

JOHN MOURANI**AGE: 52**

Technology Executive

I, with my wife, Donna, and three daughters have called Costa Mesa home for the last 12 years.

I have served our community in various ways:

- AYSO coach/referee for 10+ years

- Co-Chair, Parish Annual Festival

- Knights of Columbus – Charity/Unity/Fraternity/Patriotism

With a background in Mechanical Engineering working in technology, specifically in the restoration/construction industry for over 23 years, I have a unique skill set utilizing technology to improve people, process, and performance. It is these skills that I will bring to my role as director.

I am not a politician, rather, a concerned Costa Mesa resident, husband, and father who wants to contribute to a better future. With my experience in engineering, technology, and service, I will bring fresh ideas to ensure the Costa Mesa Sanitary District runs efficiently while keeping/lowering operations costs.

I am shocked and concerned that a former employee received a \$590,000 settlement after alleging unethical business and accounting practices. Like you, I am frustrated with the lack of service, accountability, and missed trash pickups.

With your vote I will work for you!

- Ensure transparency and efficiency

- Oppose increasing rates

- Advocate on your behalf

I would be honored to have your vote. Email me anytime, JohnMourani4CMSD@gmail.com
