Re: New ordinance

---

I have been notified by the Hackensack Police Department that beginning today police will be issuing a citation to persons who are viewed to be in public with an open container of alcohol. I will be receiving copies of these summons for persons staying in the shelter. Any person staying in the shelter who receives such a summons will need to have a discussion with staff about this behavior. As you know, if at any time guests are interested in receiving treatment for alcohol and or other drug problems please see staff immediately who can help you to identify the proper referrals. Thank you for your cooperation.
