## Introductory Section

Maria Bemis Finance Director (559) 782-7435

291 North Main Street Porterville, CA 93257

December 31, 2009

Honorable Mayor and City Council John Lollis, City Manager City of Porterville, California

The comprehensive annual financial report of the City of Porterville for the year ended June 30, 2009, is hereby submitted in accordance with Sections 24 and 59 of the City Charter. These ordinances require that the City issue annually a report on its financial position and activity, and that an independent firm of certified public accountants audit this report.

Management assumes full responsibility for the completeness and reliability of the information presented in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Pressley and Associates, Inc., a firm of licensed certified public accountants, have issued an unqualified ("clean") opinion on the City of Porterville's financial statements for the fiscal year ended June 30, 2009. The independent auditor's report is located at the front of the financial section of this report.

The independent audit of the financial statements of the City of Porterville was part of the broader, federally-mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the City of Porterville's separately issued Single Audit Report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complement this letter of transmittal and should be read in conjunction with it.

#### Profile of the Government

The City of Porterville, incorporated on May 7, 1902, is located in the southeastern portion of California's San Joaquin Valley, the most diverse agricultural area in the world. The City currently occupies a land area of 16 square miles and serves a population of 52,056. Porterville is empowered to levy property taxes within its boundaries in accordance with Article XIIIA of the California Constitution (Proposition 13), which limits ad valorem taxes on real property to 1.0 percent of value plus taxes necessary to pay indebtedness approved by voters prior to July 1, 1978. The County of Tulare is responsible for the assessment, collection and apportionment of property taxes. Porterville is also empowered to extend its corporate limits by annexation, which occurs periodically when deemed appropriate by the governing council.

The City of Porterville has operated under the council-manager form of government since 1927. Policy-making and legislative authority are vested in a governing council (Council) consisting of the mayor and four other members. The Council is elected on a non-partisan basis. Council members serve four-year staggered terms, with three members elected during one election and two during the next. The Council is responsible, among other things, for passing ordinances, adopting the budget, appointing committees, and hiring both Porterville's manager and attorney. The city manager is responsible for carrying out the policies and ordinances of the Council, overseeing the day-to-day operations of the city, and for appointing the heads of the various departments.

The City of Porterville provides a full range of services through its general fund, including general administration and finance; police and fire protection; public works (engineering, building inspection, streets, roads and other infrastructure construction and maintenance); planning, zoning, and economic development; and parks maintenance, library, and adult and youth recreational activities. Transit, water, sewer, and solid waste disposal services are provided through enterprise funds, as are airport, golf course, and the Pearl Zalud Estate museum operations.

The annual budget serves as the foundation for the City of Porterville's financial planning and control. All departments of the City are required to submit requests for appropriations to the City Manager who uses these requests as the starting point for developing a proposed budget. The City Manager presents this proposed budget to the council for review prior to June 1. The council is required to hold public hearings on the proposed budget and to adopt a final budget by no later than June 30, the close of the City's fiscal year. The appropriated budget is prepared by fund, by department (e.g., public works) and by function (e.g., streets maintenance). The City Manager is authorized to transfer budgeted amounts between departments within the general fund. Department heads may make transfers of appropriations within a department.

Under Article XIIIB of the California Constitution (the Gann Spending Limitation Initiative), the City is restricted as to the amount of annual appropriations from the proceeds of taxes. If appropriations from proceeds of taxes exceed allowed appropriations, the excess must either be refunded to the State Controller or returned to the taxpayers through revised tax rates, revised fee schedules or other refund arrangements.

Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. These statements for major funds can be found in the Required Supplementary Information section. Nonmajor funds budgetary information is located in the Supplemental Statements category.

#### Local economy

The City of Porterville's economy is a thriving mixture of agri-business, light industry and commercial enterprise. Local factories produce products such as electronic medical instruments, printed forms and specialty documents, food products, carpet yarn, machine products, aircraft parts, and lumber. Several public facilities are also located here including the Porterville Developmental Center, Sequoia National Forest Headquarters, the Army Corps of Engineers Lake Success Facility, and the Porterville College campus of the Kern Community College District.

During the year, the City experienced an 11 percent decline in sales tax revenues, from \$6,881,840 in FY2007-2008 to \$6,147,526 in FY2008-2009. It is the same decline that every geographic region of California continues to experience. Continued high unemployment, consumer uncertainty and housing problems factor into the sales decline statewide.

In June 2009, the City's unemployment rate was 13.5 percent, the highest it has been in 10 years. The elevated unemployment is a key factor in the lower level of spending. Over the last year, a new approach to purchases has emerged with consumers spending on current needs rather than wants and avoiding unnecessary purchases. This new lower level of consumer spending is not expected to change in the near future.

The City continues its effort to promote commercial and industrial development. The City coordinates business attraction and recruitment efforts with the Tulare County Economic Development Corporation and is a member of Team California, a statewide organization providing assistance to companies and site selection professionals with business location and expansion needs. A new economic development website was launched to provide on-line information to businesses looking to locate or expand in Porterville. To assist in the attraction of new retail, the City engaged the Buxton Company to conduct a retail assessment to identify sales potential and leakage for the community.

As a result of the City's revitalization efforts, Kohl's Department Stores, Inc. is expected to open a new store in October 2010 that would employ 61 full-time equivalent positions. The reopening of Target, relocation of Sears, and the opening of Vallarta Market and CVS Pharmacy all point to the revitalization of retail in the community.

The opening of the new Southern California Edison service center has been postponed for another 18 months. However, the contractor's yard is expanding and increasing the number of their current workforce.

The construction of the Compressed Natural Gas (CNG) Fueling Facility was completed this year. This facility will not only fuel the City's new CNG transit buses and future CNG refuse trucks but is also available for the fueling of private vehicles. CNG is a cleaner burning and more economical alternative to fossil fuels and the City encourages the use of this new "green" alternative fuel.

With the continual deficit experienced by the State, a new law was passed by the State Legislature and signed by the Governor for the 2009-2010 budget year, whereby the State will borrow 8 percent of the amount of property tax revenue apportioned to cities, counties and special districts with repayment by June 2013. For the City of Porterville, this amounts to \$591,689. In order to mitigate the impact of the property tax withholding, the City participated in the Proposition 1A Securitization Program sponsored by the California Statewide Communities Development Authority. The securitization program will provide immediate cash relief to the City with 100 percent of its property tax receivable.

The new State budget trailer bill also authorized the taking of local redevelopment funds. For the City of Porterville, this amounts to \$373,167 for the fiscal year 2009-2010 and another \$80,000 in fiscal year 2010-2011. The City has joined the California Redevelopment Association's lawsuit challenging the constitutionality of the bill and is hopeful that the court will rule before May 2010.

#### Long-term financial planning

The City is currently looking into the adoption of a Reserve Ordinance, within in which funds would be allocated to establish reserve accounts for capital asset maintenance and replacement, infrastructure maintenance and replacement, and emergency reserve. An annual allocation to these reserve funds would be considered in the budgetary process.

In July 2009, the City entered into an Enterprise Fund Installment Sale Agreement with the California Infrastructure and Economic Development Bank in the amount of \$6,757,000 with a term

of 30 years. The proceeds of the loan will finance the water system capital improvements project including the construction of new water storage tanks and booster pump station and well development projects. These infrastructure improvements are necessary to keep pace with the population growth.

The City has entered into a consulting services agreement with Page+Moris to conduct an analysis of current library services and facilities, and build upon the information in preparing a Needs Assessment Report for the year 2020 and beyond. The report would seek to address both potential uses and size of a proposed new City public library.

#### Cash management policies and practices

Cash temporarily idle during the year was invested in certificates of deposit, obligations of the U.S. Government agencies, the State Treasurer's local agency investment pool (LAIF) and other investment pools. The maturities of the investments range from 1 day to 5 years, with a weighted average maturity of 481 days. The average yield on investments was 2.689 percent. Investment income includes depreciation in the fair value of investments. Decreases in fair value during the current year, however, do not necessarily represent trends that will continue; nor is it always possible to realize such amounts, especially in the case of temporary changes in the fair value of investments that the government intends to hold to maturity.

#### Major initiatives

Considered a "Century Project" for the City, the new Superior Court to be located at the Fairgrounds site remains on track to start construction in 2010. This new courthouse project will become the South Justice Center of the county and will serve both limited and unlimited jurisdiction cases. In support of the new courthouse development, the City has completed topographies for the water main and storm drain improvements for Olive Avenue and will continue to assist the State in facilitating the development and construction of the courthouse. The Fair will relocate from its current location on Olive Avenue to the Municipal Airport property on Tea Pot Dome Avenue. The City is working diligently with the Fair Board representatives in the development of the new site in anticipation of its opening in the fall of 2010.

During the year, the City refinanced its 2002 Tax Allocation Refunding Bonds to help provide resources for the Porterville Hotel project. The project will include demolition of a long vacant and blighted building at the southerly entrance to the downtown area. The bond funds were also used to purchase property for the replacement of affordable housing units that would be lost in the demolition of the building. The City is working with the State and the current property owner to resolve the financing complexities involved and anticipates that a formal resolution would be achieved in the spring of 2010 with the demolition to follow shortly thereafter.

Another major initiative is the new Public Safety Station project. A site has been selected and property negotiation is in progress. The City has submitted an application for approximately \$1.5 million in Federal stimulus grant funding to assist in the construction of a new facility. It is anticipated that construction will begin in 2011, with the facility being operational in 2012.

Another significant project that the City will undertake is the rehabilitation of Runway 12-30. The Federal Aviation Administration has communicated with the City that grant funds amounting to \$2,185,000 is available to the City for the project. The runway improvements will assure support for the heavy aircraft tankers that utilize the runways during fire season.

#### Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Porterville for its comprehensive annual financial report for the fiscal year ended June 30, 2008. This was the nineteenth consecutive year that the city has received this prestigious award. In order to be awarded a Certificate of Achievement, the government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the finance department. We would like to express our appreciation to all members of the department who assisted and contributed to the preparation of the report. Credit also must be given to the mayor and governing council for their unfailing support for maintaining the highest standards of professionalism in the management of the City of Porterville finances.

Respectfully submitted,

Maria Bernix

Maria Bemis

Finance Director

ACCOUNTANCY CORPORATION

#### INDEPENDENT AUDITOR'S REPORT

To the City Council Porterville, California

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Porterville, California (City), as of and for the year ended June 30, 2009, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of City's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Porterville, California, as of June 30, 2009, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Governmental Auditing Standards*, we have also issued our report dated December 28, 2009, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Governmental Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis and budgetary comparison information, as listed in the accompanying table of contents, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

To the City Council Porterville, California Page 2 of 2

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, budgetary comparison schedules and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements and the budgetary comparison schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

#### Management's Discussion and Analysis

As management of the City of Porterville, we offer readers of the City of Porterville's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2009. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 1 - 5 of this report. All amounts, unless otherwise indicated, are expressed in dollars.

#### **Financial Highlights**

- The assets of the City of Porterville exceeded its liabilities at the close of the most recent fiscal year by \$443,039,842. Of this amount, \$35,798,798 (unrestricted net assets) is available to be used to meet Porterville's ongoing obligations to citizens and creditors.
- The City's total net assets increased by \$ 6,742,733. This is primarily due to the infusion of resources from one-time grants.
- As of June 30, 2009, the City's governmental funds reported combined ending fund balances of \$36,842,018, an increase of \$4,100,923 in comparison with the prior year. Of this total, 72 percent is available for spending at the City's discretion (unreserved fund balance).
- At June 30, 2009, unreserved fund balance for the general fund was \$17,258,432, or 85 percent of total general fund expenditures.
- The City advance refunded its 2002 Tax Allocation Refunding Bonds which resulted in an increase in bonded debt of \$3,570,000. The 2008 Tax Allocation Refunding Bonds were issued for \$8,475,000 in taxable and non-taxable bonds and the outstanding balance of \$4,905,000 of the 2002 Revenue Bonds were considered to be defeased and the liability removed from the City's financial statements.

#### Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the City of Porterville's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements.** The *government-wide financial statements* are designed to provide readers with a broad overview of the City of Porterville's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the City's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or

decreases in net assets may serve as a useful indicator of whether the financial position of the City of Porterville is improving or deteriorating.

The *statement of activities* presents information showing how the City's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City of Porterville that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, planning and economic development, public works, and parks and recreation. The business-type activities of the City include the Zalud Estate, Public Transit, Sewer, Solid Waste, Airport, Golf, and Water operations.

The government-wide financial statements can be found on pages 23 - 24 of this report.

**Fund financial statements.** A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Porterville, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City of Porterville maintains seventeen individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Community Development Block Grant Special Revenue Fund, and Capital Projects Fund, all of which are considered to be major funds. Data from the other fourteen

governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining* and individual statements elsewhere in this report.

The basic governmental fund financial statements can be found on pages 26 - 29 of this report.

**Proprietary funds.** The City of Porterville maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for the Zalud Estate, Public Transit, Sewer, Solid Waste, Airport, Golf and Water operations. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds to account for equipment maintenance and risk management. Because both of these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Sewer, Water and Solid Waste operations, all of which are considered to be major funds of the City. The remaining enterprise funds are combined into a single, aggregated presentation in the proprietary fund financial statements, as well as both internal service funds. Individual fund data for each of these nonmajor enterprise funds and the internal service funds is provided in the form of *combining statements* elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 31 - 33 of this report.

*Fiduciary funds.* Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support the City of Porterville's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statement can be found on page 35 of this report.

**Notes to the financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 37 - 59 of this report.

**Other information.** In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the City of Porterville's progress in funding its obligation to provide pension benefits to its employees.

The City adopts an annual appropriated budget for all governmental funds. Budgetary comparison schedules for the General Fund and major special revenue fund have been provided to demonstrate compliance with these budgets.

Required supplementary information can be found on pages 61 - 64 of this report.

The combining and individual statements referred to earlier in connection with nonmajor governmental funds, nonmajor proprietary funds, internal service funds, and fiduciary fund are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found on pages 68 - 95 of this report.

#### Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the City of Porterville, assets exceeded liabilities by \$443,039,842 at June 30, 2009.

By far, the largest portion of the City's net assets (88 percent) reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets that are still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the City of Porterville's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City of Porterville's net assets (3.75 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net assets* (\$35,798,798) may be used to meet the City's ongoing obligation to citizens and creditors.

At June 30, 2009, the City of Porterville is able to report positive balances in all three categories of net assets, both for the government as a whole, as well as for its separate governmental and business-type activities.

The City's net assets increased by \$6,742,733 compared to the prior year, primarily from the infusion of resources from one-time grants. This increase is 44 percent lower than the increase in prior year. Revenues are down but still outstripped increases in ongoing expenses.

**Governmental activities.** Governmental activities increased the City of Porterville's net assets by \$5,305,768, thereby accounting for 79 percent of the total growth in the net assets of the City of Porterville. Key elements of this increase are as follows:

- Capital grants increased the City's net assets by \$2,477,171 during the year.
   The grant awards furnished resources for the construction of a new Compressed Natural Gas fueling facility, curb, gutter and sidewalk within core areas of the City, and a new traffic signal.
- Operating grants of \$2,012,531 contributed to the increase in net assets. A
  majority of the grant awards provided resources for the activities of the
  Community Development Block Grant Fund. Grants were also awarded to
  support the functions of public safety and the parks and leisure services.
- Local transportation funds and Measure-R sales tax from the County increased by \$608,166 providing additional resources for street projects.

Total expenses in governmental activities increased by \$1,021,050, which represents a 3 percent increase from the prior year. Expenses in the public safety function increased by 8 percent, due primarily to salary and related benefits for new employees. In the public works department, expenses grew by 13 percent which reflects the additional cost of ongoing projects. Interest on long-term debt increased by \$162,570 or 9 percent compared to the prior year. This is due to the refunding of tax allocation bonds.

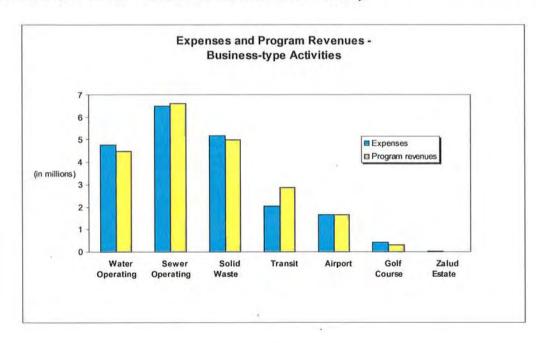

#### Expenses and Program Revenues -Governmental Activities

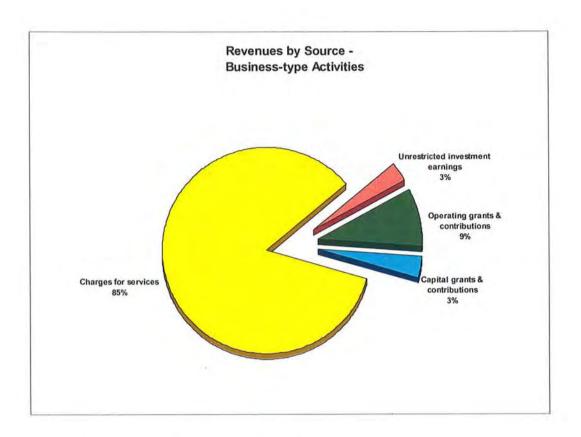

**Business-type activities.** Business-type activities increased the City of Porterville's net assets by \$1,436,965, accounting for 21 percent of the total growth in the net assets of the City of Porterville.

Overall revenues for business-type activities decreased by 14 percent from prior year. Although this is the case, revenues still surpassed total expenses for the year. Operating grants and contribution increased by \$641,569 mainly from the increase in Local Transportation funds and State Transit Assistance funds received during the year. The City also recognized grant award of \$527,941 from the Federal Transit Administration for the construction of the Transit Bus Maintenance Facility.

#### Financial Analysis of the Government's Fund

As noted earlier, the City of Porterville uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds.** The focus of the City of Porterville's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the City's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of June 30, 2009, the City of Porterville's governmental funds reported combined ending fund balances of \$36,842,018, an increase of \$4,100,923 in comparison with the prior year. Of this total amount, \$26,595,758 (72 percent) constitutes *unreserved fund balance*, which is available for spending at the City's discretion. The remainder of fund balance is *reserved* to indicate that it is not available for new spending because it has already been committed (1) to pay debt service, \$2,721,872, (2) for use on capital projects by bond covenants, \$4,907,297, or (3) for a variety of other restricted purposes, \$2,617,091.

The general fund is the chief operating fund of the City of Porterville. At the end of June 30, 2009, unreserved fund balance of the general fund was \$17,258,432, while total fund balance reached \$18,774,782. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund

expenditures. Unreserved fund balance represents 85 percent of total general fund expenditures, while total fund balance represents 93 percent of that same amount.

The fund balance of the City of Porterville's general fund increased by \$788,970 during the current fiscal year primarily due to ongoing revenues outstripping increases in expenditures.

The community development block grant fund has a total fund balance of \$273,710, all of which is reserved for capital projects and for housing projects for low and moderate income families. This is a decrease of \$354,149 generally due to the timing of funding.

The capital projects fund has a total fund balance of \$2,796,712 that is all reserved to finance various capital improvement projects. This balance represents the funds available from the issue of the 2005 Infrastructure Financing Project Certificates of Participation.

**Proprietary funds.** The City of Porterville's proprietary funds provide the same type of information fund in the government-wide financial statements, but in more detail.

Unrestricted net assets of the Sewer Operations fund at June 30, 2009, amounted to \$11,216,751, an increase of \$205,785 in comparison with the prior year. In the Water Operations fund, unrestricted net assets totaled \$4,635,943, an increase of \$239,592. And in the Solid Waste fund, unrestricted net assets decreased by \$298,853 from last fiscal year amounting to \$2,264,995.

#### **General Fund Budgetary Highlights**

During the year, there was an increase of \$547,426 in appropriations between the original budget and the final amended budget. The main components of these changes are as follows:

\$50,000 appropriation was approved by the City Council in support of the Tulare County Workforce Investment Board 'Youth@Work' Community Improvement Projects Program.

\$40,000 supplemental appropriation in the Parks and Leisure Services Department to increase salaries for the YES program to meet the service level of 75 percent mandated by the State of California.

 \$268,425 re-appropriation of funds for ongoing projects in the public safety, community and economic development, public works, and parks and leisure functions of the City.

Variances between the final amended budget and actual expenditures are mainly due to several vacant positions in the Police and Fire departments and also in the Public Works and Parks and Leisure departments.

During the year, the City experienced a modest shortfall of \$105,058 in revenues compared to budgetary estimates. A major factor in the shortfall is the sales tax revenue which came in short of what was anticipated for the year by \$271,157.

#### Capital Asset and Debt Administration

**Capital assets.** The City of Porterville's investment in capital assets for its governmental and business-type activities as of June 30, 2009, amounts to \$439,707,563 (net of accumulated depreciation). This investment in capital assets includes land, distribution and collection systems, buildings, improvements, machinery and equipment, works of art and historical collections, park facilities, roads, highways and bridges. The total increase in Porterville's investment in capital assets for the current fiscal year was \$5,387,983.

Major capital asset events during the current fiscal year included the following:

- Purchase of land for a new animal shelter and dog park. Total purchase price was \$301,285.
- Completion of the West Street Industrial Park construction project, including the addition of water, sewer and storm drain systems at a total cost of \$2,067,320.
- Construction of curb, gutter and sidewalk in core areas of the City. Total cost of the project was \$995,436.
- Completion of the Heritage Ballfields project for \$908,706.
- The construction of a new water well was completed during the year at a cost of \$1,042,631.
- The grit system towers and bar screen in the Waste Water Treatment Plant were upgraded at a cost of \$1,002,893.
- Completion of the effluent pipeline and land leveling at the reclamation site project for \$1,036,610.
- Various vehicles and equipments were purchased during the year. The total cost to the City was \$1,425,560.

| Total                         | \$<br>35,383,950 | \$_ | 32,676,751     | \$ | 26,226,943 | \$ | 27,582,010 \$  | 61,610,893 | \$_  | 60,258,761 |

The City's total debt increased by \$1,352,132 during the current fiscal year. Revenue bonds increased by \$3,305,000 due to the advance refunding of the 2002 Tax Allocation Refunding Bonds. The refunding was undertaken to finance redevelopment and low and moderate housing activities within or of benefit to the Redevelopment Agency Project Area and to refinance the old bonds. The 2008 Tax Allocation Refunding Bonds are secured by tax increment revenues. Standard & Poor's Ratings Services ("S&P") has assigned the rating of BBB+ to the 2008 bonds.

Additional information on the City's long-term debt can be found in Note 4-E and Note 4-F on pages 50 - 54 of this report.

#### Economic Factors and Next Year's Budget and Rates

- The unemployment rate for the City of Porterville at the end of the current fiscal year is 13.5 percent which is an increase from a rate of 9 percent a year ago. This compares favorably to the county's rate of 14.7 percent.
- As it is statewide, the City of Porterville sales has declined due to elevated unemployment, consumer uncertainty and housing problems. The forecast for next year remains gloomy.
- The City applied a 0% growth factor for property taxes for fiscal year 2009/2010. Overall, general fund revenues are estimated conservatively without any notable increase. The current economic recession and corresponding decrease in sales tax generation and development activity were considered in defining the revenue estimates.
- The budget for the Water Operations includes the Eastside Water Improvement Projects. In July 2009, the City secured a loan from the California Infrastructure and Economic Development Bank to fund these projects.
- A one-time appropriation of American Recovery & Reinvestment Act (ARRA) funds are included in next year's budget. The City is expecting \$1.3 million from the Federal Transit Administration for the purchase of three additional CNG transit buses and the upgrade to the City Shop necessitated by the City's conversion to CNG vehicles. The City also expects to receive \$320,000 to support the Olive Avenue reconstruction project.

At the end of the 2008/09 fiscal year, the unreserved fund balance in the general fund has a balance of \$17,258,432. The City of Porterville has appropriated \$645,000 of this amount for spending in the 2009/10 fiscal year for operating and capital assistance including the communications tower upgrade and P-25 license compliance which includes the repair and replacement of guide lines on the repeater site, the construction of a parking lot and resurfacing of the drillgrounds at Fire Station #2, the installation of misters at Murry Park and Zalud Park and to provide resources to support the 2010 census.

#### Requests for Information

This financial report is designed to provide a general overview of the City of Porterville's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Division, City of Porterville, 291 North Main Street, Porterville, CA 93257-3737.

The notes to the financial statements are an integral part of this statement.

#### MAJOR GOVERNMENTAL FUNDS

#### GENERAL FUND

The original Charter of the City established the General Fund. Activities financed from this fund include general government, financial services, police protection, street and storm drain maintenance, planning, engineering, building regulation, community promotion, fire, parks and recreation, and library services. The sales and use tax, property tax, utility users tax, motor vehicle in-lieu tax, and traffic fines are the major revenue sources for this fund.

#### SPECIAL REVENUE FUND

Special Revenue Funds are used to account for revenues derived from specific taxes or other earmarked revenue sources. These funds are required by statute, charter provisions, or local ordinance to finance particular activities of the City of Porterville.

#### Community Development Block Grant Fund

This fund was created to account for all financial transactions having to do with the Community Development Block Grant Program and First-time Homebuyers Program of the Federal Department of Housing and Urban Development. The programs are used for low-interest housing rehabilitation and mortgage assistance loans.

#### CAPITAL PROJECTS FUND

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital projects not being financed by proprietary funds.

#### **General Government Fund**

This fund was created to account for all resources used in the acquisition or construction of capital facilities and operating capital outlays by the City of Porterville.

# City of Porterville Reconciliation of the Balance Sheet of Governmental Funds to the Statement of Net Assets June 30, 2009

| Fund balances of governmental funds   | \$   | 36,842,018   |
|---|------|--------------|
| Amounts reported for governmental activities in the statement of net assets are different because:  |      |              |
| Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.   |      | 373,460,090  |
| Internal service funds are used by management to charge the costs of risk management and equipment management to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net assets. |      | 6,278,009    |
| Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.  |      | (35,128,633) |
| Net assets of governmental activities   | \$ = | 381,451,484  |

# Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Fiscal Year Ended June 30, 2009

| Net change in fund balancestotal governmental funds  | \$<br>4,100,923 |
|--|-----------------|
| Amounts reported for governmental activities in the statement of activities are different because:   |                 |
| Capital outlays are reported as expenditures in governmental funds. However in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.  | 4,317,576       |
| The net effect of various miscellaneous transactions involving capital assets is to decrease net assets.   | (16,978)        |
| The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. | (2,116,807)     |
| Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.  | (115,346)       |
| Internal service funds are used by management to charge the costs of risk management and equipment management to individual funds. The net revenue of the internal service funds is reported with governmental activities.   | (863,600)       |
| Change in net assets of governmental activities  | \$<br>5,305,768 |

The notes to the financial statements are an integral part of this statement.

#### MAJOR PROPRIETARY FUNDS

Proprietary Funds are used to account for operations that provide goods or services to the general public on a continuing basis and are financed primarily through user charges.

#### **Sewer Operating Fund**

Three funds have been established to account for sewer-related endeavors and are combined for reporting purposes. The Sewer Operating Fund is used to account for the activities associated with operating the sewer collection system. The Sewer Revolving Fund is used to account for the collection system acreage fees and the use of those resources. The Wastewater Treatment Plant Capital Reserve Fund is used to account for the treatment plant acreage fees and the use of those resources.

#### Solid Waste Fund

This fund was established to account for the activities associated with refuse collections and recycling.

#### Water Operating Fund

Two funds have been established to account for water-related endeavors and are combined for reporting purposes. The Water Operating Fund was established to account for the activities associated with the City's water pumping and distribution system. The principal source of revenue is water sales. The Water Replacement Fund is used to account for the water acreage fees and the use of those resources.

#### AGENCY FUNDS

Agency funds are purely custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. Agency Funds are used to account for assets held by the City as an agent for individuals, private organizations, other governmental units and/or other funds.

#### **Special Deposits Fund**

This fund was established to account for monies received by the City acting as an agent. Examples of these transactions are construction bonds, utility service deposits and asset seizure.

### Notes To Financial Statements

#### CITY OF PORTERVILLE Notes to the Financial Statements June 30, 2009

#### NOTE 1 - Summary of significant accounting policies

#### A. Reporting entity

The City of Porterville is a municipal corporation governed by a five-member council, one of which is appointed mayor. The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. These component units, although legally separate entities, are, in substance, part of the government's operation. As such, their operations are "blended" with the City's.

Blended component units. The Porterville Redevelopment Agency was established in March of 1981 pursuant to the California Community Redevelopment Laws contained in Section 33000 Et. Seq. of Division 24 of the Health and Safety Code. The primary purpose of the Agency is to revitalize targeted areas of blight and deterioration within the city limits so as to eliminate or mitigate existing and potential physical, social, and economic liabilities in the interest of the health, safety, and welfare of all its citizens. A board consisting of the City's elected council governs the Agency.

The Porterville Public Improvement Corporation is a nonprofit public benefit company incorporated on September 1, 1988, and is organized under the Nonprofit Public Benefit Corporation Law for the purpose of financing certain public building, sewer and water capital projects. The Corporation's board is comprised of the City's council members.

Complete financial statements for each of the individual component units may be obtained from the City of Porterville Finance Department, 291 North Main Street, Porterville, CA 93257-3737.

#### B. Government-wide and fund financial statements

The government-wide financial statements (e.g., the statement of net assets and the statement of changes in net assets) report information on all of the non-fiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include:

- charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges
  provided by a given function or segment; and
- grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.

Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

#### C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as well as the proprietary fund financial statements. The agency funds financial statements report only assets and liabilities and have no measurement focus but use the accrual basis of

accounting to recognize receivables and payables. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when the government receives cash.

The City reports the following major governmental funds:

The general fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The community development block grant fund accounts for all financial transactions having to do with the Community Development Block Grant Program and First-time Homebuyers Program of the Federal Department of Housing and Urban Development for low-interest housing rehabilitation and mortgage assistance loans.

The general government capital projects fund is used to account for financial resources to be used for the acquisition or construction of major capital projects not being financed by proprietary funds.

The City reports the following major proprietary funds:

The sewer operations fund accounts for the activities of the sewage pumping stations, treatment plant, and laboratory.

The water operations fund accounts for the activities of the water distribution system.

The solid waste fund accounts for the activities of the refuse collection, recycling, and graffiti abatement programs.

Additionally, the government reports the following fund types:

Internal service funds account for fleet management services provided to other departments or agencies of the government, or to other governments, on a cost reimbursement basis, and risk management services related to self-insurance.

The agency fund is used to account for refundable deposits collected for public works projects, utilities, asset forfeiture and school impact fees.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. The exceptions to this general rule are the fleet management and the risk management charges to the enterprise funds. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include:

- 1) charges to customers or applicants for goods, services, or privileges provided;
- 2) operating grants and contributions; and
- 3) capital grants and contributions, including special assessments.

Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise and internal service funds are charges to customers for sales and services. The City also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City of Porterville's policy to use restricted resources first, and then unrestricted resources, as they are needed.

#### D. Assets, liabilities, and net assets or equity

#### 1. Deposits and investments

Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Under the provisions of the City's investment policy and California Government Code Section 53601, the City Treasurer is authorized to invest in negotiable certificates of deposit, obligations of the U.S. Treasury, banker's acceptances, certain federal agency obligations, commercial paper, guaranteed investment contracts (GIC), and the California Local Agency Investment Fund (LAIF). The policy does not permit investment in Repurchase Agreements, or borrow funds through the use of Reverse-Repurchase Agreements. The collateral underlying investments must be "delivered" to the city. If U.S. Treasury Bills are used as the underlying collateral, delivery may be made by book entry only. For all other collateral, the security must be physically delivered either to the city or to a third-party custodial agent. All investments are reported at fair value.

California banks and savings and loan associations are required to secure a city's deposits by pledging government securities as collateral. The fair value of the pledged securities must equal at least 110 percent of a city's deposits. The City Treasurer, at his or her discretion, may waive the 110 percent collateral requirement for deposits that are insured up to the \$100,000 by the FDIC. It is the City's policy to waive the collateral requirement in order to receive a higher interest yield on its deposits. It is also the City's policy not to deposit more than \$100,000 in a savings and loan association or a small bank.

California law allows financial institutions to secure city deposits by pledging first trust deed mortgage notes having a value of 150 percent of a city's total deposits. It is the City of Porterville's policy not to accept this form of collateral.

#### 2. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "interfund receivables/payables" (e.g., the current portion of interfund loans) or "advances receivable/payable" (e.g., the non-current portion of interfund loans). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable, available financial resources.

All trade receivables are shown net of an allowance for uncollectible accounts. The allowance is equal to 3 percent of outstanding amounts due at June 30, 2009.

#### 3. Inventories and prepaid items

Governmental funds inventories are valued at average cost using the first-in/first-out (FIFO) method and are recorded as expenditures when consumed rather than when purchased. Business-type inventories are stated at cost using the FIFO method, and consist of expendable materials and supplies.

Any payments to vendors that reflect costs applicable to future accounting periods are recorded as prepaid items in both government-wide and fund financial statements.

Fund balance is reserved for inventories and prepaids, if any, to indicate that a portion of fund balance is not available for appropriation and not expendable, available financial resources.

#### 4. Restricted assets

Certain proceeds of debt issued are classified as restricted assets on the balance sheet because they are maintained in separate bank accounts and their use is limited by applicable bond covenants.

#### 5. Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets, other than infrastructure assets, are defined by the City as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. The City reports infrastructure assets on a network and subsystem basis. Accordingly, the amounts spent for the construction or acquisition of infrastructure assets are capitalized and reported in the government-wide financial statements regardless of their amount.

In the case of the initial capitalization of general infrastructure assets (i.e., those reported by governmental activities) the City chose to include all such items regardless of their acquisition date or amount. The City was able to estimate the historical cost for the initial reporting of these assets through backtrending (i.e., estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year. As the City constructs or acquires additional capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spend in relation to capital assets that do not increase the capacity or efficiency of the item or extend its useful life beyond the original estimate. In the case of donations the City values these capital assets at the estimated fair value of the item at the date of its donation.

Property, plant, and equipment of the primary government is depreciated using the straight line method over the following estimated useful lives:

| Assets                       | Years |
|------------------------------|-------|
| Buildings and improvements   | 50    |
| Public domain infrastructure | 50    |
| System infrastructure        | 30    |
| Vehicles                     | 5     |
| Office equipment             | 5     |
| Computer equipment           | 5     |

#### 6. Compensated absences

It is the City of Porterville's policy to permit employees to accumulate earned, but unused, vacation and sick pay benefits. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. No liability for unpaid accumulated sick leave is reported.

#### 7. Long-term obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance cost, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### 8. Fund equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

#### 9. Property taxes

Tulare County is responsible for the assessment, collection and apportionment of property taxes for all taxing jurisdictions. The property tax calendar for the City is as follows:

Lien date January 1

Levy dates

Due dates

Collection dates

July 1 through June 30

November 1 and February 1

December 10 and April 10

Property taxes are accounted for in the General Fund. Property tax revenues are recognized when they become measurable and available to finance current liabilities. Property taxes on the unsecured roll are due on the March 1 lien date and become delinquent if unpaid on August 31.

The City is permitted to levy property taxes in accordance with Article XIIIA of the California Constitution (Proposition 13), which limits ad valorem taxes on real property to 1.0 percent of value plus taxes necessary to pay indebtedness approved by voters prior to July 1, 1978. The Article also established the 1975/76 assessed valuation as the basis and limits annual increases to the cost of living, not to exceed 2.0 percent, for each year thereafter. Property may also be reassessed to full fair value after a sale, transfer of ownership, or completion of new construction. The State is prohibited under the Article from imposing new ad valorem, sales, or transactions taxes on real property. Local government may impose special taxes (except on real property) with the approval of 66.67 percent of the qualified electors.

The City participates in an alternative method of distribution of property tax levies and assessments known as the "Teeter Plan." The State Revenue and Taxation Code allows counties to distribute secured real property, assessment, and supplemental property taxes on an accrual basis resulting in full payment to cities each fiscal year. Any subsequent delinquent payments and related penalties and interest during a fiscal year will revert to Tulare County. The Teeter Plan payment, which includes 95.0 percent of the outstanding accumulated delinquency, is included in property tax revenue. Under the Teeter Plan code, 5.0 percent of the delinquency must remain with the County as a reserve for Teeter Plan funding.

#### 10. Utility Users Tax

The City is permitted by Chapter 22, Article V, of the Porterville Municipal Code to collect a utility users tax on certain types of utility services. The tax imposed is set by City Council resolution and was established at a 6.0 percent tax rate beginning July 1, 1970.

#### 11. Transactions and Use Tax for Public Safety, Police and Fire Protection (Measure H)

On December 6, 2005, the City adopted Ordinance No. 1684 adding Article IIA to Chapter 22 of the Porterville Municipal Code to provide for an additional one-half of one percent transactions and use tax to fund public safety, police and fire protection services and related capital projects. The ordinance was approved by a two-thirds majority of eligible voters at the November 8, 2005 election and became effective on April 1, 2006.

#### NOTE 2 - Reconciliation of government-wide and fund financial statements

## A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets

The governmental fund balance sheet includes a reconciliation between fund balance - total governmental funds and net assets - governmental activities as reported in the government-wide statement of net assets. One element of that reconciliation explains that "Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds." The details of this \$35,128,633 difference are as follows:

| Bonds payable  | \$ | 31,605,000 |
|--|----|------------|
| Less: Deferred charge on refunding (to be amortized as interest expense  |    | (978,399)  |
| Less: Deferred charge for issuance costs (to be amortized  |    |            |
| over life of debt  |    | (883,962)  |
| Less: Issuance discount (to be amortized as interest expense)  |    | (128,739)  |
| Plus: Issuance premium (to be amortized over life of debt)   |    | 189,553    |
| Notes payable  |    | 3,778,950  |
| Accrued interest payable   |    | 642,548    |
| Compensated absences   | 14 | 903,682    |
| Net adjustment to reduce fund balance – total governmental funds to arrive at net assets – governmental activities | \$ | 35,128,633 |
| •  |    |            |

Another element of that reconciliation explains that "Internal service funds are used by management to charge the costs of certain activities to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of assets." The details of this \$6,278,009 difference are as follows:

| Net assets of the internal service funds   | \$ | 6,580,334 |
|--|----|-----------|
| Less: Internal payable representing charges in excess of cost to business-type activities – prior years              |    | (359,575) |
| Add: Internal receivable representing costs in excess of charges to business-type activities – current year          | -  | 57,250    |
| Net adjustment to increase fund balance – total governmental funds to arrive at net assets – governmental activities | \$ | 6,278,009 |

## B. Explanation of certain differences between the governmental funds statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances - total governmental funds* and *changes in net assets of governmental activities* as reported in government-wide statement of activities. One element of that reconciliation explains that "Capital outlays are reported as expenditures in governmental funds. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this \$4,317,576 difference are as follows:

| Capital outlay Depreciation expense  | \$<br>7,288,473<br>(2,970,897) |
|--|--------------------------------|
| Net adjustment to increase net changes in fund balances – total governmental funds to arrive at changes in net assets of governmental activities | \$<br>4,317,576                |

Another element of that reconciliation states that "The issuance of long-term debt provided current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities." The details of this \$2,116,807 difference are as follows:

| Debt issued or incurred:   |                 |
|--|-----------------|
| Note secured by deed of trust  | \$<br>200,000   |
| Issuance of tax allocation refunding bonds   | 8,475,000       |
| Less discount on refunding bonds issued  | (131,931)       |
| Less bond issuance costs   | (360, 360)      |
| Principal repayments:  |                 |
| Certificates of participation  | (640,000)       |
| Tax allocation refunding bonds   | (265,000)       |
| Notes payable  | (157,802)       |
| Payment to refunded bond escrow agent  | (5,003,100)     |
| Net adjustment to decrease net changes in fund balances – total governmental funds to arrive at changes in net assets of |                 |
| governmental activities  | \$<br>2,116,807 |

Another element of that reconciliation states that "Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds." The details of this \$115,346 difference are as follows:

| Compensated absences   | \$ | 30,174   |
|--|----|----------|
| Accrued interest   |    | 8,377    |
| Amortization of deferred charge on refunding   |    | 56,891   |
| Amortization of issuance costs   |    | 28,130   |
| Amortization of bond discounts   |    | 3,192    |
| Amortization of bond premiums  | -  | (11,418) |
| Net adjustment to decrease net changes in fund balances – total governmental funds to arrive at changes in net assets of |    |          |
| governmental activities  | \$ | 115,346  |

Another element of that reconciliation states that "Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenue of the internal service funds is reported with governmental activities." The details of this \$863,600 difference are as follows:

Change in net assets of the internal service funds
Loss from charges to business-type activities

Net adjustment to decrease net changes in fund balances – total governmental funds to arrive at changes in net assets of governmental activities

\$ 920,850
(57,250)

## C. Explanation of certain differences between the proprietary fund statement of net assets and the government-wide statement of net assets

The proprietary fund statement of net assets includes a reconciliation between *net assets* – *total enterprise funds* and *net assets of business-type activities* as reported in the government-wide statement of net assets. The description of the sole element of that reconciliation is "Adjustment to reflect the consolidation of internal service fund activities related to enterprise funds." The details of this \$416,825 difference are as follows:

| Net adjustment to increase net assets – total enterprise funds to arrive at net assets – business-type activities |    | 302,325  |
|---|----|----------|
|   | -  | (01,200) |
| Internal payable representing costs in excess of charges to business-type activities – current year               |    | (57,250) |
| business-type activities – prior year   | \$ | 359,575  |

#### NOTE 3 - Stewardship, compliance, and accountability

#### A. Deficit fund equity

The Redevelopment Agency Capital Projects fund had a deficit fund balance of \$1,346,103 as of June 30, 2009. This is due to the outstanding balance of advances made by the City to the Redevelopment Agency.

#### B. Changes in reporting of beginning fund balances

Due to changes in fund activity, major fund classifications will change from year to year. Beginning fund balances are affected when a prior year-classified major fund does not meet the requirements of a major fund in the current reporting year. For the fiscal year ended June 30, 2009, no changes were made in major fund classifications.

#### NOTE 4 - Detailed notes on all funds

#### A. Cash and investments (GASB 40 - Segmented Time Distribution)

The City of Porterville follows the practice of pooling cash and investments of all funds except for those required to be held by outside fiscal agents under the provisions of bond indentures. Interest income earned on the pooled cash and investments is allocated monthly to the various funds based on monthly cash balances. At year-end, the City's cash bank balance was \$750,533 and cash on hand was \$3,285.

Cash and investments as of June 30, 2009, are classified in the accompanying financial statements as follows:

| Statement of net assets:               |                  |
|--|------------------|
| Cash and investments                   | \$<br>52,722,928 |
| Cash and investments with fiscal agent | 8,150,786        |
| Fiduciary funds:                       |                  |
| Cash and investments                   | <br>1,518,416    |
| Total cash and investments             | \$<br>62,392,130 |

Cash and investments as of June 30, 2009, consist of the following:

| Cash on hand                        | \$ | 3,285      |
|-------------------------------------|----|------------|
| Deposits with financial institution |    | 750,533    |
| Investments                         | -  | 61,638,312 |
| Total cash and investments          | \$ | 62,392,130 |

#### Investments authorized by the California Government Code and the City of Porterville's Investment Policy

The table below identifies the investment types that are authorized for the City of Porterville by the California Government Code and/or the City's investment policy (where more restrictive). The table also identifies certain provisions of the California Government Code and/or the City's investment policy (where more restrictive) that address interest rate risk, credit risk, and concentration of credit risk. This table does not address investments of debt proceeds held by bond trustee that are governed by the provisions of debt agreements of the Entity, rather than the general provisions of the California Government Code or the City's investment policy.

| Authorized investment type                 | Maximum<br>maturity | Maximum<br>percentage<br>of portfolio <sup>1</sup> | Maximum<br>investment<br>in one issuer |
|--|---------------------|--|--|
| Local Agency Bonds                         | 5 years             | None   | None                                   |
| U.S. Treasury Obligations                  | 5 years             | None   | None                                   |
| U.S. Agency Securities                     | 5 years             | None   | None                                   |
| Banker's Acceptances                       | 180 days            | 40%  | 30%                                    |
| Commercial Paper                           | 270 days            | 25%  | 10%                                    |
| Negotiable Certificates of Deposit         | 5 years             | 30%  | None                                   |
| Repurchase Agreements <sup>2</sup>         | N/A                 | None   | None                                   |
| Reverse Repurchase Agreements <sup>2</sup> | N/A                 | None   | None                                   |
| Medium-Term Notes                          | 5 years             | 30%  | None                                   |
| Mutual Funds                               | N/A                 | 20%  | 10%                                    |
| Money Market Mutual Funds                  | N/A                 | 20%  | 10%                                    |
| Mortgage Pass-Through Securities           | 5 years             | 20%  | None                                   |
| County Pooled Investment Funds             | N/A                 | None   | None                                   |
| Local Agency Investment Fund (LAIF)        | N/A                 | None   | None                                   |
| JPA or other Investment Pools              | N/A                 | None   | None                                   |

<sup>1</sup> Excluding amounts held by bond trustee that are not subject to California Government Code restrictions.

#### Investments authorized by debt agreements

Investment of debt proceeds held by bond trustees is governed by provisions of the debt agreements, rather than the general provisions of the California Government Code or the City of Porterville's investment policy. The table below identifies the investment types that are authorized for investments held by bond trustees. The table also identifies certain provisions of these debt agreement that address interest rate risk, credit risk, and concentration of credit risk.

| Authorized investment type | Maximum<br>maturity | Maximum<br>percentage<br>of portfolio | Maximum<br>investment<br>in one issuer |
|----------------------------|---------------------|---------------------------------------|--|
| U.S. Treasury Obligations  | None                | None                                  | None                                   |
| Money Market Mutual Funds  | N/A                 | None                                  | None                                   |
| Investment Contracts       | 30 years            | None                                  | None                                   |

#### Disclosures relating to interest rate risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value will to

<sup>&</sup>lt;sup>2</sup> The City's investment policy does not permit investments in repurchase or reverse repurchase agreements.

changes in market interest rates. One of the ways that Porterville manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations. Porterville's investment policy states that investment decisions are made with the intention of retaining the investment until maturity, thereby negating the ill effects of market interest rate fluctuations.

Information about the sensitivity of the fair values of the City of Porterville's investments (including investments held by bond trustees) to market interest rate fluctuations is provided by the following table that shows the distribution of the City's investments by maturity:

|                  |   | Remaini   | ng ma                       | aturity (in mont                   | hs)                              |                                      |   |  |

#### Investments with fair values highly sensitive to interest rate fluctuations

Porterville's investment policy does not permit investments in instruments that are highly sensitive to interest rate fluctuations such as variable rate securities; therefore, the portfolio does not contain any such investments.

#### Disclosures relating to credit risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by the California Government Code, Porterville's investment policy, or debt agreements, and the actual rating as of June 30, 2009, for each investment type:

| Investment type Federal agency Securities          | \$  | 11,019,358 | Minimum<br>legal rating<br>N/A | \$<br>Exempt<br>from<br>disclosure | \$   | <u>AAA</u><br>11,019,358 | \$<br><u>Aa</u> | \$<br>Not rated<br><br>7,639,509 |

#### Concentration of credit risk

The investment policy of the City of Porterville contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. Investments in any one issuer (other than mutual funds and external investment pools) that represent 5 percent or more of the total City investments are as follows:

| Issuer                                | Investment type           | Reported amour |           |  |  |
|---------------------------------------|---------------------------|----------------|-----------|--|--|
| Federal Home Loan Banks               | Federal agency securities | \$             | 3,024,818 |  |  |
| Federal Home Loan Mortgage Corp       | Federal agency securities |                | 4,987,040 |  |  |
| Federal National Mortgage Association | Federal agency securities |                | 3,007,500 |  |  |

#### Custodial credit risk

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the City of Porterville's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits:

The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure City deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

As of June 30, 2008, \$750,533 of the City's deposits with financial institutions in excess of federal depository insurance limits was held in uncollateralized accounts. As of June 30, 2009, Porterville's investments in the following investment types were held by the same broker-dealer (counterparty) that was used by the City to buy the securities:

| Investment type           | Reported amount |
|---------------------------|-----------------|
| Certificates of deposit   | \$<br>986,215   |
| Federal agency securities | 8,028,018       |

#### Investment in the State Investment Pool

The City of Porterville is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated y the California Government Code under the oversight of the Treasurer of the State of California. The fair value of the City's investment in this pool is reported at amounts based upon the City's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

#### Central San Joaquin Valley Risk Management Authority (CSJVRMA) investment pool

As a member city of the CSJVRMA, the City accepted the opportunity to participate in its sponsored investment pool. Four cities, Livingston, Atwater, Ripon and Porterville, participate with the RMA in this pool. The pool is managed by Chandler Asset Management who typically invests in agencies (e.g., FHLB debentures, FNMA and FHLMC notes), treasuries and high-grade corporate stock. Approved investment instruments are asset-backed securities, banker's acceptance, commercial paper and medium term notes, money market accounts, mutual funds, and negotiable certificates of deposit with mixed maturity dates not to exceed 5 years. Investment in repurchase agreements is authorized, but maturity is limited to 1 year maximum. The fair value of the City's investment in this pool is reported at amounts based upon the City's pro-rata share of the fair value provided by Chandler Asset Management for the entire CSJVRMA portfolio.

#### Tulare County Investment Pool

The City is a voluntary participant in the Tulare County Investment Pool that is managed by the County Treasurer. The pooled investments, which are governed by the California Government Code, include U.S. Treasuries, Federal agencies, medium term/corporate notes, municipals, repurchase agreements, commercial paper, money market funds and LAIF. The fair value of the City's investment in this pool is reported at amounts based upon the City's pro-rate share of the fair value provided by Tulare County for the entire investment portfolio.

#### B. Receivables

Receivables as of June 30, 2009, for the City's individual major funds and nonmajor, internal service, and fiduciary funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

|  |    | General      | Community<br>Development<br>Block Grant | Capital Projects |    | Sewer Operating |
|--|----|--------------|---|------------------|----|-----------------|

Transfers are used to move revenues from the funds with collection authorization to the capital projects fund to finance various capital outlays including several construction projects. General fund revenues were moved to the debt service fund as debt service principal and interest payments become due while funds from non-major funds were moved to the general fund to help pay for debt service. Transfers are also used to move grant revenue from the Community Development Block Grant Fund to the General Fund to reimburse expenditures for the operation of the Youth Center. The Airport, the Golf Course and the Zalud Enterprise Funds received funds from the General Fund to aid in the operations of the funds.

#### E. Capital leases

The City has entered into a lease purchase agreement as lessee for financing the acquisition of property to be used for effluent ponding and monitoring wells. The purchase price of the land was \$794,300 and the City paid

\$507,363, leaving a lease balance of \$286,937 to be paid over a 20-year period at 6 percent annual interest cost. In July 2009, the City paid the outstanding balance of the lease plus accrued interest in the amount of \$241,604.

#### F. Long-term debt

#### Certificates of Participation

The City has issued \$60,695,000 in Certificates of Participation, \$27,845,000 to support governmental activities and \$32,850,000 to support business-type activities. The governmental issues are entitled 2002 Public Buildings Refunding (formerly 1992 Public Buildings Project) and 2005 Infrastructure Financing Project (formerly 1998 Infrastructure Financing Project). Interest rates vary from 5.8 percent to 6.3 percent and 3.0 percent to 5.0 percent, respectively. The business-type issues are entitled 2002 Sewer System Refunding Project and 2002 Water System Refunding Project (both formerly 1992 Improvement Projects), and 1997 Sewer System Refinancing Project (formerly 1993 Sewer System Improvement Project). Interest rates range from 5.8 percent to 6.3 percent on the 2002 issues and 3.8 percent to 5.4 percent on the 1997 issue.

On December 1, 2005, the City advance refunded its 1998 Infrastructure Financing Project Certificates for \$20,850,000 to provide funds to finance and refinance various public infrastructure improvements, fund a reserve fund through the purchase of a reserve fund surety bond and fund the costs of the transaction. \$14,563,018 of the proceeds plus additional funds of \$3,709,957 was deposited into an escrow bank for the payment of the principal and interest with respect to the 1998 Certificates. As a result, the refunded bonds are considered to be defeased and the liability has been removed from the City's financial statements. The reacquisition price exceeded the net carrying amount of the old debt by \$266,110. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt, which is shorter than the life of the new debt issued.

In 1998, underwriters Lehman Brothers Special Financing, Inc., made an offer to advance refund the 1992 Public Buildings, Water System and Sewer System certificates in order to take advantage of current market conditions. The City accepted and on March 26, 1999, entered into a certificate forward purchase agreement, receiving \$169,471 for the Public Building issue, \$230,887 for the Sewer System issue, and \$215,503 for the Water System issue. The City elected to receive an amount net of estimated transaction costs associated with a refunding; in the event that the underwriters chose to complete the refunding process in 2002, the costs to the City would be greatly minimized. On August 1, 2002, the City was notified that Lehman Brothers wished to exercise the option to refund and generate new certificates.

On September 10, 1997, the City advance refunded its 1993 Sewer System Improvement Project Certificates and defeased the 10-year debt obligation by depositing the proceeds of the new certificates (\$13,663,894) plus additional funds (\$847,114) in an irrevocable trust with an escrow agent to provide for future debt service payments until the certificates are fully redeemed on October 1, 2003. Accordingly, these defeased certificates are not included in the City's financial statements.

Debt service requirements on Certificates of Participation are as follows:

| Fiscal Year    |      | Governmental / | Activities    | <b>Business-type Activities</b> |           |  |  |
|----------------|------|----------------|---------------|---------------------------------|-----------|--|--|

#### Revenue bonds

In September 2008, the City advance refunded its 2002 Tax Allocation Refunding Bonds. The refunding resulted in the issue of \$5,725,000 in non-taxable bonds with interest rates ranging from 2.6 percent to 5.7 percent, and \$2,750,000 in taxable bonds with interest rates ranging from 6.4 percent to 8.5 percent. The 2008 Tax Allocation Refunding Bonds are secured by tax increment revenues. The advance refunding was undertaken to finance redevelopment activities and low and moderate housing activities within or of benefit to the Redevelopment Project Area, refund \$4,905,000 of the 2002 Revenue Bonds, fund a portion of the reserve account for the bonds, and provide for the costs of issuing the bonds. \$5,093,350 of the proceeds was deposited into an escrow account for all future debt service payments with respect to the 2002 Bonds. As a result, the refunded bonds are considered to be defeased and the liability has been removed from the City's financial statements. The reacquisition price exceeded the net carrying amount of the old debt by \$728,052. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt, which is shorter than the life of the new debt issued.

Debt service requirements on revenue bonds are as follows:

| Fiscal Yea          | ar | Governmental Activities |               |  |  |  |  |

#### Notes payable

The City of Porterville Redevelopment Agency (Agency) entered into loan agreements for various redevelopment projects. In April 1991, a promissory note in the amount of \$300,000 was issued to the California Department of Commerce, Rural Economic Development Infrastructure Loan Program to partially finance street and storm drainage system infrastructure improvements. Repayment will be made over a 25-year term with an interest rate of 3.0 percent. Interest payments were deferred for the first five years, interest-only payments for the next five years, and principal and interest payments for the remaining 15 years. As of June 30, 2009, \$185,950 is owed in principal and deferred interest.

On October 1, 2003, the City of Porterville was awarded \$3,885,000 under HUD's Section 108 Loan Guarantee Program to fund the construction of a new neighborhood community center. Funds were deposited in a trust account with Union Bank of California in May 2004. Annual debt service payments begin August 1, 2005. Repayment will be made over a 20-year term with variable interest rates of 2.42 percent to 6.13 percent.

In September 2004, the City entered into an Enterprise Fund Installment Sale Agreement with the California Infrastructure and Economic Development Bank (I-Bank) in the amount of \$5,356,000 to fund the various capital projects needed to comply with Regional Water Quality Control Board's Cease and Desist Order and Water Discharge Requirements. The term of the agreement is 30 years with an interest rate of 2.98 percent per annum.

On May 24, 2005, the City of Porterville executed a loan agreement with the State of California Department of Transportation for the sum of \$118,000 to purchase hangars at the Porterville Municipal Airport. The loan will extend for a period of 12 years at an annual interest of 4.4477 percent.

In April of 2008, a note secured by deed of trust was signed by the Porterville Redevelopment Agency promising to pay to the Porterville Civic Development Foundation the sum of \$200,000 used for the preparation of the Redevelopment Area Amendment and Master Plan. There is no interest on the loan until May 1, 2011. Thereafter, the unpaid principal balance shall accrue interest at the rate of 7 percent per annum. The entire balance of principal, interest or other charges on the note is due and payable on May 1, 2011.

Debt requirements on notes payable is as follows:

| Fiscal Year    |      | Governmenta  | al Activities | Business-type Activities |           |  |
|----------------|------|--------------|---------------|--------------------------|-----------|--|
| Ending June 30 |      | Principal    | Interest      | Principal                | Interest  |  |

#### Advances payable

On April 7, 1981, the City entered into Fund Advance Agreement No. 1 (Agreement) with the Porterville Redevelopment Agency. The agreement states that the City's General Fund will advance funds to the Agency for payment of expenses incurred by the Agency associated with the planning, formation, adoption and execution of one or more redevelopment plans and project areas in the City. The agreement was modified on June 30, 1999, with respect to the interest rate applied to outstanding advance balances. The previous interest rate of 10.0 percent per annum was reduced to zero percent per annum, and became effective as of July 1, 1998.

According to the agreement, the City will advance, with prior Council approval, all funds deemed necessary by the Agency to facilitate the approval, adoption and implementation of the redevelopment program. The Agency will reimburse all advances made by the City from whatever revenue sources it possesses, including future tax increment funds when these revenues become available. As of June 30, 2009 the Agency owes the City \$1,145,425 in principal and interest under this agreement.

On November 12, 1997, the Agency entered into Fund Advance Agreement No. 2 with the City of Porterville. This agreement states that the City's Risk Management Fund will advance funds to the Agency for payment of expenses incurred by the Agency associated with the improvement of certain storm drain facilities located within Project Area #1. The Agency will reimburse all advances made by the City from tax increment revenue as it becomes lawfully available. As of June 30, 2009, the Agency owes the City \$164,477 in principal and interest under this agreement.

On November 1, 2005, the Agency entered into a Cooperation, Purchase and Sale Agreement with the City of Porterville for the purpose of acquiring real property from the City. Concurrently, the Agency approved a Disposition and Development Agreement with Ennis Commercial Properties, LLC for the development of a commercial/professional office complex thereon. The purchase price for the property is \$110,000. Upon close of escrow, the Agency remitted to the City the amount of \$95,000 less escrow fees. The remaining \$15,000 is payable to the City upon receipt from the Developer which signed a promissory note to pay the Agency the principal amount of \$15,000 plus interest at an annual interest rate of 6.75%, on or before November 8, 2010. In November 2008, the Agency received full payment on the note from the Developer and repaid the amount of the advance from the City of Porterville.

On May 1, 2007, the Porterville City Council passed Resolution #31-2007, approving the request by the Porterville Redevelopment Agency to provide funds to the Agency for the repayment of its existing debt to the County of Tulare, in the amount of \$195,000. The loan agreement between the City and the Agency has a term of 5 years and an interest rate equivalent to the Local Agency Investment Fund rate as reported for the quarter ending March 31 each year. Annual payments of the principal and accrued interest are due and payable commencing on May 1, 2008.

#### Changes in long-term liabilities

Long-term liability activity for the fiscal year ended June 30, 2009, was as follows:

|   |     | Beginning<br>Balance | Additions/<br>Adjustments | Reductions     | Ending<br>Balance | Due Within<br>One Year |

<sup>\*</sup> Governmental compensated absences are primarily liquidated in the General Fund.

#### NOTE 5 - Other information

#### A. Joint venture

The City is a member of the Central San Joaquin Valley Risk Management Authority (the Authority). The Authority is comprised of 55 Central California member cities and is organized under the provisions of Sections 6500 - 6515 of the California Government Code. It was established for the purpose of operating and maintaining

a cooperative program of self-insurance and risk management which benefits its member agencies through cost reductions, insurance coverage stability and loss control techniques. Each member city has a representative on the Board of Directors. The Board members elect officers of the Authority. The Authority establishes claim liabilities based on actuarial estimates of the ultimate cost of claims that have been reported but not settled, and of claims that have been incurred, but not reported.

The following is the condensed audited statement of net assets and the changes in net assets of the Authority for the year ended June 30, 2009.

This information is not included in the accompanying financial statements. Separate financial statements of the Authority may be obtained at Bickmore Risk Services, 1020 19<sup>th</sup> Street, Suite 200, Sacramento, CA 95814.

#### B. Risk management

The City is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Effective January 1979, the City Council approved a program of self-insurance for workers' compensation, medical and dental, unemployment and, effective July 1985, general liability. The self-insurance program was established as an Internal Service Fund and is supported by charges to various City departments that are reported as quasi-external transactions. There have neither been significant reductions in insurance coverage from the prior year nor any settlements exceeding insurance coverage for each of the past three years.

The City will pay all claims up to \$500,000 per claim for workers' compensation. Amounts in excess of \$500,000 are covered by the Local Agency Workers' Comp. Excess Joint Powers Authority (LAWCX) to a limit of \$4,500,000.

An outside agent administers the medical program. Charges per employee are based on total outstanding claims and past history. The City will pay all medical claims up to \$80,000 per claim. An outside insuring agent covers any additional losses up to \$1,000,000. The maximum payment for dental claims is \$2,000 per employee per year. The unemployment liability program is administered through the State of California wherein the City is charged for the actual cost of claims paid by the State.

The City is self-insured for the first \$100,000 per claim for general liability, to a limit of \$1,000,000. The California Affiliated Risk Management Authority (CARMA) covers losses in excess of \$1,000,000 to a limit of \$25,000,000 through its participation with American Reinsurance and Colony National Insurance Company.

At June 30, 2009, \$840,317 has been accrued for claims representing estimates of amounts to be paid for actual claims and incurred but not reported claims based on past actuarial experience.

Changes in the balances of claims liabilities during the past two years are as follows:

|                                  | Fiscal year ended |               |  |  |  |  |
|----------------------------------|-------------------|---------------|--|--|--|--|
|                                  | June 30, 2009     | June 30, 2008 |  |  |  |  |
| Unpaid claims, beginning of year | \$<br>873,227 \$  | 555,464       |  |  |  |  |
| Incurred claims                  | 2,925,084         | 3,081,337     |  |  |  |  |
| Claim payments                   | (2,857,994)       | (2,763,574)   |  |  |  |  |
| Unpaid claims, end of year       | \$<br>940,317 \$  | 873,227       |  |  |  |  |

#### C. Contingent liabilities

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

Various other claims and suits have been filed against the City in the normal course of business. Based upon information received from the City Attorney and the self-insurance administrator, the estimated liability under such claims would be adequately covered by self-insurance and other insurance coverage.

#### D. Unearned revenue - Governmental activities

On July 1, 1998, the interest rate on the fund advance agreement between the City and Redevelopment Agency was reduced from 10 percent to zero percent. Interest due at June 30, 1998, was recorded as unearned revenue as it was due, but not paid.

Housing and Community Development Block Grant funds are used to provide housing rehabilitation and first-time homebuyer assistance loans to eligible applicants. Such loans are made to low and moderate-income persons to help purchase, improve, rehabilitate, or replace residences. This program is accounted for in the Community Development Block Grant (CDBG) Special Revenue Fund. CDBG's primary assets consist of notes receivable from participants that originated from Department of Housing and Urban Development (HUD) funds. Since HUD has a claim to any funds remaining if and when this program is terminated, a contingent liability exists. As the loans are collected, the receipts are recognized as program income, and must be recycled to new program participants. Therefore, 100 percent of the loan receivable balance represents deferred revenue and has been presented accordingly.

The Low and Moderate Income Housing Special Revenue Fund had participated in lending forgivable funds to first-time homebuyers based on income qualifications. The maximum amount of assistance is \$17,000 that is forgivable over a 45-year span. The amount of money recognized as unearned revenue is based on the number of loans issued less the annual forgivable portion.

Details on unearned revenue at June 30, 2009, are as follows:

| Fund  | _  | Amount     |
|---|----|------------|
| Governmental activities:  |    |            |
| General fund  | \$ | 104,130    |
| Special revenue fund -  |    |            |
| Low and Moderate Income Housing                                     |    | 337,164    |
| Community Development Block Grant                                   |    | 10,275,256 |
| Total unearned revenue - governmental activities                    | \$ | 10,716,550 |
| 그리다 하는 사이 마음은 사이 아름이 하는 어떻게 하는데 |    |            |

#### E. Deferred compensation plans

The City offers several deferred compensation plans created in accordance with Internal Revenue Service Code Section 457 and 401(a). The original 457 plan has two provisions to accommodate regular and part-time, temporary and seasonal employees (PTS). For regular employees, the plan permits them to defer a portion of their salary until future years. Participation in the plan is optional. For PTS employees, participation is not optional. In lieu of participation in PERS, PTS employees must contribute 7.5 percent of their gross earnings in accordance with IRS regulations. In regards to both classifications of employees, the deferred compensation is not available until termination, retirement, death or unforeseeable emergency.

The City Council has adopted amendments to the 457 plan to accommodate certain tax law changes established by the Internal Revenue Service. The ICMA Retirement Corporation administers the plans and offers several investment options. The choice of the investment option(s) is available only to regular employees and is made solely by the participants. The City has no liability for investment losses under the plan and in accordance with GASB 32, the assets of each of the aforementioned plans have been excluded from the financial statements.

#### F. Defined benefit pension plan

#### Plan Description

The City has two defined benefit pension plans, a Miscellaneous Plan and a Safety Plan, each providing retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Both plans are part of the Public Agency portion of the California Public Employees Retirement System (CalPERS), an agent multiple-employer plan administered by CalPERS, which acts as a common investment and administrative agent for participating public employers within the State of California. State statutes within the Public Employees' Retirement Law establish a menu of benefit provisions, as well as other requirements. The City selects optional benefit provisions from the benefit menu by contract with CalPERS and adopts those benefits through local ordinance. As of June 30, 2009, the contracted plan for Miscellaneous was 2.7 percent at age 55 and 3 percent at age 55 for Safety. CalPERS issues a separate comprehensive annual financial report. Copies of CalPERS' annual financial report may be obtained from the CalPERS Executive Office, 400 P Street, Sacramento, California, 95814.

#### **Funding Policy**

Active plan members are required to contribute a percentage of their annual covered salary, 8.0 percent for participation in the Miscellaneous Plan and 9.0 percent for Safety Plan. The City is currently making these contributions on behalf of the police series employees only, in accordance with a Memorandum of Understanding, and the City is required to contribute the actuarially determined remaining amounts necessary to fund the benefits. The actuarial methods and assumptions used are those adopted by the CalPERS Board of Administration. The required employer contribution rate for fiscal year June 30, 2009, was 18.757 percent for miscellaneous employees and 25.486 percent for firefighters and police officers. The contribution requirements of the plan members are established by State statute and the employer contribution rate is established and may be amended by CalPERS.

#### **Annual Pension Cost**

For the fiscal year 2008-2009, the City's annual pension cost of \$3,101,907 for CalPERS was equal to the City's required and actual contributions. The required contribution for fiscal year June 30, 2009 for the Miscellaneous Plan was determined as part of the June 30, 2006 actuarial valuation using the entry age normal actuarial cost method with the contributions determined as a percent of pay. The actuarial assumptions included (a) 7.75 percent investment rate of return (net of administrative expenses), (b) projected salary increases ranging from 3.25 percent to 14.45 percent depending on age, service, and type of employment, (c) an inflation component of 3.0 percent, (d) 3.25 percent overall payroll growth, and (e) individual salary growth based on a merit scale varying by duration of employment coupled with an assumed annual inflation growth of 3.0 percent and an annual production growth of 0.25 percent. The actuarial value of the plan's assets was determined using a technique that smoothes the effect of short-term volatility in fair value of investments over a fifteen year period. The plan's

unfunded actuarial accrued liability (or excess assets) is being amortized as a level percentage of projected payroll on a closed basis. The average remaining amortization period for the Miscellaneous Plan was 26 years as of the valuation date.

The Safety Plan is part of the Safety 3.0% at 55 Risk Pool, a cost-sharing multiple-employer defined benefit plan. Pension liabilities and assets result from the difference between contributions required and contributions made. The contractually required contribution for the period July 1, 2008 to June 30, 2009 has been determined by an actuarial valuation of the plan as of June 30, 2006. The actuarial assumptions used to determine the contractually required contributions for the cost-sharing multiple-employer defined benefit plan included (a) 7.75 percent investment rate of return (net of administrative expenses), (b) projected salary increases of 3.25 percent to 14.45 percent depending on age, service and type of employment, (c) inflation rate of 3.0 percent, (d) payroll growth of 3.25 percent, and (e) individual salary growth based on a merit scale varying by duration of employment coupled with an assumed annual inflation growth of 3.0 percent and an annual production growth of 0.25 percent. The plan's assets are valued using a 15 year smoothed market and the actuarial liability is amortized as a level percentage of payroll. The average remaining amortization period for the cost-sharing multiple-employer defined benefit plan was 15 years as of the valuation date.

#### Miscellaneous Plan

#### G. Subsequent events

On July 1, 2009, the City entered into an Enterprise Fund Installment Sale Agreement with the California Infrastructure and Economic Development Bank in the amount of \$6,757,500 to finance the Eastside Water Improvement Projects. The term of the agreement is 30 years with an interest rate of 3.84 percent per annum.

In December of 2009, the City entered into an agreement to provide financial assistance in the form of a loan secured by a Promissory Note and Deed of Trust to Prospect-Henderson Partners, L.P. in the amount of \$2,700,000 at a compound rate of 1.5 percent amortized over an initial 70 month term, and a compound rate of 3 percent over the second 60 month term. The loan is being made to assist with costs, fees and services related to the purchase of property and financing the development of a 76,367 square foot building left vacant by the closing of the Mervyns' Store. The agreement is contingent upon the borrower securing Kohl's Department Store as a tenant for the property, with a commitment for the opening of a fully stocked and operational retail facility for at least one day.

In December 2009, the City completed the sale of the Fairgrounds site to the State of California at the price of \$2,140,000. A new Superior Court is proposed to begin construction in 2010 and the fair will be relocated to a new and larger site.

#### H. Land held for resale

In April 2009, the Porterville Redevelopment Agency executed an Affordable Housing Agreement with Porterville Housing Partners, L.P. for the development of a 70 unit affordable apartment complex adjacent to the downtown area and within the Redevelopment Project Area. The Agency stepped in to purchase the site for \$930,000 which will be eventually sold to Porterville Housing Partners, L.P.

#### NOTE 6 - Prior year's debt defeasance

In prior years, the City has defeased various bond issues by creating separate irrevocable trust funds. New debt has been issued and the proceeds have been used to purchase U.S. government securities that were placed in this trust fund. The investments and fixed earnings from the investments are sufficient to fully service the defeased debt until the debt is called or matures. For financial reporting purposes, the debt has been considered defeased and therefore removed as a liability from the City's government-wide financial statements. As of June 30, 2009, the amount of the defeased debt outstanding amounted to \$20,775,000.

#### NOTE 7 - Other postemployment benefits

The City provides other postemployment benefits (OPEB) for its employees. Retired employees are eligible to purchase the City's Medical, Dental, and/or Vision Plan benefits for themselves and their spouse, provided the spouse was covered under each of the Benefit Plans proposed to be purchased for not less than 30 days immediately prior to the employee's retirement date. Employees who retire on or after January 1, 2005 will pay 70 percent of the monthly contribution rate for medical coverage for themselves and for their eligible spouse; and the City will contribute 30 percent of said costs, for so long as timely and continuous monthly premium payments are made by or on behalf of the eligible retiree and/or by their eligible spouse. Medical plan benefit coverage for retirees and eligible spouses will be effective until they reach the age of 65. The monthly cost shall be 102% of the actuarially established contribution rate, and such rates are subject to change from time-to-time.

For the fiscal year 2008-2009, the City's annual OPEB cost of \$664,755 was equal to the City's required and actual contributions. The City's annual OPEB cost, the percentage of annual OPEB cost and the net OPEB obligation for the year and the two preceding years were as follows:

| Fiscal Year<br>Ending | Annual OPEB<br>Cost | Percentage of<br>Annual OPEB<br>Cost Contributed | Net OPEB<br>Obligation |
|-----------------------|---------------------|--|------------------------|
| 06/30/07              | \$<br>364,966       | 100%   |                        |
| 06/30/08              | 457,175             | 100%   |                        |
| 06/30/09              | 664,755             | 100%   |                        |
|                       |                     |  |                        |

The funded status of the plan as of March 1, 2009, was as follows:

| Actuarial present value of projected benefits (APVPB) | \$<br>19,131,941 |
|---|------------------|
| Actuarial accrued liability (AAL)                     | \$<br>9,983,546  |
| Plan assets   |                  |
| Unfunded actuarial accrued liability (UAAL)           | \$<br>9,983,546  |

The calculation method used to determine the annual accrual amount was the entry age normal actuarial cost method. The allocation of OPEB cost was based on years of service and the level percentage of payroll method was used to allocate OPEB cost over years of service. Projections of benefits are based on the substantive plan, the formulation of which was based on a review of written plan documents as well as historical information regarding practices with respect to employer and employee contributions and other relevant factors. Economic assumptions included (a) 3 percent per year inflation rate, (b) an investment return/discount rate of 5 percent per year, (c) a long-term trend assumption of 4 percent per year, and (d) a payroll increase of 3 percent per year.

<sup>\*</sup>Current information for the fiscal year ended June 30, 2009 is unavailable.

#### Notes to the Required Supplementary Information

#### **Budgetary information**

The procedures established by the City Council in adopting the budgetary data reflected in the financial statements are as follows:

On or before June 1 of each year, the City Manager submits a proposed budget to the city council for review. The council holds public hearings, and the final budget is adopted by resolution prior to July 1. Annual budgets are adopted and prepared on a basis consistent with generally accepted accounting principles.

The appropriated budget is prepared by fund, function, and department. The department heads may make transfers of appropriations within their respective departments. Transfers of appropriations between departments require the approval of the city manager. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the fund level. The council made several supplemental budgetary appropriations throughout the year which were not material.

Encumbrance accounting is employed in governmental funds. Encumbrances (e.g., purchase orders, contracts) outstanding at year-end are not reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be re-appropriated and honored during the subsequent year. All annual appropriations lapse at fiscal year end.

#### Excess of expenditures over appropriations

For the year ended June 30, 2009, expenditures exceeded appropriations in the Community Development Block Grant Fund by \$922,441. These expenditures are funded by available fund balance.

### Supplemental Statements

#### NONMAJOR GOVERNMENTAL FUNDS

#### SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for revenues derived from specific taxes or other earmarked revenue sources. These funds are required by statute, charter provisions, or local ordinance to finance particular activities of the City of Porterville.

Redevelopment Agency Low and Moderate Income Housing Fund - This fund was established in the 1991-92 fiscal year, as required by Health and Safety Code Section 33334.2, for the purpose of setting aside 20 percent of all Redevelopment Agency tax increment revenues for improving establishing, and otherwise caring for the low- and moderate-income housing needs within the project area.

**Public Safety Sales Tax Fund** – This fund was established as a result of the voters approval of a one-half cent increase in sales tax on the November 8, 2005 Special Consolidated Election ballot. This fund is used to account for revenues received from this district tax, which are restricted for police and fire protection services and for literacy programs.

**Special Gas Tax Fund** - This fund was established by Resolution No. 229 in 1935, as required by the State, to account for monies received from gasoline taxes that must be expended mainly for constructing or improving major city streets.

**Local Transportation Funds Fund** - This fund is used to account for monies received from the County of Tulare for public transportation purposes. Revenues to each county's local transportation fund are derived from one-quarter cent of the sales tax collected in that county.

**Traffic Safety Fund** - This fund was established based on Section 1463 of the Penal Code. All fines and forfeitures collected from any person charged with a misdemeanor under this code must be deposited into a special fund known as the "Traffic Safety Fund." These funds are to be used exclusively for official traffic control devices and the maintenance thereof, equipment and supplies for traffic law enforcement and traffic accident prevention, and for the maintenance, improvement, or construction of public streets, bridges, and culverts within the city, but not for the compensation of traffic or other police officers.

**Public Safety Grant Fund** - This fund was established as a result of Assembly Bill 3229, Chapter 134, Statutes of 1996, which formulated the Citizen's Option for Public Safety Program. The plan allows proportionate shares of the State's appropriated funds to be allocated to qualifying local agencies for the purpose of financing front-line police services. This fund is also used to account for other public safety activities that have restricted funding requirements.

Landscape Maintenance District Fund - This fund is used to account for activities related to the landscape maintenance districts. The City maintains certain landscaping and is reimbursed by way of special assessments levied against the property owners within each district.

**Transportation Development Fund** - This fund was established by Council action on May 5, 1998 to account for the collection/distribution of the newly-adopted Traffic Impact Fee assessed to new development.

Park Development Fund - This fund was established to account for receipts of federal and state grants for the improvement, maintenance, and acquisition of parks within the City.

**Storm Drain Development Fund** - This fund was established to account for storm drain acreage fees from subdivisions and developers. The funds will be used to finance storm drainage facilities in the future.

**Building Construction Fund** - This fund was created to accumulate and account for monies derived through the sale of City-owned assets.

#### **DEBT SERVICE FUNDS**

Debt Service Funds are used to account for the accumulation of resources and the payments of general long-term debt principal and interest of the General Government and Redevelopment Agency. These funds do not include debt being financed by proprietary funds.

**General Government Fund -** This fund is used to account for the payment of principal and interest on the 1992 Public Buildings Certificates of Participation obligation.

**Redevelopment Agency Fund -** This fund is used to account for the accumulation of tax increment and other revenues for the payment of principal and interest on the Redevelopment Agency's bonded debt and other long-term obligations.

#### CAPITAL PROJECTS FUND

Redevelopment Agency Fund - This fund was established to account for all administrative and project expenditures related to Project Area No. 1 of the Porterville Redevelopment Agency.

#### NONMAJOR PROPRIETARY FUNDS

Proprietary funds are used to account for operations that provide goods or services to the general public on a continuing basis and are financed primarily through user charges.

#### Zalud House Fund

This fund was established to account for the original gift of money and assets from the Zalud Estate and the operations of the Zalud House.

#### Transit Fund

This fund was established to account for the operations of the City-operated local transit system. The City has an agreement with Tulare County to provide transportation service to the unincorporated areas around Porterville. The transit system is funded by ticket sales, the City of Porterville (Gas Tax Transportation funds), and the County of Tulare.

#### Airport Fund

This fund was established to account for all revenues and expenses associated with the operation of the Porterville Municipal Airport. The principal sources of revenue for this fund are fuel sales, hangar rentals, land leases, and concession fees.

#### Golf Course Fund

This fund was established to account for all revenues and expenses incurred in the operation of the Porterville Municipal Golf Course. The principal source of revenue for this fund is green fees.

#### INTERNAL SERVICE FUNDS

Internal Service Funds are used to account for the financing of goods or services provided by one department of the City to other departments on a cost-reimbursement basis.

#### Risk Management Fund

This fund was established to account for various types of insurance including liability, worker's compensation, unemployment, property, and employee health. The City is self-insured for liability claims below the amount covered by the City's insurance carriers. This fund accounts for these self-insured claims as well as the payments of the premiums for the excess liability insurance coverage.

#### **Equipment Management Fund**

This fund was established to account for the activities pertaining to the acquisition, maintenance, and repair of City vehicles and equipment. The cost of labor, replacement parts, and fuel are tabulated on a monthly basis and charged to the user departments. The funds derived from such charges are used to maintain operations of this fund.

#### AGENCY FUNDS

Agency funds are purely custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. Agency Funds are used to account for assets held by the City as an agent for individuals, private organizations, other governmental units and/or other funds.

#### Special Deposits Fund

This fund was established to account for monies received by the City acting as an agent. Examples of these transactions are construction bonds, utility service deposits and asset seizure.

### Note:

In 1978, a State constitutional amendment (Proposition 13) provided that the tax rate be limited to 1% of market value, levied only by the county and shared with all other jurisdictions.

All other jurisdictions and the county can levy a tax rate for voter-approved debt.

### otes:

- (1) For CIEDB calculation of total revenue, investment earnings are included.
- (2) Operating expenses include interest due on obligations existing at the time of issuance of the certificates, and exclude depreciation and amortization.
- (3) For CIEDB only, interest equals the amount of interest due for the current period plus the annual fee.
  (4) Revenue bond/loan covenants state that fees must be collected so as to yield "net revenues"
  - Revenue bonditioan covenants state triat lees must be collected so as to yield life thevenue (total revenues less operating expenses) equal to at least 1.25 times annual debt service.

Notes:

Operating expenses include interest due on obligations existing at the time of issuance of the certificates, and exclude depreciation and amortization.

<sup>(2)</sup> Certificate of participation covenants state that fees must be collected so as to yield "net revenues" (total revenues less operating expenses) equal to at least 1.25 times annual debt service.
