

Compost at Home:

Purchase an Earth Machine from the City of Lake Forest

The Earth Machine is a home composter available to Lake Forest residents for \$55, compared to \$100+ at local retailers. The Earth Machine includes a handbook with assembly instructions, how to compost, what to compost and compost use. Common items to compost include fruit/vegetable scraps, coffee grounds and filters, small twigs and leaves.

Did you know that home composting can save **700 pounds of organic waste** and **171 pounds of food waste** per household per year from going into landfills?

To place an order, call the City of Lake Forest at **847.810.3543**
