Bath Township Receives State Capital Budget Grant

SUMMIT COUNTY, OHIO – Bath Township— Bath Township is pleased to report receiving a State Capital Budget grant award in the amount of \$120,000 to support improvements to the North Fork Preserve of Bath property at 4400 Everett Rd. With the support of Ohio Senator Kristina Roegner (Ohio 27th District) and State Representative Bill Roemer (Ohio 38th District), Bath Township was approved for the capital grant, competing with other local governments throughout Ohio for capital project funding. Trustee Elaina Goodrich submitted the grant proposal and had an opportunity to showcase the unique 78 acre environmentally sensitive property to both legislators. Senator Roegner recently commented: “After visiting the North Fork Preserve and hiking the trails, it was abundantly clear that this property is a gem in Northeast Ohio. I was delighted to help secure funding needed to make necessary capital improvements.”

The North Fork Preserve of Bath will feature a trail loop system, parking area and renovation of a home on the property to be converted to a public meeting space. In its commitment to protect and preserve environmentally sensitive areas in the township for the public, Bath Township is pleased to add North Fork Preserve of Bath to its parks system. “These improvements will significantly enhance North Fork Preserve and make good use of the existing assets in the community,” said Representative Roemer. “I was very pleased to see this funding approved and am confident that this project will provide lasting benefits for Bath residents.”
