October 19, 2017

The Honorable Mayor Lansing
Members of the City Council
Members of the Audit Committee
Residents of the City of Lake Forest. Illinois

The Comprehensive Annual Financial Report of the City of Lake Forest (City) for the year ended April 30, 2017, is hereby submitted as mandated by both local ordinances and state statutes. These ordinances and statutes require that the City issue annually a report on its financial position and activity presented in conformance with accounting principles generally accepted in the United States of America (GAAP) and audited in accordance with generally accepted auditing standards by an independent firm of certified public accountants.

This report consists of management's representations concerning the finances of the City of Lake Forest. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft or misuse and to compile sufficient reliable information for the preparation of the City of Lake Forest's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

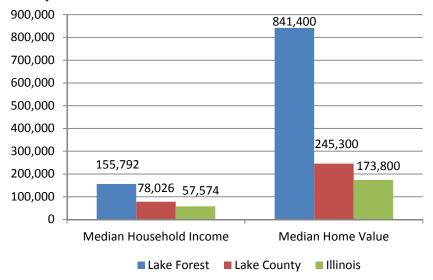

The City of Lake Forest utilizes an independent Audit Committee for reviewing the audit process and to report and make recommendations to the City Council. The Audit Committee members are Lake Forest residents having expertise in the area of financial administration and auditing.

The City's financial statements have been audited by Baker Tilly Virchow Krause, LLP a firm of licensed certified public accountants. The goal of the independent audit is to provide reasonable assurance that the financial statements of the City of Lake Forest for the fiscal year ended April 30, 2017, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon their audit, that there was a reasonable basis for an unmodified opinion that the City's financial statements for the fiscal year ended April 30, 2017, are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A is located immediately following the report of the independent auditors.

Profile of The City of Lake Forest

The City of Lake Forest was incorporated as a city under a charter granted by the Illinois State Legislature in 1861 and amended in 1869. Lake Forest is a residential community of 19,375 people and has a land area of 17.18 square miles. It is situated on Lake Michigan, thirty miles north of downtown Chicago in Lake County. In its American Community Survey, 2011-2015 estimates, the U.S. Census Bureau reported the City had a median household income and median home value significantly higher than comparable figures for Lake County and the State of Illinois:

The City adopted the Council-Manager form of government in 1956. Policy making and legislative authority are vested in the City Council, which consists of a Mayor and an eight-member Council. The City Council is responsible, among other things, for passing ordinances, adopting the budget, appointing committees and hiring the City Manager and City Attorney. The City Manager is responsible for carrying out the policies and ordinances of the City Council, for overseeing the day-to-day operations of the City, and for hiring the heads of the City's departments. The Council members are elected to two-year staggered terms with three Council members elected every two years. Aldermen serve a maximum of three terms. The Mayor is elected to a two-year term and serves a maximum of two terms.

The City provides a full range of services, including police protection, fire protection, paramedic service, refuse disposal, commuter parking, compost center, recreation center, senior center, community parks, golf course, street maintenance, forestry, cemetery and a water production facility.

The financial reporting entity of The City of Lake Forest includes all City funds as well as its component unit, the Lake Forest Library. Component units are legally separate entities for which the primary government is financially accountable.

Each year the City of Lake Forest prepares an annual budget document. This plan contains the following sections: the budget message and fiscal policy; summary tables of revenues, expenditures and fund balance for the fiscal year; operating budgets for each department; pay plan and personnel data; and debt and statistical information. The budget message highlights the significant expenditure events that will occur and the objectives to accomplish these events. It justifies the planned capital expenditures and also lists the goals that are to be achieved during the budget year.

While the annual municipal budget represents the City's financial plan for expenditures over the course of the fiscal year, the annual Appropriation Ordinance is the formal legal mechanism by which the City Council authorizes the actual expenditure of funds budgeted in the annual budget. It appropriates specific sums of money by object and purpose of expenditure.

In addition, the Appropriation Ordinance provides for a 10% contingency in expenditures in an amount above those actually budgeted. Each separate fund includes an item labeled contingency, with an appropriated amount equivalent to 10% of the total funds budgeted. Even though there is a 10% contingency line item, the City Council and City staff follow the adopted budget as its spending guideline and not the Appropriation Ordinance. This practice has been followed for more than thirty years and has worked very efficiently as a mechanism to address unanticipated items that may arise throughout the fiscal year.

Budget-to-actual comparisons are provided for each individual governmental fund for which an appropriated annual budget has been adopted. For the General Fund and Parks and Recreation Fund, considered major funds, this comparison is presented beginning on page 90 as required supplementary information. For the Capital Improvements Fund (major fund), Debt Service Fund (major fund) and non-major governmental funds with appropriated annual budgets, this comparison is presented in the Other Supplementary Information section of this report, which starts on page 110.

Factors Affecting Financial Condition

Local Economy. The City of Lake Forest is not immune to challenges brought on by national and state economic conditions, but has been proactive in identifying mitigation strategies.

- Unemployment levels in Lake Forest are well below the levels for Lake County and the State of Illinois. For calendar year 2016, the City's annual average unemployment rate was estimated to be 4.6%, compared to 5.2% for Lake County and 5.9% for the State of Illinois.
- The consumer confidence index is closely monitored by economists because consumer spending accounts for 70% of the United States' economic activity. In September 2017, the index was 119.8, down slightly from 120.4 in August, and comparing favorably to the August 2016 index of 101.1. The index remains above 90, the minimum level associated with a healthy economy. An index above 100 signals growth.

As revenues declined in recent years due to national economic conditions, the City has proactively reduced operating expenses to ensure a balanced budget and compliance with the City's fiscal policies. Since personnel costs represent nearly 70% of the General Fund operating budget, it has been necessary to achieve cost savings through reduced personnel. In fiscal years (FY) 2004-2018, the City has reduced budgeted full time employees by 47 positions, returning the City's total employee count below FY1992 levels. FY2016 budgeted full-time positions were reduced by 10 positions alone primarily by outsourcing dispatch operations.

In February 2011, the City Council approved an organizational restructuring and Early Retirement Incentive (ERI) program which is offered and regulated by the Illinois Municipal Retirement Fund (IMRF). Twenty-six (26) employees participated in the ERI program, which is projected to generate net savings of \$4.5 million over the initial ten year period. In December 2012, the City Council approved the use of excess fund balance reserves to pay off the ERI liability in its entirety, rather than amortizing over ten years as initially anticipated. This early payoff allowed the City to avoid \$1.8 million in interest costs over the amortization period.

In September 2014, the City transitioned to a consolidated dispatch operation with the Villages of Glenview and Lake Bluff, as well as the City of Highland Park. The consolidation of dispatch operations is saving the City more than \$350,000 per year while improving the infrastructure providing this vital service to residents.

Approximately half of the City's General Fund revenues come from property taxes, which continue to be a stable revenue source. The other major funding sources of sales tax, income tax, utility taxes and building permit revenues met FY2017 budget estimates in aggregate. However, these revenues have yet to reach levels prior to the 2008 recession. Effective May 1, 2014, the City implemented a new sanitation fee that generates \$600,000 per year. This revenue is currently deposited to the Capital Improvements Fund.

The financial condition of the State of Illinois continues to be a significant concern although the City has limited its reliance on the State for direct funding. The City is vigilant in monitoring legislation that may be introduced that could have a negative impact on the City's budget and vigorously opposes such legislation. The recently adopted State Budget for its fiscal year ended June 30, 2018, will impact the City's fiscal year 2018 due to a reduction in income tax distributions and a newly imposed administration fee of 2% on home rule sales tax collections. No immediate expenditure reductions are necessary due to a budgeted operating surplus in the General Fund for FY2018, but the City Council and staff are discussing various fiscal scenarios for future years should the State continue to tap local revenues to balance its budget.

In order to assist the business community and enhance sales tax revenues, economic development initiatives are conducted through the Office of the City Manager. The City has enlisted the services of an Economic Development Coordinator who acts as a liaison between the City, Lake Forest/Lake Bluff Chamber of Commerce and the business districts in Lake Forest. The City is committed to attracting desired businesses and to promote the viability of the business districts. More information can be found on the main page of the City's website under Economic Development.

In September 2017, Lake Forest was proud to host the BMW Championship, which brought the 70 top professional golfers from around the world to the City as part of the PGA Tour playoffs for the FedEx Cup. As it did in 2013 and 2015, the City actively embraced the event as a unique opportunity to market the community on an international stage. More than 115,000 spectators attended the 2015 event.

In an effort to proactively address budgetary issues that may arise throughout the year, City staff monitors revenues and expenses on a monthly basis. Monthly financial "flash" reports are provided to the City Council Finance Committee.

In addition, the City follows the fiscal policy approved annually by the City Council. The Fiscal Policy is designed to establish guidelines for the fiscal stability of the City and to provide guidelines for the City's chief executive officer, the City Manager. Effective fiscal policy:

- Contributes significantly to the City's ability to insulate itself from fiscal crisis,
- Enhances short-term and long-term financial credit ability by helping to achieve the highest credit and bond ratings possible,
- Promotes long-term financial stability by establishing clear and consistent guidelines,
- Directs attention to the total financial picture of the City rather than single issue areas,
- Promotes the view of linking long-term financial planning with day-to-day operations, and
- Provides the Council and the citizens a framework for measuring the fiscal impact of government services against established fiscal parameters and guidelines.

In Fiscal Year 2016, the City Council adopted revisions to the Fiscal Policy effective for FY2017 and continuing in FY2018. The revised policy clarified the applicability of the Property Tax Extension Limitation Law to the City, established a policy for setting aside reserves to meet the City's Other Post-Employment Benefits (OPEB) liability, revised the financing parameters for establishment of Special Service Areas, and committed to minimizing reliance on State and/or Federal revenues to fund core services.

Long–Term Financial Planning. The City is funding infrastructure expenditures primarily with a real estate transfer tax that was approved by voter referendum. This real estate transfer tax is imposed on residential and commercial real estate transactions. The transfer tax of \$4.00 per \$1,000 of value is levied on the buyer of the real estate.

FY2017 real estate transfer tax revenue totaled \$1.4 million. Significant fluctuations occur in this revenue source due to changes in economic conditions, and more specifically the housing market. The City will remain conservative in projecting this revenue source and in spending monies on capital projects.

A Public Works Committee which consists of three City Council members was created to oversee capital improvement projects and programs. Annually in October, the Public Works Committee and city staff finalize the draft of the Five Year Capital Improvement Program. This draft is discussed at a City Council budget meeting, typically held in November.

Five-year fund balance forecasts are prepared for major funds of the City each year as part of the budget development process to assist the City in identifying budget challenges on the horizon and ensure that a proactive approach is taken to addressing these challenges.

Pension Benefits. Escalating costs for employee pension benefits will continue to pose financial challenges to the City. Sworn police and fire personnel receive retirement and disability benefits from the Police Pension Fund and Firefighters' Pension Fund, respectively. Both of these plans are defined benefit, single-employer plans administered by boards of trustees. The defined benefits and employee contribution levels are governed by Illinois Compiled Statutes and may only be amended by the Illinois General Assembly. Police participants are required to contribute 9.91% of their base salaries and fire participants are required to contribute 9.455% of their base salaries. The City is required to contribute the remaining amounts necessary to finance each plan as determined by an independent actuary. As of April 30, 2017, the most recent actuarial valuation date, the funded ratio for the Police Pension Plan is 52.9% and for the Firefighters' Pension Plan is 69.4%.

All other employees of the City who work over 1,000 hours per year are covered by the Illinois Municipal Retirement Fund (IMRF), a statewide pension plan. Benefit provisions and funding requirements are established by State statutes and may only be changed by the Illinois General Assembly. Employees participating are required to contribute 4.5% of their annual wages and the City is required to contribute the remaining amounts necessary to fund the coverage of its employees in the plan. As of December 31, 2016, the funded ratio for IMRF is 88%, including the actuarial accrued liability for retirees which is 100% funded.

In early 2010, a bill was signed by the Governor with an effective date of January 1, 2011, approving a "two-tier" system, where current employees keep their existing pension plans, but new hires will join a less expensive new system. IMRF was included in the bill but not the Police and Firefighters' pension plans. By the end of 2010, the Illinois General Assembly approved police and firefighter pension reform legislation effective January 1, 2011. The law does not affect the pensions of currently employed police officers and firefighters - only those hired after January 1, 2011. Although little of the cost savings from both bills will be seen immediately, it does provide the City long-term financial relief.

Implementation of GASB Statement No. 67, Financial Reporting for Pension Plans, for Fiscal Year 2015 and No. 68, Accounting and Financial Reporting for Pensions, for Fiscal Year 2016 has resulted in significant changes to the reporting of pension obligations in the City's financial statements. Over the past few years, the City has made adjustments to the mortality table and interest rate assumptions for its police and fire pension fund actuarial valuations. These changes have reduced the funded ratio but are intended to put the City in an even stronger position going forward. These changes are in addition to historically overfunding the annual pension cost compared to minimum requirements per State Statutes.

Additional information on the City's pension obligations, as well as other postemployment benefits, may be found in Note IV of the financial statements, as well as in the Required Supplementary Information.

Major Initiatives

The City is committed to maintaining the quality of life and the preservation of the character and heritage of Lake Forest. The City must continue to adhere to its prudent financial management practices and remain focused on sustaining long-term financial stability. For FY2017, the most significant initiatives were as follows:

- In January 2015, the City Council approved ordinances adopting a Tax Increment Financing (TIF) District on a 10-acre site at the north end of the Commercial Business District. This is the former site of the City's municipal services center and has long been a focus of redevelopment for the City. In FY2016, the City completed required demolition of existing structures and remediation of the site. In April 2016, the City Council approved a First Amendment to the Purchase/Sale Agreement, redevelopment agreement, final plat of subdivision and Final Development Planned Development Ordinance. The plan includes 165 total units 12 single family homes, 42 condominium units and 111 apartments. In FY2017, the City and developer closed on the sale of the property and construction has begun. A portion of the proceeds were used to call and retire the remaining principal due on the 2008 bond issue, saving \$1.4 million in future interest costs.
- Construction of a new \$190 million replacement hospital on the campus of the existing Northwestern Lake Forest Hospital is underway. City and Hospital representatives have worked closely on the planning and construction. The new hospital is scheduled to open in the first quarter of 2018.

- In February 2016, the City Council authorized final design of water plant improvements that will increase the plant capacity to 14 MGD (million gallons per day) and utilize GE membrane filters. In FY2017, design was completed and bidding of the project commenced. The City Council awarded the bid for construction on April 17, 2017, and construction has begun. A significant portion of the project will be funded from bonds issued in May 2017.
- Capital expenditures in Fiscal Year 2017 included: street improvements (\$1.3 million), CBD Train Station restoration (\$1.1 million – partially grant funded), Emerald Ash Borer tree removal and replacement (\$188,000), and Water/Sanitary Sewer capital improvements (\$1.9 million).

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to The City of Lake Forest for its comprehensive annual financial report for the fiscal year ended April 30, 2016. This was the 38th consecutive year that The City of Lake Forest has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

We would like to express our appreciation to all members of the Finance Department who assisted and contributed to the preparation of this report. We would also like to thank the Mayor, members of the City Council and the Audit Committee for their interest and support in planning and conducting the financial operations of the City in a responsible and progressive manner.

Respectfully submitted,

Robert R. Kiely, Jr. City Manager

INDEPENDENT AUDITORS' REPORT

To the Honorable Mayor and City Council City of Lake Forest, Illinois

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Lake Forest, Illinois, as of and for the year ended April 30, 2017, and the related notes to the financial statements, which collectively comprise the City of Lake Forest's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of the Lake Forest Library were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control over financial reporting relevant to the City of Lake Forest's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the City of Lake Forest's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

To the Honorable Mayor and City Council City of Lake Forest. Illinois

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Lake Forest, Illinois, as of April 30, 2017 and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Lake Forest's basic financial statements. The supplementary information as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects, in relation to the basic financial statements as a whole.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Lake Forest's basic financial statements. The introductory section and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

To the Honorable Mayor and City Council City of Lake Forest, Illinois

Other Reporting Required by Government Auditing Standards

Baker Tilly Virchaw & rause, 42P

In accordance with *Government Auditing Standards*, we have also issued our report dated October 19, 2017 on our consideration of the City of Lake Forest's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Lake Forest's internal control over financial reporting and compliance.

Oak Brook, Illinois October 19, 2017

The City of Lake Forest's (the City) management's discussion and analysis is designed to (1) assist the reader in focusing on significant financial issues, (2) provide an overview of the City's financial activity, (3) identify changes in the City's financial position (its ability to address the next and subsequent year's challenges), (4) identify any material deviations from the financial plan (the approved budget), and (5) identify individual fund issues or concerns.

Since the Management's Discussion and Analysis (MD&A) is designed to focus on the current year's activities, resulting changes and currently known facts, please read it in conjunction with the Transmittal Letter (beginning on page i) and the City's financial statements (beginning on page 17).

Financial Highlights

- The City's net position decreased by \$5.2 million during the fiscal year ending April 30, 2017 (FY17).
 The governmental net position decreased by \$4.5 million and the business-type activities net position decreased by \$.7 million.
- The governmental activities revenue increased by \$3.0 million (5.8%) due to capital grants, increased property tax revenue and increased investment income. The expenses increased by \$9.8 million (19.9%) due primarily to adjustments related to pensions and a temporary loss on the sale of assets. Transfers decreased by \$.5 million related to a capital contribution from the Capital Improvements Fund to the Water and Sewer Fund in the prior year.
- The business-type activities revenue increased by \$.2 million (2.2%) and expenses increased by \$1.5 million (16.5%) due to pension adjustments and an increase in non-capitalized improvements. The transfers decreased by \$.5 million as noted above.
- The total cost of all City programs increased from \$58.3 million in FY16 to \$69.6 million in FY17 an increase of \$11.3 million or 19.4% attributable to pension adjustments, non-capitalized improvements and a temporary loss on the sale of capital assets.

USING THE FINANCIAL SECTION OF THE COMPREHENSIVE ANNUAL REPORT

The financial statement's focus is on both the City as a whole (government-wide) and on the major individual funds. Both perspectives (government-wide and major fund) allow the user to address relevant questions, broaden a basis for comparison (year to year or government to government) and enhance the City's accountability.

Government-Wide Financial Statements

The government-wide financial statements (see pages 17-19) are designed to be corporate-like in that all governmental and business-type activities are consolidated into columns which add to a total for the Primary Government. The focus of the Statement of Net Position (the Unrestricted Net Position) is designed to be similar to bottom line results for the City and its governmental and business-type activities. This statement combines and consolidates governmental fund's current financial resources (short-term spendable resources) with capital assets and long term obligations using the accrual basis of accounting and economic resources measurement focus.

The Statement of Activities (see page 18) is focused on both the gross and net cost of various activities (including governmental and business-type), which are supported by the government's general taxes and other resources. This is intended to summarize and simplify the user's analysis of the cost of various governmental services and/or subsidy to various business-type activities.

The Governmental Activities reflect the City's basic services, including highways and streets, sanitation, culture and recreation, public safety and general government. Property taxes, sales tax, income taxes and local utility taxes finance the majority of these services. The Business-type Activities reflect private sector type operations (Waterworks and Sewerage, Golf) where the fee for service is intended to cover all or most of the costs of operation, including depreciation.

Fund Financial Statements

Traditional users of governmental financial statements will find the Fund Financial Statements presentation more familiar. The focus is on Major Funds, rather than fund types.

The Governmental Major Funds (see pages 20 and 22) presentation is presented on a sources and uses of liquid resources basis. This is the manner in which the financial plan (the budget) is typically developed. The flow and availability of liquid resources is a clear and appropriate focus of any analysis of a government. Funds are established for various purposes and the Fund Financial Statement allows the demonstration of sources and uses and/or budgeting compliance associated therewith.

The Fund Financial Statements also allow the government to address its Fiduciary Funds (Police Pension, Firefighters' Pension, Cemetery Trust, and Special Assessment Funds). While these Funds represent trust responsibilities of the government, these assets are restricted in purpose and do not represent discretionary assets of the government. Therefore, these assets are not presented as part of the Government-Wide Financial Statements.

While the Business-type Activities column on the Business-type Fund Financial Statements (see pages 24 - 26) is essentially the same as the Business-type column on the Government-Wide Financial Statement, the Governmental Major Funds Total column requires a reconciliation because of the different measurement focus (current financial resources versus total economic resources) which is reflected on the page following each statement (see pages 21 and 23). The flow of current financial resources will reflect debt proceeds and inter-fund transfers as other financing sources as well as capital expenditures and debt principal payments as expenditures. The reconciliation will eliminate these transactions and incorporate the capital assets and long-term obligations (bonds and others) into the Governmental Activities column (in the Government-wide statements).

Infrastructure Assets

Historically, a government's largest group of assets (infrastructure – roads, bridges, storm sewers, etc.) were not reported nor depreciated in governmental financial statements. Generally accepted accounting principles now require that these assets be valued and reported within the Governmental Activities column of the government-wide Statements. Additionally, the government must elect to either (1) depreciate these assets over their estimated useful life or (2) develop a system of asset management designed to maintain the service delivery potential to near perpetuity. If the government develops the asset management system (the modified approach) which periodically (at least every third year) by category measures and demonstrates its maintenance of locally established levels of service standards, the government may record its cost of maintenance in lieu of depreciation. The City has chosen to depreciate assets over their useful life. If a road project is considered maintenance — a recurring cost that does not extend the road's original useful life or expand its capacity — the cost of the project will be expensed. An "overlay" of a road will be considered maintenance whereas a "rebuild" of a road will be capitalized.

GOVERNMENT-WIDE STATEMENT

Statement of Net Position

The City's combined net position decreased by \$5.2 million for FY17 – from \$227.4 million to \$222.2 million. The analysis following will look at net position and net expenses of governmental and business-type activities separately. The total net position for the governmental activities decreased by \$4.5 million – from \$181.5 million to \$177.0 million. The business-type activities net position decreased by \$.7 million – from \$45.9 million to \$45.2 million. Table 1 reflects the condensed Statement of Net Position compared to FY16. Table 2 will focus on the changes in net position of the governmental and business-type activities.

Table 1 Statement of Net Position As of April 30, 2016 and 2017 (in millions)

	Governmental Activities		Busines	s-Type	Total Primary			
			Activi	ities	Government			
	2017	2016	2017	2016	2017	2016

Total Net Position	\$177.0	\$181.5	\$45.2	\$45.9	\$222.2	\$227.4		

For more detailed information see the Statement of Net Position (page 17).

Normal Impacts

There are six basic (normal) transactions that will affect the comparability of the Statement of Net Position summary presentation.

Net Results of Activities will impact (increase/decrease) current assets and unrestricted net position.

Borrowing for Capital will increase current assets and long-term debt.

Spending Borrowed Proceeds on New Capital will reduce current assets and increase capital assets. There is a second impact, an increase in capital assets and an increase in related net debt which will not change the net investment in capital assets.

Spending of Non-borrowed Current Assets on New Capital will (a) reduce current assets and increase capital assets and (b) will reduce unrestricted net position and increase net investment in capital assets.

Principal Payment on Debt will (a) reduce current assets and reduce long-term debt; and (b) reduce unrestricted net position and increase net investment in capital assets.

Reduction of Capital Assets through Depreciation will reduce capital assets and net investment in capital assets.

Current Year Impacts

The City's \$5.2 million decrease in combined net position (which is the City's bottom line) was the result of the governmental activities net position decreasing by \$4.5 million and the business-type activities net position decreasing by \$.7 million.

The governmental activities total assets decreased by \$8.0 million (2.7%) and the governmental activities total liabilities decreased by \$5.7 million (5.6%). With the implementation of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, long-term liabilities now include the net pension liability previously only disclosed in the notes to the financial statements. The decrease in total assets is primarily due to deletion of and depreciation on capital assets. The decrease in total liabilities is due to the retirement of general obligation bonds. See additional information in the Debt Outstanding section of the MD&A.

A decrease in deferred outflows of \$1.7 million related to pensions, while an increase in deferred inflows of \$.5 million related to an increase in property taxes levied for future periods.

Net investment in capital assets decreased by \$10.9 million (6%) due to the sale of land owned by the City and depreciation. Restricted net position decreased \$3.0 million largely due to bond proceeds expended for capital improvements. Unrestricted net position increased by \$9.4 million primarily due to the net effect of GASB 68 reporting of pension obligations.

The net position of business-type activities decreased by \$.7 million, from \$45.9 million to \$45.2 million. The primary change in assets of the business-type activities was a decrease in capital assets due to depreciation expense exceeding capital additions.

Long-term liabilities decreased by \$1.9 million due to scheduled maturities of debt obligations. Net investment in capital assets decreased by a modest \$.1 million, and unrestricted net position decreased by \$.6 million. The majority of the unrestricted net position can be used by the City to finance water and sanitary sewer operations. The City has a policy of maintaining 33% of revenue plus one year's debt service plus \$500,000 as a reserve in its water fund. The annual operating cost for this program is approximately \$8.1 million per year and interest expense on bonds is \$.4 million.

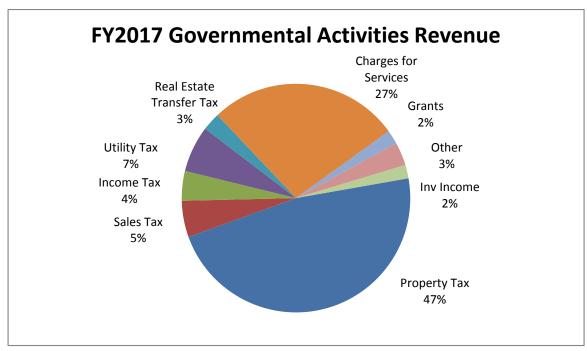

Changes in Net Position

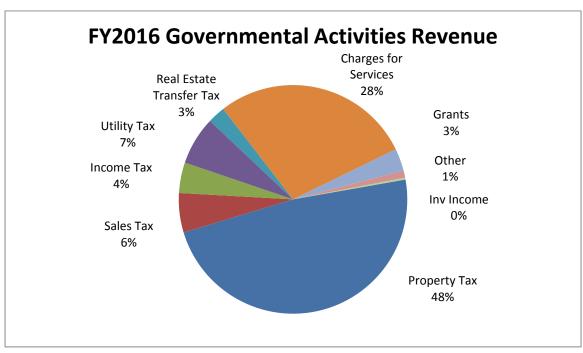

The City's combined change in net position was a decrease of \$5.2 million in FY17. The City's total revenues increased by \$3.2 million, primarily driven by property taxes and interest income. The City's cost of all programs increased by \$11.3 million, largely attributable to pension adjustments, non-capitalized improvements and a temporary loss on the sale of capital assets.

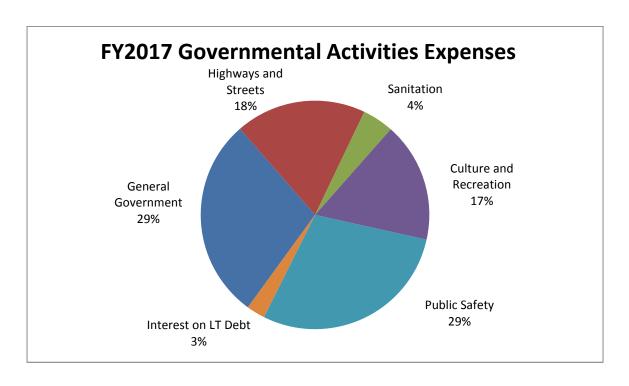

The chart on the following page compares the revenue and expenses for the current and previous fiscal year.

Normal Impacts

There are eight basic impacts on revenues and expenses as reflected below.

Revenues

Economic Condition can reflect a declining, stable or growing economic environment and has a substantial impact on state income, sales and utility tax revenue as well as public spending habits for building permits, elective user fees and volumes of consumption.

Increase/Decrease in City approved rates – while certain tax rates are set by statute, the City Council has authority to impose and periodically increase/decrease rates (water, sewer, building fees, etc.).

Changing Patterns in Intergovernmental and Grant Revenue (both recurring and non-recurring) – certain recurring revenues (state shared revenues, etc.) may experience significant changes periodically while non-recurring (or one-time) grants are less predictable and often distorting in their impact on year to year comparisons.

Market Impacts on Investment income – investment income on the City's investment portfolio may fluctuate based on market conditions.

Expenses

Introduction of New Programs – within the functional expense categories (Public Safety, Highways and Streets, General Government, etc.), individual programs may be added or deleted to meet changing community needs.

Increase/Decrease in Authorized Personnel – changes in service demand may cause the City Council to increase/decrease authorized staffing. Staffing costs (salary and related benefits) represent nearly 70% of the City's general fund operating costs.

Salary Increases (annual adjustments and merit) – the ability to attract and retain human and intellectual resources requires the City to strive to approach a competitive salary range position in the marketplace.

Inflation – while overall inflation appears to be reasonably modest, the City is a major consumer of certain commodities such as supplies, fuels and parts. Some functions may experience unusual commodity specific increases.

Current Year Impacts

Governmental Activities

Revenue

For the fiscal year ended April 30, 2017, revenues from governmental activities totaled \$54.9 million, increasing \$3.0 million compared to FY16. The primary changes occurred in Capital Grants (\$.9 million), Property Tax (\$.9 million) and Interest Revenue (\$.9 million). Property tax revenue increased by 3.6% over FY16 and Cemetery Fund investment income increased significantly over the prior year. Property tax revenue continues to be the City's single largest revenue source, contributing \$25.9 million (47%) of governmental activities revenue.

Property tax revenues combined with sales tax, the local utility tax, shared state income tax and real estate transfer tax revenues total \$36.7 million and represent 67% of the total governmental activities revenue.

The real estate transfer tax became effective July 5, 2006 with a 58% voter approval via referendum. The tax is imposed upon buyers of any residential or commercial real estate at a rate of \$4.00 per \$1,000 of value. The revenue is used strictly to improve the City's infrastructure.

The City's 2016 equalized assessed valuation increased 5.9% compared to the prior year and totaled \$2,443,072,671. Although the City became a home rule municipality in November 2004, the City has historically self-imposed the Illinois Property Tax Extension Limitation Laws (PTELL), otherwise known as the tax cap, to the extent possible. The increase of approximately 3.6% over FY16 in property taxes was generated as a result of the City Council adopting a 2.93% increase in the levy and new growth. While the tax cap applicable to this levy was .80%, the City Council elected to exceed this cap due to uncertainty regarding the State budget and potential loss of State-shared revenue.

Investment income increased by \$0.9 million, from \$.1 million to \$1.0 million. Most of this increase occurred in the Cemetery Fund. The City's strategy for investing did not change but the City benefited from improved market conditions.

Expenses

For the fiscal year ended April 30, 2017, expenses for governmental activities totaled \$59.0 million, an increase of \$9.8 million (19.9%). The increase is due in large part to pension adjustments and a temporary loss on the sale of the property associated with the prior Municipal Services facility. Increases in personnel costs, which represent nearly 70% of the General Fund operating costs, continue to outpace revenue growth. With high demand for skilled employees in both the public and private sectors in this region, it is important that the City provide competitive compensation levels for our employees. The FY17 expenses included funding for the City's performance based employee compensation package plus a 2.5% general salary adjustment.

Business-type Activities

Revenue

Total revenue for the business-type activities increased by \$.2 million (2.2%) primarily due to an increase in charges for services in the Water and Sewer Fund.

Expenses

The City's business-type activity expenses increased by \$1.5 million (16.5%) due primarily to pension adjustments and non-capitalized improvements.

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

Governmental Funds

At April 30, 2017, the governmental funds (as presented on the balance sheet on page 20) reported a combined fund balance of \$49.5 million which is a \$3.5 million (7.6%) increase from the beginning of the year (\$46 million). This increase was largely driven by proceeds of capital asset sales of \$5.6 million. Of the total fund balance of \$49.5 million, \$1.3 million is not available for continuing City services and capital projects. The unassigned fund balance for the total of all governmental funds is \$28.8 million, which is a \$6.3 million (28%) increase over the prior year.

Major Governmental Funds

The General Fund is the City's primary operating fund and the largest source of day-to-day service delivery. The total Fund Balance of the General Fund increased by \$5.8 million or 24% from FY16 (from \$23.8 million to \$29.6 million). The General Fund revenues increased by \$.9 million (2.5%) due primarily to an increase in property tax revenue. The General Fund expenditures decreased by \$1.5 million (4.9%) due to a decrease in capital outlay of \$1.8 million. The excess of revenues over expenditures (before transfers) for FY17 of \$7.4 million exceeded FY16 (\$5.0 million). The other financing sources (uses) were comparable, from \$(1.7) million to \$(1.6) million.

Property taxes increased \$.6 million, while other taxes increased \$.2 million. Although the City became a home rule unit in November 2004, the City has historically self-imposed the Illinois Property Tax Extension Limitation Law (PTELL), otherwise known as the tax cap. As noted previously, the 2015 levy extension (FY17 revenue) allowed for a 2.93% increase as well as new equalized assessed valuation growth.

General Fund expenditures increased overall due to personnel cost increases. General government increased 3.1%, highways and streets increased 5.5% (primarily snow and ice control), sanitation was unchanged and public safety costs decreased .1%. In addition, General Fund capital outlay costs decreased by \$1.8 million compared to FY16.

Table 3									
General Fund Budgetary Highlights									
(in millions)									
Original Final									
General Fund	Budget	Budget	Actual						
Revenues:									
Taxes	\$21.0	\$21.0	\$21.1						
Intergovernmental - Taxes	6.3	6.3	6.1						
Other	8.7	8.7	9.6						
Total	36.0	36.0	36.8						
Expenditures and Transfers:									
Expenditures	34.9	35.1	29.4						
Transfers (Net)	1.2	1.2	1.6						
Total	36.1	36.3	31.0						
Change in Fund Balance	(\$0.1)	(\$0.3)	\$5.8						

Actual General Fund revenues were higher than budgeted revenues by \$.8 million during FY17. The primary variance resulted from building permit revenues exceeding projections. Actual General Fund expenditures were lower than the final budget by \$5.3 million. It is the City's policy to add 10%, which is

\$3.3 million, of contingency funding to the budget appropriation. The contingency amount is only for specific uses as determined by the City Council and was not expended in FY17. Additional information can be found on the schedule of revenues, expenditures and changes in fund balance – budget and actual on page 90.

The Parks and Recreation Fund accounts for the parks and recreation programs. Services include forestry and parks maintenance operations, a fitness center, dance academy, and a variety of other indoor and outdoor programs. The Fund Balance of the Parks and Recreation Fund decreased by \$.2 million, from \$3.0 million to \$2.8 million. The Parks and Recreation Fund revenues and expenditures were consistent with the prior year. Total other financing sources (uses) decreased by \$.2 million, contributing to a net change in fund balance of \$(246,306).

The Capital Improvements Fund is reported as a Major Fund for FY17 and is used to account for revenues used to fund City building and infrastructure projects. Fund balance of this fund decreased by \$1.4 million due to expenditure of bond proceeds from the prior year. Compared to FY16, revenue increased by \$.5 million due to increases in grant revenue. Total expenditures decreased by \$1.5 million in the capital outlay category. Proceeds of capital asset sales of \$5.6 million were transferred to the Debt Service Fund.

The Debt Service Fund is reported as a Major Fund for FY17 and is used to account for revenues used to retire non-Enterprise Fund obligations. Fund balance for FY17 decreased by \$.2 million, from \$1.6 million to \$1.4 million. Transfers in of \$6.8 million were used to retire all remaining principal on the 2008 General Obligation Bonds, saving the City \$1.4 million in future interest costs.

CAPITAL ASSETS

Table 4									
Capital Assets at Year End - 2017 and 2016									
	Ne	t of Depre	ciation

Total	\$200.6	\$214.7	\$50.9	\$52.7	\$251.5	\$267.4			

At the end of FY17, the City had a combined total of \$251.5 million invested in a broad range of capital assets. This amount represents a net decrease (including additions and deductions) of \$15.9 million. The net decrease is attributable to a \$14.1 million decrease in governmental activities and a \$1.8 million decrease in the business-type activities.

The \$14.1 million decrease in the governmental activities was due to an \$8.9 million net deletion due to the sale of the former Municipal Services site, \$5.9 million of depreciation offset by \$.7 million of capital

asset additions. The \$1.8 million decrease in business-type activities was due to \$2.8 million of depreciation offset by \$1.0 million in asset additions.

The following reconciliation summarizes the changes in Capital Assets which are presented in detail on pages 57-59 of the Notes.

	Table 5

Ending Balance	\$200.6	\$50.9	\$251.5						

Debt Outstanding

The City had \$48.3 million of general obligation bonds outstanding at April 30, 2017. Of this amount \$24.8 million were payable from property taxes and the remainder were self-supporting. The City abates the property tax levies for these debt issues annually.

The City's per capita debt ratio for all direct and overlapping debt with other governmental units was \$5,862 and \$5,420 if self-supporting debt is excluded.

The City operated as a home rule community for FY17. The City was granted home rule status via a referendum held on November 2, 2004. Under home rule authority, the City will not have a legal debt limit. For more detailed information on long-term debt activity, see pages 62-64.

The City issued no additional debt in FY17.

As of April 30, 2017, the City's net pension liability is \$52.4 million, an increase of \$1.9 million over the \$50.5 million balance as of April 30, 2016. Additional information regarding the net pension liability can be found in Note IV.

Economic Factors

Unemployment levels in Lake Forest are well below the levels for Lake County and the State of Illinois. For calendar year 2016, the City's annual average unemployment rate was estimated to be 4.6%, compared to 5.2% for Lake County and 5.9% for the State of Illinois.

The City maintains a Aaa bond rating from Moody's Investors Service.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, customers, investors and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. Questions concerning this report or requests for additional financial information should be directed to Elizabeth Holleb, Finance Director, City of Lake Forest, 800 N. Field Drive, Lake Forest, IL 60045.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES For the Year Ended April 30, 2017

Net change in fund balances - total governmental funds	\$ 3,549,961
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of net position the cost of these assets is capitalized and they are depreciated over their estimated useful lives and reported as depreciation expense in the statement of activities. Capital outlay is reported as an expenditure in the fund financial statements but is capitalized in the government-wide financial statements Proceeds from the sale of capital assets are included as an other financing source in the fund financial statements but are not recorded as revenue in the government-wide financial statements.	669,106 (5,631,108)
Depreciation is reported in the government-wide financial statements Loss on sale or retirement of capital assets Less amount reported in internal service funds below	(5,943,643) (3,243,149) 4,805
Receivables not currently available are reported as revenue when collected or currently available in the fund financial statements but are recognized as revenue when earned in the government-wide financial statements.	
Unavailable revenue	893,430
Debt issued provides current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.	
Principal repaid	7,906,696
Governmental funds report debt premiums and discounts as other financing sources (uses) or expenditures. However, in the statement of net position, these are reported as additions to or deductions from long-term debt. These are allocated over the period the debt is outstanding in the statement of activities and are reported as interest expense. Debt discount	(19,694)
Debt premium	21,382
Some expenses in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.	
Compensated absences Accrued interest on debt Amortization of deferred charge on refunding	(85,519) 103,915 (25,512)
Net pension liability Deferred outflows of resources related to pensions Deferred inflows of resources related to pensions	(1,884,198) (1,702,050) (67,322)
Other post-employment benefits Less amount reported in internal service funds below	(9,831) 102,704
Internal service funds are used by management to charge self insurance costs and fleet charges to individual funds. The change in net position of the internal service fund reported with governmental	
activities	829,567
CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES	\$ (4,530,460)

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Lake Forest, Illinois (the City) was incorporated in 1861 under a charter granted by the Illinois State Legislature that was amended in 1869. The City is a home-rule municipality, under the 1970 Illinois Constitution, located in Lake County, Illinois. The City provides the following services as authorized by its charter: public safety (police and fire protection), water and sewer, recreation, refuse collection, a senior center, public library, a cemetery, and a golf course.

The accounting policies of the City of Lake Forest, Illinois conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The accepted standard-setting body for establishing governmental accounting and financial reporting principles is the Governmental Accounting Standards Board (GASB).

A. REPORTING ENTITY

This report includes all of the funds of the City. The reporting entity for the City consists of the primary government and its component units. Component units are legally separate organizations for which the primary government is financially accountable or other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading. The primary government is financially accountable if (1) it appoints a voting majority of the organization's governing body and it is able to impose its will on that organization, (2) it appoints a voting majority of the organization's governing body and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government, (3) the organization is fiscally dependent on and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government. Certain legally separate, tax exempt organizations should also be reported as a component unit if all of the following criteria are met: (1) the economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government, its component units, or its constituents; (2) the primary government or its component units, is entitled to, or has the ability to access, a majority of the economic resources received or held by the separate organization; and (3) the economic resources received or held by an individual organization that the primary government, or its component units, is entitled to, or has the ability to otherwise access, are significant to the primary government.

Component units are reported using one of two methods, discrete presentation or blending. Generally, component units should be discretely presented in a separate column in the financial statements. A component unit should be reported as part of the primary government using the blending method if it meets any one of the following criteria: (1) the primary government and the component unit have substantively the same governing body and a financial benefit or burden relationship exists, (2) the primary government and the component unit have substantively the same governing body and management of the primary government has operational responsibility for the component unit, (3) the component unit serves or benefits, exclusively or almost exclusively, the primary government rather than its citizens, or (4) the total debt of the component unit will be paid entirely or almost entirely from resources of the primary government.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

A. REPORTING ENTITY (cont.)

The Police Pension Employees Retirement System (PPERS) is established for the City's police employees. PPERS functions for the benefit of these employees and is governed by a five-member pension board. Two members appointed by the City's Mayor with the approval of the City Council, one pension beneficiary elected by the beneficiaries, and two police employees elected by the active police constitute the pension board. The City and the PPERS participants are obligated to fund all PPERS costs based upon actuarial valuations. The State of Illinois is authorized to establish benefit levels and the City is authorized to approve the actuarial assumptions used in the determination of contribution levels. Although it possesses many characteristics of a legally separate government, PPERS is reported as if it were part of the primary government because its sole purpose is to finance and administer the pensions of the City's police employees and because of the fiduciary nature of such activities. PPERS is reported as a pension trust fund and the data for the pension is included in the government's fiduciary fund financial statements. No separate annual financial report is issued for the PPERS.

The Firefighters' Pension Employees Retirement System (FPERS) is established for the City's firefighters. FPERS functions for the benefit of these employees and is governed by a five-member pension board. Two members appointed by the City's Mayor with the approval of the City Council, one pension beneficiary elected by the beneficiaries; and two fire employees elected by the active firefighters' constitute the pension board. The City and the FPERS participants are obligated to fund all FPERS costs based upon actuarial valuations. The State of Illinois is authorized to establish benefit levels and the City is authorized to approve the actuarial assumptions used in the determination of contribution levels. Although it possesses many of the characteristics of a legally separate government, FPERS is reported as if it were part of the primary government because its sole purpose is to finance and administer the pensions of the City's firefighters because of the fiduciary nature of such activities. FPERS is reported as a pension trust fund and the data for the pension is included in the government's fiduciary fund financial statements. No separate annual financial report is issued for the FPERS.

Discretely Presented Component Unit

Lake Forest Library

The government-wide financial statements include the Lake Forest Library (Library) as a component unit. The Library is a legally separate organization governed by a seven-member Board of Trustees. The board of the Library is appointed by the Mayor of the City. The Library is financially accountable to the City as the City's approval is needed for the Library to issue bonded debt. Complete financial statements of the Library are available at the City's Administrative Office, 800 North Field Drive, Lake Forest, Illinois 60045. The Library follows the same accounting policies as the City.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

In February 2015, the GASB issued statement No. 72 - Fair Value Measurement and Application. This statement addresses accounting and financial reporting issues related to fair value measurements. It defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This standard was implemented May 1, 2016.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (cont.)

Government-Wide Financial Statements

The statement of net position and statement of activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. The City does not allocate indirect expenses to functions in the statement of activities. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not included among program revenues are reported as general revenues. Internally dedicated resources are reported as general revenues rather than as program revenues.

Fund Financial Statements

Financial statements of the City are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position/fund balance, revenues, and expenditures/expenses.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (cont.)

Fund Financial Statements (cont.)

Funds are organized as major funds or nonmajor funds within the governmental and proprietary statements. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the City or meets the following criteria:

- a. Total assets/deferred outflows of resources, liabilities/deferred inflows of resources, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10% of the corresponding total for all funds of that category or type, and
- b. The same element of the individual governmental or enterprise fund that met the 10% test is at least 5% of the corresponding total for all governmental and enterprise funds combined.
- c. In addition, any other governmental or enterprise fund that the City believes is particularly important to financial statement users may be reported as a major fund.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The City reports the following major governmental funds:

- General Fund accounts for the City's primary operating activities. It is used to account for and report all financial resources except those accounted for and reported in another fund.
- Parks and Recreation Fund used to account for the maintenance of parks and recreation programs. Services include a fitness center, dance academy, and a variety of other indoor and outdoor programs. Principal revenue sources for this fund include a dedicated tax levy, grants, contributions, and program fees.
- Capital Improvements Fund used to account for revenues to be used to fund City building and infrastructure projects.
- Debt Service Fund used to account for and report financial resources that are restricted, committed, or assigned to expenditure for the payment of general long-term debt principal, interest, and related costs.

The City reports the following major enterprise fund:

Waterworks and Sewerage Fund - accounts for operations of the waterworks and sewerage system for the residents of the City.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (cont.)

Fund Financial Statements (cont.)

The City reports the following nonmajor governmental and enterprise funds:

Special Revenue Funds - used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes (other than debt service or capital projects).

Asset Forfeiture
Foreign Fire Insurance Tax
Emergency Telephone
Parks and Public Land
Motor Fuel Tax
General Cemetery
Senior Resources Commission
Housing Trust

Capital Projects Funds - used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

Route 60 Bridge Improvements Route 60 Intersection Improvements Laurel/Western Redevelopment TIF Improvements

Enterprise Fund - used to account for and report any activity for which a fee is charged to external uses for goods or services, and must be used for activities which meet certain debt or cost recovery criteria.

Deerpath Golf Course

In addition, the City reports the following fund types:

Internal Service Funds - used to account for and report the financing of goods or services provided by one department or agency to other departments or agencies of the City, or to other governmental units, on a cost-reimbursement basis.

Fleet Self Insurance Liability Insurance

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (cont.)

Fund Financial Statements (cont.)

Private-Purpose Trust Fund - used to account for monies provided by private donations on which the investment earnings are expected to be used for the maintenance of each individual's cemetery plot.

Pension (and Other Employee Benefit) Trust Funds - used to account for and report resources that are required to be held in trust for the members and beneficiaries of defined benefit pension plans, defined contribution plans, other postemployment benefit plans, or other employee benefit plans.

Firefighters' Pension Police Pension

Agency Fund - used to account for and report assets held by the City in a trustee capacity or as an agent for individuals, private organizations, and/or other governmental units.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

Government-Wide Financial Statements

The government-wide statement of net position and statement of activities are reported using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Property taxes are recognized as revenues in the year for which they are levied. Taxes receivable for the following year are recorded as receivables and deferred inflows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider are met. Special assessments are recorded as revenue when earned. Unbilled receivables are recorded as revenues when services are provided.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION (cont.)

Fund Financial Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the City considers revenues, except for property taxes and income taxes, to be available if they are collected within 90 days of the end of the current fiscal period. Revenues for property taxes are considered to be available if they are collected within 60 days of the end of the current fiscal year. Revenues for income taxes are considered to be available if they are collected within 120 days of the end of the current fiscal year. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on long-term debt, claims, judgments, compensated absences, and pension expenditures, which are recorded as a fund liability when expected to be paid with expendable available financial resources.

Property taxes are recorded in the year levied as receivables and deferred inflows. They are recognized as revenues in the succeeding year when services financed by the levy are being provided.

Intergovernmental aids and grants are recognized as revenues in the period the City is entitled the resources and the amounts are available. Amounts owed to the City which are not available are recorded as receivables and unavailable revenues. Amounts received before eligibility requirements (excluding time requirements) are met are recorded as liabilities. Amounts received in advance of meeting time requirements are recorded as deferred inflows.

Revenues susceptible to accrual include property taxes, miscellaneous taxes, public charges for services, special assessments and interest. Other general revenues such as fines and forfeitures, inspection fees, recreation fees, and miscellaneous revenues are recognized when received in cash or when measurable and available under the criteria described above.

Proprietary and fiduciary fund financial statements (other than agency funds) are reported using the economic resources measurement focus and the accrual basis of accounting, as described previously in this note. Agency funds follow the accrual basis of accounting, and do not have a measurement focus.

The proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Waterworks and Sewerage Fund and the Deerpath Golf Course Fund are charges to customers for sales and services. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION (cont.)

All Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, and deferred inflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Equity

1. Deposits and Investments

For purposes of the statement of cash flows, the City considers all highly liquid investments with an initial maturity of three months or less when acquired to be cash equivalents.

The City and Library are authorized to invest in the following types of securities under Illinois law and the City's investment policy:

- Bonds, notes, certificates of indebtedness, treasury bills, or other securities which are guaranteed by the full faith and credit of the United States of America;
- Bonds, notes, debentures, or other similar obligations of U.S. Government or its agencies;
- Interest bearing bonds of any county, township, city, incorporated town, municipal corporation,
 or school district, and the bonds shall be registered in the name of the municipality or held
 under a custodial agreement at a bank, provided the bonds shall be rated at the time of
 purchase within the 4 highest general classifications established by a rating service of
 nationally recognized expertise in rating bonds of both states and their political subdivisions;
- Interest bearing savings accounts, interest bearing certificates of deposit, interest bearing
 deposits, or any other investments constituting direct obligations of any bank as defined by the
 Illinois Banking Act (205 ILCS 5/1 et. seq.), provided, however, that such investments may be
 made in only banks which are insured by the Federal Deposit Insurance Corporation;
- Commercial Paper issuer must be a United States corporation with more than \$500 million in assets, rating must be within the highest tier (e.g. A-1, P-1, F-1, D-1, or higher) by two standard rating services, must mature within 180 days of purchase, such purchases cannot exceed 10% of the corporation's outstanding obligations, and such purchases cannot exceed one-third of funds;

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

- D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Equity (cont.)
 - 1. Deposits and Investments (cont.)
- Money Market Mutual Funds registered under the Investment Company Act of 1940 (15 U.S.C.A. § 80a-1 et. seq.), provided the portfolio is limited to bonds, notes, certificates, treasury bills, or other securities which are guaranteed by the full faith and credit of the federal government as to principal and interest;
- Short term discount obligations of the Federal National Mortgage Association (established by or under the National Housing Act (1201 U.S.C. 1701 et. seq.)), or in shares or other forms of securities legally issuable by savings banks or savings and loans associations incorporated under the laws of Illinois or any other state or under the laws of the United States, provided, however, that the shares or investment certificates of such savings banks or savings and loans associations are insured by the Federal Deposit Insurance Corporation;
- Dividend-bearing share accounts, share certificate accounts, or class of share accounts of a
 credit union chartered under the law of the State of Illinois or the laws of the United States;
 provided, however, the principal office of the credit unions must be located within the State of
 Illinois; and, provided further, that such investments may be made only in those credit union
 accounts of which are insured by applicable law;
- The Public Treasurer's Investment Pool created under Section 17 of the State Treasurer Act
 (15 ILCS 505/17) or in a fund managed, operated, and administered by a bank subsidiary of a
 bank, or subsidiary of a bank holding company, or use the services of such an entity to hold
 and invest or advise regarding the investment of any public funds; and
- Repurchase agreements of government securities having the meaning set out in the Government Securities Act of 1986 (15 U.S.C.A § 780-5) subject to the provisions of that Act and the regulations issued there under, provided, however, that such government securities, unless registered or inscribed in the name of the City, shall be purchased through banks or trust companies authorized to do business in the State of Illinois; and such other repurchase agreements as are authorized in subsection (h) of Section 2 of the Public Funds Investment Act (30 ILCS 235/2). Repurchase agreements may be executed only with approved financial institutions or broker/dealers meeting the City's established standards, which shall include mutual execution of a Master Repurchase Agreement adopted by the City.

The Lake Forest Cemetery Investment Fund is also permitted to invest in the following instruments:

 Common and preferred stock authorized for investments of trust funds under the laws of the State of Illinois limited to 60% of the fund's investments.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

- D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Equity (cont.)
 - 1. Deposits and Investments (cont.)

In addition, Pension Funds are also permitted to invest in the following instruments:

- Common and preferred stock authorized for investments of trust funds under the laws of the State of Illinois limited to 35% of the fund's investments;
- General accounts of Illinois-licensed life insurance companies;
- Separate accounts of Illinois-licensed insurance companies invested in stocks, bonds, and real estate limited to 10% of the fund's investments:
- Bonds issued by any county, city, township, village, incorporated town, municipal corporation, or school district in Illinois: and
- Tax anticipation warrants issued by any city, township, village, incorporated town, or fire
 protection district in Illinois.

Investments are stated at fair value, which is the amount at which an investment could be exchanged in a current transaction between willing parties. Fair values are based on quoted market prices. No investments are reported at amortized cost. Adjustments necessary to record investments at fair value are recorded in the operating statement as increases or decreases in investment income. Investment income on commingled investments of municipal accounting funds is allocated based on average balances. The difference between the bank statement balance and carrying value is due to outstanding checks and/or deposits in transit.

Illinois Funds is an investment pool managed by the State of Illinois, Office of the Treasurer, which allows governments within the State to pool their funds for investment purposes. Illinois Funds is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in Illinois Funds are valued at Illinois Fund's share price, the price for which the investments could be sold.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

- D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Equity (cont.)
 - 1. Deposits and Investments (cont.)

The Police Pension Fund's investment policy, in accordance with Illinois Statutes, establishes the following target allocation across asset classes:

Asset Class	Target	Expected Real Rate of Return
Fixed Income	35%	2.00%
Domestic Equities	36%	5.60%
International Equities	18%	5.90%
Real Estate	10%	5.40%
Cash	1%	(0.40)%

Illinois Compiled Statues (ILCS) limit the Police Pension Fund's investments in equities, mutual funds and variable annuities to 65%. Securities in any one company should not exceed 5% of the total fund.

The long-term expected rate of return on the Police Pension Fund's investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (net of pension plan investment expense and inflation) were developed for each major asset class. These ranges were combined to produce long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Police Pension Fund's target asset allocation are listed in the table above.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Equity (cont.)

1. Deposits and Investments (cont.)

The Firefighters' Pension Fund's investment policy, in accordance with Illinois Statutes, establishes the following target allocation across asset classes:

Target	Long-Term Expected Real Rate of Return
0.60%	1.5%
34.90%	3.1%
3.90%	7.0%
17.10%	8.4%
12.90%	8.1%
3.10%	9.4%
12.80%	8.7%
1.45%	9.5%
7.00%	7.0%
4.55%	7.5%
1.7%	5.7%
	0.60% 34.90% 3.90% 17.10% 12.90% 3.10% 12.80% 1.45% 7.00% 4.55%

Illinois Compiled Statues (ILCS) limit the Firefighters' Pension Fund's investments in equities, mutual funds and variable annuities to 65%. Securities in any one company should not exceed 5% of the total fund.

The long-term expected rate of return on the Firefighters' Pension Fund's investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (net of pension plan investment expense and inflation) were developed for each major asset class. These ranges were combined to produce long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates or arithmetic real rates of return for each major asset class included in the Firefighters' Pension Fund's target asset allocation are listed in the table above.

See Note III. A. for further information.

2. Receivables

Tax bills for levy year 2016 are prepared by Lake County and issued in May 2017 and are payable in two installments, on or about June 1, 2017 and September 1, 2017 or within 30 days of the tax bills being issued.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Equity (cont.)

2. Receivables (cont.)

The county collects such taxes and remits them periodically. The 2016 property tax levy is recognized as a receivable and deferral in fiscal 2017, net the 1.5% allowance for uncollectible. As the taxes become available to finance current expenditures, they are recognized as revenues. At April 30, 2017, the property taxes receivable and related deferred inflows consisted of the estimated amount collectible from the 2016 levy.

Property taxes for levy year 2017 attaches as an enforceable lien on January 1, 2017, on property values assessed as of the same date. Taxes are levied by December following the lien date (by passage of a Tax Levy Ordinance). The 2017 tax levy, which attached as an enforceable lien on the property as of January 1, 2017, has not been recorded as a receivable as of April 30, 2017, as the tax has not yet been levied by the City and will not be levied until December 2017, and therefore, the levy is not measurable at April 30, 2017.

During the course of operations, transactions occur between individual funds that may result in amounts owed between funds. Short-term interfund loans are reported as "due to and from other funds." Long-term interfund loans (noncurrent portion) are reported as "advances from and to other funds." Interfund receivables and payables between funds within governmental activities are eliminated in the statement of net position. Any residual balances outstanding between the governmental activities and business-type activities are reported in the governmental-wide financial statements as internal balances.

3. Inventories and Prepaid Items

Inventories are recorded at cost and are recorded as expenditures/expenses when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

4. Capital Assets

Government-Wide Statements

Capital assets, which include property, plant and equipment, are reported in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$10,000 and an estimated useful life in excess of one year. All capital assets are valued at historical cost, or estimated historical cost if actual amounts are unavailable. Donated capital assets are recorded at their estimated fair value at the date of donation.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

- D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Equity (cont.)
 - 4. Capital Assets (cont.)

Government-Wide Statements (cont.)

Additions to and replacements of capital assets of business-type activities are recorded at original cost, which includes material, labor, overhead, and an allowance for the cost of funds used during construction when significant. For tax-exempt debt, the amount of interest capitalized equals the interest expense incurred during construction netted against any interest revenue from temporary investment of borrowed fund proceeds. No interest was capitalized during the current year. The cost of renewals and betterments relating to retirement units is added to plant accounts. The cost of property replaced, retired or otherwise disposed of, is deducted from plant accounts and, generally, together with removal costs less salvage, is charged to accumulated depreciation.

Depreciation and amortization of all exhaustible capital assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation and amortization reflected in the statement of net position. Depreciation and amortization is provided over the assets' estimated useful lives using the straight-line method. The range of estimated useful lives by type of asset is as follows:

Public domain infrastructure	20 - 60	Years
Buildings	30 - 50	Years
Improvements other than buildings	40 - 80	Years
Vehicles, machinery, equipment, and software	3 - 20	Years
Water mains	40	Years
Sanitary sewers	50	Years

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for the same way as in the government-wide statements.

5. Deferred Outflows of Resources

A deferred outflow of resources represents a consumption of net position/fund balance that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until that future time.

A deferred charge on refunding arises from the advance refunding of debt. The difference between the cost of the securities placed in trust for future payments of the refunded debt and the net carrying value of that debt is deferred and amortized as a component of interest expense over the shorter of the term of the refunding issue or the original term of the refunded debt. The unamortized amount is reported as a deferred outflow of resources in the government-wide and proprietary fund financial statements.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Equity (cont.)

6. Compensated Absences

Under terms of employment, employees are granted sick leave and vacations in varying amounts. Only benefits considered to be vested are disclosed in these statements.

All vested vacation and sick leave pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements, and are payable with expendable resources.

7. Long-Term Obligations

All long-term obligations to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements. The long-term obligations consist primarily of notes and bonds payable, net pension liability, and accrued compensated absences.

Long-term obligations for governmental funds are not reported as liabilities in the fund financial statements. The face value of debts (plus any premiums) are reported as other financing sources and payments of principal and interest are reported as expenditures. The accounting in proprietary funds is the same as it is in the government-wide statements.

For the government-wide statements and proprietary fund statements, bond premiums and discounts are amortized over the life of the issue using the effective interest method. The balance at year end is shown as an increase or decrease in the liability section of the statement of net position.

8. Deferred Inflows of Resources

A deferred inflow of resources represents an acquisition of net position/fund balance that applies to a future period and therefore will not be recognized as an inflow of resources (revenue) until that future time.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

- D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Equity (cont.)
 - 9. Equity Classifications

Government-Wide Statements

Equity is classified as net position and displayed in three components:

- a. Net investment in capital assets Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances (excluding unspent debt proceeds) of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net position Consists of net position with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or, 2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position All other net positions that do not meet the definitions of "restricted" or "net investment in capital assets."

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

Fund Statements

Governmental fund balances are displayed as follows:

- a. Nonspendable Includes fund balance amounts that cannot be spent either because they are not in spendable form or because legal or contractual requirements require them to be maintained intact.
- b. Restricted Consists of fund balances with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or 2) law through constitutional provisions or enabling legislation.
- c. Committed Includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision making authority. Fund balance amounts are committed through a formal action (resolution) of the City Council. This formal action must occur prior to the end of the reporting period, but the amount of the commitment, which will be subject to the constraints, may be determined in the subsequent period. Any changes to the constraints imposed require the same formal action of the City Council that originally created the commitment.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

- D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Equity (cont.)
 - 9. Equity Classifications (cont.)

Fund Statements (cont.)

- d. Assigned Includes spendable fund balance amounts that are intended to be used for specific purposes that do not meet the criteria to be classified as restricted or committed. Intent is expressed by: a) The City Council itself; or b) a body or official to which the City Council has delegated the authority to assign amounts to be used for specific purposes. Annually, the City Council approves the fiscal policy which delegates this authority to the City's Finance Director. Within the other governmental fund types (special revenue, debt service, capital projects) resources are assigned in accordance with the established fund purpose and approved budget/appropriation. Assignments may take place after the end of the reporting period.
- e. Unassigned Includes residual positive fund balance within the general fund which has not been classified within the other above mentioned categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed, or assigned for those purposes.

Proprietary fund equity is classified the same as in the government-wide statements.

In the General Fund, it is the City's policy to consider restricted resources to have been spent first when an expenditure is incurred for which both restricted and unrestricted (i.e. committed, assigned, or unassigned) fund balances are available, followed by committed, and then assigned fund balances. Unassigned amounts are only used after the other resources have been used. In other governmental funds (special revenue, capital projects, and debt service fund types), it is the City's policy to consider restricted resources to have been spent last. When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available, the City first uses any assigned amounts, followed by committed and then restricted amounts.

See Note III. G. for further information.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE II - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. BUDGETARY INFORMATION

The budget amounts represent the operating budget for the City and the appropriations represent the City's legal expenditure limit. The City Council follows these procedures in establishing the budgetary and appropriations data reflected in the financial statements:

- (1) The City Manager submits to the City Council a proposed operating budget for the fiscal year. The operating budget includes proposed expenditures and estimated revenues.
- (2) Public budget and appropriations meetings are conducted by the City to obtain taxpayer comments.
- (3) The budget and the appropriation ordinance, which is 10% higher than the budget, are both legally enacted through action of the City Council. Once enacted, the budget cannot be amended without approval from the City Council. Funds may have expenditures in excess of budgeted amounts, but legally may not have expenditures in excess of appropriations.
- (4) The legal level of budgetary control is the fund level. Management may make transfers of appropriations within a fund. Any expenditures that exceed the total appropriations at the fund level must be approved by the City Council.
- (5) Formal budgetary integration and legally adopted budgets are employed as a management control device during the year for the General and Special Revenue Funds, through an internal reporting system. Such budgetary integration permits the City's department managers to monitor actual revenues and expenditures relative to budgets on an ongoing basis throughout the year. Formal encumbrance accounting is not used, and appropriations not used by the end of the fiscal year lapse.
- (6) Governmental fund budgets are adopted for all funds and are on a basis consistent with generally accepted accounting principles (GAAP). All proprietary funds have budgets and are generally in accordance with GAAP except that principal retirement is budgeted and deprecation expense is not budgeted. Additionally, the Pension Trust Funds adopted budgets which are generally in accordance with GAAP.

Pension Trusts - real estate investment fund	_	3,152,759
Total Deposits and Investments	\$	132,443,374

Deposits in each local and area bank are insured by the FDIC in the amount of \$250,000 for time and savings accounts (including NOW accounts) and \$250,000 for demand deposit accounts (interest-bearing and noninterest-bearing). In addition, if deposits are held in an institution outside of the state in which the government is located, insured amounts are further limited to a total of \$250,000 for the combined amount of all deposit accounts.

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

As of April 30, 2017, the City's investments were measured using the market value approach and the valuation inputs as follows:

	April 30, 2017									
Investment Type		Level 1	Level 2			Level 3		Total

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

A. DEPOSITS AND INVESTMENTS (cont.)

Custodial Credit Risk

Deposits

Custodial credit risk for deposits is the risk that in the event of a financial institution failure, the City's deposits may not be returned to the City. The City's investment policy requires that deposits that exceed the amount insured by FDIC, NCUA, and/or SPIC insurance be collateralize at the rate of 110% of such deposits, by U.S. Government Securities, obligations of Federal instrumentalities, obligations of the state of Illinois, or general obligation bonds of the City. The Cemetery Investment Fund and the Pension Funds do not have a deposit policy for custodial credit risk.

The City does not have any deposits exposed to custodial credit risk.

Investments

Custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. The investment policies for the City, Cemetery, and Pension Funds require investment securities be held by an authorized custodial bank pursuant to a written custodial agreement.

The City does not have any investments exposed to custodial credit risk.

Credit Risk

Credit risk is the risk that an issuer or other counterparty will not fulfill its obligation. The City's investment policy limits the City's exposure to credit risk by limiting investments to the safest types as described above.

The Cemetery and Pension Funds' general investment policy is to follow the prudent person rule subject to specific restrictions of the Illinois Cemetery Care Act, the Illinois Pension Code, and the respective Cemetery and Pension Fund's asset allocation policy. Under the prudent person rule, investments shall be made with care, skill, prudence, and diligence under the prevailing circumstances that a prudent person acting in similar capacity and familiar with such matters would use in the investment of a fund or like character and with like aims.

The Cemetery and Police Pension Funds' investment policy further limits the investment in any one company or issuer to 5% of the funds' total assets. The Cemetery fund also limits the investment in any one equity industry group to no more than 15% of the Fund's assets.

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

A. DEPOSITS AND INVESTMENTS (cont.)

Credit Risk (cont.)

As of April 30, 2017, the City's investments were rated as follows:

Investment Type	Standard & Poors	Moody's Investors Services
Illinois funds	AAA	Not rated
U.S. government agencies - implicitly guaranteed	AA+	Aaa
Municipal bonds	Not rated to AA	Aa2 to Aaa
Corporate bonds	BBB- to AAA	Not rated to Aaa
Mutual funds - bond funds	Not Rated to AAA	N/A

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the value of an investment. Although the City and Cemetery Fund's investment policy does not specifically limit the length of maturity of investments, it requires that the City and Cemetery Fund to minimize the interest rate risk by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity and by investing operating funds primarily in short-term securities, money market mutual funds, or similar investment pools.

The Police Pension Fund's investment policy does not limit the length of maturity of investments since it is passively managing its fixed income exposure to the Barclays Capital Intermediate Government Index. Although the Firefighters' Pension Fund's investment policy does not specifically limit the length of maturity of investments, it manages interest rate risk by investing fixed income assets in proportion to the present value of the Fund's projected liabilities.

As of April 30, 2017, the City's investments were as follows:

Police Pension Fund

Investment Type	Fair Value	Less than one year	1 - 5 years	6-10 years
U.S. treasury obligations U.S. government agencies Corporate bonds	\$ 8,020,625 528,085 1,540,599	\$ - 174,587 294,465	\$ 4,419,138 353,498 1,079,505	\$ 3,601,487 - 166,629

Totals	\$	11,917,960	\$	1,590,099	\$	4,997,524	\$	3,869,184	\$	1,461,153

The City and the Private Purpose Trust have \$513,895 and \$114,267, respectively, invested in mutual funds - bond funds that have a maturity of less than one year.

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or deposit. To diversify risk, the Firefighters' Pension Fund uses an equity asset allocation that incorporates a variety of management styles. The allocations are reviewed quarterly and rebalanced if necessary. To diversify risk, the Police Pension funds are well diversified across international regions.

At April 30, 2017, the City was exposed to foreign currency risk as follows:

Investment	Currency	Maturity Date	 air Value
William Diair Funda International Consul			
William Blair Funds International - General Cemetery William Blain Funds International - Cemetery	Various	N/A	\$ 583,681

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

A. DEPOSITS AND INVESTMENTS (cont.)

Money-Weighted Rate of Return

Police Pension Fund

For the year ended April 30, 2017, the annual money-weighted rate of return on the police pension plan investments, net of pension plan investment expense, was 9.67%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Firefighters' Pension Fund

For the year ended April 30, 2017, the annual money-weighted rate of return on the firefighters' pension plan investments, net of pension plan investment expense, was 9.66%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

See Note I.D.1. for further information on deposit and investment policies.

B. RECEIVABLES

All of the receivables on the balance sheet are expected to be collected within one year, with the exception of the City's loans receivables. The City receives annual principal payments on the loans through fiscal year 2019.

D. INTERFUND ADVANCES AND TRANSFERS

Advances

The following is a schedule of interfund advances:

Receivable Fund		Amount	Amount Not Due Within One Year		
Parks and Recreation Laurel/Western Redevelopment	Deerpath Golf Course	\$	125,000	\$	125,000
TIF	Capital Improvements		380,000		380,000
Total - Fund Financial Statements			505,000		
Less: Fund eliminations			(380,000)		
Less: Interfund receivables created with internal service fund eliminations			(793,310)		
Total - Internal Balances - Government-Wide Statement of Net Position			(668,310)		

The principal purpose of the advance between the Parks and Recreation Fund and the Deerpath Golf Course Fund is to assist with the funding of the golf course's future redevelopment project. The principal purpose of the advance between the Laurel/Western Redevelopment TIF Fund and the Capital Improvements Fund is to repay the Laurel/Western Redevelopment TIF Fund for a parcel of land it owned that was sold during the fiscal year and the receipts were recorded within the Capital Improvements Fund.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

D. INTERFUND ADVANCES AND TRANSFERS (cont.)

Transfers

The following is a schedule of interfund transfers:

Fund Transferred To	Fund Transferred From	 Amount	Principal Purpose
Parks and Recreation Water and Sewerage Nonmajor government Deerpath Golf Course Debt Service Debt Service Debt Service Nonmajor government General	General General General Parks and Recreation General Capital Improvements Nonmajor government Capital Improvements Nonmajor government	\$ 	Transfer for operations Transfer for operations Transfer for operations Transfer for operations Transfer for debt service Transfer for debt service Transfer for debt service Transfer to close fund Transfer to close fund
Total - Fund Financial Statements		8,136,661	
Less: Government-wide eliminations		<u>(7,776,661</u>)	
Total Transfers - Government-Wide Statement of Activities		\$ 360,000	

Generally, transfers are used to (1) move revenues from the fund that collects them to the fund that the budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

General Obligation Bonds

All general obligation bonds payable are backed by the full faith and credit of the City. Bonds in the governmental funds will be retired by future property tax levies accumulated by the Debt Service Fund. Business-type activities bonds are payable by revenues from user fees of those funds or, if the revenues are not sufficient, by future tax levies.

E. LONG-TERM OBLIGATIONS (cont.)

Notes Payable

The City entered into a long term promissory note as a part of purchasing a parking lot during the fiscal year ended April 30, 2016. The note will be repaid from the General Fund.

Notes Payable at April 30, 2017 consist of the following:

Governmental Activities	Date of	Final	Interest		Original		Balance
Notes Payable	Issue	Maturity	Rates	Inc	debtedness	Apr	ril 30, 2017
2016 Promissory Note	5/21/2015	7/1/2017	0%	\$	830,080	\$	483,360
Total Governmental Ac	tivities Notes Pa	ayable				\$	483,360

Debt service requirements to maturity are as follows:

		Governmental Activities Notes Payable				
<u>Years</u>		Principal	Interest			
2018	<u>\$</u>	483,360	\$ -			
Totals	\$	483,360	\$ -			

Other Debt Information

Estimated payments of compensated absences, other post employment benefits, and net pension liability are not included in the debt service requirement schedules. Compensated absences and the IMRF net pension liability will be liquidated by the applicable governmental funds (primarily the General, Parks and Recreation, Senior Commission, and Cemetery Funds) that account for the salaries and wages for the related employees. Other post employment benefits and the Police and Firefighters' net pension liability will be liquidated by the General Fund.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE IV - OTHER INFORMATION

A. EMPLOYEES' RETIREMENT SYSTEM

The City contributes to three defined benefit pension plans, the Illinois Municipal Retirement Fund (IMRF), an agent-multiple-employer public employee retirement system; the Police Pension Plan which is a single-employer pension plan; and the Firefighters' Pension Plan which is a single-employer pension plan. The benefits, benefits levels, employee contributions and employer contributions for the plans are governed by Illinois Compiled Statutes and can only be amended by the Illinois General Assembly. The Police Pension Plan and the Firefighters' Pension Plan do not issue separate reports on the pension plans. IMRF does issue a publicly available report that includes financial statements and supplementary information for the plan as a whole, but not for individual employers. That report can be obtained from IMRF, 2211 York Road, Suite 500, Oak Brook, Illinois 60523.

Illinois Municipal Retirement Fund

Plan description. All employees (other than those covered by the Police and Firefighters' Pension plans) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. IMRF has a two tier plan. Members who first participated in IMRF or an Illinois Reciprocal System prior to January 1, 2011 participate in Tier 1. All other members participate in Tier 2. For Tier 1 participants, pension benefits vest after 8 years of service. Participating members who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with 8 years of service are entitled to an annual retirement benefit, payable monthly for life in an amount equal to 1-2/3% of their final rate of earnings (average of the highest 48 consecutive months' earnings during the last 10 years) for credited service up to 15 years and 3% for each year thereafter.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 participants, pension benefits vest after 10 years of service. Participating members who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with 10 years of service are entitled to an annual retirement benefit, payable monthly for life in an amount equal to 1-2/3% of their final rate of earnings for the first 15 years of service credit, plus 2% for each year of service after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased every year after retirement, upon reaching age 67, by the lesser of 3% of the original pension amount or 1/2 of the increase in the Consumer Price Index of the original pension amount.

Under the employer number within IMRF, both the City and Library contribute to the plan. As a result, IMRF is considered to be an agent multiple-employer plan through which cost-sharing occurs between the City and Library.

Plan membership. At December 31, 2016, the measurement date, membership in the plan was as follows:

Retirees and beneficiaries	262
Inactive, non-retired members	177
Active members	198
Total	<u>637</u>

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Contributions. As set by statute, City and Library employees participating in IMRF are required to contribute 4.50% of their annual covered salary. The statute requires the City and Library to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The City and Library's actuarially determined contribution rate for calendar year 2016 was 12.77% of annual covered payroll for IMRF. The City and Library also contribute for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability/(Asset). The net pension liability/(asset) was measured as of December 31, 2016, and the total pension liability used to calculate the net pension liability/(asset) was determined by an actuarial valuation as of that date.

Summary of Significant Accounting Policies. For purposes of measuring the net pension liability/(asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of IMRF and additions to/deductions from IMRF fiduciary net position have been determined on the same basis as they are reported by IMRF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Actuarial Assumptions. The total pension liability for IMRF was determined by actuarial valuations performed as of December 31, 2016 using the following actuarial methods and assumptions:

Actuarial cost method	Entry Age Normal
Asset valuation method	Market Value
Actuarial assumptions	
Investment Rate of Return	7.50%
Inflation	3.50%
Salary increases	3.75% to 14.50%,
·	including inflation
Price inflation	2.75%

Mortality. For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Long-Term Expected Real Rate of Return. The long-term expected rate of return on pension plan investments was determined using an asset allocation study in which best-estimate ranges of expected future real rates of return (net of pension plan investment expense and inflation) were developed for each major asset class. These ranges were combined to produce long-term expected rate of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

		Projected Returns/Risk			
	Target	One Year	Ten Year		
Asset Class	Allocation	Arithmetic	Geometric		
Equities	38.00%	8.30%	6.85%		
International equities	17.00%	8.45%	6.75%		
Fixed income	27.00%	3.05%	3.00%		
Real estate	8.00%	6.90%	5.75%		
Alternatives	9.00%				
Private equity		12.45%	7.35%		
Hedge funds		5.32%	5.25%		
Commodities		4.25%	2.65%		
Cash equivalents	1.00%	2.25%	2.25%		

Discount rate. The discount rate used to measure the total pension liability for IMRF was 7.50%. The discount rate calculated using the December 31, 2015 measurement date was 7.48%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that City contributions will be made at rates equal to the difference between actuarially determined contribution rate and the member rate. Based on those assumptions, the fiduciary net position was projected not to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on investments of 7.50% was blended with the index rate of 3.78% for tax exempt 20-year general obligation municipal bonds with an average AA credit rating at December 31, 2016 to arrive at a discount rate of 7.50% used to determine the total pension liability. The year ending December 31, 2115 is the last year in the 2017 to 2116 projection period for which projected benefit payments are fully funded.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Discount rate sensitivity. The following is a sensitivity analysis of the net pension liability/(asset) to changes in the discount rate. The table below presents net pension liability/(asset) of the City calculated using the discount rate of 7.50% as well as what the net pension liability/(asset) would be if it were to be calculated using a discount rate that is 1 percentage point lower (6.50%) or 1 percentage point higher (8.50%) than the current rate:

2020	 81,127	 9,920	 91,047
Total	\$ 4,391,659	\$ 536,983	\$ 4,928,642

Police Pension

Plan description. Police sworn personnel are covered by the Police Pension Plan, which is a defined benefit single-employer pension plan. Although this is a single employer pension plan, the defined benefits and employee and employer contribution levels are governed by Illinois State Statutes (Chapter 40 ILCS 5/3) and may be amended only by the Illinois legislature. The City accounts for the plan as a pension trust fund.

As provided for in the Illinois Compiled Statutes, the Plan provides retirement benefits as well as death and disability benefits to employees grouped into two tiers. Tier 1 is for employees hired prior to January 1, 2011 and Tier 2 is for employees hired after that date. The following is a summary of the Police Pension Fund as provided for in Illinois Compiled Statutes.

Tier 1 - Covered employees attaining the age of 50 or more with 20 or more years of creditable service are entitled to receive an annual retirement benefit of one half of the salary attached to the rank on the last day of service, or for one year prior to the last day, whichever is greater. The pension shall be increased by 2.5% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75% of such salary. Employees with at least 8 years but less than 20 years of credited service may retire at or after age 60 and receive a reduced retirement benefit. The monthly pension of a police officer who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and paid upon reaching at least the age 55, by 3% of the original pension and 3% compounded annually thereafter.

Tier 2 - Covered employees attaining the age of 55 or more with 10 or more years of creditable service are entitled to receive a monthly pension of 2.5% of the final average salary for each year of creditable service. The salary is initially capped at \$106,800 but increases annually thereafter and is limited to 75% of final average salary. Employees with 10 or more years of creditable service may retire at or after age 50 and receive a reduced retirement benefit. The monthly pension of a police officer be increased annually on the January 1 occurring either on or after the attainment of age 60 or the first anniversary of the pension start date, whichever is later. Each annual increase shall be calculated at 3% or one-half the annual unadjusted percentage increase in the CPI, whichever is less.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Police Pension (cont.)

Plan membership. At April 30, 2017, the Police Pension membership consisted of:

Retirees and beneficiaries	40
Inactive, non-retired members	8
Active members	40
Tatal	88
Total	

Contributions. Covered employees are required to contribute 9.91% of their base salary to the Police Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The City is required to contribute the remaining amounts necessary to finance the plans as actuarially determined by an enrolled actuary. Effective January 1, 2011 the City's contributions must accumulate to the point where the past service cost for the Police Pension Plan is 90% funded by the year 2040. The City's actuarially determined contribution rate for the fiscal year ending April 30, 2017 was 50.54% of annual covered payroll.

Net Pension Liability/(Asset). The net pension liability/(asset) was measured as of April 30, 2017, and the total pension liability used to calculate the net pension liability/(asset) was determined by an annual actuarial valuation as of that date.

Summary of Significant Accounting Policies. The financial statements of the Police Pension Plan are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which contributions are due. The City's contributions are recognized when due and a formal commitment to provide the contributions are made. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Plan investments are reported at fair value. Short-term investments are reported at cost, which approximated fair value. Investments that do not have an established market are reported at estimated fair values.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Police Pension (cont.)

Actuarial Assumptions. The total pension liability was determined by an actuarial valuation performed as of April 30, 2017 using the following actuarial methods and assumptions:

Actuarial cost method	Entry Age Normal				
Asset valuation method	Market Value				
Actuarial assumptions					
Interest rate	7.00%				
Inflation	2.50%				
Projected salary increases	Service Based				
Cost-of-living adjustments	Tier 1: 3.00% Tier 2: 3.00%				

Mortality rates were based on the RP-2000 CHBCA Mortality Table. The actuarial assumptions were based on the results of an actuarial experience study conducted by the Illinois Department of Insurance dated September 26, 2012.

Discount rate. The discount rate used to measure the total pension liability for the Police Pension Plan was 7.00%, the same as the prior valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that City contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Discount rate sensitivity. The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below presents the pension liability of the City calculated using the discount rate of 7.00% as well as what the net pension liability would be if it were to be calculated using a discount rate that is 1 percentage point lower (6.00%) or 1 percentage point higher (8.00%) than the current rate:

	Current _1% Decrease _ Discount Rate _			1% Increase		
Total pension liability Plan fiduciary net position	\$	64,028,203 29,758,448	\$	56,248,128 29,758,448	\$	49,862,159 29,758,448
Net pension liability	\$	34,269,755	\$	26,489,680	\$	20,103,711

Firefighters' Pension

Plan description. Fire sworn personnel are covered by the Firefighters' Pension Plan, which is a defined benefit single-employer pension plan. Although this is a single employer pension plan, the defined benefits and employee and employer contribution levels are governed by Illinois State Statutes (Chapter 40 ILCS 5/3) and may be amended only by the Illinois legislature. The City accounts for the plan as a pension trust fund.

As provided for in the Illinois Compiled Statutes, the Firefighters' Pension Plan provides retirement benefits as well as death and disability benefits to employees grouped into two tiers. Tier 1 is for employees hired prior to January 1, 2011 and Tier 2 is for employees hired after that date. The following is a summary of the Firefighters' Pension Plan as provided for in Illinois Compiled Statutes.

Tier 1 - Covered employees attaining the age of 50 or more with 20 or more years of creditable service are entitled to receive a monthly retirement benefit of one half of the monthly salary attached to the rank held in the fire service at the date of retirement. The monthly pension shall be increased by one twelfth of 2.5% of such monthly salary for each additional month over 20 years of service through 30 years of service to a maximum of 75% of such monthly salary. Employees with at least 10 years but less than 20 years of credited service may retire at or after age 60 and receive a reduced retirement benefit. The monthly pension of a firefighter who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and paid upon reaching at least the age 55, by 3% of the original pension and 3% compounded annually thereafter.

Tier 2 - Covered employees attaining the age of 55 or more with 10 or more years of creditable service are entitled to receive a monthly pension of 2.5% of the final average salary for each year of creditable service. The salary is initially capped at \$106,800 but increases annually thereafter and is limited to 75% of final average salary. Employees with 10 or more years of creditable service may retire at or after age 50 and receive a reduced retirement benefit. The monthly pension of a firefighter shall be increased annually on the January 1 occurring either on or after the attainment of age 60 or the first anniversary of the pension start date, whichever is later. Each annual increase shall be calculated at 3% or one-half the annual unadjusted percentage increase in the CPI, whichever is less.

Active members	32
Total	74

Contributions. Participants contribute a fixed percentage of their base salary to the plans. At April 30, 2017, the contribution percentage was 9.455%. If a participant leaves covered employment with less than 20 years of service, accumulated participant contributions may be refunded without accumulated interest. The City is required to contribute the remaining amounts necessary to finance the plans as actuarially determined by an enrolled actuary. Effective January 1, 2011 the City's contributions must accumulate to the point where the past service cost for the Firefighters' Pension Plan is 90% funded by the year 2040. The City's actuarially determined contribution rate for the fiscal year ending April 30, 2017 was 39.45% of annual covered payroll.

Net pension liability/(asset). The net pension liability/(asset) was measured as of April 30, 2017, and the total pension liability used to calculate the net pension liability/(asset) was determined by an annual actuarial valuation as of that date.

Summary of significant accounting policies. The financial statements of the Firefighters' Pension Plan are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which contributions are due. The City's contributions are recognized when due and a formal commitment to provide the contributions are made. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Plan investments are reported at fair value. Short-term investments are reported at cost, which approximated fair value. Investments that do not have an established market are reported at estimated fair values.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Firefighters' Pension (cont.)

Actuarial assumptions. The total pension liability was determined by an actuarial valuation performed as of April 30, 2017 using the following actuarial methods and assumptions:

Actuarial cost method	Entry Age				
Asset valuation method	5-year average Market Valu				
Actuarial assumptions					
Interest rate	7.00%				
Inflation	2.50%				
Projected salary increases	5.50%				
Cost-of-living adjustments	Tier 1: 3.00% Tier 2: 3.00%				

Mortality rates were based on the RP-2000 CHBCA Mortality Table. The actuarial assumptions were based on the results of an actuarial experience study conducted by the Illinois Department of Insurance dated September 26, 2012.

Discount rate. The discount rate used to measure the total pension liability for the Firefighters' Pension Plan was 7.00%, the same as the prior valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that City contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Discount rate sensitivity. The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below presents the pension liability of the City calculated using the discount rate of 7.00% as well as what the net pension liability would be if it were to be calculated using a discount rate that is 1 percentage point lower (6.00%) or 1 percentage point higher (8.00%) than the current rate:

	Current 1% Decrease Discount Rate			 1% Increase		
Total pension liability Plan fiduciary net position	\$	56,080,913 34,210,064	\$	49,290,987 34,210,064	\$ 43,728,419 34,210,064	
Net pension liability	\$	21,870,849	\$	15,080,923	\$ 9,518,355

B. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City accounts for its risk of loss in the Liability Insurance Fund through payments to the Intergovernmental Risk Management Agency.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE IV - OTHER INFORMATION (cont.)

B. RISK MANAGEMENT (cont.)

Public Entity Risk Pool

IRMA

The City participates in the Intergovernmental Risk Management Agency (IRMA). IRMA is an organization of municipalities and special districts in Northeastern Illinois that have formed an association under the Illinois Intergovernmental Co-operations Statute to pool their risk management needs. The agency administers a mix of self-insurance and commercial insurance coverages; property/casualty and workers' compensation claim administration/litigation management services; unemployment claim administration; extensive risk management/loss control consulting and training programs; and a risk information system and financial reporting service for its members.

The City's payments to IRMA are displayed on the financial statements as expenditures/expenses in appropriate funds. The City assumes the first \$25,000 of each occurrence, and IRMA has a mix of self-insurance and commercial insurance at various amounts above that level.

Each member appoints one delegate, along with an alternate delegate, to represent the member on the Board of Directors. The City does not exercise any control over the activities of IRMA beyond its representation on the Board of Directors.

Initial contributions are determined each year based on the individual member's eligible revenue as defined in the bylaws of IRMA and experience modification factors based on past member loss experience. Members have a contractual obligation to fund any deficit of IRMA attributable to any membership year during which they were a member. Supplemental contributions may be required to fund these deficits.

	Beginning of Claims and Fiscal Year Changes in Liability Estimates		Claim Payments	End of Fiscal Year Liability			
2015-2016	\$	144,825	\$ 224,277	\$ 213,438	\$	155,664	_
2016-2017		155,664	301,093	318,724		138,033	

City of Lake Forest Medical and Dental Plan

The City established the City of Lake Forest Medical and Dental Plan, a self-insurance plan providing health insurance for all employees of the City, effective January 1, 2000. Administration of the Plan is provided by Professional Benefit Administrators, Inc. (an outside agency). Liabilities are reported when it is probable that a loss has been incurred and the amount of the loss can be reasonably estimated. An excess coverage insurance policy covers total claims in excess of \$100,000 per participant in a plan year. Liabilities include all amounts for claims, including incremental costs that have been incurred but not reported (IBNR) and are reported in the Self Insurance Fund (internal service fund). The City has not had significant reductions in insurance coverage in any of the last three years.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE IV - OTHER INFORMATION (cont.)

B. RISK MANAGEMENT (cont.)

Public Entity Risk Pool (cont.)

Changes in the balances of claims liabilities for the years ended April 30, 2017 and 2016 are as follows:

	Beginning of Fiscal Year Liability	f Changes in Estimates		Claim Payments	End of Fiscal Year Liability
2015-2016	\$ 815,894	\$	5,186,100	\$ 5,421,177 \$	580,817
2016-2017	580,817		4,749,766	4,589,080	741,503

The City has also purchased insurance from private insurance companies. For insured programs, there have been no significant reductions in insurance coverage. For all programs, settlement amounts have not exceeded insurance coverage for the current or three prior years.

C. JOINT VENTURES

Solid Waste Agency of Lake County

The City of Lake Forest, the Great Lakes Naval Training Center, Lake County, and 41 other municipalities jointly operate the Solid Waste Agency of Lake County, (the Agency). The purpose of the Agency is to implement a regional approach to solid waste management which addresses the economic, political, and environmental issues in Lake County.

The Agency is governed by a Board of Directors consisting of one official elected by each member. Each director has one vote. The governing body has authority to adopt its own budget and control the financial affairs of the Agency. The Executive Committee of the Agency consists of nine members of the Board of Directors elected by the Board. Each member is entitled to one vote on the committee. The Executive Committee may take any action not specifically reserved on the Board of Directors by the Act, the Agency agreement, or the by-laws.

The City does not have an equity interest in the Agency although there does exist a residual interest in the Agency's assets upon dissolution of the joint venture. The City has an ongoing financial responsibility for its share of Agency liabilities. Each participant is liable for their share of any of the Agency's contracts entered into while bound by the intergovernmental agreement until those contracts are paid off.

To obtain the Agency's financial statements, contract the Solid Waste Agency of Lake County, Illinois, at 1311 N. Estes Street, Gurnee, Illinois 60031.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE IV - OTHER INFORMATION (cont.)

C. JOINT VENTURES (cont.)

Northern Suburban Special Recreation Association

The City is a member of the Northern Suburban Special Recreation Association (NSSRA), which was organized by ten organizations in order to provide special recreation programs to the physically and mentally handicapped within their districts and to share the expenses of such programs on a cooperative basis. Each member's 1999 contribution was determined based upon the ratio of the members' assessed valuations.

The NSSRA is governed by a Board of Directors which consists of one representative from each participating organization. Each Director has an equal vote. The representatives of NSSRA are appointed by the Board of Directors. The Board of Directors is the governing body of the NSSRA and is responsible for establishing all major policies and changes therein and for approving all budgets, capital outlay, programming, and master plans.

The City does not have an equity interest in NSSRA although there does exist a residual interest in NSSRA's assets upon dissolution of the joint venture. The City has an ongoing financial responsibility for its share of the NSSRA's liabilities. Each participant is liable for their share of any of the NSSRA contracts entered into while bound by the intergovernmental agreement until those contracts are paid off.

To obtain NSSRA's financial statements, contact Northern Suburban Special Recreation Association at 3105 MacArthur Blvd., Northbrook, Illinois 60062.

D. COMMITMENTS AND CONTINGENCIES

The City has outstanding construction contracts with contractors totaling \$370,785 at April 30, 2017. Work that has been completed on these projects but not yet paid for (including contract retainages) is reflected as accounts payable and expenditures.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE IV - OTHER INFORMATION (cont.)

E. OTHER POSTEMPLOYMENT BENEFITS

Plan Description

In addition to providing the pension benefits described in Note IV. A., the City and Library (hereinafter City) provide post-employment health care benefits (OPEB) for retired employees. Hereinafter, the medical and dental plan benefits offered are referred to as the "Plan." The Plan offers several medical and dental insurance benefits options to eligible retirees and their dependents. The benefits, benefit levels, employee contributions and employer contributions are governed by the City Council and can only be amended by the City Council. The Plan is not accounted for as a trust fund and an irrevocable trust has not been established. The City does not issue a Plan financial report.

Funding Policy

The contribution requirements of plan members and the City are established and may be amended by the City Council and are detailed in the various plan benefit booklets provided to employees. The required contribution is based on projected pay-as-you-go financing requirements. For fiscal year 2017 the City contributed \$196,571, representing current premiums.

The City's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC) The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the City's annual OPEB cost for the year, the amount actually contributed to plan, and changes in the City's net OPEB obligation to the Retiree Health Plan:

	 City	 Library		
Annual required contribution Interest on net OPEB obligation Adjustment to annual required contribution	\$ 196,247 11,382 (9,485)	\$ 29,871 1,951 (1,626)		
Annual OPEB cost Contributions made Increase in net OPEB obligation	 198,144 (188,313) 9,831	30,196 (8,258) 21,938		
Net OPEB Obligation - Beginning of Year	 284,538	 48,771		
Net OPEB Obligation - End of Year	\$ 294,369	\$ 70,709		

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE IV - OTHER INFORMATION (cont.)

E. OTHER POSTEMPLOYMENT BENEFITS (cont.)

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation were as follows:

			Percentage of Annual OPEB	
	An	nual OPEB	Cost	Net OPEB
Fiscal Year Ended		Cost	Contributed	Obligation
City:		_		_
April 30, 2015	\$	224,739	87.30%	\$ 229,476
April 30, 2016		233,865	76.46%	284,538
April 30, 2017		198,144	95.04%	294,369
Library:				
April 30, 2015	\$	22,996	17.80%	\$ 31,144
April 30, 2016		24,039	26.55%	48,771
April 30, 2017		30,196	27.35%	70,709

The funded status of the plan as of April 30, 2017, the most recent actuarial valuation date, was as follows:

	City			Library
Actuarial accrued liability (AAL) Actuarial value of plan assets	\$	3,736,584 <u>-</u>	\$	286,873 <u>-</u>
Unfunded Actuarial Accrued Liability (UAAL)	\$	3,736,584	<u>\$</u>	286,873
Funded ratio (actuarial value of plan assets/AAL)		-%		-%
Covered payroll (active plan members)	\$	21,743,897	\$	1,778,891
UAAL as a percentage of covered payroll		17.18%		16.13%

The projection of future benefit payments for an ongoing plan involves estimates for the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE IV - OTHER INFORMATION (cont.)

E. OTHER POSTEMPLOYMENT BENEFITS (cont.)

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the April 30, 2017, actuarial valuation, the entry age actuarial cost method was used. The actuarial assumptions included a 4.0 percent investment rate of return (net of administrative expenses), which is a blended rate of the expected long-term investment returns on plan assets and on the employer's own investments calculated based on the funded level of the plan at the valuation date, and an annual healthcare cost trend rate of 8.5 percent initially, reduced by decrements to an ultimate rate of 5.5 percent ultimately. Both rates included a 3.0 percent inflation assumption. The actuarial value of assets were determined using market value. The UAAL is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at April 30, 2017 was 30 years.

F. SUBSEQUENT EVENTS

On June 05, 2017 the City issued general obligation bonds in the amount of \$9,295,000 with an interest rate range of 2.00 - 3.50%. This amount will be used for the purpose of financing certain capital improvements to the City's water treatment plant.

G. LAUREL AND WESTERN TAX INCREMENT FINANCING (TIF) DISTRICT

The City approved the Laurel and Western TIF in January 2015. The TIF district is comprised of 10.6 acres. The City acquired the single parcel not previously owned by the City and prepared the site for a mix of housing options. Demolition of the seven structures was completed in preparation for the development of the site. The City entered into a Property Purchase Agreement with Focus Acquisition Company LLC for the sale and redevelopment of all the developable land within the district. Following environmental remediation and site preparation required by the City, as well as the completion of contingency and inspection periods under the agreement, the sale of the property was closed in September 2016. The purchase price of the City property was \$12 million, consisting of \$5.625 million paid to the City at closing and a TIF Note of \$6.375 million executed between the City and the developer. The TIF Note was subsequently assigned by the developer to the City to allow repayment of the note from future TIF increment. As of April 30, 2017, the City has not received any TIF increment and anticipates the TIF increment to begin with the 2017 levy year, collected in 2018 (City's FY2019). Because the TIF Note does not meet the definition of an asset pursuant to GASB Concept Statement 4 as of the financial statement date, the Note receivable has not been reported on the City's financial statements. Revenue will be recognized as payments on the TIF Note are made.

A redevelopment agreement between the City and developer was also executed in September 2016. As of April 30, 2017, the City has received the development fees of \$2,368,712 and construction has begun. The development plan calls for a mix of housing consisting of 12 single family homes, 42 condominium units and 111 apartments.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2017

NOTE IV - OTHER INFORMATION (cont.)

H. EFFECT OF NEW ACCOUNTING STANDARDS ON CURRENT-PERIOD FINANCIAL STATEMENTS

The Governmental Accounting Standards Board (GASB) has approved the following:

- Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not Within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68
- Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans
- Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions
- Statement No. 80, Blending Requirements for Certain Component Units an Amendment of GASB Statement No. 14
- Statement No. 81, Irrevocable Split-Interest Agreements
- Statement No. 82, Pension Issues an Amendment of GASB Statements No. 67, No. 68, and No. 73
- Statement No. 83, Certain Asset Retirement Obligations
- Statement No. 84, Fiduciary Activities
- Statement No. 85, Omnibus 2017
- Statement No. 86, Certain Debt Extinguishment Issues
- Statement No. 87, Leases

When they become effective, application of these standards may restate portions of these financial statements.

Notes to Schedule:

The City implemented GASB Statement No. 68 in fiscal year 2016. Information prior to fiscal year 2016 is not available.

Valuation date:

Actuarially determined contribution rates are calculated as of December 31 of the year prior to the fiscal year in which contributions are reported. Information is obtained from IMRF. More recent information is not available.

Methods and assumptions used to determine contribution rates:

Actuarial cost method Entry age normal

Amortization method Level percentage of payroll, closed

Remaining amortization period 28 years

Asset valuation method 5-Year Smoothed Market

Inflation 3.00%

Salary increases 4.40% to 16.00% including inflation

Investment rate of return 7.50%

Retirement Age Experience-based table of rates that are specific to the type of

eligibility condition

Mortality RP-2000 CHBCA

Other information:

There were no benefit changes during the year.

Notes to Schedule:

Changes of assumptions. For Fiscal Year 2015, the mortality, disability, turnover and retirement assumptions were revised to reflect the most recent study conducted by the Illinois Department of Insurance.

For measurement date April 30, 2017, amounts reported as changes of assumptions resulted from the following changes:

- -The healthy mortality table was updated from the RP-2000 Combined Healthy table with a blue collar adjustment to the RP-2000 Combined Healthy table with a blue collar adjustment, projected to the valuation date with Scale BB.
- -The disabled mortality table was updated from the RP-2000 Disabled table to the RP-2000 Disabled table, projected to the valuation date with Scale BB.
- -The salary increase assumption was changed to better reflect our expectation of plan experience.

The Pension implemented GASB Statement No. 67 in fiscal year 2015. Information prior to fiscal year 2015 is not available.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION For the Year Ended April 30, 2017

BUDGETARY INFORMATION

Budgets for the General and major special revenue fund are adopted on a basis of accounting consistent with accounting principles generally accepted in the United States of America (GAAP).

Nonmaior Special Revenue Funds

Asset Forfeiture Fund – This fund accounts for revenues received from drug arrests (convicted property). Used solely for drug prevention programs administered by the Lake Forest Police Department.

Foreign Fire Insurance Tax Fund – This fund accounts for revenues received from the 2% tax on fire insurance companies. Administered by members of the Fire Department to benefit the Fire Department.

Emergency Telephone Fund – This fund accounts for the operations and maintenance of the emergency 911 telephone system. Financing is provided by a specific monthly surcharge on customer telephone bills.

Parks and Public Land Fund – This fund accounts for the revenues received from grants, contributions and the collection of open space fees. Such revenues are to be used to purchase or improve land.

Motor Fuel Tax Fund – This fund accounts for the revenues received from the State of Illinois for the local share of the motor fuel tax collections.

General Cemetery Fund – This fund accounts for the operations of the cemetery commission. Financing is provided by the proceeds from cemetery lot sales, user charges, and donations.

Senior Resources Commission Fund – This fund accounts for gifts, activity fees, and investments used to finance senior citizens' programs and activities.

Housing Trust Fund – This fund accounts for half of the revenues received from the demolition tax. Revenues will be used for affordable housing projects in Lake Forest.

Nonmaior Capital Projects Funds

Route 60 Bridge Improvements Fund – This fund accounts for the pledged funds from various corporations and local governments to be used for the widening of the Route 60 Bridge over I-94.

Route 60 Intersection Improvements Fund – This fund accounts for the monies received from corporations and state and federal grants used for the improvements to be made to the intersection at Route 60 and Field Drive.

Laurel/Western Redevelopment TIF Fund – This fund accounts for tax increment revenues to be used for the improvements in the TIF district.

Major Capital Projects Fund

Capital Improvements Fund – This fund accounts for revenues to be used to fund city building and infrastructure projects.

Major Debt Service Fund

Debt Service Fund – This fund accounts for the principal and interest currently due on general obligation bonds.

Internal Service Funds

Fleet Fund – This fund accounts for the costs of operating a maintenance and repairs facility for automotive and other equipment used by other City departments. Such costs are billed to the other departments at actual cost plus an allocation of administrative costs based on actual costs. The automotive and other equipment is acquired by the various user departments.

Self Insurance Fund – This fund accounts for the costs of the self-insured medical and dental plan. Administration of the plan is provided by Professional Benefit Administration, Inc.

Liability Insurance Fund— This fund accounts for the costs of liability insurance.

Pension Trust Funds

Police Pension Fund – This fund accounts for the accumulation of resources to be used for disability or retirement annuity payments to uniformed police department personnel at appropriate amounts and times in the future. Resources are contributed by employees at rates fixed by law and by the City at amounts determined by an independent actuary from a specific property tax levy.

Firefighters' Pension Fund – This fund accounts for the accumulation or resources to be used for disability or retirement annuity payments to uniformed fire department personnel at appropriate amounts and times in the future. Resources are contributed by employees at rates fixed by law and by the City at amounts determined by an independent actuary from a specific property tax levy.

Private Purpose Trust Fund

Cemetery Trust Fund – This fund accounts for monies provided by private donations. The investment earnings are expended for the operations of the cemetery.

Agency Fund

Special Assessment Fund – This fund accounts for the collection of special assessments of property owners and payments of related special assessment liabilities. The City does not have any outstanding special assessment. The cash balance is unclaimed rebated special assessments.

Statistical Section

This portion of the City of Lake Forest's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall economic condition and financial health.

<u>Contents</u>	<u>Page</u>
Financial Trends These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	158 - 167
Revenue Capacity These schedules contain information to help the reader assess the factors affecting the City's ability to generate its property and sales taxes.	168 - 175
Debt Capacity These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt.	176 - 180
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place and to help make comparisons over time and other governments.	181 - 183
Operating Information These schedules contain information about the City's operations and resources to help the reader understand how the City's financial information relates to the services the City provides and the activities it performs.	184 - 186

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Office of the County Clerk - Shields Township

Lake Forest lies within five townships - Moraine, Shields, Vernon, West Deerfield and Libertyville. Therefore, the tax rates for support of the Township government and for the Township Road and Bridge purposes vary. Parts of Shields Township in Lake Forest lie in the Lake Bluff Park District. All of Moraine Township is in Lake Forest and parts of Shields and West Deerfield Townships in Lake Forest lie in the North Shore Sanitary District.

^{*} Excludes rates for the Special Service Areas

^{*} Includes the City's component unit, Lake Forest Library

^{**} Parks and Playgrounds combined in 2013

Source: Lake County Clerk

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City of Lake Forest. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

^{*} Determined by ratio of assessed valuation of property subject to taxation in the City of
Lake Forest to valuation of property subject to taxation in overlapping unit. The Percentage of debt is calculated
by the percentage of the City's EAV in relation to the overlapping government's EAV. The gross debt is found on the
Lake County website.
