Patrick Brackins, City Attorney

April 1, 2024

Dade City Customers,

The City of Dade City sent out notification in your water bills and via the Tampa Bay Times informing you of our failure to meet a monitoring requirement for 2023 drinking water sampling.

On behalf of the City, I would like to apologize for not meeting the monitoring requirement on a timely basis and for any concern this may have caused. Your safety and well-being are an utmost priority.

I would like to provide an update and inform you that your drinking water did not test positive for Disinfection Byproducts or Asbestos.

To ensure samples are not missed in the future, safeguards in place including additional staff training, processes, and calendar reminders.

If you have any questions about the sampling, results, or testing processes, please do not hesitate to reach out to the Interim Utilities Director, Corey Myllenbeck at: 352-523-5050 ext. 434.

Kind regards,

Leslie Porter
City Manager
