's right to a hearing.
2. The Notice of Appeal shall be in writing, signed by, or on behalf of, the employee and shall state the employee's mailing address.
3. The Notice of Appeal must:
 - a. State the reasons for the appeal
 - b. State the name of the employee's representative, if any.
 - c. State the employee's estimate of time necessary to present the employee's case to a Hearing Panel.
 - d. Specify any new matter to be presented during the employee's defense. No exceptions to the time period provided herein shall be permitted.

B. Hearing Panel

The Disciplinary Action shall be reviewed by a Hearing Panel. The employee shall cooperate to schedule a hearing within the time guidelines, and shall comply with the pre-hearing conference procedures as dictated by these rules and the Hearing Officer, including identification of witnesses and exchange of evidence. Upon preparing and filing the Notice of Appeal, the employee shall promptly identify a City employee to serve on the Hearing Panel.

1. One Hearing Panel member shall be a City employee selected by the appellant and one panel member shall be a City employee selected by the employee's Department Head. The third panel member shall be the Hearing Officer who will chair the Hearing Panel and conduct the hearing. If the Hearing Officer is not an attorney, the City Manager shall appoint a legal advisor who will advise the Hearing Officer on the admissibility of evidence.
2. Selection of the Hearing Officer
 - i. The Hearing Officer shall be selected from a list of five (5) qualified and experienced neutral Hearing Officers jointly developed by the City and the Bargaining Unit. This list shall be updated every two (2) years. In the event that a selected neutral can no longer serve as a Hearing Officer, the City and the

Bargaining Unit shall immediately select a replacement. If the list is not updated within two years, it shall remain in effect until the City and the Bargaining Unit are able to update it.

- ii. If the parties cannot agree upon the selection of a Hearing Officer, the parties shall select a Hearing Officer from the list of approved neutrals by rank and strike. The first strike will be determined by a coin flip, after which the parties will alternatively strike one name from the list until only one name remains.
3. No panel member may be otherwise involved in the appeal nor may they be a witness to the facts underlying the action.
4. The Hearing Officer shall chair the Hearing Panel. If the Hearing Officer is not an attorney, the City Manager shall appoint a legal advisor who will advise the Hearing Officer on the admissibility of evidence. Said legal advisor shall be subject to disqualification for any of the grounds listed in Government Code Sections 11425.30 and 11425.40.
5. Failure on the part of the City or the appellant to appear before the Hearing Panel, without good cause as determined by the Hearing Officer, shall result in forfeiture of the case.

C. Hearing Panel Procedure

The following procedures shall apply to hearings conducted before a Hearing Panel

1. Setting the Hearing. Upon receipt of the Notice of Appeal, the City shall contact the members selected for the Hearing Panel and ascertain presently available dates when the panel members might be available to conduct a formal disciplinary hearing pursuant to these Rules. The City shall notify the employee of the panel's available dates, and work with the employee or the employee's representative to schedule all hearing-related matters.
2. Although it is the employee who is appealing the disciplinary decision, the burden of proof is on the City regarding the facts upon which the discipline was based and the correctness of the penalty imposed.
3. The Appellant's failure to appear at the hearing, or failure on more than one occasion to cooperate with the scheduling of the hearing and the pre-hearing conference procedures, or to abide by the hearing processes necessary to enable the matter to be timely heard, without good cause as determined by the Hearing Officer, shall result in forfeiture of the case or be deemed an abandonment of the appeal.
4. The Hearing Officer will provide written notice to the employee and his/her representative upon the first incidence of their failure to cooperate. If, within five (5) workdays, the employee fails to correct the problem that triggered the notice, such failure shall be deemed a separate incidence of failure to cooperate.
5. The hearing will be closed to the public unless the employee requests in writing that it be open to the public. Notwithstanding, where a hearing is open, either party may request that the Hearing Officer close portions of the hearing where sensitive or confidential or sensational material may be presented or discussed. The employee's department may be represented by counsel and/or have a lay representative present throughout the proceeding.

6. All witnesses who are not parties may be excluded from the hearing by the Hearing Officer except when testifying. If the employee does not testify in his or her own behalf, the employee may be called and examined as an adverse witness.
7. All testimony shall be taken under oath or affirmation.
8. The hearing is not required to be conducted according to technical rules relating to evidence and witnesses. Any evidence upon which reasonable persons might rely in the conduct of their everyday affairs may be admitted. Subject to the provisions herein regarding pre-hearing conferences, any relevant evidence shall be admitted if it is the sort of evidence which responsible persons are accustomed to rely upon in the conduct of serious affairs. Hearsay evidence may be used only for the purpose of explaining or supplementing other evidence, or where otherwise corroborated. Persons who provide direct testimony may be called by the other party for cross examination under oath. Cross examination shall be limited to those areas covered in their prior testimony, unless the Hearing Officer permits otherwise. The Hearing Officer controls which evidence is admitted, and may exclude evidence which is irrelevant, cumulative or otherwise found to be not probative.
9. The proponent of any evidence is responsible for obtaining and presenting the evidence in a clean and legible fashion, and is responsible for having available sufficient copies of the evidence for all parties, including the Hearing Panel members and the court reporter.
10. The Hearing Officer may take official notice of any matter which may be judicially noticed.
11. Each party shall have the right to subpoena witnesses. The City Manager will, on request, issue blank subpoenas.
12. Except for rebuttal testimony, modification of position statements or newly discovered facts, documents or witnesses, information not shared at the pre-hearing conference shall not be presented to or considered by the Hearing Panel. The Hearing Officer may, but is not required to, modify this provision and permit such evidence for good cause and in a manner which is fair to both parties.
13. A certified Court Reporter shall record all testimony.
14. The City Manager may promulgate such additional hearing procedures as he/she deems necessary, and as are agreed to by the parties.
15. The Hearing Officer shall be responsible for preparing and issuing the written decision of the Hearing Panel. During the process of producing the Hearing Panel's written decision the Hearing Officer may be assisted by appointed counsel.
16. The decision of the Hearing Panel shall be by majority vote and shall be made in writing within thirty (30) calendar days after the hearing of the matter is concluded. The decision of the Hearing Panel is final and binding on all parties.
17. The decision shall be signed by the Hearing Officer, who shall provide a copy of Notice of Decision to the employee, the employee's representative, if any, to the employing department, and to the City Manager's Office. The Notice of Decision shall recite that the time within which judicial review of the decision must be sought is governed by the provisions of Code of Civil Procedure § 1094.6.

CITY COUNCIL AGENDA – MAY 19, 2015

SUBJECT: City Council Member Requested Agenda Item - Request for the City Council to Consider Establishing a Moratorium on New Residential Development Exceeding Ten (10) Units, as well as Commercial Projects that Require Significant Water Usage

SOURCE: City Manager's Office

COMMENT: City Council Member Ward has requested that the Council consider establishing a moratorium on new residential development exceeding ten (10) units, as well as commercial projects that require significant water usage.

RECOMMENDATION: That the City Council consider authorizing a Scheduled Matter on the next Council Agenda in regards to establishing a moratorium on new residential development exceeding ten (10) units, as well as new commercial developments that require significant water usage.

CITY COUNCIL AGENDA – MAY 19, 2015

SUBJECT: Public Hearing to Consider a Water Rate Increase

SOURCE: Public Works

COMMENT: At the February 17, 2015, City Council meeting, Council scheduled a Public Hearing for May 19, 2015, to consider a water rate increase. With Council's approval, staff has proceeded with the Proposition 218 Notice of Public Hearing on the proposed increase to the water rates. A Public Notice was mailed directly to all water utility customers and city of Porterville property owners on March 27, 2015.

As addressed at the February 17, 2015, meeting, staff has reviewed both this and last year's budget and determined that the City's Water Development, Operations and Replacement Funds are declining to a point where maintenance and replacement projects are being deferred due to lack of funding. The purpose of the Water Operating and Replacement Fund is to ensure that the water supply and distribution system will have the capacity to serve its residents and allow for new development, as outlined in the City's General Plan. The capacity and quality of the services provided by Public Works water utilities significantly affect the quality of life enjoyed by those who live, work, and own property in Porterville.

In recent years, the Water Operating Fund has experienced a downward trend of revenue and an increase in expenses. The current drought conditions and water conservation efforts have further reduced water sales revenues. It is projected that the cash balance at the end of fiscal year 2014/2015 will have a shortfall of \$283,568. These trends are expected to continue as drought conditions persist, and potentially worsen, in the future. Attached are historical charts of the water fund as well as projections with and without a rate increase.

Also attached is a copy of the Public Notice that was mailed to property owners and water utility users of Porterville as part of Proposition 218 Notice of Public Hearing on Proposed Increase to Water Rates. With the next fiscal year beginning July 1, 2015, and in accordance with Proposition 218 legal requirements (which provides for at least a 45-day notice of a protest hearing for a proposed fee increase), staff has noticed a Public Hearing for May 19, 2015.

The proposed rate adjustment to be considered will be an increase of \$5 on a typical residential meter, as well as an 18¢ (per 100 cubic feet) water rate increase. A proportional increase on all other meters, backflow devices, and unmetered accounts is also being recommended. An annual rate increase will be proposed based on Consumer Price Index (CPI) adjustments over the next five

budget cycles. Consumers will be annually notified of the exact increase in their May and June water bills.

Furthermore, at the Public Hearing, City Council will consider authorizing a 20% water consumption rate increase in Phase IV of the City's Water Conservation Plan. We are currently in Phase II of the plan. Council will consider moving into Phase III of the plan at the June 2, 2015, meeting. Phase IV of the plan is the City's Emergency Response Phase and implemented in times of severe water supply shortages due to drought or other emergencies.

The last water rate increase in the city of Porterville was January 1, 1995. The currently proposed rate increase attempts to stabilize the water fund with meter rate and CPI increases. However, the impact of the drought and the changing State mandates will require the City to evaluate the fund each year, and its ability to fund operations and projects, to determine if additional rate increases are necessary.

RECOMMENDATION: That City Council:

1. Conduct the public hearing;
2. Receive additional written protests;
3. Direct the City Clerk to tally the protests and report the total;
and
4. Consider approval of the attached water rate increase resolution if the tally does not exceed a majority protest (7,503 protests are considered a majority).

Final Approver: John Lollis, City Manager

PROPOSITION 218 NOTICE OF PUBLIC HEARING ON PROPOSED INCREASES TO WATER RATES

NOTICE IS HEREBY GIVEN that the City of Porterville will hold a Public Hearing on May 19, 2015, at 6:30pm in the City Council Chambers, located at 291 North Main Street, Porterville, CA 93257, to consider the adoption of increases to the rates for its water service fees. The purpose of the public hearing is to take written and oral comments and consider all written protests against the proposed rate increases. Written protests must be filed with the City of Porterville City Clerk.

For complete information in English, please see attached notice.

PROPOSICIÓN 218 AVISO DE AUDIENCIA PÚBLICA SOBRE LA PROPUESTA DE AUMENTO A LAS TARIFAS DE AGUA

AVISO queda dado que la City of Porterville realizará una audiencia pública sobre 19 de Mayo, 2015 a las 18:30 en la sala del Consejo, ubicado en 291 N. Main Street, Porterville, CA 93257 para considerar la aprobación de aumentos a las tarifas por sus aguas honorarios de servicio. El propósito de la audiencia pública es tomar comentarios escritos y orales y considerar todas las protestas escritas contra el aumento la tarifa propuesta. Protestas escritas deberán presentarse con la Secretaria Municipal de la ciudad de Porterville.

Sus Derechos: Si usted es el dueño de registro de una propiedad conforme a las tarifas propuestas o un inquilino directamente responsable por el pago de honorarios de servicio de agua (es decir., un cliente de registro) puede presentar una protesta por escrito contra los cambios de la tarifa propuesta. Sólo una protesta escrita por parcela se contarán. Protestas escritas pueden enviarse por correo a la ciudad, City Of Porterville, 291 N Main Street, Porterville, CA 93257 o en persona en la audiencia pública, siempre y cuando se hayan recibido antes de la conclusión del testimonio público en la audiencia pública. Por favor identifíquese en el frente del sobre "Water Rate Protest " para cualquier protesta ya sea por correo o presentarse en persona a la Secretaria Municipal. Las protestas presentadas verbalmente, o por correo electrónico, fax o otros medios electrónicos no serán aceptados. Para obtener más información acerca de este aviso, por favor llame a Field Services al 559-782-7514.

PROPOSITION 218 NOTICE OF PUBLIC HEARING ON PROPOSED INCREASES TO WATER RATES

NOTICE IS HEREBY GIVEN that the City of Porterville will hold a Public Hearing on May 19, 2015, at 6:30pm in the City Council Chambers, located at 291 North Main Street, Porterville, CA 93257, to consider the adoption of increases to the rates for its water service fees. The purpose of the public hearing is to take written and oral comments and consider all written protests against the proposed rate increases. Written protests must be filed with the City of Porterville City Clerk.

YOUR RIGHTS: If you are the record owner of a property subject to the proposed rates or a tenant directly liable for the payment of water service fees (i.e., a customer of record), you may submit a written protest against the proposed rate changes. Only one written protest per parcel will be counted. Written protests may be submitted by mail to the City Clerk, City of Porterville, 291 North Main Street, Porterville, CA 93257, or in person at the public hearing, so long as they are received prior to the conclusion of public testimony at the public hearing. Please identify on the front of the envelope "Water Rate Protest" for any protest, whether mailed or submitted in person to the City Clerk. Protests submitted verbally, or by e-mail, facsimile, or other electronic means will not be accepted.

Each protest must (1) be in writing; (2) state opposition to the proposed water rate increase; (3) provide the location of the owner's identified parcel (by assessor's parcel number or street address); and (4) include the original signature of the property owner or customer of record submitting the protest. Only one written protest per parcel will be counted.

At the conclusion of the public hearing, the City Council will consider adopting the proposed rate increases, which are outlined on the reverse side of this notice. If, at the close of the public hearing, written protests against the proposed water rate increases are submitted by a majority of record owners of affected parcels and customers of record (50% plus one), the City will not approve the proposed water rates. If, at the close of the public hearing, written protests against the proposed rate increases do not present a majority of record owners of affected parcels and customers of record, the City Council will be authorized to impose rate increases up to the amounts proposed. If adopted, new water rates will be effective July 1, 2015.

THE NEED FOR WATER RATE INCREASES: The City has not increased the rates for its water service fees since 1995. The City makes every effort to provide its customers with water in the most efficient and cost effective manner possible. While the City continually strives for cost reductions and better utilization of the assets it holds, it also needs to keep pace with inflation, maintain and upgrade aging infrastructure, and other cost increases. Since 1995 the costs to operate the water system have increased, just like the costs of food, electricity and other basic household commodities. Rates need to be raised to: (1) adequately fund the water system so it can be operated safely and provide residents and businesses with clean, safe and reliable potable water; (2) put aside money for future water supply projects; (3) provide timely maintenance of existing facilities; and (4) build a small reserve for emergencies, to address higher than estimated capital costs, and costs of possible future regulations as water quality standards become more stringent.

PROPOSED WATER RATE INCREASES: The City's Water Development, Operations and Replacement Funds are declining to a point where maintenance and replacement projects are being deferred due to lack of funding. The purpose of the Water Operating and Replacement Fund is to ensure that the water supply and distribution system will have the capacity to serve its residents. The suggested increase, charted below, will augment the Water Operating Fund so that a meaningful "Water Main Replacement" program can be developed.

PROPOSED RATES (2015/16): The proposed water rates include two components: (1) a meter charge and (2) a variable (water consumption-based) use charge. The meter charge is a fixed amount calculated to recover a portion of the City's fixed costs of operating and maintaining the water system and is established on the basis of the size of the water meter serving the property. The fixed meter charge is due regardless of the quantity of water consumed. The variable water use charge is the rate the City charges per unit of water consumed (one unit of water equals 748 gallons or 100 cubic feet). The variable charge will be different from one bill to another, depending on the quantity of water consumed. Currently, the City charges a \$5.00 flat rate on a typical residential meter and charges \$0.72 per 100 cubic feet of water. City Council will consider a rate increase of \$5.00 on a typical residential meter as well as an \$0.18 water rate increase per 100 cubic feet of water consumed. A proportional increase on all other meters is also being considered (see graphs on reverse side for additional information).

PROPOSED ANNUAL RATE INCREASE (BASED ON CPI ADJUSTMENTS): In addition to considering these proposed rate increases, City Council will also consider an annual rate increase. This annual rate increase would be tied to the Consumer Price Index (CPI) for the San Francisco Bay Area. As such, the exact adjustment to water rates would not be available until the yearly CPI number is released. Based on the CPI data from 2004 through 2014, the average yearly adjustment was 2.3%, with a typical range from 0.7% to 3.3%. The proposed 2.3% adjustments shown below would take place over the next five years (through FY 2019/20), after which time no further automatic adjustments would take place absent a new notice and hearing pursuant to Proposition 218. Under the proposed annual rate increase structure, Porterville residents are likely to see an increase of \$0.02 per 100 cubic feet of water, or about \$0.67 per month for the average customer (inclusive of the meter rate increase). If implemented, the CPI rate increase charges will take effect starting July 1, 2016. Customers will be notified annually of the exact increase in their May and June water bills.

PROPOSED WATER CONSERVATION PLAN PHASE IV RATE INCREASE: Furthermore, at the public hearing, City Council will consider authorizing a 20% water consumption rate increase in Phase IV of the City's Water Conservation Plan. We are currently in Phase II of the plan; Phase IV is the City's Emergency Response Phase and implemented in times of severe water supply shortages due to drought or other emergencies. This rate increase will encourage water conservation, will also serve as a provision to recover the lost revenues from water conservation which are needed to pay for routine maintenance of the water system, and will assist with continued adequacy of the City's water supply.

BILL IMPACT: A typical single family home uses 22 units (16,456 gallons or 2,200 cubic feet) of water in a billing cycle. A typical monthly bill would increase from \$20.84 to \$29.80 under the proposed initial increase. Should the annual rate increase pass, a typical monthly bill would increase as follows over the next five years. Please note that bills will be lower or higher than shown depending on actual quantity of water used.

	<i>Current</i>	<i>2015/16</i>	<i>2016/17</i>	<i>2017/18</i>	<i>2018/19</i>	<i>2019/20</i>
<i>Monthly Bill</i>	\$20.84	\$29.80	\$30.47	\$31.15	\$31.83	\$32.73

City staff can assist you with answering any questions about your water bill. If you have any questions regarding the information provided in this notice, or the rates applicable to your property, please contact Field Services at (559) 782-7514.

RESOLUTION NO. ____-2015

A RESOLUTION OF THE CITY COUNCIL
OF THE CITY OF PORTERVILLE
SETTING WATER USER FEES

WHEREAS: The City of Porterville, through Municipal Code Chapter 25, is empowered to acquire, construct, and operate a water supply system; and

WHEREAS: By Chapter 25, the City Council of the City of Porterville may establish rates necessary to operate said system. The charges by the City for its water are to be collected monthly by the finance department for the use and benefit of the City and shall be fixed by resolution of the City Council; and

WHEREAS: Rates must reflect actual cost of usage and consumption. In addition to establishing the attached rate increases, City Council will also implement an annual rate increase over the next five budget cycles. This annual rate increase will be tied to any increase of the annual Consumer Price Index (CPI) for the San Francisco Bay Area-All Urban Consumers. As such, the exact adjustment to water rates will not be available until the yearly CPI number is released. Once implemented, the CPI rate increase charges will take effect starting July 1, 2016. Customers will be notified annually of the exact increase in their May and June water bills; and

WHEREAS: Certain rates must cover the cost related to administration, construction, maintenance and replacements to the water system. City Council authorizes a 20% water consumption rate increase in Phase IV of the City's Water Conservation Plan. This rate increase will encourage water conservation, pay for water conservation programs, and will also serve as a provision to recover the lost revenues from water conservation which are needed to pay for maintenance and operation of the water system necessary to assist with continued adequacy of the City's water supply. Phase IV rate increases will occur only if directed by City Council to transition into the City's Emergency Response Phase IV of its Water Conservation Plan; and

WHEREAS: The cost analysis to finance said water system demonstrates a need to increase the water rates.

NOW, THEREFORE, BE IT RESOLVED: That the City Council of the City of Porterville does hereby approve an increase in water user fees as proposed. The following rates shall be implemented as the rates of the Water Supply System pursuant to Chapter 25-15 for all water bills generated after July 1, 2015.

METERED RATES		Proposed Metered Rates per Fiscal Year (FY)

PASSED, APPROVED AND ADOPTED this 19th day of May, 2015.

Milt Stowe, Mayor

ATTEST:
John D. Lollis, City Clerk

By: _____
Patrice Hildreth, Chief Deputy City Clerk

CITY COUNCIL AGENDA – MAY 19, 2015

SUBJECT: Consideration of Preliminary 2015-16 Budget

SOURCE: City Manager's Office

COMMENT: The purpose of this report is to provide the basis of information with regard to the City's anticipated capital projects work plan and Fund activities for the upcoming 2015-16 fiscal year. Staff will provide a more thorough examination and review of the proposed projects during the meeting.

STREET PROJECTS

With the completion of the Plano Street Bridge, the beginning of the Jaye Street Bridge Widening Project is the primary project anticipated this coming fiscal year. The estimated total project cost is approximately \$12.9 million, of which the City's match is 11.47% (\$1,477,659), which is funded through Certificates of Participation (COP) and Local Transportation Funds (LTF). The project is anticipated to be completed in two construction phases due to the seasonal flow requirements of the Tule River. However, the project could possibly be completed in a single phase should the current drought conditions continue.

Significant previously-appropriated street projects that are anticipated to progress next fiscal year include: 1) Lime Street Reconstruction – Henderson Avenue to former railroad ROW (\$1.25 million); 2) Henderson Avenue Reconstruction – Jaye Street to Indiana Street (\$1.2 million); 3) W. North Grand Avenue Reconstruction, Phase 3 – Newcomb Street to Prospect Street (\$1.1 million); 4) Newcomb Street Shoulder Stabilization/Widening, Phase 2 – Roby Avenue to Olive Avenue (\$983,300); 5) Gibbons Avenue Reconstruction, Phase I – Jaye Street to Indiana Street (\$660,935); 6) Downtown Pedestrian Walkway - Oak Avenue (\$557,000); 7) Putnam Avenue and "D" Street Traffic Signal (\$295,500); and 8) Date Avenue Reconstruction – Jaye Street to "H" Street (\$216,569).

It is projected for the coming fiscal year that the City will receive approximately \$800,000 in Measure R "Local" funds for micro-surfacing projects. Consistent with the City's Pavement Condition Index (PCI), staff recommends the micro-surfacing of Plano Street, between Highway 190 and Henderson Avenue. However, due to ADA improvements now being required, the project may be limited to E. Grand Avenue to the north.

Significant staff time will be spent in continued facilitation with Caltrans on the implementation of the Highway 190 Corridor Study and the immediate term interchange and intersection improvements, with TCAG Measure R "Regional" funds as the source of funding.

WATER PROJECTS

Utilizing the approximate \$820,000 remainder of the CIEDB loan, development of much-needed Well #32 is expected to be completed in the coming months, which is located southwest of the Airport near the Porterville Fairgrounds. As part of the Akin Water Company Services Agreement, the development of Well #33 has begun, located north of Henderson Avenue near the Friant-Kern Canal, with approximately \$2.0 million in funding to be provided by the Department of Water Resources. Significant staff time is also being devoted in coordination with State and County representatives to secure full-funding for a new well in support of the County's Household Tank Program in East Porterville. Staff is also in coordination with State representatives on funding of another well in support of the Beverly/Grand Water Company connection project, as well as the E. Vandalia Avenue water extension project.

SEWER PROJECTS

With the third of the Island Annexation Sewer Extension Projects under construction, it is anticipated that more than \$7 million in sewer extension projects will have been constructed during the 2012-2013, 2013-2014, 2014-2015, and 2015-2016 fiscal years, with the objective of connecting to City sewer the approximate 5,000 former County residents that were subject to annexation in 2006.

GENERAL FUND, MEASURE H & MAJOR CAPITAL PROJECTS

The completion of construction of the new Public Safety Station, construction of the Blower & Dewatering and Odor Controls Projects at the Wastewater Treatment Facility, CNG facility expansion at the Corporation Yard, as well as the Library Literacy Center development in Centennial Plaza, are the primary major capital projects this coming fiscal year.

The new Public Safety Station is anticipated to complete construction this coming Fall and become operational by January 1, 2016. With the awarded low bid of \$4,602,270, not including contingencies and inspection services, construction of the facility is expected to be less than \$5 million, which is within the estimated ending 2014-15 fiscal year Fund Reserve. Given the annual Measure H Fund revenues projected in excess of expenditures of approximately \$300,000, the increment is proposed to be used in the hiring of three (3) additional Fire Department personnel when the facility becomes operational.

Both the Blower & Dewatering (\$4.25 million) and Odor Control (\$800,000) Projects are major capital projects planned to occur at the Wastewater Treatment Facility, as well as the constructed expansion of the CNG-filling facilities (\$2.5 million) at the Corporation Yard.

With the City's acquisition of the Centennial Plaza building across the street from City Hall, the long-planned development of the Library Literacy Center (\$155,000) is expected to occur, funded by Measure H.

GENERAL FUND BUDGET

Staff has conservatively estimated General Fund revenues for the coming fiscal year at approximately \$23.5 million, which represents an approximate 1.00% increase over the current fiscal year. Most notably, Sales and Use Tax revenues are forecasted to increase this next year by approximately \$400,000 (9.5%), due to the expiration of the “State Sales Tax Triple Flip” and continued local retail sales growth.

Staff has estimated General Fund expenditures for the coming fiscal year at approximately \$24.2 million, which represents an approximate 2.6% increase over the current fiscal year, and an estimated \$725,000 budget shortfall. A budget-balancing solution employed for the past couple of years have been to curtail Departmental spending to either 94% or 95% of budgeted expenditures, which this next year would “save” approximately \$970,046 (96%).

Based on estimates for the fiscal year 2014-15 ending, both the City’s Budget Stabilization Reserve Fund (15% of annual budgeted operating expenditures; \$3.5 million) and the Catastrophic/Emergency Reserve Fund (10% of annual budgeted operating expenditures; \$2.4 million) will both be fully-funded.

RISK MANAGEMENT BUDGET

Staff has been most concerned by the performance of the Risk Management Fund, and most specifically the Health & Life component of the Fund, with multi-year deficits of at least \$1 million. Although revenues have remained consistent, Health & Life Plan expenditures have steadily increased. To address this continuing shortfall, staff worked this past fiscal year with its employee associations on Health Plan modifications for cost-savings, increased employer and employee contributions to the Fund, as well as increased retired employee contributions.

Both the Preliminary Budget Fund Summaries and Capital Projects Summary are provided as attachments, while the details of both can be found on the City's Finance Department webpage at www.ci.porterville.ca.us/depts/Finance.

RECOMMENDATION: That the City Council accept staff's presentation, and provide direction accordingly.

CITY COUNCIL AGENDA – MAY 19, 2015

SUBJECT: Consideration of Prohibiting the Installation of Natural Grass in Commercial and Industrial Zoned Areas, and to Require a Permit for the Installation of Natural Grass Exceeding 300 Square Feet in Residential Zoned Areas

SOURCE: City Manager's Office

COMMENT: City Council Member Ward requested, and the City Council approved, the consideration of prohibiting the installation of natural grass in commercial and industrial zoned areas, and to require a permit for the installation of natural grass exceeding 300 square feet in residential zoned areas.

As part of Executive Order B-29-15, Governor Brown ordered that the State Model Water Efficient Landscape (MWEL) Ordinance be updated through expedited regulation by the State Water Resources Control Board. The updated Ordinance shall increase water efficiency standards for new and existing landscapes through more efficient irrigation systems, greywater usage, onsite storm water capture, and by limiting the portion of landscapes that can be covered in turf. Local ordinances will be required to implement and update existing ordinances by December 31, 2015. The City of Porterville's Development Ordinance Chapter 303 Landscaping is in compliance with the current State Model Water Efficient Landscape Ordinance.

One of the specific purposes of the City's landscaping regulations is to promote conservation of water resources through the use of native and drought-tolerant plants, and water-conserving irrigation practices. The standards within the chapter apply to: 1) new construction and rehabilitated common area landscapes with more than twenty-five hundred (2,500) square feet of landscaped areas; and 2) new construction landscapes (includes new construction, as well as rehabilitation of existing) of single-unit and multi-unit residential projects with more than five thousand (5,000) square feet of landscaped areas. Throughout the chapter are requirements to use native and drought resistant plantings. Plant materials shall be selected from those species and varieties known to thrive in the Porterville climate and/or listed in Sunset's Western Garden Book, Region No. 9. Section 303.06 specifically limits lawns or turf in required landscape areas to be less than 25%. Water efficiency is also mandated in Section 303.07, and requires landscaped areas to calculate total water use value. Section 303.08 includes requirements for irrigation specifications, and states that irrigation systems shall be designed, maintained, and managed to meet or exceed 0.71 efficiency.

For the City Council's information and reference, an Ordinance amendment requires a 10-day Notice of Public Hearing and Second Reading, following by a

Item No. 10.

30-day implementation period. If a proposed amendment to the Ordinance was considered by the Council at its June 16th meeting, Second Reading could be given at the July 7th meeting, and would become effective August 6, 2015.

RECOMMENDATION: That the City Council provide direction, as appropriate.

ATTACHMENTS: 1. City Landscaping Ordinance

Appropriated/Funded: N/A

Review By:

Department Director:

Final Approver: John Lollis, City Manager

ARTICLE 303. LANDSCAPING

303.01: PURPOSE:

The specific purposes of the landscaping regulations are to:

- A. Improve the appearance of the community by requiring aesthetically pleasing landscaping on public and private sites;
- B. Aid in energy conservation by providing shade from the sun and shelter from the wind;
- C. Soften the appearance of parking lots and other development through landscaping;
- D. Promote conservation of water resources through the use of native and drought tolerant plants, and water conserving irrigation practices; and
- E. Minimize or eliminate conflicts between potentially incompatible but otherwise permitted land uses on adjoining lots through visual screening. (Ord. 1801, 12-3-2013)

303.02: APPLICABILITY:

- A. The standards of this chapter apply to all new development or improvements subject to city review as specified herein.
- B. "Qualified landscape areas" are those areas meeting one or more of the following criteria:
 - 1. New construction and rehabilitated common area landscapes with more than two thousand five hundred (2,500) square feet of landscaped area.

2. New construction landscapes which are homeowner provided and/or homeowner hired in single-unit and multi-unit residential projects with more than five thousand (5,000) square feet of landscaped area. (Ord. 1801, 12-3-2013)

303.03: LANDSCAPE DESIGN PRINCIPLES:

The following design principles are general standards to be used by city staff in evaluating whether landscape plans conform to the requirements of this article:

- A. **Natural Landscapes:** Landscape designs shall incorporate and enhance existing natural landscapes and existing specimen trees and native vegetation (including canopy, understory, and ground cover). Particular care shall be given to preserve intact natural landscapes. Where previous landscaping has dramatically altered natural landscapes, new designs shall seek to reestablish natural landscape patterns and plantings. Natural landscapes and native vegetation do not include weeds.
- B. **Composition:** The quality of a landscape design is dependent not only on the quantity and selection of plant materials but also on how that material is arranged. Landscape materials shall include a combination of ground covers, shrubs, vines and trees with a variety of plant heights and colors.
- C. **Buffering And Screening:** The placement of natural landscape materials (trees, shrubs, and hedges) is the preferred method for buffering differing land uses, for providing a transition between adjacent properties, and for screening the view of any parking or storage area, refuse collection, utility enclosures, or other service area visible from a public street, alley, or pedestrian area. Plants may be used with fences or berms to achieve the desired screening or buffering effect. When used to screen an activity area such as a parking lot, landscaping shall not interfere with public safety.
- D. **Responsive To Local Context And Character:** Landscape designs shall build on the site's and area's unique physical characteristics, conserving and complementing existing natural features. Naturalistic design elements such as irregular plant spacing, undulating berm contours, and mixed proportions of plant species shall be used to ensure that new landscaping blends in and contributes to the quality of the surrounding area. Selection and spacing of plant material shall be reflective of the surrounding area's character.

- E. Use Of Native And Drought Resistant Plants: Landscape designs shall feature native and/or related plant species and avoid invasive species, especially in areas adjacent to existing native vegetation, to take advantage of the unique natural character and diversity of the region and the adaptability of native plants to local environmental conditions. Where feasible, the reestablishment of native habitats shall be incorporated into the landscape design. In the same manner, landscape designs shall utilize drought tolerant plant materials to the maximum extent feasible. The use of drought tolerant plants shall enrich the existing landscape character, conserve water and energy, and provide as pleasant and varied a visual appearance as plants that require more water.
- F. Continuity And Connection: Landscaping shall be designed within the context of the surrounding area, provided that the landscaping is also consistent with these design principles. Where the design intent and the surrounding landscape is naturalistic, plant materials shall blend well with adjacent properties, particularly where property edges meet, to create a seamless and natural landscape. Where the design intent and the surrounding landscape is formal, consistent or similar plant material and spacing shall be utilized. Exceptions shall be made when seeking to create a transition between uses, districts, and tiers.
- G. Enhancing Architecture: Landscape designs shall be compatible with and enhance the architectural character and features of the buildings on site, and help relate the building to the surrounding landscape. Major landscape elements shall be designed to complement architectural elevations and rooflines through color, texture, density, and form on both vertical and horizontal planes. Landscaping shall be in scale with on site and adjacent buildings. Plant material shall be installed at an appropriate size and allowed to accomplish these intended goals. When foundation planting is required, plantings and window boxes shall incorporate artistic elements and be compatible with a building's architectural character. (Ord. 1801, 12-3-2013)

303.04: LANDSCAPE PLANS:

- A. Information Required: A landscape plan shall be submitted with the permit application for all projects for which landscaping is required. Landscape plans shall be drawn to scale and shall at a minimum indicate: proposed plant locations, species, and sizes; any additional proposed landscape elements; soil preparation measures; and any other measures to facilitate plant growth or control erosion. Landscape plans shall include verification that the soil type, depth, and other characteristics are appropriate for the proposed landscaping and irrigation. Landscape plans shall also indicate the location of any existing trees over six inches (6") in diameter, and whether each such tree is proposed for retention or removal. Each landscape plan shall be accompanied by an irrigation plan that at a minimum indicates the location, type and size of all components

of the irrigation system, including automatic controllers, main and lateral lines, valves, sprinkler heads, moisture sensing devices, rain switches, quick couplers, and backflow prevention devices.

- B. Preparation By Qualified Person: Landscaping for commercial projects, industrial projects, institutional projects, and residential projects consisting of more than twelve (12) units shall be prepared by a California licensed landscape contractor or California registered architect or landscape architect. (Ord. 1801, 12-3-2013)

303.05: AREAS TO BE LANDSCAPED:

The following areas shall be landscaped, and may count toward the total area of site landscaping required by the zoning district regulations:

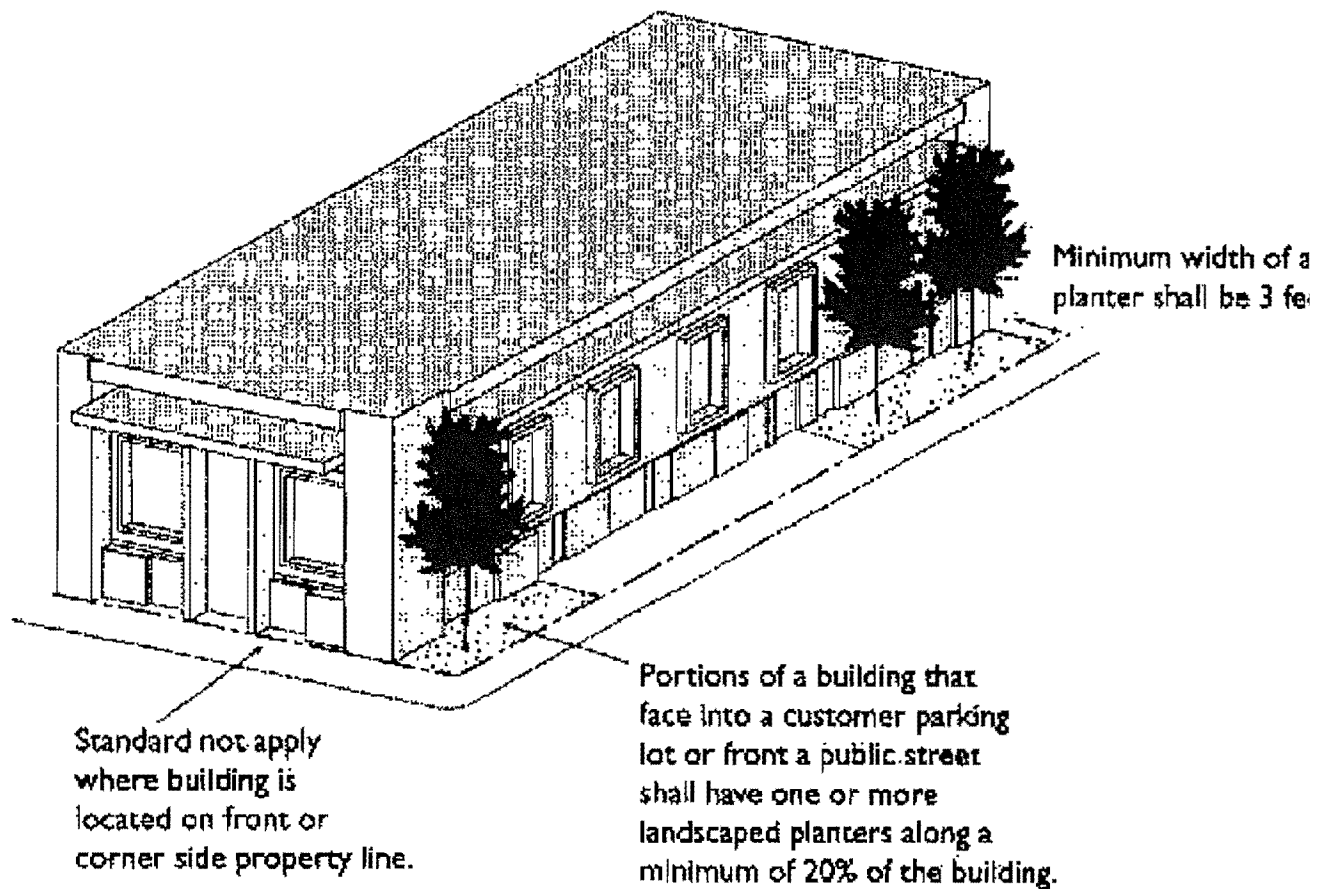

- A. Required Setbacks: All required front and street facing side setbacks, except for areas used for exit and entry, shall be landscaped.

FIGURE 303.05A: REQUIRED SETBACKS

- B. Interior Property Lines Abutting R Districts: A minimum five foot (5') wide landscape buffer shall be provided along interior property lines, where no building abuts a property line, in districts adjacent to an R district.
- C. Building Perimeters: The portions of a building facade that face onto a customer parking lot or front a public street shall have one or more landscape planters installed along a minimum twenty percent (20%) of that building face. The minimum width of the planter shall be three feet (3'). This standard does not apply where a building is located on the front or corner side property line and there is no setback between the building and the property line.

FIGURE 303.05C: BUILDING PERIMETERS

D. Landscaping In Parking Areas: Parking areas shall be landscaped as required by article 304, "On Site Parking And Loading", of this series.

E. Orchards And Gardens: Areas permanently and solely dedicated to edible plants such as orchards and vegetable gardens.

F. Unused Areas: All areas of a project site not intended for a specific use, including areas planned for future phases of a phased development, shall be landscaped or left in a natural state. Access to the unused portion of the site shall be prohibited by a concrete curb, timber barrier or other barrier not less than six inches (6") high. (Ord. 1801, 12-3-2013)

303.06: GENERAL LANDSCAPING STANDARDS:

A. Materials:

1. General: Landscaping shall consist of a combination of ground covers, shrubs, vines, and trees. Landscaped areas may include paved or graveled surfaces, provided they do not cover more than ten percent (10%) of the area required to be landscaped. Plant materials shall be selected from those species and varieties known to thrive in the Porterville climate and/or listed in Sunset's "Western Garden Book, Region No. 9". Recirculating water shall be used for decorative water features.
2. Ground Cover Materials: Ground cover shall be of living organic plant material. Ground cover may include grasses. The exclusive or majority use of nonplant materials such as gravel, colored rock, cinder, bark, and similar materials may not be used to meet the minimum planting area requirements required by this article. Mulch is not a substitute for ground cover plants.
3. Turf Allowance/Drought Tolerant Materials: The maximum amount of lawn in required landscape areas shall be twenty five percent (25%) except for turf areas that comprise an essential component of a project (e.g., golf courses or playing fields), which are exempt from this limit. The installation of turf on slopes greater than twenty five percent (25%) is prohibited. The use of drought tolerant or artificial turf plant materials is preferred in these applications to conserve the city's water resources.
4. Mulch: A minimum two inch (2") layer of mulch shall be applied on all exposed soil surfaces of planting areas except in turf areas, creeping or rooting ground covers or other special planting situations where mulch is not recommended. Stabilizing mulching products shall be used on slopes.
5. Size And Spacing: Plant materials shall be grouped in hydrozones in accordance with their respective water, cultural (soil, climate, sun and light) and maintenance needs. Plants shall be of the following size and spacing at the time of installation:
 - a. Ground Covers: Areas planted in ground cover plants other than grass seed or sod shall be planted at a rate of one per twelve inches (12") on center.
 - b. Shrubs: Shrubs shall be a minimum size of one gallon. When planted to serve as a hedge or screen, shrubs shall be planted with two (2) to four feet (4') of spacing, depending on the plant species.
 - c. Trees: Trees shall be a minimum of fifteen (15) gallons in size with a one inch (1") diameter at breast height (dbh) spaced at thirty five feet (35') on center. Newly planted trees shall be supported with stakes or guywires.

B. Dimension Of Landscaped Areas: No landscaped area smaller than three feet (3') in any horizontal dimension shall count toward required landscaping.

C. Drivers' Visibility: Trees and shrubs shall be planted and maintained so that at maturity they do not interfere with traffic safety sight areas, or public safety. Notwithstanding other

provisions of this section, landscaping must comply with section 300.16, "Visibility At Driveways And Intersections (Sight Distance)", of this series. (Ord. 1801, 12-3-2013)

303.07: WATER EFFICIENCY:

- A. Efficiency Requirement: Landscaping shall be designed and plantings selected so that water use is minimized. The total "water use value" of the proposed landscaping on a site, as described in the following subsection, may not exceed the total planting area.
- B. Procedure For Calculating Total Water Use Value: Total water use value shall be calculated as follows:
1. Plants with similar water needs shall be grouped together on the landscape plan. All landscaped areas on a site shall be designated as being in the very low, low, moderate, or high water needs category, according to the California department of water resources study, water use classification of landscape species (WUCOLS). Water bodies and turf shall be classified as high water use.
 2. The total area (either in square feet or acres) in very low, low, moderate or high water use planting types shall be determined.
 3. The area in each planting type shall be multiplied by the "water use value" for that planting type listed in table 303.07B3 of this section, and the products summed to determine total water use value of the landscape plan.

TABLE 303.07B3: WATER USE VALUES OF PLANTING TYPES

Planting Type	Water Use Value
Very low water needs category	0.1
Low water needs category	0.4
Moderate water needs category	1.0
High water needs category	1.6

Calculating Total Water Use Value			
	Area (sq. ft. or acres) in very low water needs category x 0.1	=	
	Area (sq. ft. or acres) in low water needs category x 0.4	=	

	Area (sq. ft. or acres) in moderate water needs category x 1.0	=	
	Area (sq. ft. or acres) in high water needs category x 1.6	=	
	Total water use value for site	=	

4. In order to comply with this water use standard, the total water use value as calculated in subsection B3 of this section for a site shall be less than or equal to the total planting area expressed in square feet or acres. (Ord. 1801, 12-3-2013)

303.08: IRRIGATION SPECIFICATIONS:

An irrigation system shall be installed that consists of low volume sprinkler heads, dry emitters, and bubbler emitters with automatic controllers. Each system shall be designed to provide adequate coverage to all plant material. Irrigation systems shall be designed, maintained, and managed to meet or exceed 0.71 efficiency.

- A. Irrigation systems and decorative water features shall use recycled water when made available from the city.
- B. Soil types and infiltration rate shall be considered when designing irrigation systems.
- C. All irrigation systems shall be designed to avoid runoff, low head drainage, overspray, or other similar conditions where water flows onto adjacent property, nonirrigated areas, walks, roadways, or structures.
- D. Proper irrigation equipment and schedules, including features such as repeat cycles, shall be used to closely match application rates to infiltration rates therefore minimizing runoff.
- E. Overhead irrigation shall be scheduled between eight o'clock (8:00) P.M. and ten o'clock (10:00) A.M. unless weather conditions prevent it.
- F. The irrigation plans shall include the following to provide better water efficiency for all landscaped areas:

1. Equipment: Sprinklers and sprays shall not be used in areas less than five feet (5') wide. Drip and bubbler systems shall be used in areas where watering needs do not exceed one and one-half (1.5) gallons per minute per device.
2. Water Meters: Separate landscape water meters shall be installed for all qualified landscape areas.
3. Controllers: Automatic control systems shall be required for all irrigation systems and shall be able to accommodate all aspects of the design. Automatic controllers shall be digital, and shall have multiple programs, multiple cycles, and sensor input capabilities.
4. Valves: Plants which require different amounts of water shall be irrigated by separate valves. If one valve is used for a given area, only plants with similar water use shall be used in that area. Antidrain (check) valves shall be installed in strategic points to minimize or prevent low head drainage.
5. Sprinkler Heads: Heads and emitters shall have consistent application rates within each control valve circuit. Sprinkler heads shall be selected for proper area coverage, application rate, operating pressure, adjustment capability, and ease of maintenance.
6. Rain Or Moisture Sensor Devices: Soil moisture sensors and rain or moisture sensing override devices are required for all qualified landscape areas. (Ord. 1801, 12-3-2013)

303.09: MODEL HOMES:

At least one model home that is landscaped in each project consisting of eight (8) or more homes shall demonstrate via signs and information, the principles of water efficient landscapes described in this chapter.

- A. Front Yard Sign: A four (4) square foot sign shall be located in the front yard of the "water saving" model so that it is clearly visible to buyers. The sign shall indicate that the model features a water saving landscape and irrigation design.
- B. Interior Display: A drawing, or combination of drawings, shall be displayed inside the "water saving" model or the sales office which provides a schematic of the landscape. These drawings shall include a key identifying the common name of the plants used in the "water saving" model distributed with the sales information to potential buyers to satisfy this requirement.

- C. Literature: Additional literature describing water conserving landscaping and irrigation is encouraged to also be made available to the potential buyer or referenced on the interior display or brochure. (Ord. 1801, 12-3-2013)

303.10: INSTALLATION AND COMPLETION:

- A. Consistency With Approved Plans: All landscaping and screening shall be installed consistent with approved plans and specifications, in a manner designed to promote and maintain healthy plant growth.
- B. Timing Of Installation: Required landscaping and screening shall be installed prior to the issuance of a certificate of occupancy for the associated project.
- C. Exception; Assurance Of Landscaping Completion: The zoning administrator may permit the required landscaping to be installed within one hundred twenty (120) days after the issuance of a certificate of occupancy in special circumstances related to weather conditions or plant availability. A surety in the amount equal to one hundred fifty percent (150%) of the estimated cost of landscaping, including materials and labor, as well as an agreement that the required landscaping will be installed within one hundred twenty (120) days, shall be filed with the city to assure completion of landscaping installation within such time. The surety may take the form of cash deposit; and together with the agreement, would provide for payment to the city of any costs incurred in contracting for completion of the required landscaping.
- D. Certification Of Substantial Completion: Upon completion of the installation of the landscaping and irrigation system, a field observation shall be completed by the licensed project contractor. A certificate of substantial completion shall be submitted to the city by the licensed project contractor. The certificate shall specifically indicate that the plants were installed as specified, that the irrigation system was installed as designed, along with a list of any deficiencies. (Ord. 1801, 12-3-2013)

CITY COUNCIL AGENDA – MAY 19, 2015

SUBJECT: Governor's Executive Order for Statewide Mandatory Water Reductions, and Status and Review of Declaration of Local Emergency

SOURCE: City Manager's Office

COMMENT: As previously reported to the City Council, on Wednesday, April 1, 2015, Governor Brown issued Executive Order B-29-15, which established drought-related mandates and restrictions in addition to those already stipulated in previous Executive Orders B-26-14 and B-28-14. Of significance, the Governor directed the State Water Resources Control Board to impose restrictions to achieve a statewide 25% reduction in potable urban water usage through February 28, 2016, in comparison to the amount used in 2013, and with consideration given to per capita usage as a basis. The Governor further directed the Board to impose additional restrictions on commercial, industrial, and institutional properties with significant landscaping (cemeteries, golf courses, parks, schools, etc.), to also achieve a 25% reduction in potable water usage. Also of significance, the Board is directed to prohibit irrigation with potable water outside of newly constructed homes and buildings that is not delivered by drip or micro-spray systems.

On Wednesday, May 6, 2015, the State Water Resources Control Board approved its Proposed Regulatory Framework for implementation of the Governor's statewide mandatory 25% reduction in potable urban water usage. The Board's Regulatory Framework mandates separate reporting requirements for large water suppliers (at least 3,000 service connections) and small water suppliers, with large suppliers required to provide monthly reports and small suppliers required to provide a single summary report. The Board established June 2013 to February 2014 as the nine (9) month comparison window to evaluate compliance with the mandated conservation measures, as well as established tiers for large suppliers based upon average gallons per capita per day (gpcd) calculations for the months of July through September 2014, toward achieving an overall statewide 25% conservation rate. A total of eight (8) tiers was established, which are as follows: Tier 1 (under 65 gpcd – 8% conservation); Tier 2 (65-80 gpcd – 12% conservation); Tier 3 (80-95 gpcd – 16% conservation); Tier 4 (95-110 gpcd – 20% conservation); Tier 5 (110-130 gpcd – 24% conservation); Tier 6 (130-170 gpcd – 28% conservation); Tier 7 (170-215 – 32% conservation); and Tier 8 (over 215 gpcd – 36% conservation). The city of Porterville is placed in Tier 7 (182 gpcd - 32% conservation), as most central valley cities are in either Tier 7 (32%) or Tier 8 (36%) conservation mandates.

At the City Council's last meeting on May 5th, the City Council took action to adopt a Resolution of Declaration of Local Emergency, due to local residences

Item No. 11.

within the city having been identified as having wells that are now dry as a result of the drought. Although at least five (5) residences along E. Vandalia Avenue have been determined to currently have dry wells, it is anticipated that more could occur as the summer months approach. Given the City Council's Declaration, City staff met with CalOES staff in coordination of reimbursable activities toward addressing the emergency household conditions, which the non-profits engaged in the County's Household Tank Program would present the most efficient and definite means to receive full reimbursement for drought-response activities. As already approved by the State, Self-Help Enterprises would purchase the 2,500-gallon water tanks, CSET would install and energize the tank to the residence's water system, and United Way would coordinate weekly water deliveries to the tanks. It is requested that the City sponsor the plumbing permit fee required to connect the tank to the residence. PACC may also be able to perform these same functions, however, PACC has not yet undertaken the State's approval process and is therefore not currently recognized by the State to receive reimbursement for performing drought-related activities. Staff recommends that the City Council determine that emergency conditions continue to exist to merit the Declaration of Local Emergency.

Also at its last meeting, given the assurance by CalOES representatives that full-funding for a new well was certain, the City Council reconsidered its decision to delay the availability of water for purchase, and authorized the County to purchase up to 500,000 gallons of City water over the next thirty (30) days in support of the County's Household Tank Program in East Porterville, requiring that the water be drawn exclusively from the City's "Jones Corner" water system. Beginning the week of May 11th, the County began to access water from that designated location. Also, City staff has been in continued coordination with both State and County representatives on the funding and development of the new well, although the consulting firm engaged to facilitate the new well's development has revised the estimated cost of the new well to \$2.4 million.

RECOMMENDATION: That the City Council receive the report of status and review of the Declaration of Local Emergency, determine that a need exists to continue said Declaration, and provide direction as appropriate.

Review By:

Department Director:

Final Approver: John Lollis, City Manager

Executive Department
State of California

EXECUTIVE ORDER B-29-15

WHEREAS on January 17, 2014, I proclaimed a State of Emergency to exist throughout the State of California due to severe drought conditions; and

WHEREAS on April 25, 2014, I proclaimed a Continued State of Emergency to exist throughout the State of California due to the ongoing drought; and

WHEREAS California's water supplies continue to be severely depleted despite a limited amount of rain and snowfall this winter, with record low snowpack in the Sierra Nevada mountains, decreased water levels in most of California's reservoirs, reduced flows in the state's rivers and shrinking supplies in underground water basins; and

WHEREAS the severe drought conditions continue to present urgent challenges including: drinking water shortages in communities across the state, diminished water for agricultural production, degraded habitat for many fish and wildlife species, increased wildfire risk, and the threat of saltwater contamination to fresh water supplies in the Sacramento-San Joaquin Bay Delta; and

WHEREAS a distinct possibility exists that the current drought will stretch into a fifth straight year in 2016 and beyond; and

WHEREAS new expedited actions are needed to reduce the harmful impacts from water shortages and other impacts of the drought; and

WHEREAS the magnitude of the severe drought conditions continues to present threats beyond the control of the services, personnel, equipment, and facilities of any single local government and require the combined forces of a mutual aid region or regions to combat; and

WHEREAS under the provisions of section 8558(b) of the Government Code, I find that conditions of extreme peril to the safety of persons and property continue to exist in California due to water shortage and drought conditions with which local authority is unable to cope; and

WHEREAS under the provisions of section 8571 of the California Government Code, I find that strict compliance with various statutes and regulations specified in this order would prevent, hinder, or delay the mitigation of the effects of the drought.

NOW, THEREFORE, I, EDMUND G. BROWN JR., Governor of the State of California, in accordance with the authority vested in me by the Constitution and statutes of the State of California, in particular Government Code sections 8567 and 8571 of the California Government Code, do hereby issue this Executive Order, effective immediately.

IT IS HEREBY ORDERED THAT:

1. The orders and provisions contained in my January 17, 2014 Proclamation, my April 25, 2014 Proclamation, and Executive Orders B-26-14 and B-28-14 remain in full force and effect except as modified herein.

SAVE WATER

2. The State Water Resources Control Board (Water Board) shall impose restrictions to achieve a statewide 25% reduction in potable urban water usage through February 28, 2016. These restrictions will require water suppliers to California's cities and towns to reduce usage as compared to the amount used in 2013. These restrictions should consider the relative per capita water usage of each water suppliers' service area, and require that those areas with high per capita use achieve proportionally greater reductions than those with low use. The California Public Utilities Commission is requested to take similar action with respect to investor-owned utilities providing water services.
3. The Department of Water Resources (the Department) shall lead a statewide initiative, in partnership with local agencies, to collectively replace 50 million square feet of lawns and ornamental turf with drought tolerant landscapes. The Department shall provide funding to allow for lawn replacement programs in underserved communities, which will complement local programs already underway across the state.
4. The California Energy Commission, jointly with the Department and the Water Board, shall implement a time-limited statewide appliance rebate program to provide monetary incentives for the replacement of inefficient household devices.
5. The Water Board shall impose restrictions to require that commercial, industrial, and institutional properties, such as campuses, golf courses, and cemeteries, immediately implement water efficiency measures to reduce potable water usage in an amount consistent with the reduction targets mandated by Directive 2 of this Executive Order.
6. The Water Board shall prohibit irrigation with potable water of ornamental turf on public street medians.
7. The Water Board shall prohibit irrigation with potable water outside of newly constructed homes and buildings that is not delivered by drip or microspray systems.

8. The Water Board shall direct urban water suppliers to develop rate structures and other pricing mechanisms, including but not limited to surcharges, fees, and penalties, to maximize water conservation consistent with statewide water restrictions. The Water Board is directed to adopt emergency regulations, as it deems necessary, pursuant to Water Code section 1058.5 to implement this directive. The Water Board is further directed to work with state agencies and water suppliers to identify mechanisms that would encourage and facilitate the adoption of rate structures and other pricing mechanisms that promote water conservation. The California Public Utilities Commission is requested to take similar action with respect to investor-owned utilities providing water services.

INCREASE ENFORCEMENT AGAINST WATER WASTE

9. The Water Board shall require urban water suppliers to provide monthly information on water usage, conservation, and enforcement on a permanent basis.
10. The Water Board shall require frequent reporting of water diversion and use by water right holders, conduct inspections to determine whether illegal diversions or wasteful and unreasonable use of water are occurring, and bring enforcement actions against illegal diverters and those engaging in the wasteful and unreasonable use of water. Pursuant to Government Code sections 8570 and 8627, the Water Board is granted authority to inspect property or diversion facilities to ascertain compliance with water rights laws and regulations where there is cause to believe such laws and regulations have been violated. When access is not granted by a property owner, the Water Board may obtain an inspection warrant pursuant to the procedures set forth in Title 13 (commencing with section 1822.50) of Part 3 of the Code of Civil Procedure for the purposes of conducting an inspection pursuant to this directive.
11. The Department shall update the State Model Water Efficient Landscape Ordinance through expedited regulation. This updated Ordinance shall increase water efficiency standards for new and existing landscapes through more efficient irrigation systems, greywater usage, onsite storm water capture, and by limiting the portion of landscapes that can be covered in turf. It will also require reporting on the implementation and enforcement of local ordinances, with required reports due by December 31, 2015. The Department shall provide information on local compliance to the Water Board, which shall consider adopting regulations or taking appropriate enforcement actions to promote compliance. The Department shall provide technical assistance and give priority in grant funding to public agencies for actions necessary to comply with local ordinances.
12. Agricultural water suppliers that supply water to more than 25,000 acres shall include in their required 2015 Agricultural Water Management Plans a detailed drought management plan that describes the actions and measures the supplier will take to manage water demand during drought. The Department shall require those plans to include quantification of water supplies and demands for 2013, 2014, and 2015 to the extent data is available. The Department will provide technical assistance to water suppliers in preparing the plans.

13. Agricultural water suppliers that supply water to 10,000 to 25,000 acres of irrigated lands shall develop Agricultural Water Management Plans and submit the plans to the Department by July 1, 2016. These plans shall include a detailed drought management plan and quantification of water supplies and demands in 2013, 2014, and 2015, to the extent that data is available. The Department shall give priority in grant funding to agricultural water suppliers that supply water to 10,000 to 25,000 acres of land for development and implementation of Agricultural Water Management Plans.
14. The Department shall report to Water Board on the status of the Agricultural Water Management Plan submittals within one month of receipt of those reports.
15. Local water agencies in high and medium priority groundwater basins shall immediately implement all requirements of the California Statewide Groundwater Elevation Monitoring Program pursuant to Water Code section 10933. The Department shall refer noncompliant local water agencies within high and medium priority groundwater basins to the Water Board by December 31, 2015, which shall consider adopting regulations or taking appropriate enforcement to promote compliance.
16. The California Energy Commission shall adopt emergency regulations establishing standards that improve the efficiency of water appliances, including toilets, urinals, and faucets available for sale and installation in new and existing buildings.

INVEST IN NEW TECHNOLOGIES

17. The California Energy Commission, jointly with the Department and the Water Board, shall implement a Water Energy Technology (WET) program to deploy innovative water management technologies for businesses, residents, industries, and agriculture. This program will achieve water and energy savings and greenhouse gas reductions by accelerating use of cutting-edge technologies such as renewable energy-powered desalination, integrated on-site reuse systems, water-use monitoring software, irrigation system timing and precision technology, and on-farm precision technology.

STREAMLINE GOVERNMENT RESPONSE

18. The Office of Emergency Services and the Department of Housing and Community Development shall work jointly with counties to provide temporary assistance for persons moving from housing units due to a lack of potable water who are served by a private well or water utility with less than 15 connections, and where all reasonable attempts to find a potable water source have been exhausted.
19. State permitting agencies shall prioritize review and approval of water infrastructure projects and programs that increase local water supplies, including water recycling facilities, reservoir improvement projects, surface water treatment plants, desalination plants, stormwater capture, and greywater systems. Agencies shall report to the Governor's Office on applications that have been pending for longer than 90 days.

26. For purposes of carrying out directives 2–9, 11, 16–17, 20–23, and 25, Division 13 (commencing with section 21000) of the Public Resources Code and regulations adopted pursuant to that Division are hereby suspended. This suspension applies to any actions taken by state agencies, and for actions taken by local agencies where the state agency with primary responsibility for implementing the directive concurs that local action is required, as well as for any necessary permits or approvals required to complete these actions. This suspension, and those specified in paragraph 9 of the January 17, 2014 Proclamation, paragraph 19 of the April 25, 2014 proclamation, and paragraph 4 of Executive Order B-26-14, shall remain in effect until May 31, 2016. Drought relief actions taken pursuant to these paragraphs that are started prior to May 31, 2016, but not completed, shall not be subject to Division 13 (commencing with section 21000) of the Public Resources Code for the time required to complete them.
27. For purposes of carrying out directives 20 and 21, section 13247 and Chapter 3 of Part 3 (commencing with section 85225) of the Water Code are suspended.
28. For actions called for in this proclamation in directive 20, the Department shall exercise any authority vested in the Central Valley Flood Protection Board, as codified in Water Code section 8521, et seq., that is necessary to enable these urgent actions to be taken more quickly than otherwise possible. The Director of the Department of Water Resources is specifically authorized, on behalf of the State of California, to request that the Secretary of the Army, on the recommendation of the Chief of Engineers of the Army Corps of Engineers, grant any permission required pursuant to section 14 of the Rivers and Harbors Act of 1899 and codified in section 48 of title 33 of the United States Code.
29. The Department is directed to enter into agreements with landowners for the purposes of planning and installation of the Emergency Drought Barriers in 2015 to the extent necessary to accommodate access to barrier locations, land-side and water-side construction, and materials staging in proximity to barrier locations. Where the Department is unable to reach an agreement with landowners, the Department may exercise the full authority of Government Code section 8572.
30. For purposes of this Executive Order, chapter 3.5 (commencing with section 11340) of part 1 of division 3 of the Government Code and chapter 5 (commencing with section 25400) of division 15 of the Public Resources Code are suspended for the development and adoption of regulations or guidelines needed to carry out the provisions in this Order. Any entity issuing regulations or guidelines pursuant to this directive shall conduct a public meeting on the regulations and guidelines prior to adopting them.

31. In order to ensure that equipment and services necessary for drought response can be procured quickly, the provisions of the Government Code and the Public Contract Code applicable to state contracts, including, but not limited to, advertising and competitive bidding requirements, are hereby suspended for directives 17, 20, and 24. Approval by the Department of Finance is required prior to the execution of any contract entered into pursuant to these directives.

This Executive Order is not intended to, and does not, create any rights or benefits, substantive or procedural, enforceable at law or in equity, against the State of California, its agencies, departments, entities, officers, employees, or any other person.

I FURTHER DIRECT that as soon as hereafter possible, this Order be filed in the Office of the Secretary of State and that widespread publicity and notice be given to this Order.

IN WITNESS WHEREOF I have
hereunto set my hand and caused the
Great Seal of the State of California to
be affixed this 1st day of April 2015.

EDMUND G. BROWN JR.
Governor of California

ATTEST:

ALEX PADILLA
Secretary of State

Fact Sheet

NOTICE OF PROPOSED EMERGENCY REGULATION *IMPLEMENTING THE 25% CONSERVATION STANDARD*

On April 1, 2015, Governor Jerry Brown issued the fourth in a series of Executive Orders on actions necessary to address California's severe drought conditions. With snowpack water content at a record low level of 5 percent of average for April 1st, major reservoir storage shrinking each day as a percentage of their daily average measured over the last several decades, and groundwater levels continuing to decline, urgent action is needed. The April 1 Executive Order requires, for the first time in the State's history, mandatory conservation of potable urban water use. Commercial agriculture in many parts of the State has already been notified of severe cutbacks in water supply contracted through the State and Federal Water Projects and is bracing for curtailments of surface water rights in the near-term. Conserving water more seriously now will forestall even more catastrophic impacts if it does not rain next year.

Stakeholder Involvement

To maximize input in a short amount of time, the State Water Board released a proposed regulatory framework for implementing the 25% conservation standard on April 7, 2015 for public input. Over 250 comments were submitted by water suppliers, local government, businesses, individuals, and non-governmental organizations. Draft regulations that considered this input were released on April 18 for informal public comment. Almost 300 comments were received that addressed the methodology for the assignment of conservation standards, the availability of exclusions or adjustments under defined conditions, how to approach the commercial, industrial and institutional (CII) sector, the requirements for smaller water suppliers, and the approach to enforcement. A Notice of Proposed Emergency Regulations, which considers this input and initiates the formal emergency rulemaking process, was released on April 28, 2015. If approved, water savings amounting to approximately 1.3 million acre-feet of water, or nearly as much water as is currently in Lake Oroville, will be realized over the next nine months.

What's Next

The Notice of Proposed Emergency Rulemaking begins a formal comment period that will conclude just prior to the State Water Board's consideration of adoption of the proposed emergency regulation at its May 5-6, 2015 meeting. The formal comment period will conclude on May 4, 2015 at 10:00am. All comments will be immediately provided to the Board Members and posted on the State Water Board's webpage at:

http://www.waterboards.ca.gov/waterrights/water_issues/programs/drought/emergency_mandatory_regulations.shtml

During this formal notice period, all **comments must be received by 10:00am on Monday May 4, 2015** and submitted either electronically to: commentletters@waterboards.ca.gov or in writing to the address in the Notice. All comments should indicate on the subject line: "Comment Letter – Emergency Conservation Regulation."

Proposed Emergency Regulation - Key Provisions

Conservation Standard for Urban Water Suppliers

As drought conditions continue, all water suppliers will need to do more to meet the statewide 25% conservation standard. Since the State Water Board adopted its initial emergency urban conservation regulation in July 2014, statewide conservation has reached 9%. Everyone must do more, but the greatest opportunities to meet the statewide 25% conservation standard exist in those areas with higher water use. Often, but not always, these water suppliers are located in areas where the majority of the water use is directed at outdoor irrigation due to lot size, climate and other factors. As temperatures are forecast to climb to above average for the summer months, it will become even more important to take aggressive actions to reduce outdoor water use. The emergency regulation establishes tiers of required water reductions that emphasize the opportunities to reduce outdoor water use.

Many comments spoke to the question of fairness and equity in the construction of the tiers in earlier drafts of the regulation. Concerns were raised about accounting for factors that influence water use, such as past conservation, climate, lot size, density, and income. Ultimately, the tier structure proposed on April 18, 2015 was maintained as the best way to achieve the 25% water reduction called for by the Governor.

Feedback is specifically requested on whether the conservation framework should be modified to double the number of tiers and use two percent increments instead of four percent. This change would provide further refinement for water suppliers that find themselves on one side or the other of a tier.

The conservation savings for all urban water suppliers are allocated across nine tiers of increasing levels of residential water use (R-GPCD) to reach the statewide 25 percent reduction mandate. This approach lessens the disparities in reduction requirements between agencies that have similar levels of water consumption, but fall on different sides of dividing lines between tiers. Suppliers have been assigned a conservation standard that ranges between 8% and 36% based on their R-GPCD for the months of July – September, 2014. These three months reflect the amount of water used for summer outdoor irrigation, which provides the greatest opportunity for conservation savings. Some suppliers may be eligible, under specific conditions, for placement into a lower 4% conservation tier. Water suppliers that reduced their water use prior to the drought will have a lower R-GPCD and thus a lower conservation standard than water suppliers with similar climate and density factors where R-GPCD remains high.

Urban water suppliers (serving more than 3,000 customers or delivering more than 3,000 acre feet of water per year and accounting for more than 90% of urban water use) will be assigned a conservation standard, as shown in the following table:

Tier	R-GPCD Range		# of Suppliers in Range	Conservation Standard
	From	To		
1	reserved		0	4%
2	0	64.9	23	8%
3	65	79.9	24	12%
4	80	94.9	44	16%
5	95	109.9	51	20%
6	110	129.9	48	24%
7	130	169.9	82	28%
8	170	214.9	54	32%
9	215	612.0	85	36%

The Smith family of three learns that their water district must reduce water use by 12 percent. A manufacturing plant uses 20 percent of the water and cannot reduce its use. So, residents are told to reduce their use by 15 percent to meet the overall 12 percent target. The Smith family uses an average of 210 gallons per day (or about 70 gallons per person), 165 gallons for indoor use and 45 gallons for watering their small yard. To meet the 15% reduction requirement they must reduce total water use to about 180 gallons per day. This is equivalent to about 60 gallons per person per day.

The Jones family of four learn that their water district must reduce water use by 32 percent. An oil refinery uses 10 percent of the district's water and cannot reduce its use. Their city also has many small businesses, and a golf course, which can reduce use by more than 10 percent. The residents must now reduce their use by 30 percent to meet the overall 32 percent target. The Jones family uses an average of 1,200 gallons per day (or about 300 gallons per person); 300 gallons for indoor use and 900 gallons outdoors, to irrigate a large yard that includes grass and fruit trees. To cut water use by 30 percent, the Jones' must cut their water use by 360 gallons per day to 840 gallons which is equivalent to 210 gallons per person per day.

Exceptions

The proposed regulation allows water suppliers to request to modify their total water use or be placed into a lower conservation tier under two situations:

1. Urban water suppliers delivering more than 20 percent of their total water production to commercial agriculture may be allowed to modify the amount of water subject to their conservation standard. These suppliers must provide written certification to the Board to be able to subtract the water supplied to commercial agriculture from their total water production for baseline and conservation purposes.
2. Urban water suppliers that have a reserve supply of surface water that could last at least four years may be eligible for placement into lower conservation tier. Only suppliers meeting the eligibility criteria will be considered. These criteria relate to the source(s) of supply, storage capacity, and the number of years that those supplies could last.

Feedback is specifically requested on whether the regulation should allow water suppliers whose supplies include groundwater to apply for inclusion the 4% reserve tier if it can be demonstrated that they have a minimum of 4 years of supply, do not rely upon imported water, and their groundwater supplies recharge naturally.

Commercial, Industrial and Institutional Sector Clarification

There are no specific use reduction targets for commercial, industrial, and institutional users served by urban and all other water suppliers. Water suppliers will decide how to meet their conservation standard through reductions from both residential and non-residential users. Water suppliers are encouraged to look at their commercial, institutional and industrial properties that irrigate outdoor ornamental landscapes with potable water for potential conservation savings.

Conservation Standard For All Other Water Suppliers

Smaller water suppliers (serving fewer than 3,000 connections) will be required to achieve a 25% conservation standard or restrict outdoor irrigation to no more than two days per week. These smaller urban suppliers serve less than 10% of Californians.

End-User Requirements

The new prohibitions in the Executive Order apply to all Californians and will take effect immediately upon approval of the regulation by the Office of Administrative Law. These include:

- Irrigation with potable water of ornamental turf on public street medians is prohibited; and
- Irrigation with potable water outside of newly constructed homes and buildings not in accordance with emergency regulations or other requirements established in the California Building Standards Code is prohibited.

These are in addition to the existing restrictions that prohibit:

- Using potable water to wash sidewalks and driveways;
- Allowing runoff when irrigating with potable water;
- Using hoses with no shutoff nozzles to wash cars;
- Using potable water in decorative water features that do not recirculate the water;
- Irrigating outdoors during and within 48 hours following measureable rainfall; and
- Restaurants from serving water to their customers unless the customer requests it.

Additionally, hotels and motels must offer their guests the option to not have their linens and towels laundered daily, and prominently display this option in each guest room.

It will be very important as these provisions are implemented to ensure that existing trees remain healthy and do not present a public safety hazard. Guidance on the implementation of both prohibitions will be developed.

Self-Supplied CII

Commercial, industrial and institutional properties under Provision 5 of the Executive Order with an independent source of water supply (not served by a water supplier), are required under the proposed emergency regulation to either limit outdoor irrigation to two days per week or achieve a 25% reduction in water use. Often, these properties have large landscapes that would otherwise not be addressed by this regulation.

New Reporting Requirements

Total monthly water production and specific reporting on residential use and enforcement as laid out in the previously adopted emergency regulations will remain in effect. Because the conservation standard applies to total water production, the proposed emergency regulation expands the reporting to include information on water use in the commercial, industrial, and institutional sectors. Small water suppliers with fewer than 3,000 service connections will be required to submit a single report on December 15, 2015 that provides their water production from June-November 2015 and June-November 2013 and the number of days per week outdoor irrigation is allowed.

Commercial, industrial, and institutional facilities with an independent source of supply (they are not served by a water supplier) are not required to submit a report; however they should be prepared to demonstrate their compliance with the two day per week watering restriction or the 25% reduction in water use if requested to do so by the Board.

Compliance Assessment

In many communities around the state, over half (and up to 80 percent) of total residential water use is for outdoor irrigation during the summer months. With summer just around the corner, bringing with it the greatest opportunity for making substantial conservation gains, immediate action is essential. As a result, the Board will begin assessing compliance with the submittal of the June monthly report on July 15, 2015. Beyond June, the Board will track compliance on a cumulative basis. Cumulative tracking means that conservation savings will be added together from one month to the next and compared to the amount of water used during the same months in 2013. This tracking will look like the sample graph below.

Example Comparison of Monthly Savings and Cumulative Savings

	2013 Water Use	2015 Water Use	Monthly savings	Cumulative or Running Savings
June	1000	800	20%	20%
July	1500	1050	30%	26%
August	1200	1020	15%	22%
September	900	825	8%	20%

Two additional tools are included in the proposed emergency regulation to both expedite the investigation of water suppliers not meeting their conservation standard and to require the implementation of actions to correct this situation. A proposed informational order would require water suppliers to respond to request for information or face immediate enforcement. The proposed conservation order can be used to direct specific actions to correct non-compliance. Both of these tools are tailored to the emergency circumstances that the State finds itself in as a result of continuing drought conditions. Violation of an information or conservation order carries a penalty of up to \$500 per day.

The Board will work with water suppliers along the way that are not meeting their targets to implement actions to get them back on track. These actions could include changes to rates and pricing, restrictions on outdoor irrigation, public outreach, rebates and audit programs, leak detection and repair, and other measures. The Board may use its enforcement tools to ensure that water suppliers are on track to meet their conservation standards at any point during the 270 days that the emergency regulation is in effect.

Conclusion

No one knows how the future will unfold. While the state may return to “normal,” or even to above average hydrologic water conditions in 2016, such an outcome is far from certain. If there is a fifth, or even sixth, year of water scarcity the emergency regulation will have contributed to safeguarding the state’s future water supplies, thereby forestalling potentially dramatic economic consequences. An example of the challenge facing the State comes from Australia, which experienced persistent and severe drought across most of its continent between 2002 and 2012. Over the full course of the 10 years of drought, half a percentage point may have been shaved from Australia’s GDP growth rate due to water curtailments, lowered productivity, unemployment and reduced exports. A half-point reduction in GDP growth is significant: if this were to occur in California, cumulative state output would be reduced by close to half a trillion dollars over the same 10-year span of time.

The State Water Board is committed to working with water suppliers around the State on implementation of the emergency regulation to reduce the risk that the State faces if drought conditions do not abate. A workshop to discuss implementation of the emergency regulation will be scheduled for October 2015, and the Board will continue to receive monthly updates and hear public comment as it has been doing since adopting its initial emergency regulation in July 2014.

As Governor Brown said on April 1, 2015, when announcing his fourth Executive Order since the drought began, “All of us in so many different parts of California, doing so many different things, have to now pull together in our own different contexts to do what is required.”

(This fact sheet was last updated on April 28, 2015)

Urban Water Suppliers and Regulatory Framework Tiers to Achieve 25% Use Reduction

Supplier Name	Total Water Production		Total Water Saved (Jun-14 - Feb-15, compared to 2013, gallons)	Percent Saved (Jun-14 - Feb-15, compared to 2013)	Jul-Sep 2014 R- GPCD	Tier	Conservation Standard
	2013 (Jun - Feb)	2014/15 (Jun-14 - Feb-15)					
Westborough Water District	257,568,499	213,776,790	43,791,709	17%	40.6	2	8%

RESOLUTION NO. 49-2015

A RESOLUTION OF THE CITY COUNCIL OF
THE CITY OF PORTERVILLE DECLARING A DROUGHT EMERGENCY
WITHIN THE CITY OF PORTERVILLE

WHEREAS: in response to the ongoing severe drought, the State Water Resources Control Board approved an emergency regulation to ensure water agencies, their customers, and state residents increase water conservation in urban settings or face possible fines or other enforcement; and

WHEREAS: as we enter the fourth year of severe drought, long-term forecasts indicate no relief of the current drought conditions, and suggest a warmer-than-average summer, resulting in increased domestic demand for water; and

WHEREAS: public and private potable water supplies continue to be threatened due to decreasing supplies of groundwater caused by the precipitation deficit and an extended state of groundwater overdraft; and

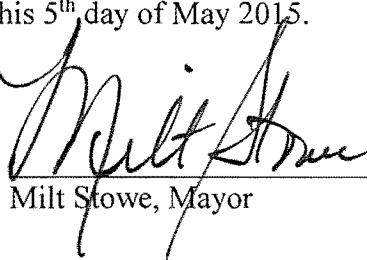

WHEREAS: the long-term ramifications of the current drought will have a significant impact on the city of Porterville and potentially pose a danger to the health and welfare of its residents; and

NOW, THEREFORE, BE IT RESOLVED: that the City Council of the City of Porterville does hereby proclaim that, due to drought conditions, a Local Emergency now exists in the city of Porterville and shall remain in effect for the duration of the emergency; and

BE IT FURTHER RESOLVED: that the City Council of the City of Porterville requests the Governor and California Department of Water Resources make available California Disaster Assistance Act funding for the State of Local Emergency proclaimed on May 5, 2015, and seek all available forms of Federal assistance, to include a Presidential Declaration of Emergency and Individual Assistance and Public Assistance programs as applicable; and

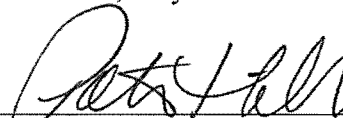

BE IT FURTHER RESOLVED: that a copy of this resolution be forwarded to the State Director of the Office of Emergency Services.

PASSED, APPROVED, AND ADOPTED this 5th day of May 2015.

Milt Stowe, Mayor

ATTEST:

John D. Lollis, City Clerk

By: Patrice Hildreth, Chief Deputy City Clerk

STATE OF CALIFORNIA)
CITY OF PORTERVILLE) SS
COUNTY OF TULARE)

I, JOHN D. LOLLIS, the duly appointed City Clerk of the City of Porterville do hereby certify and declare that the foregoing is a full, true and correct copy of the resolution passed and adopted by the Council of the City of Porterville at regular meeting of the Porterville City Council duly called and held on the 5th day of May, 2015.

THAT said resolution was duly passed, approved, and adopted by the following vote:

Council:	REYES	WARD	STOWE	HAMILTON	GURROLA
AYES:	X	X	X	X	X
NOES:					
ABSTAIN:					
ABSENT:					

JOHN D. LOLLIS, City Clerk

By: Luisa M. Zavala, Deputy City Clerk

Drought Update

Monday, May 11, 2015

CURRENT CONDITIONS

Recent Precipitation: Over the last week, limited portions of the Central Coast, Central Valley and Sierra Nevada range experienced between a quarter-inch to two inches of precipitation.

Below are estimates of precipitation totals (in inches) from May 4 through May 11, and year-to-date rainfall based on the water year cycle (October 1, 2014 to September 30, 2015).

- **Bakersfield:** 0.00" (4.61")
- **Folsom Dam:** 0.20" (29.89")
- **Fresno:** 0.28" (6.13")
- **Hetch Hetchy:** 1.15" (18.87")
- **Los Angeles:** 0.21" (7.67")
- **Modesto:** 0.17" (10.15")
- **Oroville:** 0.00" (25.84")
- **Pacific House:** 0.52" (28.44")
- **Redding:** 0.00" (31.04")
- **Riverside:** 0.18" (4.41")
- **Sacramento:** 0.19" (13.77")
- **San Diego:** 0.51" (7.04")
- **Shasta Dam:** 0.00" (48.92")
- **Willits:** 0.00" (37.92")

Precipitation Forecast: The coming week outlook remains dry for much of the state. Beginning Monday, a weak storm system will move into the North Coast, travelling into northern Nevada, and exiting the region by midweek.

Snow Survey: As of May 11, [automated snow sensors](#) captured the statewide average snowpack conditions at just 1 percent of the average to date. Regionally, the Northern Sierra Nevada is at 1 percent of average, the Central Sierra is at 1 percent of average, and the Southern Sierra Nevada is at 1 percent of average.

Reservoir Levels (% capacity): Since May 1, Central Valley reservoirs from Shasta and Trinity in the North to Isabella in the South had a net loss in storage of 230,611 acre-feet, with total gains being 19,538 acre-feet and total losses being 250,149 acre-feet. Shasta Reservoir decreased by 55,110 acre-feet, while San Luis Reservoir, an off-stream reservoir for the Central Valley Project and State Water Project, decreased its storage by 43,331 acre-feet.

[Reservoir Levels](#) as of May 10 remain low, including: Castaic Lake 32% of capacity (36% of year to date average); Don Pedro 41% of capacity (55% of average); Exchequer 11% of capacity (18% of average); Folsom Lake 58% of capacity (75% of average); Lake Oroville 48% of capacity (58% of average); Lake Perris 39% (47% of average); Millerton Lake 36% of capacity (50% of average); New Melones 20% of capacity (32% of average); Pine Flat 23% of capacity (35% of average); San Luis 59% of capacity (69% of average); Lake Shasta 57% of capacity (66% of average); and Trinity Lake 45% of capacity (54% of average). An update of water levels at [other smaller reservoirs](#) is also available.

Fire Activity: Since the beginning of the year, CAL FIRE has responded to over 1,278 wildfires across the state, burning 5,133 acres in the State Responsibility Area. This fire activity is above the five year average for the same time period with 757 fires and 4,805 acres burned. CAL FIRE will continue to augment resources throughout the state in preparation for the peak fire season.

Open Burn Bans: Burn bans were lifted throughout the State during the winter, while restrictions on burning remained in place in many areas. As the state transitions to the dry season, open burn bans are once again being implemented in certain counties. Recently, [burn bans were instituted](#) in Fresno, King, Monterey, San Benito, Tulare County and Marin County.

Vulnerable Water Systems: The State Water Board [Division of Drinking Water Programs](#) continues to provide technical and funding assistance to several communities facing drinking water shortages, and is monitoring water systems across the state. As of this week, approximately \$14.7 million has been committed for specific emergency drinking water projects out of \$15 million appropriated early last year for this purpose. Additional funds to continue assisting emergency projects have been appropriated by the recent emergency drought legislation announced this past March.

KEY ACTION ITEMS FROM THIS WEEK

- **State Water Board Adopts 25 Percent Mandatory Water Conservation Regulation:** On May 5, the State Water Board [adopted an emergency regulation](#) which requires an immediate [25 percent reduction](#) in overall potable urban water use statewide in accordance with Governor Brown's April 1 Executive Order. A 25 percent savings in potable urban water use amounts to more than 1.2 million acre-feet of water over the next nine months, or nearly as much water as is currently in Lake Oroville.

Since the State Water Board adopted its initial emergency urban conservation regulation in July 2014, voluntary statewide conservation efforts have reached 9 percent overall – well short of the 20 percent Governor Brown called for in 2014.

- **CPUC Orders Water Companies to Implement 25 Percent Conservation Measures in Response to Drought:** On May 7, the California Public Utilities Commission (CPUC) ordered private water suppliers under its jurisdiction to [comply with emergency water use regulations](#) adopted by the State Water Board on May 5. This will help safeguard California's remaining potable urban water supplies in preparation for a possible fifth year of drought.
- **Construction Begins on Emergency Drought Barrier in Delta:** On May 8, the Department of Water Resources announced that the beginning of [construction on the temporary emergency drought barrier](#) on the West False River in the Sacramento-San Joaquin Delta. The barrier will help to block saltwater from flowing into the central Delta and avoid contaminating water supplies for millions of Californians during a fourth consecutive summer of drought.
- **Governor Brown Addresses ACWA Conference:** On May 6, Governor Brown attended the Association of California Water Agency's (ACWA's) Spring Conference and provided remarks. Governor Brown emphasized that state actions in the coming years on water will have lasting implications for generations to come, and cautioned that droughts may become more frequent and longer lasting amidst climate change. He also referenced the importance of improving the reliability of the state's water conveyance system through newly announced [California WaterFix](#).

- **Prop 1 Updates:** Work continues on the implementation of Proposition 1, the Water Quality, Supply, and Infrastructure Improvement Act of 2014, which authorizes \$7.545 billion in general obligation bonds to fund ecosystems and watershed protection and restoration, water supply infrastructure projects, including surface and groundwater storage, and drinking water protection.

For new updates regarding implementation, visit the [Bond Accountability](#) websites or sign up for the [Prop 1 Listserv](#). New items have been added recently to the “featured links” column, including a new [Prop 1 Contact Sheet](#) for each of the bond programs.

- **State Water Board Finalizes New Desalination Facility Standards:** On May 6, the State Water Board approved an amendment to the state’s Water Quality Control Plan for the Ocean Waters of California (Ocean Plan) to address effects associated with the construction and operation of [seawater desalination facilities](#). The amendment sets the criteria for the use of ocean water as a supplement to traditional water supplies while protecting marine life and water quality.
- **CDFW Awards \$21 Million in Grants for Greenhouse Gas Reduction Projects:** On April 30, the California Department of Fish & Wildlife (CDFW) announced the selection of 12 projects that will receive [grant funding to restore wetlands](#) that sequester greenhouse gases (GHGs) and provide other ecological benefits. The grants are CDFW’s first distribution of funds, for California’s cap-and-trade program for combating climate change, and represents additional steps to addressing climate change impacts on the state’s biodiversity.
- **USDA Announces \$235 Million Available for Innovative New Conservation Partnerships:** On May 4, the U.S. Department of Agriculture announced an investment of up to [\\$235 million](#) to improve the nation’s water quality, combat drought, enhance soil health, support wildlife habitat and protect agricultural viability. USDA continues to look for new opportunities to address drought across the West, and this initiative allows local partners the opportunity to design and invest in conservation projects specifically tailored for their communities.

The funding is available to being made available through the [Regional Conservation Partnership Program \(RCPP\)](#), the newest conservation tool of the USDA’s Natural Resources Conservation Service (NRCS).

- **Diverse Coalition Negotiating Historic Venture to Reintroduce Salmon to Sierra:** On May 7, the California Department of Fish & Wildlife (CDFW), in coordination with several agencies and conservation groups, is working to develop the Yuba Salmon Partnership Initiative which will be the [first-ever “collect and transport” program](#) in California to move salmon around dams too tall for fish ladders. The program would return spring-run Chinook salmon and possible steelhead to more than 30 miles of the North Yuba River.

The [Yuba Salmon Partnership Initiative](#) seeks to accomplish a major goal set forth in Governor Brown’s California Water Action Plan. This five-year plan, released in January 2014, spells out actions needed to restore California’s key ecosystems, and bring greater resiliency and reliability to its water resources.

- **Emergency Food Aid, Rental, and Utility Assistance:** The Department of Social Services (CDSS) has provided to date over 633,400 boxes of food to community food banks in drought-impacted counties. Approximately 574,400 boxes of food have been picked up by 302,567 households. By May 15, an additional 10,800 boxes will be delivered to Fresno, Kern, Santa Cruz, Tulare, and Yolo counties.

The non-profit group La Cooperativa continues to distribute the \$10 million state-funded emergency rental assistance to impacted families and individuals across counties most impacted by the drought. As of April 30, the Department of Housing and Community Development (HCD) has reported that a total of \$8,732,469 have been issued to 5,908 applicants in 21 counties, with \$24,531 remaining in assistance funds.

The Department of Community Services and Development (CSD) allocated an additional \$600,000, under the federally-funded Community Services Block Grant (CSBG), to continue the [Drought Water Assistance Program \(DWAP\)](#) pilot project which provides financial assistance to help low-income families pay their water bills. This program targets low-income families in 10 counties identified as experiencing a high unemployment rate, high share of agricultural workers and designated to have “exceptional” drought conditions according to the U.S. Drought Monitor Classification System. As of April 30, CSD has reported that a total of \$28,396 has been issued to 160 households.

CSD is in the process of allocating \$400,000, under CSBG, to continue the Migrant and Seasonal Farmworker (MSFW) drought assistance program, which provides assistance in employment training and placement services to individuals impacted by the drought. This program has been provided in coordination with the California Human Development (CHD), Central Valley Opportunity Center (CVOC), and Center for Employment Training (CET) and Proteus, which provides employment training and placement services to migrant and seasonal farmworkers suffering job loss or reduced employment due to the drought. CSD is finalizing contract terms with these organizations and anticipates services to begin June 1, 2015.

- **California’s Water Conservation Education Program Campaign:** The Save Our Water public education campaign launched a second phase of “Keep Saving CA” radio ads that include a series of endorsement spots read by local on-air talent expressing the benefits of a “shower song” that lasts five minutes or less. These ads will run through the end of the month. This week’s Association of California Water Agencies conference in Sacramento featured Save Our Water prominently, with more local water districts recruited to join the Keep Saving CA campaign. Thus far more than 15 agencies have committed financially to the campaign in their area.

The Keep Saving CA campaign pats Californians on the back for their efforts thus far to save water – and urges them to conserve even more. It will run through the end of June and includes billboards, outdoor media, traditional and digital radio, digital and social media, and on-the-street efforts that will be seen and heard throughout the state. The campaign includes a robust new website loaded with easy-to-use water-saving tips at saveourwater.com. Save Our Water connects with Californians on its [Facebook](#) page, [Twitter](#) and [Instagram](#) accounts.

- **Drought Response Funding:** The \$687 million in state drought funding that was appropriated last March through emergency legislation, as well as \$142 million provided in the 2014 Budget Act, continues to advance toward meeting critical needs. To date, \$468 million has been committed, and nearly \$625 million of the emergency funds appropriated in March came from sources dedicated to capital improvements to water systems. Since March, the Department of Water Resources has expedited grant approvals, getting \$21 million immediately allocated to grantees that were pre-approved for certain projects.

As planned in March, the next \$200 million of expedited capital funding was awarded in October, and the remaining \$250 million will be granted by fall 2015. The 2014 Budget Act appropriated an additional \$53.8 million to CAL FIRE over its typical budget to enhance firefighter surge capacity and retain seasonal firefighters beyond the typical fire season. As a result of continuing drought conditions, emergency legislation was enacted in March that appropriated over \$1 billion of additional funds for drought-related projects and activities.

- **Governor's Drought Task Force:** The Task Force continues to take actions that conserve water and coordinate state response to the drought.

Local Government

- **Local Emergency Proclamations:** A total of 56 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:
 - **26 Counties:** El Dorado, Fresno, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
 - **10 Cities:** City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), and City of West Sacramento (Yolo County), and City of Willits (Mendocino County).
 - **9 Tribes:** Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
 - **12 Special Districts:** Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

- **Water Agency Conservation Efforts:** The Association of California Water Agencies (AWCA) [has identified](#) several hundred local water agencies that have implemented water conservation actions. These water agencies [are responding to the drought](#) by implementing conservation programs, which include voluntary calls for reduced water usage and mandatory restrictions where water shortages are worst.
- **County Drought Taskforces:** A total of 31 counties have established drought task forces to coordinate local drought response. These counties include: Butte, Glenn, Humboldt, Imperial, Kern, Kings, Lake, Madera, Mendocino, Merced, Modoc, Monterey, Napa, Nevada, Orange, Placer, Plumas, Sacramento, San Francisco, San Joaquin, San Luis Obispo, San Mateo, Santa Barbara, Santa Clara, Siskiyou, Stanislaus, Sutter, Tehama, Tulare, Tuolumne, and Yolo.
- **Tribal Taskforce:** A total of 4 tribes have established drought task forces to coordinate tribal drought response. These tribes include: Hoopa Valley Tribe (Humboldt County), Kashia Band of Pomo Indians (Sonoma County), Sherwood Valley Tribe (Mendocino County), and Yurok Tribe (Humboldt and Del Norte County).
