A Message from the Village President

Buffalo Grove is a great place to live, work and raise a family. Several important initiatives were approved in 2015 and are underway in our Village. An economic development strategic plan is currently being refined by Village Staff and the Economic Development Steering Committee. A cross-section of members from the community serve on the Steering Committee. Village staff hosted an open house in December to give residents an opportunity to learn about the plan and ask questions. The final touches, based on feedback received during the meeting, are currently being made. The plan is expected to come before the Village Board for review in February. A great overview of community and economic development activities, including a listing of all new or expanded businesses that joined the Buffalo Grove community begins on page 8 of this newsletter. Please welcome our new businesses and continue to support our local economy!

The Village Board approved a water meter replacement program with Siemens Building Technologies. All residential and commercial meters in Buffalo Grove will be replaced with more accurate and efficient meters. This new technology will allow the Village to get readings on meters without having to send staff out to do it manually. Additionally, this technology will allow the Village to read meters more often and detect unusual water usage such as leaking appliances so that residents can be made aware of any potential issues in their homes. Siemens staff is currently in the process of changing out meters and it is anticipated that all meters in Buffalo Grove will be replaced by the Spring of 2016.

We continued to invest in our major infrastructure with several new street, water and sewer projects, all

of which were completed in 2015. In 2016, we will consider the issuance of bonds so that the Village can complete resurfacing and/or reconstruction of more than nine miles of streets.

by **Beverly Sussman**

In December, the Village Board approved the 2016 budget. On page 7 of this newsletter there is an overview of the revenues and expenditures included in the budget.

The Village works very hard to maintain its fiscal responsibility. On December 8, 2015, the Village was notified by Standard & Poor's (S&P), that they affirmed the Village's 'AAA' long-term bond rating, which is the highest rating available from the agency. S&P cited the Village's strong management and capital reserves as a part of the reason for this confirmation. Buffalo Grove is one of only 17 communities in the State of Illinois to hold this rating, representing approximately 6% of all Illinois municipalities. I would like to thank Village Staff and the Village Board for their hard work in maintaining this high distinction.

I also would like to thank our volunteers for their commitment and dedication to the Village of Buffalo Grove. If you are interested in getting more involved by joining a Board or Commission, please visit the Village's website and fill out a volunteer application form.

We look forward to a productive 2016 in the Village of Buffalo Grove. I wish everyone a happy, healthy, prosperous and safe new year.

President Beverly Sussman

10th District Leadership Awards

U.S. Congressman Robert Dold (IL-10) announced the Tenth District Leadership Award winners at a ceremony on November 9, 2015. A committee of local experts picked the three finalists in each category from a pool of more than 150 nominees. All of the programs highlighted below serve the Buffalo Grove community and its residents.

Paula Carballido from North Chicago, Ill. was named the 2015 Tenth District Leadership Awards' Helping Heroes Award winner.

"The passion that Paula exudes for helping veterans is truly inspiring," Rep. Dold said. "As the program director for Lake County Honor Flight, she has helped so many veterans in our community. It is truly an honor to recognize her with the 2015 Tenth District Leadership Awards' Helping Heroes Award."

Carballido is the program director for Lake County Honor Flight and president of the Exchange Club of North Chicago. Honor Flight flies veterans to Washington, D.C. to visit memorials dedicated to their service. The Exchange Club of North Chicago is the first and only Exchange Club to initiate an Honor Flight Hub. Carballido also serves on the Lake County State's Attorney Citizen's Advisory Board and was recently appointed as the first Hispanic to serve on the Zoning Board of Appeals for North Chicago.

The Helping Heroes Award is given to a resident of the Tenth District who has answered the call to help America's heroes by bettering the lives of our veterans and their families. The winner can be a veteran themselves or simply a dedicated community member.

Troy Livingston from Buffalo Grove, Ill. was named the 2015 Tenth District Leadership Awards' Entrepreneurial Excellence Award winner.

"As president of Livingston Products in Buffalo for over 25 years, Troy exemplifies entrepreneurial excellence," Rep. Dold said. "But his passion for inspiring others, including frequently speaking with high school students about engineering, is what really set Troy apart. I am honored to be able to recognize him with the 2015 Tenth District Leadership Awards' Entrepreneurial Excellence Award."

Livingston has been the president of Livingston Products, Inc. in Buffalo Grove since it was founded in 1987. He is credited with over 50 patents and years of experience designing and building original products. Livingston routinely speaks to high school students about engineering and innovation and has inspired many to become engineers. His newest product is Freedom Trax, a motorized system that transforms nearly any manual wheelchair into an off-road vehicle that can traverse rough terrain.

The Entrepreneurial Excellence Award is given to a businessman or businesswoman who has demonstrated entrepreneurial excellence as part of a small business or start-up that has succeeded in implanting innovative strategies to establish a thriving local business.

Jamie Epstein from Vernon Hills, Ill. was named the 2015 Tenth District Leadership Awards' Community Service Award winner.

"While many have recognized the growing threat of substance abuse in our communities, Jamie has stepped up and done something about it," Rep. Dold said. "Because of her work, Lincolnshire and the surrounding communities are, without a doubt, more safe. It is an honor to recognize her with the 2015 Tenth District Leadership Awards' Community Service Award."

Epstein is the founder of the Stand Strong Coalition and helped the organization receive a federal grant for \$625,000 to prevent substance abuse. She also encouraged Lincolnshire to add a prescription drug drop box and to change their social host ordinance. She is the Court Appointed Special Advocate for Lake County and the vice president of the Patriot Parents Association at Stevenson High School. She has also organized numerous other campaigns to prevent substance abuse.

The Community Service Award is given to an individual who has positively impacted community welfare through volunteerism. This individual is committed to focusing on the needs of the region and enhancing the quality of life for members of our community.

The Village of Buffalo Grove Police and Fire

Fire Ops 101: A Day in the Life of a Firefighter

The Buffalo Grove Professional Firefighters held their first-ever "Fire Ops 101" in the fall of 2015. This all-day event gave elected officials a rare look at a day-in-the-life of a firefighter, by demonstrating the challenges they face relating to staffing, equipment and response time, as well as the physical and mental strength needed to perform their jobs.

Buffalo Grove's Fire Ops 101 event was held at the Combined Area Fire Training Facility (CAFT) located on Krause Drive in Buffalo Grove. The CAFT site is a 4.5 acre, state-of-the-art fire training facility which includes a four-story tower with a staircase simulating a high-rise setting. A two-story single-family residence with an attached one car garage also is located on the property.

Firefighters developed scenarios similar to training experiences, which were adapted for elected officials on the Buffalo Grove Village Board who participated. Each elected official had to complete a medical survey and be fitted for a face mask and turn out gear prior to joining the event. The exercises consisted of four, 40-minute scenarios, where 50 volunteer

firefighters worked one-to-one with participants for their safety.

Scenarios included engine operations, ladder operations, Emergency Medical Services, and fire behavior with live fire.

Firefighting has an ever evolving role in the community, and the goal of Fire Ops 101 is to help inform policy makers, such as the Village Board, of what firefighters do and how they operate to accomplish life, and structure saving goals. Fire Ops 101 helped to explain the role of firefighters, along with how they face challenges on a daily basis.

Traffic Matters: Important Child Safety Restraint Information

Road injuries are the leading cause of preventable death and injury to children in the United States, and statistics show that using a child safety seat can reduce these risks by as much as 71 percent. The Buffalo Grove Police Department puts considerable time and energy into educating the community on this very important topic. Throughout 2015, police issued nearly 40 child safety seat citations for unbuckled children in the Village.

New Reports About Risks of Children Wearing Winter Coats While Strapped In

A December 2015 report on the Today Show highlighted the risks of having a child buckled in a car seat while wearing a 'puffy' winter coat. Crash tests show that when children are wearing these types of coats, even with a safety harness, the chances of being thrown from the seat increase because of space created between the child's body and the harness. Experts recommend children be strapped in without these types of coats so that the harness is snug against their bodies. To ensure they are kept warm during extreme winter temperatures, place their coats over them or keep a blanket in the car.

Some tips from the Buffalo Grove Traffic Unit regarding car seat safety:

- Make sure the child fits the height/weight requirements of the seat, and check the seat's expiration date. It is recommended that children under the age of two sit in a properly adjusted and secured rear facing car seat. Children under eight years of age are legally required to have some type of child restraint.
- Secure the seat tight into the back seat using the LATCH system or seat belt. Refer to the car seat manual or vehicle manual for assistance. Once secured, the seat should not move more than an inch side to side or front to back when grabbed at the belt path.
- Instead of buckling children in while wearing puffy winter coats, consider strapping them in as they are wearing their normal, warm winter clothing. Once the child is properly secured, place their coat or a blanket over them to keep them warm.
- Make sure the harness clip is at armpit level, and that the straps are snug enough so that you can't pinch the harness webbing.

For more information on how to safely install a car seat, call the Buffalo Grove Police Department at 847-808-2632, go to safekids.org or the BGPD Traffic Guys YouTube channel.

The Village of Buffalo Grove Innovation

Village of Buffalo Grove Receives 2015 Innovation Award

The Lake County Municipal League recently recognized the Village of Buffalo Grove with the 2015 Innovation Award. The Village received the award due to its role in developing an Information Technology (IT) Consortium called GovITC, along with Lake Bluff, Kenilworth, Glenview and Lincolnshire.

Each of the communities now outsource their IT functions to the same service provider, which allows greater availability of programming and security specialists. If these services were purchased individually, the cost would be prohibitive.

“We are proud as a Village to have worked with these communities on a program that results in efficiencies and cost savings for our residents and those of our consortium partners,” said Village President Beverly Sussman. The five community members currently serve as back up and disaster recovery sites for one another, in addition to hosting email archiving which all serve to drive down cost.

The Village has saved \$240,000 annually on staffing costs, while IT speed and reliability has increased. Other benefits include improved decision making and faster resolution of IT related issues. The Consortium’s long term goals include developing a five-year technology plan, and to share a data center and server space for joint software programs.

The Lake County Municipal League recognizes municipalities who have developed strategic programs that solve municipal challenges and increase the effectiveness of local government. The awards program also creates an opportunity for the exchange of information and experiences to build capacity for municipalities throughout Lake County.

The Buffalo Grove Annual Budget

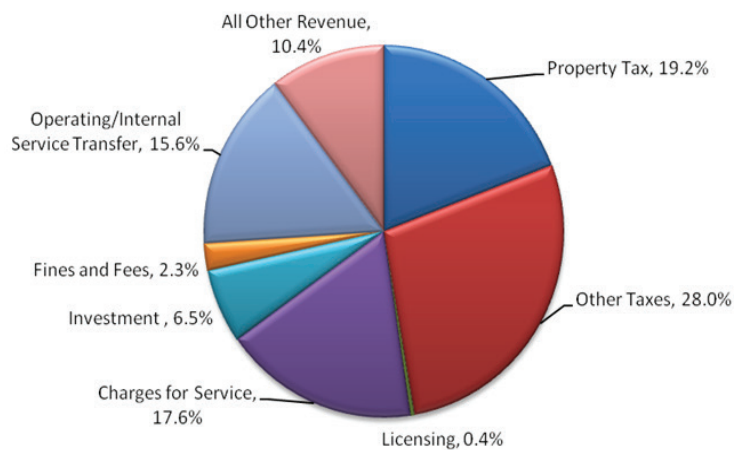

In 2013, the Village Board developed five long-term strategic themes to guide the future of the organization, including Service Optimization, Organizational Culture, Revenue Growth, Economic Development and Infrastructure Sustainability. These elements drove budget decisions again in 2016. View the entire budget document at www.vbg.org/budget.

Revenue

The Village pays for the services it provides through several types of revenue. The total revenue budget for FY 2016 is \$79,053,184 which is a 6 percent decrease from 2015. The primary reason for the \$6 million decrease is due to the timing of funding for a capital project and lower anticipated investment return on pension fund investments.

Those revenues include taxes, developer fees, licenses and permits, fines, user charges, interest income, operating transfers, and other miscellaneous revenues. The Village strives to maintain a diverse revenue base that is not overly reliant upon any one source of collection and also is equitable in its application.

The chart below shows the distribution of revenue collection in the FY 2016 budget.

Taxes account for 47 percent of the total Village revenue budget. Those taxes include property tax, sales tax, income tax, telecom tax, utility use tax, motor fuel tax, prepared food and beverage tax and the real estate transfer tax.

The property tax levy in 2016 will increase by 3.29 percent over the current year. The purpose of the property tax levy is to help fund public safety operations (police and fire) through the corporate portion of the levy, pay employer obligated pension contributions through the pension levies, and principal and interest on its outstanding debt through the debt service levy. The Village's portion represents about 11 percent of the entire property tax bill.

Service Charges are generated through the sales of water and golf services, and equal to 18 percent of the budget. The water rate increased by 4 percent for FY 2016 and is \$5.69 per 1,000 gallons metered. The goal of both the Water Fund and Golf Funds are to be self-sufficient through their rate structures. One new service charge was added in 2016. Beginning January 1, 2016, system user fees will be charged to all properties in the Village for the proportionate cost of maintaining the storm water conveyance operating costs and infrastructure, and \$1.2 million is included in the budget. A storm water management fee will be charged to all properties owners. The fee is designed to cover the cost of maintaining the storm water sewerage system.

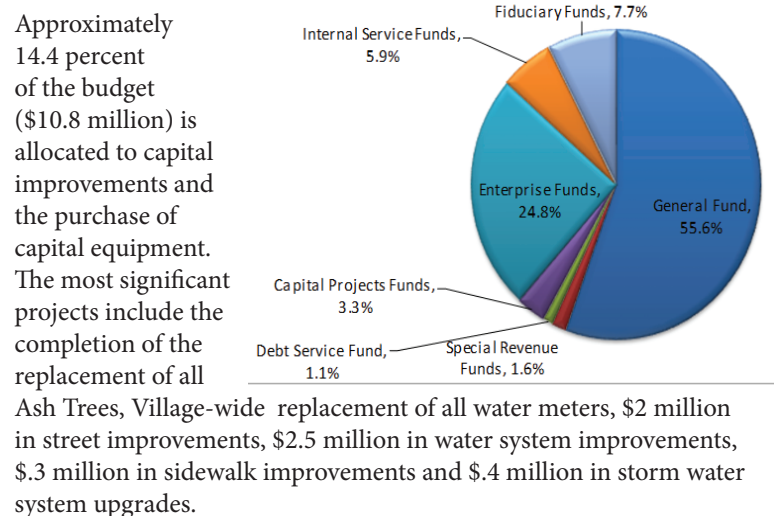

Operating/Internal Service Transfers are transfers of operating revenues or reserve balances to help support activities in another fund (i.e. capital projects). Transfers total \$12.4 million and represent 15.7 percent of the budget.

Other Revenues include revenue generated from the Metra facilities, franchise fees, solid waste fees, grants, pension withholding, and miscellaneous line items. Total revenue from these sources is \$8.2 million or 10 percent of the 2016 budget.

Expenditures

The total budget for all Village expenditures in 2016 is \$74,908,609 and is 4.9 percent less than the 2015 budget. Over half of the budget (55.6%) supports the activities of the General Fund. The General Fund accounts for most of the core services provided to the community including police and fire service, street maintenance and snowplowing, forestry, engineering, code enforcement and administration. Of the General Fund expenditures, over 70 percent of the budget supports the employees who provide the services.

The chart below shows the distribution of expenditure by fund.

Budget at a Glance

The following charts show a summary of revenues and expenditures by categories.

Revenue Account Category	FY 2014 Actual	FY 2015 Est. Actuals	FY 2016 Budget

Community Development

In 2015, the Village of Buffalo Grove Community Development Department issued more than 2,500 commercial and residential building permits. These permits represent a total project valuation of more than \$40,000,000 invested into the Buffalo Grove community. In addition to building permit activity, the following major projects were approved in 2015:

Sky Fitness- 1501 Busch Parkway

Sky Fitness, a private fitness and recreational facility located at 1501 Busch Parkway is adding 19,050 square feet to their facility. The multi-story expansion will house upscale amenities such as a basketball court, swimming pool, and open exercise area. The addition will be in line with architectural features and aesthetics of the existing facility, and represents a significant investment to the property, business and surrounding area.

Chevy Chase Business Park – Lot 21

Hamilton Partners is building the next and final phase of the Chevy Chase Business Park at 1050 Johnson Drive. This phase includes the development of a new multi-tenant, one-story 66,526 square foot warehouse and office facility. The facility complements the rest of the Chevy Chase Business Park and contributes to the strong industrial and flex development base in the Village.

Easton Station Townhomes

David Weekley Homes is developing a 15-unit townhome project at 23020 Easton Avenue. Construction of the townhomes is expected to begin in 2016.

Flex (Flextronics)

Flex (formerly known as Flextronics) is a premier, multinational firm that focuses on design, manufacturing, distribution, and aftermarket services for various products including, but not limited to computer equipment, electronics, molding, and plastics. The company has over 100 sites in 30 countries around the world and recently opened a new facility at 700-800 Corporate Grove Drive. Representatives state they are in the process of investing over \$100 million in their Buffalo Grove facilities and have hired 300 employees. The opening of Flex helps to fortify Buffalo Grove's position as a key center for advanced manufacturing in the region. The firm was awarded Lake County's Manufacturer of the Year by The Alliance for Industry and Manufacturing.

New and Expanding Businesses

In 2015, 77 businesses opened, expanded and/or relocated in the Village of Buffalo Grove. These businesses include:

Sr. Stamelos	125 Lake Cook Road, #226	Consolidated Foam, Inc.	1670 Barclay Boulevard
