ComEd Service Address: **Customer premise address**

ELECTRIC AGGREGATION PROGRAM NOTICE

Dear Resident or Small Business Owner:

The North Shore Electricity Aggregation Consortium is a group of seven communities formed by the Villages of Deerfield, Glencoe, Lake Bluff, Northbrook, and Skokie along with the Cities of Highland Park and Lake Forest focused on securing affordable electric aggregation supply for its residents and small businesses. The Consortium selected Chicago-based MC Squared Energy Services, LLC (mc²) to serve the Consortium with electric supply through October 2024. Each participating community within the Consortium will be provided a Civic Contribution annually from mc² which will be used to meet sustainability and other goals and objectives established by each community. mc² will provide eligible residents and small businesses with electric supply **pricing equal to the monthly ComEd published tariff supply rate** during the remaining Seventeen (17) month term of the electric aggregation program.

PRIMARY BENEFIT OF PROGRAM

By participating in the Consortium's municipal electric aggregation program, you will help participating North Shore communities support their goals and objectives such as increased renewable energy use and support for local sustainability programs. The Consortium is proud to achieve this goal at **NO** increased cost above the published ComEd tariff rates to its residents or small businesses.

YOU WILL BE AUTOMATICALLY ENROLLED IN THIS PROGRAM UNLESS YOU OPT-OUT.

- You are **still** a ComEd customer for electricity delivery and metering purposes at your home or business.
- You continue to pay ComEd in the same manner as you currently do. There is no change in billing under the Consortium's electric aggregation program.
- Under this program, your electric supply cost will be the same as the monthly ComEd published tariff rates. Electric supply from MC Squared Energy Services, LLC does not cost more than the ComEd published tariff supply rate.
- ComEd continues to be responsible for the wires, poles, and all emergencies, including outage restoration.
- There is no enrollment, switching or early termination fees under the Consortium's electric aggregation program.

You are not required to do anything to participate in the Electric Aggregation Program. mc² will automatically process your enrollment. You will pay the same rate as the published monthly ComEd tariff supply rate. There are no enrollment fees or early termination fees. If you are currently participating in a community solar savings program, or will be in the future, this municipal electricity aggregation supply program will not impact your community solar program. The community solar generation credits provided by ComEd are independent of this aggregation program.
