

**For immediate release**

January 6, 2023

**911 call audio files related to Kisliak family released**

The Village received several FOIA requests for records related to Buffalo Grove Police interactions with the Kisliak family. While the investigation is not yet complete, we are at a point in the investigative process where we are able to release all available audio files related to calls for service involving the Kisliak family.

Please note that the industry standard for retaining 911 call audio files is 60-90 days. Immediately following the discovery of the Kisliak deaths, Buffalo Grove police requested all 911 call audio files related to the address from Northwest Central Dispatch. Those records include seven calls dating back to September 6, 2022 and prior to the call for a wellness check on November 30, 2022, which can be found in the public folder located at [www.vbg.org/2830acacia](http://www.vbg.org/2830acacia).

As more information is available, including the final report, it will be shared in the same folder linked above.
