

Fall into Nature: Discover Bath Nature Preserve 2020

Locate as many of the 30 flora and fauna signs placed throughout the park as possible. The signs feature a photo of plant or animal found at BNP and an interesting fact relating to the species. The signs will be out for the month of October along North Fork Trail, the Bridle Trail, on Hickory Farm Lane (the road to the University of Akron Field Station), and at the Bath Pond floating deck.

Complete your “Discovery Hike” in one day, over several days, or multiple times during regular park hours, in accordance with park rules; leashed dogs are welcome.

Selfies can be taken along the way, at the photo opportunity spot near the UA Field Station, or with the scarecrows outfitted by local nonprofits and businesses found on the trails and in the park.

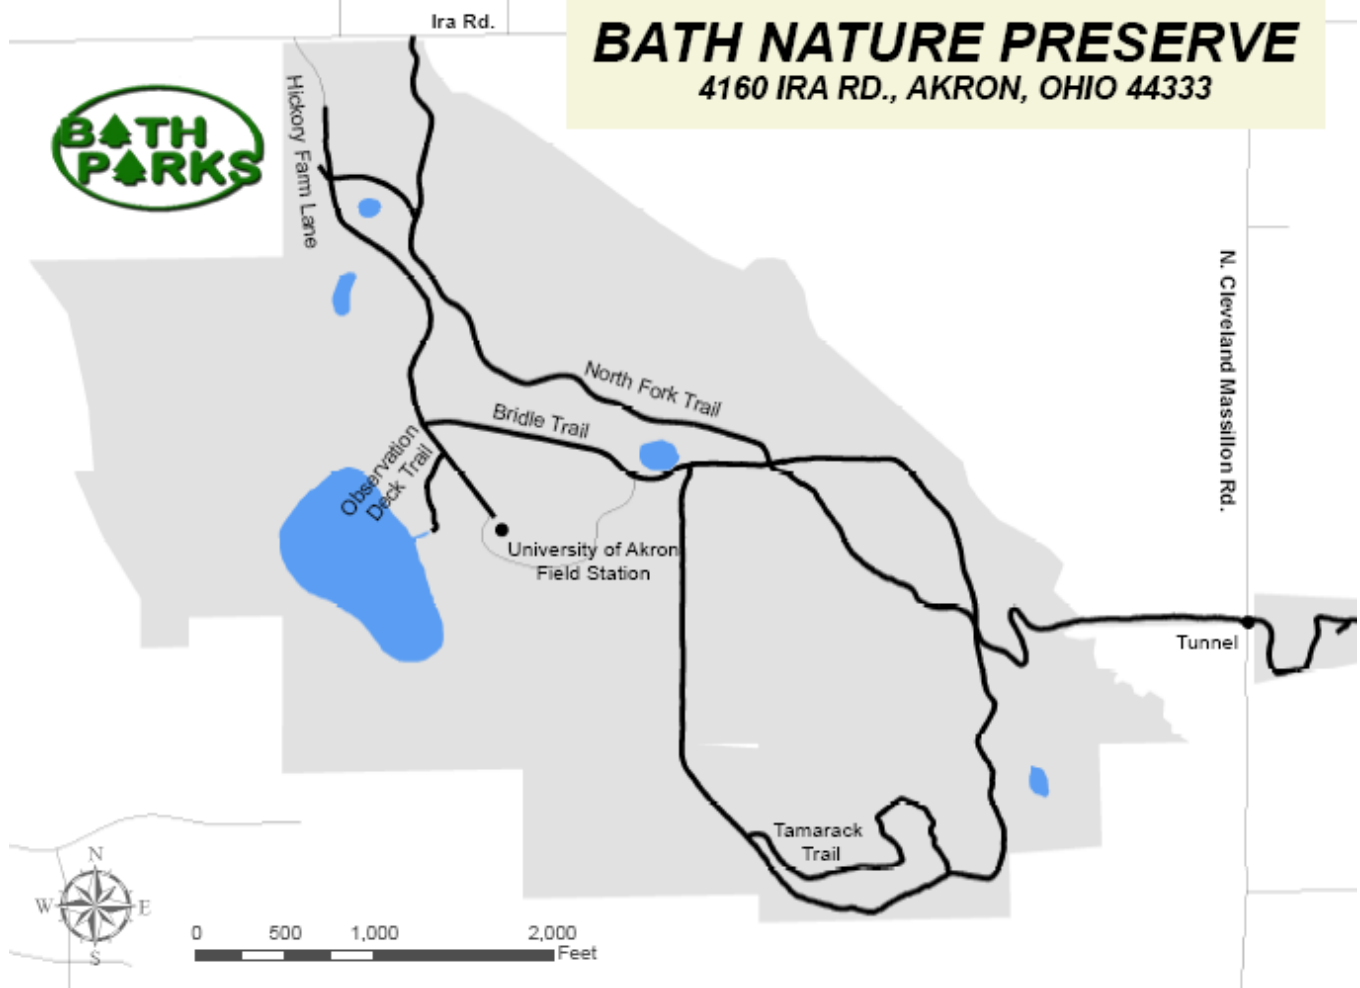

Photos can be shared on the Visit Bath Parks Facebook page under the **Fall into Nature 2020:**

Discover Bath Nature Preserve event! You can also use the hashtag **#discoverBNP2020** on Instagram or Twitter!
