A New Entertainment Experience at The Arboretum Club

Whether you're a seasoned golfer or simply looking for exciting new entertainment options, the newly opened WJ Golf at The Arboretum Club fits the bill! The former banquet facility now houses seven golf simulators in an open air and modern layout, with options to play multiple courses of varying difficulty levels, utilize a simulated driving range, or just relax and play a friendly game of golf darts. This is WJ Golf's third location in the area, with its flagship site also in Buffalo Grove at 1380 Busch Parkway, in addition to a location in Lake Zurich. Private golf lessons also are available with Golf Professional Todd Sones (and other instructors based on skill level) through Impact Golf School.

Business partners and WJ Golf co-founders Won Cho and Jason Jung both left corporate jobs to open their first Buffalo Grove location right before the pandemic hit in 2020. The

two found almost immediately that demand was high and growing for indoor golf options that also provided an entertainment component. Around that time, The Arboretum Golf Pro Geoff Tollefson visited the Busch Parkway location and was impressed by the relaxed atmosphere that included lounging areas, a full-service bar and three simulators. What he also noticed was that WJ Golf was challenged in keeping up with growing customer demand based on space limitations and a limited number of simulators. Knowing that the lease was ending for The Arboretum Club banquet facility operator, Tollefson came up with the idea to bring WJ Golf there with more simulators in more than triple the space of the flagship location. Another need also would be met if the project were to come to fruition; the driving range option

Letter From the Village President

The Volunteer Reception will take place in early July at the newly opened VIN | 90 Restaurant and Bar at The Arboretum Club. We are very happy to get back to an in-person reception this year. The Village is very fortunate to have such outstanding volunteers and I would like to thank them for their hard work, service and dedication to the Village of Buffalo Grove.

At the Volunteer Reception, we recognize ALL of our volunteers, but especially those who have reached a milestone with their commission or committee. Our residents serve on the following committees and commissions:

- Village Board
- Board of Fire and Police Commissioners
- Buffalo Grove Days Committee
- Rick Kahan Commission for Residents with Disabilities (CRD)
- Ethics Commission
- Health Commission
- Planning and Zoning Commission (PZC)
- Farmers Market
- Fire Pension Board
- Police Pension Board

2021 & 2022 Milestone Award Recipients:

Five Years

- Beth Nudelman, BG Days
- Jackie Beegun, BG Days
- Jeffrey Reisin, Police Volunteer
- Peter Giudice, Police Volunteer
- Sheri Ginsberg, BG Days
- Leo Njongmeta, CRD
- Lexi Robinson, CRD

Ten Years

- Beth Shapiro, CRD
- Frank Cesario, PZC
- Jack Shapiro, CRD
- Larry Sweica, CRD

Fifteen Years

- Donna Garfield, CRD
- Mitchell Weinstein, PZC
- Nancy Winter, BG Days
- Jane Dibbern, BFPC
- Judy Samuels, CRD

Twenty Years

- Dean Klassman, CRD
- Zill Khan, PZC
- David Morton, CRD
- Mark Weiner, CRD

Twenty-Five Years

- Debbie Verson, CRD
- JV Springman, BG Days
- Karen Danenberg, BG Days

This year, we have 10 committees and commissions including the Village Board. I would like to thank all of our volunteers, chairs and co-chairs, Trustee liaisons, staff liaisons, and everyone involved in the volunteer program. A special thank you to Kathryn Golbach, management analyst, for planning and organizing this reception. Thank you to our volunteers who are the backbone of our organization.

Upcoming Events For 2022

- Symphonic Band Performance
- Farmers Market
- Blood Drive
- Buffalo Grove Days
- Buddy Baseball
- Fun and Food for Residents with Disabilities

Please follow us on our social media pages for more information by visiting vbg.org/socialmedia

Water Report Now Available

The Village's Consumer Confidence Report is now available on the Village's website. The report summarizes the status of the community's drinking water quality. Spoiler alert: all water quality regulations have been refreshingly met or exceeded. If you are thirsty for the full report, it's posted here: vbg.org/2021CCR.

Village Manager's Message

As we enter May and usher in warmer weather, it's great to see our major projects coming into focus for 2022. With the recent announcement of the plans for the redevelopment of the Town Center property, we will soon see a dreary commercial strip redeveloped into a vibrant community gathering place featuring residential, retail, food and beverage, as well as entertainment venues.

The developer, Kensington Development Partners along with UrbanStreet Group, are feeling bullish on the redevelopment of Town Center, proposing to go forth with plans for phase two (the area north of Old Checker Road) in April. The Village Board is expected to approve final plans and a redevelopment agreement

with the developer in June 2022, while construction is slated to begin in late summer.

We also welcomed the grand opening of WJ Golf at the Arboretum Club in early May! Featuring a new and expanded full-service bar and restaurant (opening in early June), golf simulators, and the nicest outdoor dining area in Buffalo Grove, we encourage you to stop by and give it a try. Whether you're a golfer or just want to enjoy a beverage overlooking the 9th hole, we think you will enjoy the excellent atmosphere and service at the Arboretum Club.

And it wouldn't be spring unless there was construction! Luckily this year our major road projects will end for a while. We will continue our Thompson/

Dane Bragg
847-459-2500
DBragg@vbg.org

Brandywyn reconstruction project in its final year, as well as utility replacement and street resurfacing throughout local neighborhoods. The Village has invested more than \$35 million in local infrastructure in the past three years, with more than \$100 million of new construction overall.

We wish you and your family good health, good wishes, and a good spring in 2022. We hope to see you out and about!

Public Works Open House Returns May 21

After a three-year hiatus, the Public Works Open House is back and bigger than ever! Join the fun this coming Saturday, May 21 from 10 a.m. - 2 p.m. at Mike Rylko Park, 1000 N. Buffalo Grove Road, as the department teams up with the Park District's

Kids to Parks Day for a joint event featuring free giveaways, frozen treats, grand prizes, hands-on exhibits, demonstrations and more!

Learn more about how Public Works provides upkeep of the Village's

infrastructure by checking out the tools, equipment and tricks our experts use every day to keep these pros ready for anything. Demonstrations will include plow vs. mailbox, plow vs. car, chainsaw races and hydrant demonstrations. Come show your support for the Public Works Department and the Park District - the hardworking teams that maintain the infrastructure and recreation of our entire Village, which make this community shine!

The Clove Development Moves Forward

The Clove - the Village's first compact, mixed-use development led by Kensington Development, continues to make strides forward. This modern central entertainment and residential district will be anchored by a national grocery store, retail shops, a park, restaurants and luxury multi-family residential properties.

The project redevelops the 20-acre Town Center and implements the vision set forth in the Lake Cook Corridor Plan. The proposed compact central district will feature contemporary building design, as well as upscale tenants, and offer a unique destination for residents and visitors alike. To learn more about the project, visit vbg.org/theclove.

Key highlights include:

- A new 43,000 square-foot **nationally-renowned grocery store** with an innovative format to meet the demands of today's consumers.
- A seven-story, 275- to 300-unit, high-end apartment building with 16,000 square feet of commercial space on the ground floor. Distinctive from traditional multi-family complexes, this proposed '**next generation**' apartment building represents the latest in the luxury rental market, where the focus is on creating an amenity-rich, convenience-filled environment.
- A combined 65,000 square feet of **retail and restaurants** dispersed throughout the site.
- Nearly an acre-sized '**Central Park**' will sit in the middle of the site and can be programmed for concerts, the arts and other civic events.
- Revitalization of the 34,000 square feet of commercial space located on the northern portion of the site, creating new opportunities for existing and future tenants.

WJ Golf

continued from page 1

provided by simulators would allow golfers to get range time since there is no outdoor range at The Arboretum. Tollefson approached Cho and Jung about the idea, the two were interested in the concept, and the rest, as they say, is history!

Cutting-Edge Simulator Technology

Cho and Jung travelled to South Korea to investigate the latest simulator technology available prior to opening their business, which now includes a third partner, David Nall. The two interviewed multiple vendors and found the brand that supported their dream to bring this technology to the U.S., which also provided them with exclusivity. One of the standout features of WJ Golf simulators is the lie technology that automatically changes the surface where the ball is hit from in the simulator to mirror where the ball lands on the simulated course. For example, if the ball lands in the rough (grassy area), the converter will flip, and the surface will change to the rough. If the ball lands in a sand trap; the converter will flip again, and a simulated sandy area will be provided so that the ball can be hit from it, providing the most realistic experience. Balls are also automatically teed up by the system. Cho and Jung tout all technology available through their simulators as a truly unique feature so players can focus on the game while having the most realistic experience available in the country.

Multiple Courses to Play

Each of the courses provides varying levels of difficulty to satisfy the novice to the experienced golfer. Course selection options include Pebble Beach, Whistling Straits, Saw Grass and Pine Hurst No. 2, among others. The large screen gives an overview of each hole, along with hazards or obstacles and even wind direction, yardage, and other metrics useful to the player. Once the ball is hit, the screen shows a small video replay of

the clubhead-to-ball impact to allow the player to see their form and make any corrections.

Driving Range

While using the simulated driving range, players will see a range of graphics that provide accurate yardage and a larger video replay of the shot from the side and front view of the player, also showing the trajectory of the ball, distance and direction. After each shot, the screen shows a visual summary of the direction path of all driving range shots consolidated into one image.

Dart Golf

If you're looking for more of a relaxed entertainment option, Golf Darts provides a fun yet competitive experience. Up to four players can hit the ball from the tee and aim at a dart board on the big screen to compete against one another.

Coming Soon

There is more to come in the near future at the location. A new, standalone restaurant – Vin 90 Kitchen and Bar – will be opening in early June, led by Chef Yoon Kin, who for 15 years has owned the Japanese restaurant Kansaku in Evanston. The menu has a wide variety of options, including an extensive sushi selection on Fridays and Saturdays, along with a full-service bar. While the restaurant is not yet open, the bar is open to customers. Orders will be delivered to restaurant servers by LG Serve Bots, which are moving robots and the first technology of its kind to be used at a golf course. The full Vin 90 Kitchen and Bar menu can be viewed at Vin90Kitchen.com.

An outdoor patio just outside the future restaurant seating area is also nearing completion and will overlook the course. It will include fire pits and ample space for relaxing and socializing. A large retractable wall will also be installed in the near future, which will create an open air concept between the indoor restaurant seating and the patio. With the addition of WJ Golf, The Arboretum Club is now able to offer golf accessibility year-round and will be a

true entertainment destination. There is also space for corporate and social events, as well as virtual golf leagues, coming soon. For more information, please visit wjgolf.com.

National Police Week 2022

National Peace Officer Memorial Day was established on May 15, 1962, by President John F. Kennedy, and the week in which it falls is now designated as National Police Week. The week honors law enforcement professionals who have made the ultimate sacrifice and recognizes those who continue to serve and protect their communities. Police Week also represents a time of remembrance, honor and hope for law enforcement, and brings tens of thousands of law enforcement officers and their families from around the world to converge on Washington D.C. While there, they participate in planned events that honor law enforcement professionals who have paid the ultimate sacrifice and lost their lives in the line of duty.

According to the Officer Down Memorial Page, last year had 607 total line of duty deaths in the

United States; a number that has risen sharply from 2019, which had 157 line of duty deaths, and 2020 with 414 tragic losses. The fallen officers were honored during the 34th Annual Candlelight Vigil, held on the National Mall on Friday, May 13. Representatives from the Buffalo Grove Police Department were in attendance for this event, and others during National Police Week.

A visible way to participate from afar is to take part in Project Blue Light, which was initiated by the Concerns of Police Survivors group. Residents can replace a light bulb, visible to the community, with a blue light bulb that signifies their support of law enforcement. A limited supply of free blue lights are available at the Police Department located at 46 Raupp Boulevard. For more information about National Police Week, visit policeweek.org, and learn more about Project Blue Light by visiting concernsofpolicesurvivors.org.

Services for 'At-Risk' Residents

The Police Department provides a variety of services to residents who have disabilities or special needs that may put them 'at risk', which have been designed to help ensure that calls for service are resolved in a safe, calm and efficient manner whenever possible. Conditions that may place an individual at risk include deafness, blindness, autism, mobility issues, dementia, inability to communicate, special medical needs, or any condition that may affect an individual's interaction with first responders. There are three programs currently available to residents and caregivers, which include:

- **Illinois Premise Alert Program:** Personal information of those with special needs is provided to, and confidentially stored by the State's Public Safety agencies for emergency dissemination to police, fire and EMS personnel when responding to specified locations.

- **Identification Tags:** HEALTH iD tags are available for at-risk residents who are enrolled in the Premise Alert Program and who may have a difficult time communicating names, addresses or emergency contact information to first responders. The HEALTH iD is available in a variety of sizes and colors as a bracelet, watch band attachment or shoelace attachment.
- **Identification Cards:** Available for at-risk residents that wish to provide first responders with a card that includes personal information. These cards include a photo, name, address, emergency contacts and additional information that may help resolve interactions quickly and peacefully.

Residents or caregivers who would like to participate in one of these programs can request an application in person at the Police Department, 46 Raupp Boulevard, or call **847-459-2560** for more information.

Project Fire Buddies

The Fire Department, along with the Buffalo Grove Professional Firefighters and Paramedics Local 3177, have joined Project Fire Buddies, Inc., a non-profit organization created by firefighters looking to build relationships and support for families battling critical childhood illnesses. The Fire Department is currently seeking children to sponsor within the Village. If you know of a child to be considered for sponsorship or would like to make a donation, please email buffalogrove@projectfirebuddies.org or call 203-570-5348 for more information. Applications are now being accepted.

To learn more about this program, please visit projectfirebuddies.org/buffalo-grove.

The Village's Engineering Division: What Don't They Do?

If you've ever called the Village regarding property drainage, chances are you've met with someone from the Public Works Engineering section. But, unlike many of the Department's other disciplines, you likely won't see engineering employees out working in the neighborhoods during all hours of the day. The Village's Engineering Department focuses on designing, constructing and maintaining various types of infrastructure, facilities and utility systems. It also concentrates on environmental tasks and regulations that contribute to the quality of life for residents. Some of the tasks undertaken by the staff include:

- Reviewing and approving site development plans and certain permits.
- Evaluating and improving existing stormwater and flooding issues.
- Pursuing Federal, State and other grant funding for projects.
- Conducting various studies.

- Creating master plans for Village utilities and overseeing the design and construction of Village infrastructure.
- Maintaining roadway and utility maps.
- Observing the construction of site improvements for site development projects.
- Coordinating with other governmental agencies.

These critical services have long-reaching effects across the entire Village, and the staff is always available to put their expertise to work on whatever problem is encountered. With a combined 77 years of municipal engineering expertise, the committed staff enables the Village to provide technical services dedicated to the long-term best interests of Buffalo Grove, which are always available to any resident, new and seasoned alike!

Employee Spotlight

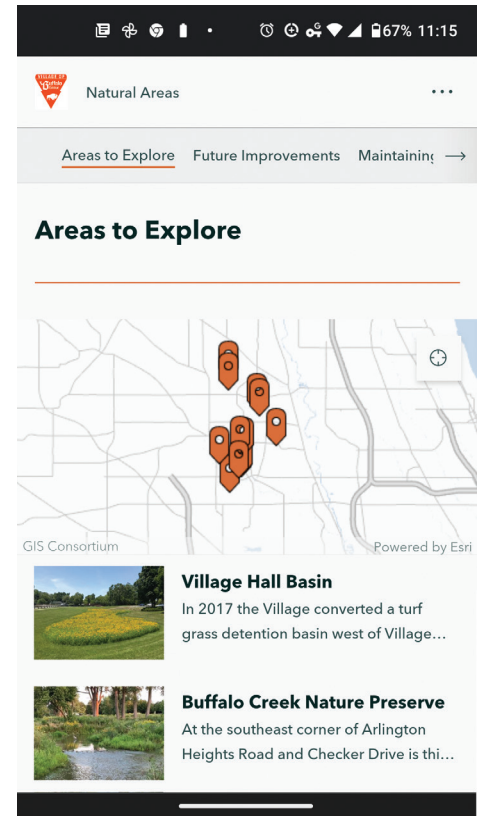

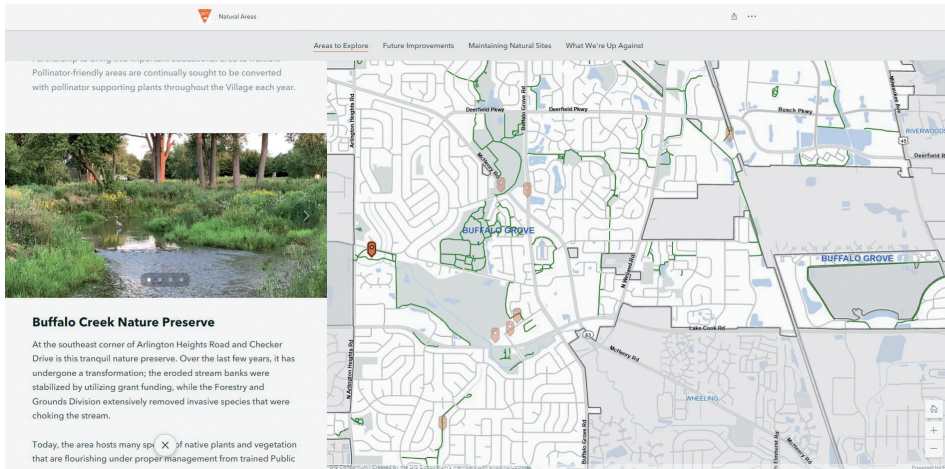

Amy Cash recently joined the Village's Finance Department as the new Payroll Coordinator. A lifelong resident of the northwest suburbs, Amy brings more than a decade of experience to the role, having previously worked for the Lake Bluff Park District, as well as at a private bookkeeping firm. In addition to her payroll duties at the Lake Bluff Park District, Amy led a team of ten guest service associates, who were responsible for ensuring a positive guest experience. She looks forward to using this experience to provide the residents of Buffalo Grove with exceptional customer service. She was drawn to the position with Buffalo Grove because of the great culture in the Finance Department. Away from work, Amy loves to watch her son play travel baseball with the Lake County Stars. Welcome Amy!

Take a Tour of the Village's Natural Gems

Do you enjoy long walks in the park? Or a bike ride through a butterfly meadow? Maybe you just want to know what bit of nature is closest to you? Well, we have just the webpage for you!

Public Works has utilized GIS applications to create a storyboard of natural areas. Check out natural area successes, and plans for future

improvements by following the link on the Village's Forestry page at vbg.org/agenda_list/forestry_services.php. Locations are mapped alongside streets, landmarks and bike trails, with photos to highlight the efforts of our Forestry section. The page adapts to mobile devices, so grab your phone, start exploring and share your own photos with the hashtag **#VBGNature!**

Police Department Welcomes New Therapy Dog!

The Police Department has welcomed a therapy dog to its team! 'Gus', a 4-year-old white Labrador Retriever-Standard Poodle mix, will work with the Department's Police Social Worker, Brittany Wilson, to make positive connections in the community. Gus was adopted to assist with community engagement, in addition to helping with victims' advocacy, mental health and trauma response. Gus will also be a valuable resource to first responders who may be dealing with job-related stressors, while offering additional support to members of the Department in their overall wellness.

Wilson underwent the 40-hour advanced training course with Gus to become certified as a nationally registered therapy dog team.

"I am happy to be part of a program that provides comfort to those in need," said Wilson. "Gus will provide a valuable service to the Village."

Gus is a graduate of Paws & Stripes®, a comfort and therapy dog obedience program, which is facilitated by the Brevard County Sheriff's Office. This program pairs carefully selected and trained jail inmates with shelter dogs that are specifically trained as law enforcement therapy dogs. All dogs selected receive basic obedience training and are screened for temperament and behavioral characteristics. The training program is free and several local businesses have contributed to Gus' routine care.
