PRECAUTIONARY BOIL WATER NOTICE

TO: Residents Located at:
36830 Blanton Road

The City of Dade City will be repairing a broken water line on Wednesday July 10, 2024. Following repair, a precautionary boil water notice is required.

Therefore, as a precaution, we advise that all water used for drinking, cooking, making ice, brushing teeth, or washing dishes be boiled. A rolling boil of one minute would be sufficient. As an alternative, bottled water may be used.

The "Precautionary Boil Water Notice" will remain in effect until the water line has been installed and The City of Dade City has conducted water testing for two consecutive days. Once a bacteriological survey shows that the water is safe to drink, the City will then rescind the Precautionary Boil Water Notice and residents will be notified.

Notification will happen via a delivered copy to affected residents and notification posting on the City of Dade City official website at: www.dadecityfl.com

If you have questions please contact Troy Sweat, Interim Utilities and Public Works Director at 352.534.1747.
