XIII. ADJOURNMENT

COUNCIL OF THE TOWN OF BLADENSBURG WORK SESSION MINUTES - DRAFT February 12, 2024 - 5:30 PM

CALL TO ORDER

Mayor Takisha James called the meeting to order at 5:30 pm.

Council Members McBryde, Brown, and Dixon were present. Also present were Code Supervisor Rinehart, Chief Collington, Treasurer Tinelli, and Town Administrator Michelle Bailey-Hedgepeth.

APPROVAL OF AGENDA

Mayor James requested a motion to approve the amended meeting agenda. Council Member Brown motioned, and Council Member Dixon seconded the motion. No questions or comments were presented, and the motion passed 4-0.

APPROVAL OF MINUTES

Council Member Brown motioned to approve the January 8, 2024, work session minutes, and Council Member McBryde seconded the motion. Mayor James suggested that items under the Legislative Update should mention the exact House Bill and Senate Bill numbers to track these. The motion passed 4-0.

APPROVED ABSENCE

Mayor James said Council Member Blount could not attend this evening's meeting and requested a motion to approve her absence. Council Member Brown motioned to approve her absence, and Council Member McBryde seconded. The motion passed 4-0.

OLD BUSINESS

UNFINISHED BUSINESS

FY 2024 and FY 2025 Budget Update:

Mr. Tinelli provided the Town Council with highlights of the current FY 2024 financials as compared to the budget and gave information on the FY 2025 Budget along with the Budget calendar.

- Revenues overall are just above budget through January, with almost \$7.5M received to date.
- Overall, expenses are in line with budget, with some departments being over/under budget, but these are due to staff vacancies or expenses being frontloaded early in the fiscal year.
- Mayor James asked if there are any large capital purchases that need to be made before the end of the fiscal year. Administrator Hedgepeth said we should only see the grant-funded projects already budgeted for and the vehicles part of the budget amendment being presented tonight.

- The total real property assessments of \$565M were reviewed, along with how the Town's tax rate funds the budget every year. New assessments from the State for the next fiscal year will be released later this week.
- Budget challenges for FY25: ARPA funds will be going away, funding increases for staff COLA and Merit increases, continued funding of new positions in Public Works and Public Safety, increases in insurance, and vehicle replacements. Also, we need to budget for the long term for future funding of a new Town Hall.
- Tax rates for real property and business personal property were shared between all the municipalities in the County and where Bladensburg ranks.
- FY25 budget calendar was shared, and dates were confirmed again but these can be changed as needed. Sine Die day for the State is on April 8th which is the same date as our April monthly meeting. We can change our meeting date if needed.

FINANCIAL BUSINESS

- 1. Adoption and Approval of the FY 2023 Financial Statements and Audit Report completed by LSWG-certified Public Accountants. Mr. Tinelli provided the Town Council with highlights of the FY 2023 Audit and an overview of the report and information cited by the auditors.
 - Findings—Treasurer Tinelli said the Town's first finding was three-time sheets that did
 not have supervisory signatures. We responded with a corrective statement and
 clarified adhesion to the internal control procedures of having all time sheets properly
 approved and signed off on.
 - Mayor James stated that even with this finding, which is minor but the Town takes seriously, we still have a positive audited opinion, which she read from the audit stating, "in our (their) opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Town of Bladensburg as of June 30, 2023.
 - Eva Webb from LSWG will discuss this at the Mayor and Council meeting.
- 2. **Budget Adjustment 6-2024:** Mayor James read a proposed budget amendment for the purchase of two (2) 2023 Ford Police Interceptors and one (1) 2023 Dodge Ram 1500 from New Holland Auto Group for the Police Department, in an amount not to exceed \$135,188, to be funded from Speed Camera proceeds.
 - Administrator Hedgepeth said these are replacements for vehicles damaged and totaled in accidents. They will be funded from the Speed Camera funds, but Insurance proceeds for the totaled vehicles will be recognized in the General Fund. Mayor James asked to have our insurance claims history reviewed as well.
- 3. Budget Adjustment 7 –2024: Administrator Hedgepeth read a proposed budget adjustment for expenses related to the purchase of portable light towers with cameras from Mobile Pro Systems, not to exceed \$158,230, to be funded from Speed Camera proceeds.
 - Based on crime statistics, these will expand the current light towers in place in other areas, and they are in high demand.

NEW BUSINESS

- 1. **Contract Approval 11-2024:** Approval to allow the Town Administrator to execute a contract with Bates to renew trash and garbage collection services for five (5) years with two (2) one-year renewals beginning March 1, 2024. Two-day weekly collection service along with bulk trash will continue with the following major changes:
 - Rate increased from \$24 per household to \$26 per household.
 - CPI adjustment beginning March 2026;
 - Added a new location for an additional town dumpster.
 - Fuel surcharge will only kick in when diesel rises above \$4.99/gallon;
 - This contract is still cheaper than the state trash contracts for our area, and Bates is a Town business, and;
 - The County still handles recycling through Bates and is not a Town service.
- 2. Contract Approval 12-2024: Approval to allow the Town Administrator to execute a contract with Low Impact Design Center for \$30,227. This is for the preparation of documents for future grants and planning activities, which will expand our funding opportunities. Specifically, this is for planning support for stormwater management projects with financial and technical assistance. This work will be done in the spring and summer of 2024.
- 3. **Resolution 6-2024:** A RESOLUTION of the Town of Bladensburg, Maryland, Supporting Legislative Initiatives that Re-establish Local Land Use Authority in Prince George's County. This is a resolution of support for pending State legislation that would allow local municipalities within Prince George's County to have the option to form a Planning Body. Council Member Brown asked about the cost considerations, but our lobbyist, Tony Perez, said municipalities could opt out.
- 4. **Resolution 7-2024:** A RESOLUTION concerning a Taskforce to Plan Celebrations for the Semiquincentennial 250th Anniversary of the United States of America. The Mayor is currently a member of the Statewide task force appointed by the Governor to plan this. We should lead by example by having the Town do this locally as well.

5. Legislative Session Updates:

- The MAGLEV committee hearing will be on February 22^{nd.}
- PGCMA is supporting legislation for local audits to be completed in a timely manner unless there is a good and qualifying reason such as staff vacancies.
- The Town sent a letter supporting the retail theft bill.
- A bill to fund the Comprehensive Flood Management Grant Program for underserved and overburdened communities is in the works, and the Mayor and Council may want to send a letter of support.

- Mayor James said the Town may want to submit a letter of support for the Maryland Medical Assistance Program to fund an annual mental health physical for bill SB124 and for the cross-filed bill in the House.
- The Mayor discussed bill HB266, which establishes a bill of rights for unit owners of homeowner and condo associations.
- HB280 is for a taxing authority to set aside funds for emergency repairs and maintenance for buildings with condo and homeowner associations. Staff said this would reduce the amount of revenues based on assessments if we had to hold back tax revenues to cover this.

6. Green Team Update (INFORMATION ONLY):

Staff presented information on the most recent meeting of the Town's Green Team. The team was formed so that the Town can comply with the Sustainable Communities Certification from the University of Maryland, which is recognized at MML.

7. Town Administrator updates/ Staff Reports – these are submitted in the Council Meeting packet.

ADJOURNMENT

Mayor James asked for a motion to adjourn the meeting. Council Member Brown motioned to adjourn the meeting, which Council Member McBryde seconded. The motion passed 5-0.

The meeting was adjourned at 6:42 PM

Town of Bladensburg, Maryland RESOLUTION NO. 8-2024

Date Introduced: March 11, 2024

Date Adopted: March 11, 2024

Date Effective: March 11, 2024

A RESOLUTION PROVIDING FOR A VISION ZERO POLICY TO ELIMINATE FATALITIES AND SERIOUS INJURIES THAT ARE A RESULT OF CRASHES ON STREETS WITHIN THE INCORPORATED LIMITS OF THE TOWN OF BLADENSBURG BY JANUARY 1, 2030.

WHEREAS, one death on our streets is one too many, and

WHEREAS, crashes that result in death or serious injury are not inevitable but largely preventable and stem in part from human inattention and designs that are ineffective in accommodating multimodal uses in urban environments and

WHEREAS, a commitment to Vision Zero is a commitment to life and equitable opportunity for people in the Town of Bladensburg and

WHEREAS, it is the role of government to do its part to serve and protect the populace; and

WHEREAS, the Town of Bladensburg is recognized and strives to be continually acknowledged as a healthy, attractive, desirable, and safe Town; and

WHEREAS, Bladensburg has a strong history of commitment to prioritizing safety and recently completed, or will soon complete, crash studies for both bicyclists and pedestrians and has made demonstrable progress in improving safety for walking and biking by making systemic changes in the way the transportation network is planned, programmed, designed, constructed, and operated, and

WHEREAS, hundreds of crashes occur in the Town each year, resulting in serious injuries and other injuries and

WHEREAS, the number of people dying and suffering serious injuries on our streets is a serious public health problem that necessitates public action; and

WHEREAS, crashes on streets within the incorporated limits of the Town of Bladensburg necessitate a comprehensive and specific approach to street planning, design, policy,

enforcement, legal processes, education, and communication to provide the most powerful solution to solve the problem; and

WHEREAS, an example of how design and policy impact safety is shown through multiple studies that demonstrate the chances of a pedestrian being killed by a car traveling 20 mph is 10% while the chances of being killed when struck by a car traveling 40 mph is 80%; and

WHEREAS, Vision Zero aligns with the Town of Bladensburg' Public Safety Policies by prioritizing our most vulnerable roadway users and encouraging balance among all users of the Town's transportation network; and

WHEREAS, choosing active transportation options like walking and biking decreases mortality and morbidity from obesity-related diseases such as heart disease and diabetes, and creating safer streets is likely to encourage more active transportation, thereby increasing population health; and

WHEREAS, the Town of Bladensburg is actively working to ensure technology advances in automation, connected vehicles, and other emerging technologies happen for and with us, rather than to us, by partnering with national allies and industry leaders that focus on these advancements because the Town recognizes the promise of these technologies to increase safety on our streets greatly; and

WHEREAS, implementing a Vision Zero commitment requires the contributions of the Town's Public Information Officer, Prince George's County Health Department, Town's Police Department, Community Planning and Economic Development Department, Neighborhood and Community Relations, Town Administrators Office, Public Works Department, and Mayor and Council, all of which have demonstrated through past actions and future intentions the willingness to support and implement the Vision Zero commitment; and

WHEREAS, implementing a Vision Zero commitment requires the continued support of residents, business owners, and visitors to the Town of Bladensburg, acting as individuals and collectively through neighborhood or advocacy organizations to improve the safety, comfort, and usability of Town streets for all users; and

WHEREAS, Bladensburg will join other leading cities around the nation, the State of Maryland, Prince George's County, in their commitment to eliminate traffic deaths and serious injuries on our streets; and

NOW, THEREFORE, BE IT RESOLVED, by The Town Council of Bladensburg commits to a goal of zero deaths and serious injuries that are a result of crashes on Town streets by January 1, 2030; and

BE IT FURTHER RESOLVED, that the Town of Bladensburg acknowledges that achieving this goal requires significant effort and resources and adopts the State of Maryland Strategic Highway Safety Plan, the coinciding and supporting Prince George's County Strategic Roadway Safety Plan, and the infrastructure-specific State of Maryland Consolidated Transportation Plan as a the Town's Vision Zero Action Plan acknowledging that these documents work together

providing an operational foundation to help achieve Vision Zero in the Town of Bladensburg; and

BE IT FURTHER RESOLVED, that the Vision Zero Action Plan will put equity at its forefront, striving to impact the most vulnerable and dependent users of the most dangerous parts of the transportation network to improve the health and well-being of those traveling on streets in the Town of Bladensburg, and the Plan will use data and community outreach to develop strategies that aim to end death and serious injuries on Town streets in the effort to ensure outcomes will be experienced equitably throughout the Town; and

BE IT FURTHER RESOLVED, that the Vision Zero Action Plan will draw heavily from those who use our streets, including those who live in areas that experience high crash rates, those who advocate for safer streets for all modes, and the general public, through a diverse range of outreach activities designed to understand both concerns and opportunities with advancing this vision, and by using their input and refined data to determine appropriate and effective steps to achieve in the Vision Zero Action Plan; and

BE IT FURTHER RESOLVED, that the Vision Zero Action Plan will use data and best practices to outline concrete steps in planning, engineering, policy, enforcement, and education to reach interim steps toward zero deaths; and

BE IT FURTHER RESOLVED, that the Town of Bladensburg will work with partners in the region who own and manage streets in the Town to influence the street planning, design, maintenance, operations, and law enforcement, including the State of Maryland, Prince George's County, the Maryland National Capital Park and Planning Commission, Metro Transit, and neighboring municipalities to combine similar efforts and leverage individual work efforts to contribute to improvements in safety region-wide; and

BE IT FURTHER RESOLVED, that the Vision Zero task force may consist of members of the following organizations: the Mayor and Town Council of Bladensburg, the Town of Bladensburg Police Department, Town of Bladensburg Fire Department, Town of Bladensburg Department of Public Works, Maryland Department of Transportation – State Highway Administration, Maryland State Highway Maryland Highway Safety Office, Municipal Grant Services, related traffic safety vendors, other Town staff and regional partners as appropriate to advance the Vision Zero commitment and guide the work of the Vision Zero Action Plan which will specifically engage members of the community, which could include establishing a Vision Zero Advisory Committee; and

BE IT FURTHER RESOLVED, that the Town of Bladensburg acknowledges and accepts that the Vision Zero Action Plan may result in changes to the Town's approach to the planning and design of streets, education and communication techniques, enforcement policies and procedures, and legal and legislative frameworks including the potential to advocate for reduced Town speed limits; and

BE IT FURTHER RESOLVED, that the Town of Bladensburg is dedicated to measuring the progress, challenges, and successes of the Vision Zero commitment and will do so with tangible,

reportable metrics that will be reported upon on an areports.	annual basis, along with biannual progress
BE IT FURTHER RESOLVED that this Resolut March 2024 and shall take effect immediately upon	
Attest:	
Michelle Bailey-Hedgepeth Town Administrator/ Acting Town Clerk	Takisha D. James, Mayor

March 2024 - PRESS RELEASE

Bladensburg, MD FOR IMMEDIATE RELEASE:

The Mayor and Council of the Town of Bladensburg are pleased to announce that the State of Maryland and Prince George's County Strategic Highway Safety Plan has been adopted. Chief Collington highlighted the importance of preserving human lives by effectively collaborating and coordinating operations among all the relevant agencies, communities, and state and federal partners involved.

The Police Department has been tasked with leading the Vision Zero initiative, which is a comprehensive approach to eliminating death and serious injury on roadways. The initiative aims to unite all stakeholders to implement proven strategies that promote safer driving habits, improve infrastructure, and increase public awareness. By creating a culture of safety that benefits everyone on the road, Vision Zero hopes to make our communities safer and more secure for generations to come.

Every year, over **30,000** individuals die on the streets of the United States, and thousands more suffer injuries. In Prince George's County, between 2018 and 2022, there were **547** fatalities and 21,622 accidents resulting in injuries. Pedestrians and bicyclists were disproportionately represented in these numbers.

Vision Zero is a comprehensive and multidisciplinary strategy that seeks to eliminate traffic-related deaths and serious injuries by promoting safer, healthier, and more equitable mobility options for everyone. This collaborative effort involves stakeholders from diverse fields, such as transportation, public health, law enforcement, and community advocacy, all working together to create safer streets and communities. By implementing evidence-based interventions, such as street redesigns, speed limit reductions, and public education campaigns, Vision Zero aims to prioritize human life over convenience and speed.

In 1997, the Swedish parliament made a mandate that aimed to decrease traffic fatalities to zero, which was called Vision Zero. In 2012, Chicago became the first city in the US to adopt Vision Zero and commit to it. Following Chicago's example, many other jurisdictions have also adopted Vision Zero, including the State of Maryland. In 2016, the state implemented Toward Zero Deaths through its Strategic Highway Safety Plan (SHSP) and later adopted Vision Zero through legislation in 2019. Prince Georges, Montgomery, Harford, Cecil, Howard, Carroll, and Baltimore County have all adopted a local SHSP, encouraged by the MDOT Secretary.

Vision Zero is a data-driven approach to eliminating death and serious injuries on roadways. The Town of Bladensburg and the State of Maryland share this goal. This Plan has been the effort of many Town, County, and State stakeholders who are dedicated to eliminating fatal or serious injuries by engineering the roads, educational campaigns, and enforcement programs. The plan allows all the agencies to collaborate regularly to develop strategies and share information to

work toward a common goal. The collaborative effort reduces duplicity and working in silos, resulting in a cohesive, more effective outcome. Mayor Takisha James commented, "Thanks to the many individuals who have, and will continue to have, a role in developing and implementing this plan."

Like many other towns and states nationwide, the Town of Bladensburg has developed a plan to eliminate death and serious injuries caused by road accidents. The plan involves analyzing data to identify the types of accidents that occur, categorizing them, and then developing countermeasures using the four "Es"—engineering, Enforcement, Engagement/Education, and Emergency Services. Additionally, the plan includes two overarching "Es"—equity and Evaluation.

By adopting this plan, the Town can position itself to be eligible for federal and state grant money, which can be used to fund safety-related projects.

We invite everyone to join us in our efforts to achieve Vision Zero: no deaths on our roadways. Everyone has a role to play!

Notes				
Hearing Dates				
Current Status		In the House - First Reading Environment and Transportation		
Legislative Sponsor		Prince Georges County Delgations https://rngaleg.maryland.gov/2024RS/bills/hb/hb		
Title/Purpose/Impact	Prince George's County - Zoning and Land Use - Rainess in Zoning PG/MC 106-24 Increased Oversight: The bill allows fire the district council in Prince George's County to review and take final action on zoning and subdivision matters, providing an additional layer of oversight. This could enhance transparency and accountability in decision-making processes related to land use. Local Law Flexibility. By permitting the district council to adopt and amend zoning law procedures for certain zoning decisions, the bill allows for more localized regulation tailored to the specific needs and priorities of Primos George's County. This flexibility may lead to more effective and responsive land use policies.	Improved Standing Requirements: Alterations in standing requirements for requesting review of zoning decisions and filing for judicial review may strongue access to the appeals process, ensuring that affected parties have the opportunity to challenge decisions that impact them directly. Enhanced Time France for Action: The bill extends the time frame within which a zoning hearing examinate must take action on a remanded abound matter, alboving for more thorough consideration and potentially better-informed decisions. Cous of Horse Bill 1104:	Potential furisdictional Confusion: Granting the district council authority to review zouling matters may lead to jurisdictional conflicts or uncertainties between the council and other governing bodics. This could result in delays or inefficiencies in the decision-making process. Restrictions on Zoning Authority, Prohibiting the district council from amending zoning laws or zoning chassifications of certain property in a particular manner may limit the councils ability to adopt zoning regulations to changing circumstances or community needs.	Complicately in Implementation: The bill introduces several amendments and repeals to existing hand use bays, which may complicate the implementation process and require significant adjustments to administrative procedures and practices. Impact on Property Rights: Restricting the district coancil from amending zouing laws for properties used as apports to permit multifamily residented dwellings may impact property overear rights and development opportunities, potentially leading to disputes or legal challenges.

PG/ County Affibirs Pros: 1. Promotion of Innovation: The creation of the Independent Innovation Agency signifies a commitment to promoting innovation and technology within Prince George's County, potentially ailracing businesses and talent focused on these areas. 2. Economic Development: The bill may contribute to economic development by creating an environment conducive to the growth of technology startups and innovative businesses, potentially leading to job creation and increased economic opportunities. 3. Vanture Capital Fund: The establishment of the Prince George's County Venture Capital Fund provides a dedicated source of funding for technology startups, supporting the growth of local businesses and fostering a culture of entrepreneurship. Cons: 1. Financial Responsibility: The bill implies a financial commitment from the State and the County to finance the agency and its activities, Some may are that these funds could be allocated to other pressing needs. 2. Exmited Detail on Workgroups: While the bill mentions the establishment of workgroups to conduct specific tasks, it lacks detailed information on their composition, roles, and responsibilities, which may becific tasks, it lacks detailed and arribiguity in their functioning.	1. Support for Nonprofit Organizations. The bill opens the door for independent nonprofit organizations to obtain a Clase C (flateral/sororal/service organization) alcoholic beverages license. This can be a significant benefit for these organizations providing than with an additional avenue for fluodraking and 2. Commanity-building: By allowing momprofit organizations to hold a license, the bill encourages community-building activities within the county. Social gatherings in these organizations' facilities can floater a sense of cansanderie and mutual support anong members. 1. Entential for Increased Alcohol Consumption. Critics argue that providing more establishments with alcohol licenses may lead to increased alcohol-related accidents or insidents. 2. Enforcement Challenges Regulating alcohol states in nonprofit organizations may pose challenges for local authorities. Ensuring complismes with licensing regulations and preventing abuse of these licenses may tend to introduction of additional licenses could contribute to increased revenue for the county through licensing fees and taxes on alcohol states. 2. Enforcement Costa: The county through licensing fees and taxes on alcohol states.

Prince Georges County Sale and Use Tax On Energy and Fuel Sympsis: This bill seeds to amend a specific provision of law pertaining to the utilization of revenue generated from the sales and use tax on energy and fuel in Prince George's County 407-24. The main points addressed by the bill allows revenue from the sales and use tax on energy and fuel in Prince George's County to be used to meet education funding requirements. This can contribute to strengthening the financial support for elementary and secondary public education. Regardless of the source of funds, the bill allows all funds authorized for expenditure by the county board for schools to be considered as levied by the county council. This flexibility can enhance the efficiency of financial management. Cons: Reduced Flexibility in Allocation. While the bill aligns the sales and use tax revenue with education funding, it reduces the flexibility of allocating these funds to other purposes, potentially imiting the county's ability to address diverse needs. Potential Budget Constraints: The repeal of the requirement to appropriate a certain amount of local money to the school operating budget might impact the budgeting process, and there's a risk of reduced funding for education if not carefully managed. Dependence on Tax Revenue: The effectiveness of the bill depends on the consistent generation of revenue from the sales and use tax on energy and fuel Economic fluctuations or changes in consumption patterns could impact the sability on the school operating on energy and fuel Economic fluctuations or changes in consumption patterns could impact the sability on the school operating on the energy and fuel Economic fluctuations or changes in consumption patterns could impact the sability to the school operating on the energy and fuel Economic fluctuations or changes in consumption patterns could impact the sability to the school operating the energy and fuel Economic fluctuations or changes in consumption patterns.

			Ways and Means Committee				
			2/7 at 1:00PM				
		In the House - First	Reading Ways and Means; passed Prince George's Delgation	Hearing			
			Requested by Prince George's County Executive. https://mgaleg.maryland.gov/2024RS/bills/hb/hb 0398f.pdf			T.	
PG-406-24 Pros: Dedicated Funding for Education:	The bill designates revenue from the safes and use tax on telecommunications services in Prince George's County for education purposes, specifically for operating expenditures for the Prince George's County school system. Capital Expenditures and Debt Service:	The legislation outlines a structured use of revenue, with at least 90% allocated for operating expenditures and the remainder for capital expenditures, including school renovation projects and debt service on related bonds. This can contribute to the improvement and maintenance of educational infrastructure. Prevention of Supplanting Funds:	The full explicitly prohibits the use of the proceeds to supplint State aid or county fands for the Prince George's County school system. This provision ensures that the additional rovenue is used to embance character. County school system that the explico existing funding sources. Const.	Lhrinted Flexibility to Fand Allocation:	While the bill ensures deglested funding for education, it limits the flexibility of local authorities to afforce these funds to other county principles. This pay be a concern for those advocating far a more versual to the total for the total for the formal payents. Potential impact on Tappayen:	Depending on the teleconnumications services subject to the sakes and use tax, there is a potential impact on taxpayers. The 5% tax rate may be perceived as an additional financial burden, and stakeholders may express connectes about the contorned implications for residents. Dependence on Telecommunications Tax Revenue:	The effectiveness of the bill relies on the consistent generation of revenue from the netes and use tax on telecommunications services. Economic changes or shifts in consumer behavior could impact the stability of this revenue source.

Coordination Across Counties: Allowing the prosecution of multiple thefts in any county where the thefts occurred enhances coordination between jurisdictions. This approach recognizes the interconnected nature of organized retail theft, which often spans multiple jurisdictions.	Clear Definition: The bill introduces a clear definition of "organized retail theft," specifying the elements that constitute such a crime, This clarity can facilitate law enforcement efforts and ensure that the legal system accurately addresses the mances of organized retail theft.	Aggregate Value Threshold: By establishing an aggregate value threshold of 51,500 for organized retail thek, the bill distinguishes between individual thefts and those that are part of an organized effort. This helps address more serious instances of theft associated with organized orminal activities.	Resitution Provisions: The bill includes provisions for restitution, requiring individuals convicted of organized retail theft to restore the stolen property to the owner or pay the full value of the property if restoration is not possible. This can contribute to compensating victims for their losses. Corts:	Potential for Overlapping Prosecutions: While the bill allows for the joining and prosecution of multiple thefts in any county, it does not explicitly address the potential for overlapping prosecutions across multiple jurisdictions. There could be a need for mechanisms to ensure coordinated legal proceedings.	Subjectivity in Value Determination: The use of "market value" and the cost of replacement to determine the value of stoken property introduces a level of subjectivity. Ensuring consistent and fair assessments may require clear guidelines or standards.	Potential Impact on Non-Organized Offenders: The bill, by focusing on organized retail theft, might result in relatively severe penalties for individuals involved in less sophisticated, non-organized thefts. Ensuring that the legal framework appropriately differentiates between various levels of ollenses is oncial. Cons:	Potential for Overlapping Prosecutions: While the bill allows for the joining and prosecution of multiple thefts in any county, it does not explicitly address the potential for overlapping prosecutions across multiple jurisdictions. There could be a need for mechanisms to ensure fair and coordinated legal proceedings.	Subjectivity in Value Determination: The use of "market value" and the cost of replacement to determine the value of stolen property introduces a level of aubjectivity. Ensuring consistent and fair assessments

Maryland Center for School Safety - Firearm Detection Platforms - Evabration (Maryland Furearm Detection Platform Act): The MD Firearm Detection Platform Act appears to be a legislative initiative aimed at addressing firearm-				
related concerns, possibly focusing on advancing technology for firearm detection and safety measures.				
Key Components and Potential Provisions:				
Firearm Detection Technology:				
The legislation may propose the development and implementation of advanced firearm detection technology. This could include sensors, artificial intelligence, or other innovative solutions designed to enhance public safety. Integration with Law Enforcement:			Hearing 1/24 at 2:00	
Anticipate provisions outlining the integration of the proposed firearm detection platform with law enforcement systems. This integration could flexifiate real-time alerts and responses to potential threats. Public Spaces and Critical Infrastructure:	Sentator Ron Watson	In the Senate -	p.m. (Education, Energy, and the Environment)	Chair Senator Brian J. Feldman
The act may define specific locations where the firearm detection platform is to be deployed. This could include public spaces, government buildings, schools, or other critical influstructure areas. Privacy Safeguards:				
Given the sensitive nature of firearm detection technology, the legislation might incorporate provisions to address privacy concerns. This could involve strict protocols for data collection, storage, and usage to protect additionally privacy rights. Funding Allocation:				
Look for details on how the funding for the development, emplementation, and maintenance of the firearm detection platform will be altocated. This may involve discussions on budget appropriations and potential public-private partnerships.

Fiream Dealers- National Inegrated Ballistic Info NetworkBackground: The legislation appears to center around the establishment of a National Integrated Ballistic Information Network (NIBIN) for firearm dealers. NIBIN is likely envisioned as a tool to enhance the tracing and tracking of firearms, potentially contributing to law enforcement efforts.	Key Components and Potential Provisions:	Creation of NIBIN for Fiream Dealers: Expect the bill to outline the establishment of a NIBIN specifically designed for fiream dealers. This may involve the integration of hallistic information databases to aid law enforcement in investigating crimes involve the integration of hallistic information Requirements. Participation Requirements:	The legislation may detail the requirements for firearm dealers to participate in the NIBIN system. This could include mandatory reporting of ballistic information related to firearms sold or transferred. Law Enforcement Collaboration:	Anticipate provisions emphasizing collaboration between firearm dealers and law enforcement agencies. This collaboration may involve sharing information related to ballistics, firearm sales, and other relevant data. Data Security Measures:	Given the sensitive nature of ballistic information, the bill may include stringent data security measures. These measures could address concerns related to the privacy and protection of sensitive information started within the NIBIN system. Recordkeeping Standards:	Look for standards regarding the recordk-eping practices of frearm dealers. The legislation may specify the type of information to be recorded, the duration of record retention, and protocols for data submission to the NIBIN.

Criminal Law- Theft of a Handgun Lieglogal Selling Stolen Firearns ActBackground: The liegal Selling Stolen Firearns Act, introduced by Senator Chris West, addresses concerns related to the illegal sale and trafficking of stolen firearns. The legislation aims to enhance regulations and penalties associated with such activities to improve public safety and reduce the flow of stolen guns into illegal markets. Key Provisions: Stricter Penalties for Illegal Firearn Sales: Stricter Penalties for Illegal Firearn Sales:	Into could unclude stitter Thras, onger prison solutions, and other plantive inseques. Expect provisions addressing the trafficking offerses: Expect provisions addressing the trafficking of stolen freetrus, with a focus on dismantling networks involved in the illicit trade. The legislation may outline specific actions to combat the trafficking of stolen guns across state bines. Background Check Enhancements: To curb illegal sales, the act may suggest improvements to the background check system for firearm purchases. This could involve increased scruting of transactions, particularly in cases where there is a higher risk of dealing in stolen firearms. Law Enforcement Collaboration:	Anticipate provisions encouraging collaboration between federal, state, and local law enforcement agencies. This may include joint task forces and information-sharing initiatives simed at more effectively combating the illegal sale of stoken freams. Reporting Requirements. The act might introduce or strengthen reporting requirements for lost or stoken freams. This aims to create a system that helps track freams from legal ownership to illegal possession, assisting law enforcement in identifying and apprehending those involved in the illegal trade.

	Speed Monitoring Systems - Agencies - Statements and Certificates of Violations Pros: Technician Authorization: The bill allows a technician employed by an					
	agency to sign the statement alleging a violation recorded by a speed monitoring system. This provision can streamline the citation process, according to a workload on law enforcement officers and ensuring				Enviorment and Transporation-Fiscal

House Bill 1059, also known as PG/MC 105-24, is an act concerning land use in Prince George's County. It authorizes the governing body of a qualifying municipal corporation to exercise certain powers related to land use decisions, such as those of the Prince George's County Planning Board, the zoning hearing examiner for Prince George's County, or the District Council for Prince George's County, by resolution. However, the exercise of these powers is subject to the substantive and procedural requirements and standards established in the Prince George's County zoning law.	The bill specifies that a qualifying municipal corporation must have a population of at least 15,000 according to the most recent United States Census to be eligible for these powers. Additionally, it outlines the process for judicial review of certain actions taken by the governing body of a qualifying municipal corporation under this act.	The bill repeals and reenacts certain sections of the Article - Land Use in the Annotated Code of Maryland, with amendments, and adds a new section to the same article. The act is scheduled to take effect on October 1, 2024.

TOWN ADMINISTRATOR MONTHLY MEMO

March 2024

Dear Town Council, Residents, Business owners, and Employees of the Town of Bladensburg;

Spring is coming! We want to see great changes around the town as the weather changes. We are working on several projects as we prepare for spring:

- Hiring new staff
- Bids for the Street Lighting project on 57th Ave are out
- Planning with the Green Team for the Spring Renewal
 Project
- Planning for CDBG Projects Bridge and Sidewalks Projects.

<u>Bostwick House Updates:</u> We are working on several projects at Bostwick. The Town has been working with the Aman Trust on the grant-funded stabilization projects. We have also been working on a contract for a firm to complete a new study to determine the viability of an events center.

We will hold a Technical Assistance Panel event for the Bostwick House Project in April 2024. The public session on this group's recommendation will be held on Thursday, April 18, at 3:30 PM at the Town Hall.

<u>Green Team Updates:</u> The town has been working with the newly formed Green Team to work on overall beautification and encourage sustainable practices. The Town is posting the meetings on its website. If you would like to join the team, email town at <u>clerk@bladensburgmd.gov</u>. We will have our annual clean-up event on Earth Day, April 20, 2024, at 10 AM at Bladensburg Waterfront Park.

<u>Budget Time:</u> Over the next few months, the Town will begin and complete its Budget Process for Fiscal Year 2025. The budget schedule will be highlighted in many of our publications and on our website. I desire to be transparent during this process in answering any Council or resident questions.

Free Chromebooks: The Town applied for and received 125 Free Chromebooks for income-qualified individuals from the State of Maryland. A flyer on this program will be shared on the town website. This distribution will occur this spring, and the Town has been happy to partner with the other Port Towns on this great project!

<u>COG Updates:</u> The town is a member of the Washington Metropolitan Council of Governments (COG). Bladensburg represents its citizens in the region and sits on several key committees and groups. Each month, staff attends, and Council members attend meetings and participate in programs. Below are some updates on the COG Committees that have been attended recently.

Region Forward Collation—Vito Tinelli attended the most recent quarterly meeting of the Region Forward Collation group on January 26, 2024. This group includes members from throughout the greater Washington, D.C. area. At the most recent meeting, COG provided an update on forecasts and the return to in-person work in the area. The next meeting of this group is in April 2024.

COG FARM Committee: Council member McBryde attended the most recent meeting for this group on March 5, 2024. Topics included increasing the local food supply and an overview of the Farm Policy Committee. They were given a short walking tour of the City of Fairfax Community Garden and Composting site at the meeting.

COG Chief Information Security Officers (CISO) —This committee meets monthly to advise and discuss security threats and risks to the cyberinfrastructure. The committee also advises other COG policy committees on regional cybersecurity matters. Even though the town does not have full-time staff, we have reviewed the meeting material for January and February 2028.

COG Chief Administrative Officer (CAO) Committee—I attend this meeting monthly, and it is a good opportunity to get a good look at what's going on in the region.

On February 7, 2024, I attended the monthly meeting where CAO committee members discussed proposed updates to regional public safety programs governance, the After-Action Report (AAR) from the DMV Disruption exercise on December 6th, and the list of potential meeting topics for 2024 meeting cadence. The roundtable of this meeting was helpful because the various agency heads shared their current and expected budget challenges in the region. Many of the issues were related to the increasing cost of services and the mandates for public school funding.

At our most recent meeting on March 6, Gregory Goodwin, COG Regional Planner, presented a Regional Cooperative Forecasting Briefing. Mr. Goodwin gave a brief overview of the Round 10.0 Growth Trends to 2050: Cooperative Forecasting in Metropolitan Washington report, including regional population, economic, and household forecasts. The last part of the meeting was dedicated to Local Budget Development, where the various CAO Committee Members discussed the key concerns from the ongoing local budget planning process.

Security Camera Reimbursement Program: The Town started advertising the program in early August, and information is on the website. We have also posted announcements on the Town's social media. The program is funded with \$50,000 in ARPA funds. This is estimated to assist 50 households in each ward. *Please make sure to apply today!*

Port Town's Meeting: The Town of Bladensburg is hosting the next Port Towns Meeting on March 26, 2024, at 6 PM, at the Town Hall. The agenda includes several items and exciting projects!

Port Town Sector Plan: Spring is almost here, and we need your help participating in the Port Towns Sector Plan. This is important because the County's plan is updated every 10 to 15 years to help gauge and determine future development and growth in the area. The Town of Bladensburg will work with Colmar Manor, Cottage City, and Edmonston to determine common goals and objectives;

your assistance will help us shape this vital report. On March 20, 2024, an open house will be at the Edmonston Community Center. Please check out the town website for more details.

Tax Provider Resources for Residents: Please see the information regarding Free or Low-Cost Tax Preparer Sites in Prince George's County:

Prince George's County - Community College - Tax Services https://www.pgcc.edu/go/tax/

List of Prince George's Free Tax sites https://www.pgcash.org/free-tax-sites-in-prince-georges-county/

Volunteer Income Tax Assistance https://www.icarol.info/ResultDetails.aspx?org=2046&agencynum=34787679

Wishing everyone the best in the spring.

Regards,
Michelle Bailey-Hedgepeth, Town Administrator

Town Administrator Report - March 2024

Treasurer's Report – for February FY24

March 11, 2024 Mayor and Council Meeting

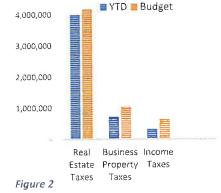

Please see the financial highlights through February which places us two-thirds of the way through the fiscal year.

<u>Revenues</u>: The Town has received almost two-thirds of the budgeted revenues through February (see Figure 1) which is right on target. The most noteworthy revenue activities are discussed below:

- <u>Tax Collections</u> Most of the real estate taxes have been received for the year with little left in collections (*see Figure 2*). Business Personal Property taxes are on budget but still lagging last year by 30%. We do expect another large bump come the April and June filing deadlines. Income tax revenues are expected to increase soon with the April tax filings.
- 12,000,000 10,000,000 8,000,000 6,000,000 4,000,000 2,000,000 Revenues

■ YTD ■ Budget

• American Rescue Plan Act (Federal) Funding - The Town has expended over \$1.2M this fiscal year to assist residents with rental assistance, business assistance, food assistance, and to offset salary costs. Revenues realized here directly offset expenses incurred. Please refer to the ARPA Dashboard in the expenditures section for more detailed information of how these funds are helping serve the Town and the community.

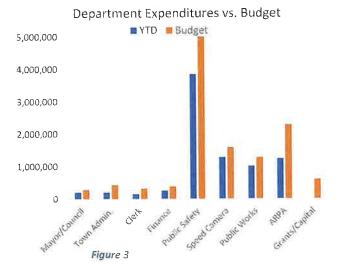

- Automated Traffic Enforcement The program has generated \$840K in paid traffic citations through February. Since its inception just over a year ago, we have received over \$2.1M which has been used to fund Public Safety expenditures. Any unused funds are held separately from our operations account since they are restricted for Public Safety purposes only.
- Other Revenues The main highlight continues to be the high interest earnings of \$312K the Town is receiving because of the higher rate market. This is for interest earned on funds invested in the Maryland Local Government Investment Pool which holds our operating, ARPA, and Speed Camera funds which all carry sizable balances.
- Total Revenues The Town has received \$7.8M of the budgeted \$12M in revenues through February. This is comparable to February of last year when we received just over \$7.9M.

<u>Expenses</u> –We have expended 67% of the total budget though February. Department financials are attached along with a combined revenue and expense statement.

- <u>Mayor and Council</u> is operating just ahead of budget due to our Community Events which have been very busy through February. The fireworks vendor has also been booked and paid for the Independence Day Celebration. We also advanced the volunteer fire department their full funding instead of doing quarterly installments (See Figure 3).
- The Administrative departments which are the smallest, include the <u>Town Administrator</u>, <u>Finance</u>, and <u>Clerk</u> and represent just 5% of the Town's budget have only expended just over half of their combined budgeted funds.

- Public Safety being our largest department is slightly over budget through February with the largest increase being in overtime. We have had a few officers on leave which required additional overtime to backfill the shifts. Workers compensation insurance, auto insurance, wireless communications, and contractual services has also come in higher than expected.
- Speed Camera funds The Town has used \$1.2M of these funds to help fund Public Safety operations to include \$368K on operating expenses and \$919K on capital items. These included new mobile data stations for our police cruisers, in-car cameras, furniture to outfit the public safety office, and mobile security and

reconnaissance towers and remote cameras which are placed at hot spots throughout the town. Thirteen vehicles have also been purchased to expand and upgrade our fleet.

- <u>Public Works</u> is operating above budget largely for the emergency repairs to excavate and replace an underground sewer line behind our Town Hall building. This required flooring work as well and we used this opportunity to upgrade the floors in the Police Department and Town Hall. We expended \$228K of our Highway User Funds for the milling and asphalt overlay of 57th Ave and other small projects, and spent another \$56K of capital items such as a crosswalk lining machine, new tractor, new snow plow blades, and salt spreaders.
- <u>ARPA</u> Please refer to the ARPA dashboard for this fiscal year and cumulative activity. Since this program started well over a year ago, we have expended almost \$4M of the \$4.9M award which is 80% of the funds allocated to the Town. Half of these funds were used for direct community assistance which helped 370 families to stay in their homes, a quarter of the funds for compensation, and the balance for capital purchases and other items. We have until December 2024 to expend these funds or at least to have under contract any remaining funds by 2026.

Please feel free to contact myself or Christina Daves in our Finance Office if you should have any questions Thank you.

Vito Tinelli

Town Treasurer vtinelli@bladensburgmd.gov

<u>Department of Public Works</u> Report for February 2024

Submitted By
Purnell Hall

Public Works activities for February, 2024:

During the month of February, Public Works worked on the following activities:

- 1. Public Works attended Defence Driving safety class perform by LIGIT. Thanks to the Police Department for hosting the event.
- Mr. Hall has been working with roofing companies in refence the flat roof at Mango Cafe.
- 3. Gladly to say that 57th Avenue lighting project is moving along very smooth.
- 4. The guys have finish painting the administrator offices at the Town Hall, and placed furniture back where it was needed.
- 5. Repaired Stop sign at Quincy Place and 48th Street, also repaired 25mph sign in the 4300 block of 58th street.
- 6. Removed illegal dumping in the 4700 block of Upshur Street.
- 7. Public Works made sure all drains in Town was free of any debris.
- 8. Removed all winter equipment off trucks greased, and stored properly for next season.
- 9. Public Works has started prepping spring/summer equipment for the season.
- 10. Public Works will start yellow curb sooner this year before it gets extremely hot.
- 11. Alarm company repaired alarm at Bostwick House, and Public Works building.
- 12. LED flashing pedestrian crossing signs/stop signs will be installed soon.

Ground Maintenance:

The Public Works crew is committed to keeping the Town clean and beautiful and as a result we have picked up litter in the following areas of the Town.

- a. Annapolis Road Pedestrian Tunnel
- b. The Industrial Area
- c. The alley-way in between 55th Ave. and 56th Ave.

Meetings:

- 1. Department Head meeting
- 2. Employee Appreciation Committee
- 3. Site visit (Mango roof) X 2

Please Help Keep Bladensburg Clean we CARE!

- In order for the Department of Public Works to keep the Town clean and litter free, we need a little help from our residents as well.
 - 1. Pick up litter in front of your property. (Curb line as well)
 - 2. Please put trash/recycling in the proper container with the lid closed. It helps

keep the Town neat and clean.

 If you have leaves for pick up, please place them in yard waste bags or trash cans marked with and X for pick up on MONDAYS.

Resident's Please Don't Litter in your community.....

Notice: Styrofoam is not recyclable. Please put Styrofoam out on the trash collection day. (Tuesday and Friday.
