

**DEAN HOWARD**

Construction Manager

My wife and I raised our children in Costa Mesa, our home of 25 years. I love Costa Mesa and want to preserve our community's quality of life. Working 23 years as a Construction Manager for a Costa Mesa-based commercial construction company, I know what it takes to complete complex projects on schedule and on budget. My experience includes constructing large sewer infrastructure and green building projects.

I'm not a politician: I've never held elected office. I'm just a concerned citizen, parent, and career construction professional who wants to give back to our community by using my experience to ensure the Costa Mesa Sanitary District (CMSD) properly carries out its sewage and trash responsibilities.

Various reports have exposed CMSD's significant operational, managerial, and financial issues—questionable contracts, personnel problems, trash service delays, and sewer spills—all causing higher rates to residents. Costa Mesans deserve better!

As your representative, I'll fight for you by:

- Ensuring effective, environmentally safe sewer and trash services;
- Implementing cost-savings and rate reductions to save you money;
- Increasing transparency and accountability; and,
- Reducing operational expenses, increasing efficiencies, and improving services.

Please vote Dean Howard for Costa Mesa Sanitary District,  
Division 5
