INDEPENDENT AUDITORS' REPORT

To the Village Board
Village of Belleville
Belleville, Wisconsin

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Village of Belleville, Wisconsin, as of and for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise the Village of Belleville's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Village of Belleville's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Village of Belleville's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

To the Village Board
Village of Belleville

Basis for Qualified Opinion on the Governmental Activities

The financial statements do not include the financial data for the village's equity interest in the joint venture of the fire and emergency medical association as discussed in Note IV.D. to the financial statements. Accounting principles generally accepted in the United States of America require the financial data for the equity interest in joint ventures to be reported in the governmental activities. The amount by which this departure would affect the assets, net position, revenues and expenses of the governmental activities has not been determined.

Qualified Opinion

In our opinion, except for the effects of the matter described in the "Basis for Qualified Opinion of the Governmental Activities" paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities information of the Village of Belleville, Wisconsin, as of December 31, 2016, and the changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Unmodified Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Village of Belleville, Wisconsin, as of December 31, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economical, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinions on the basic financial statements are not affected by this missing information.

To the Village Board
Village of Belleville

Other Matters (cont.)

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of Belleville's basic financial statements. The supplementary information as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the detailed general fund budget to actual schedules and the combining financial statements are fairly stated in all material respects, in relation to the basic financial statements as a whole.

Prior Year Comparative Information

We have previously audited the Village of Belleville's 2015 financial statements, and we expressed a qualified opinion on the governmental activities and unmodified audit opinions on the business-type activities, the discretely presented component unit, each major fund, and the aggregated remaining fund information in our report dated April 29, 2016. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2015, is consistent, in all material respects, with the audited financial statements from which it has been derived.

VILLAGE OF BELLEVILLE

RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION As of December 31, 2016

Total Fund Balances - Governmental Funds	\$ 1,008,362
--	--------------

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental funds are not financial resources and, therefore, are not reported in the funds. See Note III.D.	8,938,465
--	-----------

Special assessments are reported as unavailable revenues in the fund financial statements but are recognized as revenue when earned in the government-wide statements.	379,746
--	---------

Some receivables that are not currently available are reported as unavailable revenues in the fund financial statements but are recognized as revenue when earned in the government-wide statements.	61,677
--	--------

Deferred outflows of resources related to pensions do not relate to current financial resources and are not reported in the governmental funds.	512,105
---	---------

Deferred inflows of resources related to pensions do not relate to current financial resources and are not reported in the governmental funds.	(193,384)
--	-----------

Special charges included in property taxes receivable are reported as unavailable revenues in the fund financial statements but are recognized as revenues when earned in the government-wide statements.	231,417
---	---------

Some liabilities, including long-term debt, are not due and payable in the current period and therefore, are not reported in the funds.	
Bonds and notes payable	(6,237,743)
Compensated absences	(29,279)
Accrued interest	(47,822)
Net pension obligation	<u>(91,892)</u>

VILLAGE OF BELLEVILLE

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES For the Year Ended December 31, 2016

Net change in fund balances - total governmental funds	\$	(165,727)
--	----	-----------

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of net position the cost of these assets is capitalized and they are depreciated over their estimated useful lives and reported as depreciation expense in the statement of activities.

Capital outlay is reported as an expenditure in the fund financial statements but is capitalized in the government-wide financial statements		121,697
Some items reported as operating expenditures in the fund financial statements but are capitalized in the government-wide statements		20,588
Depreciation is reported in the government-wide financial statements		(298,730)
Net book value of assets retired		(112,761)

Contributed capital assets are reported as revenues in the government-wide financial statements.		511,586
--	--	---------

Receivables not currently available are reported as revenue when collected or currently available in the fund financial statements but are recognized as revenue when earned in the government-wide financial statements.		
Developer charges		(80,472)
Grants and special charges receivable		66,109

Debt issued provides current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.		
Debt issued		(76,643)
Principal repaid		740,190

Some expenses in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.		
Compensated absences		(15,015)
Accrued interest on debt		(15,095)
Net pension asset/liability		(223,652)
Deferred outflows of resources related to pensions		365,884
Deferred inflows of resources related to pensions		(193,384)

CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES	\$	<u>644,575</u>

VILLAGE OF BELLEVILLE

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2016

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Village of Belleville, Wisconsin conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The accepted standard-setting body for establishing governmental accounting and financial reporting principles is the Governmental Accounting Standards Board (GASB).

A. REPORTING ENTITY

This report includes all of the funds of the village. The reporting entity for the village consists of the primary government and its component unit. Component units are legally separate organizations for which the primary government is financially accountable or other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading. The primary government is financially accountable if (1) it appoints a voting majority of the organization's governing body and it is able to impose its will on that organization, (2) it appoints a voting majority of the organization's governing body and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government, (3) the organization is fiscally dependent on and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government. Certain legally separate, tax exempt organizations should also be reported as a component unit if all of the following criteria are met: (1) the economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government, its component units, or its constituents; (2) the primary government or its component units, is entitled to, or has the ability to access, a majority of the economic resources received or held by the separate organization; and (3) the economic resources received or held by an individual organization that the primary government, or its component units, is entitled to, or has the ability to otherwise access, are significant to the primary government.

Component units are reported using one of two methods, discrete presentation or blending. Generally, component units should be discretely presented in a separate column in the financial statements. A component unit should be reported as part of the primary government using the blending method if it meets any one of the following criteria: (1) the primary government and the component unit have substantively the same governing body and a financial benefit or burden relationship exists, (2) the primary government and the component unit have substantively the same governing body and management of the primary government has operational responsibility for the component unit, (3) the component unit serves or benefits, exclusively or almost exclusively, the primary government rather than its citizens, or (4) the total debt of the component unit will be paid entirely or almost entirely from resources of the primary government.

VILLAGE OF BELLEVILLE

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2016

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

A. REPORTING ENTITY (cont.)

Discretely Presented Component Unit

Belleville Community Development Authority

The government-wide financial statements include the Belleville Community Development Authority ("CDA") as a component unit. The CDA is a legally separate organization. The board of the CDA is appointed by the village board. Wisconsin Statutes provide for circumstances whereby the village can impose its will on the CDA, and also create a potential financial benefit to or burden on the village. See Note III.H. As a component unit, the CDA's financial statements have been presented as a discrete column in the financial statements. The information presented is for the fiscal year ended December 31, 2016. The CDA does not issue separate financial statements.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

In February 2015, the GASB issued statement No. 72 - *Fair Value Measurement and Application*. This statement addresses accounting and financial reporting issues related to fair value measurements. It defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This standard was implemented January 1, 2016.

Government-Wide Financial Statements

The statement of net position and statement of activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. The village does not allocate indirect expenses to functions in the statement of activities. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not included among program revenues are reported as general revenues. Internally dedicated resources are reported as general revenues rather than as program revenues.

VILLAGE OF BELLEVILLE

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2016

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (cont.)

Fund Financial Statements

Financial statements of the village are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position/fund balance, revenues, and expenditures/expenses.

Funds are organized as major funds or nonmajor funds within the governmental and proprietary statements. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the village or meets the following criteria:

- a. Total assets/deferred outflows of resources, liabilities/deferred inflows of resources, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10% of the corresponding total for all funds of that category or type, and
- b. The same element of the individual governmental or enterprise fund that met the 10% test is at least 5% of the corresponding total for all governmental and enterprise funds combined.
- c. In addition, any other governmental or enterprise fund that the village believes is particularly important to financial statement users may be reported as a major fund.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The village reports the following major governmental funds:

- General Fund - accounts for the village's primary operating activities. It is used to account for and report all financial resources except those accounted for and reported in another fund.
- Library Special Revenue Fund - accounts for resources legally restricted to supporting expenditures for the library.
- Debt Service Fund - used to account for and report financial resources that are restricted, committed, or assigned to expenditure for the payment of general long-term debt principal, interest, and related costs, other than TID or enterprise debt.
- Other Capital Projects Fund - accounts for the financial resources to be used for the acquisition or construction of equipment and/or major capital facilities.
- Tax Incremental District (TID) No. 3 Capital Projects Fund - used to account for and report financial resources that are restricted, committed, or assigned to expenditures outlined in the TID project plan.

As of and for the Year Ended December 31, 2016

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (cont.)

Fund Financial Statements (cont.)

The village reports the following major enterprise funds:

Water and Sewer Utility Fund - accounts for operations of the water and sewer systems
Stormwater Utility - accounts for operations of the stormwater system

The village reports the following nonmajor governmental funds:

Special Revenue Funds - used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes (other than debt service or capital projects).

Waste Management
Cemetery

Capital Projects Funds - used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

Tax Incremental District (TID) No. 4 Lake Restoration
Tax Incremental District (TID) No. 5

In addition, the village reports the following fund types:

Agency Funds - used to account for and report assets held by the village in a trustee capacity or as an agent for individuals, private organizations, and/or other governmental units.

Tax Collection Food Pantry
Fire and EMS District

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

Government-Wide Financial Statements

The government-wide statement of net position and statement of activities are reported using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Property taxes are recognized as revenues in the year for which they are levied. Taxes receivable for the following year are recorded as receivables and deferred inflows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider are met. Special assessments are recorded as revenue when earned. Unbilled receivables are recorded as revenues when services are provided.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Fund Financial Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the village considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on long-term debt, claims, judgments, compensated absences, and pension expenditures, which are recorded as a fund liability when expected to be paid with expendable available financial resources.

Property taxes are recorded in the year levied as receivables and deferred inflows. They are recognized as revenues in the succeeding year when services financed by the levy are being provided.

Intergovernmental aids and grants are recognized as revenues in the period the village is entitled the resources and the amounts are available. Amounts owed to the village which are not available are recorded as receivables and unavailable revenues. Amounts received before eligibility requirements (excluding time requirements) are met are recorded as liabilities. Amounts received in advance of meeting time requirements are recorded as deferred inflows.

Special assessments are recorded as revenues when they become measurable and available as current assets. Annual installments due in future years are reflected as receivables and unavailable revenues. Delinquent special assessments being held for collection by the county are reported as receivables and nonspendable fund balance in the general fund. Delinquent special assessments held by the county related to developers have also been recorded in the debt service and TID No. 3 funds.

Revenues susceptible to accrual include property taxes, miscellaneous taxes, public charges for services, special assessments and interest. Other general revenues such as fines and forfeitures, inspection fees, recreation fees, and miscellaneous revenues are recognized when received in cash or when measurable and available under the criteria described above.

VILLAGE OF BELLEVILLE

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2016

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION (cont.)

Fund Financial Statements (cont.)

Proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as described previously in this note. Agency funds follow the accrual basis of accounting, and do not have a measurement focus.

The proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water and sewer utility and stormwater utility are charges to customers for sales and services. Special assessments are recorded as receivables and contribution revenue when levied. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

All Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, and deferred inflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY

1. Deposits and Investments

For purposes of the statement of cash flows, the village considers all highly liquid investments with an initial maturity of three months or less when acquired to be cash equivalents.

Investment of village funds is restricted by Wisconsin state statutes. Available investments are limited to:

- a. Time deposits in any credit union, bank, savings bank or trust company maturing in three years or less.
- b. Bonds or securities of any county, city, drainage district, technical college district, village, town, or school district of the state. Also, bonds issued by a local exposition district, a local professional baseball park district, a local professional football stadium district, a local cultural arts district, the University of Wisconsin Hospitals and Clinics Authority, or the Wisconsin Aerospace Authority.
- c. Bonds or securities issued or guaranteed by the federal government.
- d. The local government investment pool.

VILLAGE OF BELLEVILLE

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2016

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (cont.)

1. Deposits and Investments (cont.)

- e. Any security maturing in seven years or less and having the highest or second highest rating category of a nationally recognized rating agency.
- f. Securities of an open-end management investment company or investment trust, subject to various conditions and investment options.
- g. Repurchase agreements with public depositories, with certain conditions.

The village has adopted an investment policy. That policy follows the state statute for allowable investments, and does not address the risks disclosed in Note III. A.

Investments are stated at fair value, which is the amount at which an investment could be exchanged in a current transaction between willing parties. Fair values are based on methods and inputs as outlined in Note III. A. No investments are reported at amortized cost. Adjustments necessary to record investments at fair value are recorded in the operating statement as increases or decreases in investment income. Investment income on commingled investments of municipal accounting funds is allocated based on average balances. The difference between the bank statement balance and carrying value is due to outstanding checks and/or deposits in transit.

See Note III. A. for further information.

2. Receivables

Property taxes are levied in December on the assessed value as of the prior January 1. In addition to property taxes for the village, taxes are collected for and remitted to the state and county governments as well as the local school district and technical college district. Taxes for all state and local governmental units billed in the current year for the succeeding year are reflected as receivables and due to other taxing units on the accompanying statement of assets and liabilities - agency funds.

Property tax calendar - 2016 tax roll:

Lien date and levy date	December 2016
Tax bills mailed	December 2016
Payment in full, or	January 31, 2017
First installment due	January 31, 2017
Second installment due	July 31, 2017
Personal property taxes in full	January 31, 2017
Tax sale - 2016 delinquent real estate taxes	October 2019

VILLAGE OF BELLEVILLE

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2016

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (cont.)

2. Receivables (cont.)

Delinquent real estate taxes as of July 31 are paid in full by the county, which assumes the collection thereof. No provision for uncollectible accounts receivable has been made for the water and sewer utilities because they have the right by law to place substantially all delinquent bills on the tax roll, and other delinquent bills are generally not significant.

During the course of operations, transactions occur between individual funds that may result in amounts owed between funds. Short-term interfund loans are reported as "due to and from other funds." Long-term interfund loans (noncurrent portion) are reported as "advances from and to other funds." Interfund receivables and payables between funds within governmental activities are eliminated in the statement of net position. Any residual balances outstanding between the governmental activities and business-type activities are reported in the governmental-wide financial statements as internal balances.

In the governmental fund financial statements, advances to other funds are offset equally by a nonspendable fund balance account which indicates that they do not constitute expendable available financial resources and, therefore, are not available for appropriation or by a restricted fund balance account, if the funds will ultimately be restricted when the advance is repaid.

3. Inventories and Prepaid Items

Governmental fund inventory items are charged to expenditure accounts when purchased. Year-end inventory was not significant. Proprietary fund inventories are generally used for construction and/or for operation and maintenance work. They are not for resale. They are valued at cost based on weighted average, and charged to construction and/or operation and maintenance expense when used.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

4. Restricted Assets

Mandatory segregations of assets are presented as restricted assets. Such segregations are required by bond agreements and other external parties. Current liabilities payable from these restricted assets are so classified. The excess of restricted assets over current liabilities payable from restricted assets will be used first for retirement of related long-term debt. The remainder, if generated from earnings, is shown as restricted net position.

VILLAGE OF BELLEVILLE

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2016

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (cont.)

5. Capital Assets

Government-Wide Statements

Capital assets, which include property, plant and equipment, are reported in the government-wide financial statements. Capital assets are defined by the government as assets with an initial cost of more than \$5,000 for general capital assets and \$15,000 for infrastructure assets, and an estimated useful life in excess of one year. All capital assets are valued at historical cost, or estimated historical cost if actual amounts are unavailable. Donated capital assets are recorded at their estimated fair value at the date of donation.

Additions to and replacements of capital assets of business-type activities are recorded at original cost, which includes material, labor, overhead, and an allowance for the cost of funds used during construction when significant. For tax-exempt debt, the amount of interest capitalized equals the interest expense incurred during construction netted against any interest revenue from temporary investment of borrowed fund proceeds. No interest was capitalized during the current year. The cost of renewals and betterments relating to retirement units is added to plant accounts. The cost of property replaced, retired or otherwise disposed of, is deducted from plant accounts and, generally, together with removal costs less salvage, is charged to accumulated depreciation.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation reflected in the statement of net position. Depreciation is provided over the assets' estimated useful lives using the straight-line method. The range of estimated useful lives by type of asset is as follows:

Buildings	25-40	Years
Land Improvements	20-30	Years
Machinery and Equipment	5-20	Years
Utility Systems	7-100	Years
Infrastructure	20-50	Years

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for the same way as in the government-wide statements.

6. Deferred Outflows of Resources

A deferred outflow of resources represents a consumption of net position/fund balance that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until that future time.

VILLAGE OF BELLEVILLE

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2016

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (cont.)

7. Compensated Absences

Under terms of employment, employees are granted sick leave and vacations in varying amounts. Only benefits considered to be vested are disclosed in these statements.

All vested vacation and sick leave pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements, and are payable with expendable resources. All vacation and compensatory balances at December 31, 2016 are considered current, because the village considers all carryover balances to be used prior to the use of the subsequent year's accruals. Sick leave is considered non-current. Vested vacation, sick and compensatory time is not material to the enterprise funds.

Payments for vacation, compensatory time and sick leave will be made at rates in effect when benefits are used. Accumulated vacation, sick and compensatory time liabilities at December 31, 2016 are determined on the basis of the current year's salary rates.

8. Long-Term Obligations

All long-term obligations to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements. The long-term obligations consist primarily of notes and bonds payable and accrued compensated absences.

Long-term obligations for governmental funds are not reported as liabilities in the fund financial statements. The face value of debts (plus any premiums) are reported as other financing sources and payments of principal and interest are reported as expenditures. The accounting in proprietary funds is the same as it is in the government-wide statements.

9. Deferred Inflows of Resources

A deferred inflow of resources represents an acquisition of net position/fund balance that applies to a future period and therefore will not be recognized as an inflow of resources (revenue) until that future time.

VILLAGE OF BELLEVILLE

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2016

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (cont.)

10. Equity Classifications

Government-Wide Statements

Equity is classified as net position and displayed in three components:

- a. Net investment in capital assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances (excluding unspent debt proceeds) of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net position - Consists of net position with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or, 2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position - All other net positions that do not meet the definitions of "restricted" or "net investment in capital assets."

The net position section includes an adjustment for capital assets owned by the business-type activities column, but financed by the debt of the governmental activities column. The amount is a reduction of "net investment in capital assets", and an increase in "unrestricted" net position, shown only in the total column. A reconciliation of this adjustment is as follows:

	Governmental Activities	Business-type Activities	Adjustment	Total
Net investment in capital assets	\$ 6,429,900	\$ 12,086,824	\$ (3,471,400)	\$ 15,045,324
Unrestricted	(2,928,845)	340,790	3,471,400	883,345

When both restricted and unrestricted resources are available for use, it is the village's policy to use restricted resources first, then unrestricted resources as they are needed.

Fund Statements

Governmental fund balances are displayed as follows:

- a. Nonspendable - Includes fund balance amounts that cannot be spent either because they are not in spendable form or because legal or contractual requirements require them to be maintained intact.
- b. Restricted - Consists of fund balances with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or 2) law through constitutional provisions or enabling legislation.

VILLAGE OF BELLEVILLE

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2016

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (cont.)

10. Equity Classifications (cont.)

Fund Statements (cont.)

- c. Committed - Includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision making authority. Fund balance amounts are committed through a formal action (resolution) of the Village Board. This formal action must occur prior to the end of the reporting period, but the amount of the commitment, which will be subject to the constraints, may be determined in the subsequent period. Any changes to the constraints imposed require the same formal action of the Village Board that originally created the commitment.
- d. Assigned - Includes spendable fund balance amounts that are intended to be used for specific purposes that do not meet the criteria to be classified as restricted or committed. The Board may take official action to assign amounts. Assignments may take place after the end of the reporting period.
- e. Unassigned - Includes residual positive fund balance within the general fund which has not been classified within the other above mentioned categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed, or assigned for those purposes.

Proprietary fund equity is classified the same as in the government-wide statements.

The village has a formal minimum fund balance policy. That policy, approved prior to implementation of GASB 54, is to maintain minimum undesignated fund balance of 17% of the general fund expenditure budget. There was unassigned fund balance in the general fund at year end of \$418,529, which is 27% of the 2017 budgeted expenditures in the general fund.

See Note III. G. for further information.

11. Pension

For purposes of measuring the net pension asset (liability), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Wisconsin Retirement System (WRS) and additions to/deductions from WRS' fiduciary net position have been determined on the same basis as they are reported by WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

VILLAGE OF BELLEVILLE

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2016

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (cont.)

12. Prior Period Information

The basic financial statements include certain prior-year summarized comparative information in total but not at the level of detail required for a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the government's financial statements for the year ended December 31, 2015, from which the summarized information was derived.

13. Basis for Existing Rates

Water and Sewer Utility

Current water rates were approved by the PSCW effective as of June 2, 2014. Current sewer rates were approved by the village board effective as of April 1, 2015.

Stormwater Utility

Current stormwater rates were approved by the village board effective June 2, 2014.

NOTE II - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. EXCESS EXPENDITURES OVER APPROPRIATIONS

<u>Fund</u>	<u>Budgeted Expenditures</u>	<u>Actual Expenditures</u>	<u>Excess Expenditures Over Budget</u>
Debt Service Fund	\$ 733,160	\$ 913,947	\$ 180,787
Other Capital Projects	104,900	116,541	11,641
Tax Incremental District No. 4	495	544	49
Tax Incremental District No. 5	20	43	23
Waste Management	137,203	141,096	3,893

The village controls expenditures at the department level. Some individual departments experienced expenditures which exceeded appropriations. The detail of those items can be found in the village's year-end budget to actual report.

VILLAGE OF BELLEVILLE

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2016

NOTE II - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (cont.)

B. DEFICIT BALANCES

Generally accepted accounting principles require disclosure of individual funds that have deficit balances at year end.

As of December 31, 2016, the following individual funds held a deficit balance:

<u>Fund</u>	<u>Amount</u>	<u>Reason</u>
Waste Management	\$ (43,251)	Operating expenditures exceeded revenues
Tax Incremental District No. 3	(356,120)	Operating expenditures exceeded revenues
Tax Incremental District No. 4	(15,567)	Operating expenditures exceeded revenues
Tax Incremental District No. 5	(15,016)	Operating expenditures exceeded revenues

TIF district deficits are anticipated to be funded with future incremental taxes levied over the life of the districts, which is 27 years for the districts created before October 1, 1995, and 23 years for districts created thereafter through September 30, 2004. Beginning October 1, 2004, the life of new districts varies by type of district (20-27 years) and may be extended in some cases.

The deficit in the Waste Management fund is anticipated to be funded with future tax revenues.

C. LIMITATIONS ON THE VILLAGE'S TAX LEVY

Wisconsin law limits the village's future tax levies. Generally the village is limited to its prior tax levy dollar amount (excluding TIF Districts), increased by the greater of the percentage change in the village's equalized value due to new construction or zero percent. Changes in debt service from one year to the next are generally exempt from this limit with certain exceptions. The village is required to reduce its allowable levy by the estimated amount of fee revenue it collects for certain services, if those services were funded in 2013 by the property tax levy. Levies can be increased above the allowable limits if the amount is approved by referendum.

VILLAGE OF BELLEVILLE

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2016

NOTE III - DETAILED NOTES ON ALL FUNDS

A. DEPOSITS AND INVESTMENTS

The village's deposits and investments at year end were comprised of the following:

	Carrying Value	Statement Balances	Associated Risks
Demand deposits	\$ 4,992,161	\$ 5,372,181	Custodial credit risk
Petty cash	75	-	N/A
 Total Deposits and Investments	 \$ 4,992,236	 \$ 5,372,181	
 Reconciliation to financial statements			
Per statement of net position			
Unrestricted cash and investments	\$ 624,940		
Restricted cash and investments	2,078,207		
Per statement of assets and liabilities			
Agency Funds	2,289,089		
 Total Deposits and Investments	 \$ 4,992,236		

Deposits in each local and area bank are insured by the FDIC in the amount of \$250,000 for time and savings accounts (including NOW accounts) and \$250,000 for demand deposit accounts (interest-bearing and noninterest-bearing). In addition, if deposits are held in an institution outside of the state in which the government is located, insured amounts are further limited to a total of \$250,000 for the combined amount of all deposit accounts.

Bank accounts are also insured by the State Deposit Guarantee Fund in the amount of \$400,000. However, due to the nature of this fund, recovery of material principal losses may not be significant to individual municipalities. This coverage has been considered in computing custodial credit risk.

The village maintains collateral agreements with its banks. At December 31, 2016, the banks had pledged various government securities in the amount of \$4,204,766 to secure the village's deposits.

VILLAGE OF BELLEVILLE

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2016

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

A. DEPOSITS AND INVESTMENTS (cont.)

Custodial Credit Risk

Deposits

Custodial credit risk is the risk that in the event of a financial institution failure, the village's deposits may not be returned to the village.

As of December 31, 2016, \$267,415 of the village's total bank balances were exposed to custodial credit risk as follows:

Uninsured and uncollateralized	<u>\$</u>	<u>267,415</u>
Total	<u>\$</u>	<u>267,415</u>

See Note I.D.1. for further information on deposit and investment policies.

B. RECEIVABLES

All of the receivables on the balance sheet are expected to be collected within one year except the special assessment receivables of \$379,746, \$40,000 in pledges receivable, and delinquent personal property taxes and delinquent special assessments of \$542 and \$129,631, respectively.

Governmental funds report *unavailable or unearned revenue* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Property taxes levied for the subsequent year are not earned and cannot be used to liquidate liabilities of the current period.

Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of *unavailable revenue* and *unearned revenue* reported in the governmental funds were as follows:

	<u>Unearned</u>	<u>Unavailable</u>	
Property taxes receivable for subsequent year	\$ 1,921,122	\$ 231,417	
Special assessments not yet due	-	379,746	
Pledges	-	40,000	
Grants	-	<u>21,677</u>	
 Total Unearned/Unavailable Revenue for Governmental Funds	 <u>\$ 1,921,122</u>	 <u>\$ 672,840</u>	

VILLAGE OF BELLEVILLE

As of and for the Year Ended December 31, 2016

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

C. RESTRICTED ASSETS

The following represent the balances of the restricted assets:

Long-Term Debt Accounts

- Redemption - Used to segregate resources accumulated for debt service payments over the next twelve months.
- Reserve - Used to report resources set aside to make up potential future deficiencies in the redemption account.
- Construction - Used to report proceeds of revenue bond issuances that are restricted for use in construction.

Equipment Replacement Account

The sewer utility established an equipment replacement account to be used for significant mechanical equipment replacement as required by the Wisconsin Department of Natural Resources.

Following is a list of restricted assets at December 31, 2016:

	Restricted Assets	Liabilities Payable from Restricted Assets	Restricted Net Position
Redemption/reserve accounts	\$ 339,924	\$ 19,976	\$ 319,948
Equipment replacement account	454,734	-	454,734
Debt service reserve - governmental activities	141,500	-	141,500
Total	\$ 936,158	\$ 19,976	\$ 916,182

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

D. CAPITAL ASSETS (cont.)

Depreciation expense was charged to functions as follows:

Business-type Activities

Water	\$ 108,233
Sewer	419,482
Storm	<u>51,970</u>
 Total Business-type Activities Depreciation Expense	 <u><u>\$ 579,685</u></u>

Depreciation expense may be different from business-type activity capital asset additions because of joint metering, salvage, cost of removal, internal allocations, or costs associated with the disposal of assets.

E. INTERFUND RECEIVABLES/PAYABLES, ADVANCES AND TRANSFERS

Interfund Receivables/Payables

The following is a schedule of interfund receivables and payables including any overdrafts on pooled cash and investment accounts:

Receivable Fund	Payable Fund	Amount
General fund	Water and sewer utility	<u><u>\$ 58,441</u></u>

All amounts are due within one year.

The principal purpose of this interfund is to account for amounts paid by the general fund on behalf of the water and sewer utility and to accrue other items owed to the general fund. All remaining balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

E. INTERFUND RECEIVABLES/PAYABLES, ADVANCES AND TRANSFERS (cont.)

Transfers

The following is a schedule of interfund transfers:

Fund Transferred To	Fund Transferred From	Amount	Principal Purpose
	Tax Incremental District		
Debt service fund	No. 3	\$ 213,145	TID share of debt service
General fund	Water and sewer utility	61,539	Payment in lieu of taxes
General fund	Water and sewer utility	67,712	Transfer for debt service
Water and sewer utility	General fund	67,712	Transfer of surplus funds
Other capital projects	General fund	7,596	Transfer of fire dues
Debt service fund	Stormwater utility	25,850	Debt service
Total - Fund Financial Statements		443,554	
Less: Fund eliminations		(356,165)	
Total Transfers - Government-Wide Statement of Activities		\$ 87,389	
<hr/>			
Fund Transferred To	Fund Transferred From	Amount	
Governmental Activities	Business-type Activities	\$ 155,101	
Business-type Activities	Governmental Activities	(67,712)	
Total Government-wide Financial Statements		\$ 87,389	

Generally, transfers are used to (1) move revenues from the fund that collects them to the fund that the budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

F. LONG-TERM OBLIGATIONS (cont.)

General Obligation Debt

All general obligation notes and bonds payable are backed by the full faith and credit of the village. Notes and bonds in the governmental funds will be retired by future property tax levies or tax increments accumulated by the debt service fund. Business-type activities debt is payable by revenues from user fees of those funds or, if the revenues are not sufficient, by future tax levies.

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

F. LONG-TERM OBLIGATIONS (cont.)

Revenue Debt

Business-type activities revenue bonds are payable only from revenues derived from the operation of the sewer and water utilities.

The sewer utility has pledged future sewer revenues, net of specified operating expenses, to repay revenue bonds issued in 1996 and 2007. Proceeds from the bonds provided financing for the capital projects. The bonds are payable solely from sewer revenues and are payable through 2026. Annual principal and interest payments on the bonds are expected to require 75% of net revenues. The total principal and interest remaining to be paid on the bonds is \$4,428,309. Principal and interest paid for the current year and total customer net revenues were \$611,394 and \$587,598, respectively.

The water utility has pledged future water revenues, net of specified operating expenses, to repay revenue bonds issued in 2015. Proceeds from the bonds provided financing for the capital projects. The bonds are payable solely from water revenues and are payable through 2025. Annual principal and interest payments on the bonds are expected to require 42% of net revenues. The total principal and interest remaining to be paid on the bonds is \$908,635. Principal and interest paid for the current year and total customer net revenues were \$90,948 and \$238,176, respectively.

Revenue debt payable at December 31, 2016, consists of the following:

Business-type Activities Revenue Debt

	<u>Date of Issue</u>	<u>Final Maturity</u>	<u>Interest Rates</u>	<u>Original Indebtedness</u>	<u>Balance December 31, 2016</u>
<u>Sewer Utility</u>

H. COMPONENT UNIT

BELLEVILLE COMMUNITY DEVELOPMENT AUTHORITY

This report contains the Belleville Community Development Authority (CDA), which is included as a component unit.

In addition to the basic financial statements and the preceding notes to financial statements which apply, the following additional disclosures are considered necessary for a fair presentation.

a. Basis of Accounting/Measurement Focus

The CDA follows the modified accrual basis of accounting and the flow of financial resources measurement focus. For this purpose, revenues are considered to be available if they are collected within 60 days of the end of the current fiscal year except for reimbursement grants, for which available is defined as 180 days.

NOTE IV - OTHER INFORMATION

A. EMPLOYEES' RETIREMENT SYSTEM

Plan description. The WRS is a cost-sharing multiple-employer defined benefit pension plan. WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible State of Wisconsin, local government and other public employees. All employees, initially employed by a participating WRS employer on or after July 1, 2011, and expected to work at least 1200 hours a year and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS.

ETF issues a standalone Comprehensive Annual Financial Report (CAFR), which can be found at <http://etf.wi.gov/publications/cafr.htm>.

Vesting. For employees beginning participation on or after January 1, 1990, and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998, and prior to July 1, 2011, are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011, must have five years of creditable service to be vested.

Benefits provided. Employees who retire at or after age 65 (54 for protective occupation employees, 62 for elected officials and State executive participants) are entitled to receive an unreduced retirement benefit. The factors influencing the benefit are: (1) final average earnings, (2) years of creditable service, and (3) a formula factor.

VILLAGE OF BELLEVILLE

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2016

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Final average earnings is the average of the participant's three highest years' earnings. Creditable service is the creditable current and prior service expressed in years or decimal equivalents of partial years for which a participant receives earnings and makes contributions as required. The formula factor is a standard percentage based on employment category.

Employees may retire at age 55 (50 for protective occupation employees) and receive reduced benefits. Employees terminating covered employment before becoming eligible for a retirement benefit may withdraw their contributions and forfeit all rights to any subsequent benefits.

The WRS also provides death and disability benefits for employees.

Post-retirement adjustments. The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system's consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases. By law, Core annuities cannot be reduced to an amount below the original, guaranteed amount (the "floor") set at retirement. The Core and Variable annuity adjustments granted during recent years are as follows:

<u>Year</u>	<u>Core Fund Adjustment</u>	<u>Variable Fund Adjustment</u>
2006	0.8%	3%
2007	3.0	10
2008	6.6	0
2009	(2.1)	(42)
2010	(1.3)	22
2011	(1.2)	11
2012	(7.0)	(7)
2013	(9.6)	9
2014	4.7	25
2015	2.9	2

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2016

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Contributions. Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for General category employees and Executives and Elected Officials. Required contributions for protective employees are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement.

During the reporting period, the WRS recognized \$62,242 in contributions from the village.

Contribution rates as of December 31, 2016 are:

<u>Employee Category</u>	<u>Employee</u>	<u>Employer</u>
General	6.6%	6.6%
Executives & Elected Officials	6.6%	6.6%
Protective with Social Security	6.6%	9.4%
Protective without Social Security	6.6%	13.2%

Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2016, the village reported a liability of \$101,274 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2014 rolled forward to December 31, 2015. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The village's proportion of the net pension liability was based on the village's share of contributions to the pension plan relative to the contributions of all participating employers. At December 31, 2015, the village's proportion was 0.00623230%, which was a decrease of 0.00003250% from its proportion measured as of December 31, 2014.

For the year ended December 31, 2016, the village recognized pension expense of \$123,325.

VILLAGE OF BELLEVILLE

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2016

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

At December 31, 2016, the village reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 17,132	\$ 213,129
Changes in assumptions	70,855	-
Net differences between projected and actual earnings on pension plan investments	414,644	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	7,153	-
Employer contributions subsequent to the measurement date	60,995	-
Totals	\$ 570,779	\$ 213,129

\$60,995 reported as deferred outflows related to pension resulting from the WRS Employer's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability (asset) in the year ended December 31, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Year Ended December 31:	Deferred Outflows of Resources	Deferred Inflows of Resources
2017	\$ 132,476	\$ 51,578
2018	132,476	51,578
2019	132,476	51,578
2020	110,003	51,578
2021	2,353	6,817

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Actuarial assumptions. The total pension liability in the December 31, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Valuation Date:	December 31, 2014
Measurement Date of Net Pension Liability (Asset)	December 31, 2015
Actuarial Cost Method:	Entry Age
Asset Valuation Method:	Fair Market Value
Long-Term Expected Rate of Return:	7.2%
Discount Rate:	7.2%
Salary Increases:	
Inflation	3.2%
Seniority/Merit	0.2% - 5.6%
Mortality:	Wisconsin 2012 Mortality Table
Post-retirement Adjustments*:	2.1%

** No post-retirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 2.1% is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate.*

Actuarial assumptions are based upon an experience study conducted in 2012 using experience from 2009 – 2011. The total pension liability for December 31, 2015 is based upon a roll-forward of the liability calculated from the December 31, 2014 actuarial valuation.

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Long-term expected return on plan assets. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Core Fund Asset Class</u>	<u>Current Asset Allocation %</u>	<u>Destination Target Asset Allocation %</u>	<u>Long-Term Expected Nominal Rate of Return %</u>	<u>Long-Term Expected Real Rate of Return %</u>
U.S. Equities	27%	23%	7.6%	4.7%
International Equities	24.5	22	8.5	5.6
Fixed Income	27.5	37	4.4	1.6
Inflation Sensitive Assets	10	20	4.2	1.4
Real Estate	7	7	6.5	3.6
Private Equity/Debt	7	7	9.4	6.5
Multi-Asset	4	4	6.7	3.8
Total Core Fund	107	120	7.4	4.5
 <u>Variable Fund Asset Class</u>				
U.S Equities	70	70	7.6	4.7
International Equities	30	30	8.5	5.6
Total Variable Fund	100	100	7.9	5.0

New England Pension Consultants Long Term US CPI (Inflation) Forecast: 2.75%

Asset Allocations are managed within established ranges, target percentages may differ from actual monthly allocations

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2016

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Single discount rate. A single discount rate of 7.20% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 7.20% and a long term bond rate of 3.56%. Because of the unique structure of WRS, the 7.20% expected rate of return implies that a dividend of approximately 2.1% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the village's proportionate share of the net pension liability to changes in the discount rate. The following presents the village's proportionate share of the net pension liability calculated using the discount rate of 7.20 percent, as well as what the village's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.20 percent) or 1-percentage-point higher (8.20 percent) than the current rate:

	1% Decrease to Discount Rate (6.20%)	Current Discount Rate (7.20%)	1% Increase to Discount Rate (8.20%)
Village's proportionate share of the net pension liability (asset)	\$ 710,335	\$ 101,274	\$ (374,414)

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in separately issued financial statements available at <http://etf.wi.gov/publications/cafr.htm>.

At December 31, 2016, the village reported a payable to the pension plan of \$4,008, which represents contractually required contributions outstanding as of the end of the year.

B. RISK MANAGEMENT

The village is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; workers compensation; and health care of its employees. All of these risks are covered through the purchase of commercial insurance, with minimal deductibles. Settled claims have not exceeded the commercial coverage in any of the past three years. There were no significant reductions in coverage compared to the prior year.

C. COMMITMENTS AND CONTINGENCIES

Claims and judgments are recorded as liabilities if all the conditions of Governmental Accounting Standards Board pronouncements are met. The liability and expenditure for claims and judgments are only reported in governmental funds if it has matured. Claims and judgments are recorded in the government-wide statements and proprietary funds as expenses when the related liabilities are incurred.

VILLAGE OF BELLEVILLE

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2016

NOTE IV - OTHER INFORMATION (cont.)

C. COMMITMENTS AND CONTINGENCIES (cont.)

From time to time, the village is party to various pending claims and legal proceedings. Although the outcome of such matters cannot be forecasted with certainty, it is the opinion of management and the village attorney that the likelihood is remote that any such claims or proceedings will have a material adverse effect on the village's financial position or results of operations.

The village has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under terms of the grants. Management believes such disallowances, if any, would be immaterial.

The village has active construction projects as of December 31, 2016. Work that has been completed on these projects but not yet paid for (including contract retainages) is reflected as accounts payable and expenditures.

The village has the following encumbrances outstanding at year end expected to be honored upon performance by the vendor:

CDA	\$	43,450
-----	----	--------

D. JOINT VENTURES

The Village of Belleville and the Towns of Montrose, Exeter, Oregon, Brooklyn, and Primrose jointly operate the fire and emergency medical association. The governing body is made up of citizens from each community. Local representatives are appointed by the village board. The governing body has authority to adopt its own budget and control the financial affairs of the association. The fire and emergency medical association does not issue financial statements and the transactions of the association are not reflected in these financial statements.

The village accounts for its share of the operations in the general fund. During 2016, the village made payments of \$56,336 and \$20,052 to the association for Fire and EMS, respectively. The village has an equity interest in the organization equal to its percentage share of participation. The equity interest has not been reported in these financial statements.

NOTE IV - OTHER INFORMATION (cont.)

E. EFFECT OF NEW ACCOUNTING STANDARDS ON CURRENT-PERIOD FINANCIAL STATEMENTS

The Governmental Accounting Standards Board (GASB) has approved the following:

- > *Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not Within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*
- > *Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*
- > *Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*
- > *Statement No. 80, Blending Requirements for Certain Component Units - an Amendment of GASB Statement No. 14*
- > *Statement No. 81, Irrevocable Split-Interest Agreements*
- > *Statement No. 82, Pension Issues - an Amendment of GASB Statements No. 67, No. 68, and No. 73*

When they become effective, application of these standards may restate portions of these financial statements.

VILLAGE OF BELLEVILLE

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION For the Year Ended December 31, 2016

BUDGETARY INFORMATION

Budgetary information is derived from the annual operating budget and is presented using the same basis of accounting for each fund as described in Note I. C.

The budgeted amounts presented include any amendments made. The village may authorize transfers of budgeted amounts within departments. Transfers between departments and changes to the overall budget must be approved by a two-thirds action.

Appropriations lapse at year end unless specifically carried over. Carryovers to the following year were \$1,500. Budgets are adopted at the function level of expenditure.

WISCONSIN RETIREMENT SYSTEM

The amounts determined for each fiscal year were determined as of the calendar year-end and occurred within the fiscal year.

The village is required to present the last ten years of data; however accounting standards allow the presentation of as many years as are available until ten fiscal years are presented.

Changes in benefit terms. There were no changes of benefit terms for any participating employer in the Wisconsin Retirement System.

Changes in assumptions. There were no changes in assumptions.

SUPPLEMENTARY INFORMATION
