MISCELLANEOUS INFORMATION

Each earthen plot can accommodate: 1 adult burial OR 2 infants depending on dimensions (generally under 2'-6") OR 1 adult burial + 1 cremation, OR 4 cremations (buried in plot or bench/marker/niche). Restrictions apply; please contact the Cemetery Sexton for information and verification on what your plot can accommodate. (517) 323-8500

If there is more than one burial on a plot, you may have more than one marker. However, the main marker will always be placed on the west end, and the additional marker must be flush with the ground and will be placed at the east end. Headstones are always placed above the head, and the head is always placed at the west end. The text on the marker can read from whichever direction is preferred.

Flowers: Must be removed after the first frost. Silk flowers are permitted from November 1 to March 15.

Foundations: Are poured three times a year weather permitting, on or about April 30, July 30 and October 15.

Plot Selection: When selecting a plot to purchase, you may choose from within any section currently being developed. We do not sell plots across the whole cemetery but rather section by section.
