The CEO or Chairperson shall place the item on the Tentative Agenda for the next regular meeting or refer the item to a Committee for a review or to staff for a recommendation before placing the item on the Tentative Agenda.

The Tentative Agenda for each meeting will generally be considered completed as of the close of business on the Thursday immediately preceding a Board meeting, but any item that arises thereafter which the CEO determines should be considered by the DMWW Board at its next meeting will require a Board member to determine that the matter is of sufficient urgency to warrant immediate Board consideration. (As a practical matter, the CEO will probably request that the Chair make this determination to allow for the most effective management of the Board meeting.) These items may be designated as "Extra" items until 3:30 pm on the day preceding the Board Meeting. The Consent Agenda items shall be considered as a single item, but if the Consent Agenda is not adopted by unanimous vote, any individual items identified as not supported by unanimous vote shall be transferred for consideration as a part of the Action Agenda, with any remaining non-controversial items of the Consent Agenda adopted by single unanimous vote.

206.10.2 Order of Proceeding. Items set forth in the Proposed Agenda will be considered in the order set forth in the Proposed Agenda except to the extent the Chair determines to consider a matter out of sequence for good reason.

The procedures stated in Section 602 shall apply to the public hearing. The Board of Trustees reserves the right to reject all bids. The contract may be, but need not be, awarded to the low responsible bidder. The contract shall be awarded by the Board of Trustees as it deems the contract to be in the best interests of the Water Works in compliance with Chapter 26 and Subchapter III of Chapter 73A, code of Iowa.

611.1.5 Emergency Construction. These procedures need not be followed if emergency work is necessary, and authorized by Section 384.103(2), Code of Iowa. In such cases, the CEO shall subsequently, but as soon as reasonably possible, communicate to the Board of Trustees the nature and cost of the emergency construction.

611.1.6 Supplies. Before the Water Works purchases any major supplies or capital budget items exceeding the CEO's spending authority, the Board of Trustees shall review the tabulations of competitive bids and authorize purchases accordingly.

611.1.7 Contracts for new facilities shall be let if the Board finds, pursuant to Section 28E.18, Code of Iowa, that no alternative suitable facilities are available for rent or sharing.

## 611.2 Non-Public Improvement Projects

611.2.1 This section only applies to construction and maintenance projects that do not meet the definition of a "Public Improvement" in Iowa Code Chapter 26.

611.2.2 For construction or maintenance projects where the total anticipated cost of the project exceeds the CEO's spending authority, the Board of Trustees requires that project be competitively bid. At a minimum, Water Works staff will contact more than one qualified contractor or service provider and request a certificate of insurance; rates, fees, or charges; and qualifications of the contractor or service provider. After Water Works staff review the qualifications, charges, and insurance of the contractor or service provider, Water Works Staff will recommend to the Board of Trustees that Water Works enter into a contract with a particular contractor or service provider. The Board of Trustees will vote on whether to approve entering into a contract with the contractor or service provider.

611.2.3 For construction or maintenance projects where the anticipated total cost does not exceed the CEO's spending authority, the CEO has discretion to use procedures to identify and retain contractors or service providers that are in the best interests of the Des Moines Water Works.

611.2.4 Contract documents, including terms and conditions, bonds, and plans and specifications, for non-public improvement projects will generally conform to the documentation utilized for public improvement projects, except where Water Works staff determines that the nature of the project indicates the best interests of the Des Moines Water Works will be better served by other forms of contract documents.

611.2.5 Water Works staff may deviate from the selection procedures in 611.2.2 so long as the Board of Trustees receives appropriate detailed justification, regarding the reasons for selection of a specific contractor or service provider, and the reasons for the procedure utilized by Water Works staff. The Board of Trustees

may approve the selection of the contractor or service provider if the Board of Trustees determines it is in the best interest of Water Works.

612 Insurance.

612.1 Policy. The Water Works shall maintain a comprehensive insurance and risk management program that will provide adequate coverage. A private appraisal agency may be retained for inventory and appraisal services to enable the Board to maintain an adequate insurance program.

612.2 Insurance Coverage. The following insurance coverages shall be maintained for the Water Works, Board of Trustees, and its employees and trustees acting within the scope of their assigned duties:

Property;  
General and Automotive Comprehensive Liability;  
Umbrella Liability;  
Public Official and Employee Liability;  
Boiler and Machinery;  
Any other coverages selected from time to time by the Board of Trustees.

612.3 Workers' Compensation. The Water Works shall maintain workers' compensation coverage under the statutes of the State of Iowa or shall self insure to the extent allowed by law.

612.4 Review. The Board of Trustees shall review the insurance programs of the Water Works periodically to insure adequate coverage.

613 Record Retention.

613.1 The Board of Trustees shall ensure maintenance and periodic updates of standard record retention procedures to provide appropriate audit tracking and documentation and compliance with applicable law. All records required to be maintained by law shall be retained for at least the period required by law.

614 Complaint Procedures.

614.1 Purpose. The purpose of these complaint procedures is to resolve, at the lowest possible level and as expeditiously as possible, complaints of any person regarding any Water Works matter.

614.2 Exclusion. If there is another, more specific, complaint procedure relating to a matter, the complaint shall be brought under such procedure rather than pursuant to this policy. For example, see Section 407 for employee complaint procedures and Section 501 for complaints concerning Water Service Rules and Regulations.

614.3 Procedures.

- 614.3.1 Any person with a complaint regarding a Water Works matter is encouraged to first talk with the supervisor or employee involved.
- 614.3.2 If the complainant feels the matter is not satisfactorily resolved, the complainant may file the complaint with the CEO. The CEO or the CEO's designee shall contact the complainant to resolve the matter.
- 614.3.3 If the complainant feels the matter is not satisfactorily resolved after consideration by the CEO or the CEO's designee, the complainant may request to appear before the Board by filing a written complaint with the Board of Trustees Secretary. Such matter will then be considered by the Board of Trustees as provided by Section 206.8.

614.4 Interference. All investigations, handling, and processing of any complaint shall be conducted so as to result in no interference with or interruption of regular Water Works' business activities.

615 Revenue Bonds.

615.1 The Board of Trustees may authorize the issuance of revenue bonds which are payable from the revenues of the Des Moines Water Works in accordance with the statutes of the State of Iowa.

616 Economic Development.

616.1 It is the policy of the Board of Trustees to consider requests for constructions and other works, which are expected to serve potential industrial users within a particular project. Should the Board of Trustees find that the probability of success of such project is such that the costs of such works will be recovered through water rates within a reasonable period of time, then the Board of Trustees may undertake such work at its own initial costs in whole or in part. Such finding may be based in part upon a finding that the City of Des Moines or other political subdivision has committed funds under its control to the project's success.

617 Consultants.

617.1 Selection and Use of Single-Project Professional Consultants

617.1.1 For single-project professional consultant engagements where the anticipated fee exceeds the CEO's spending authority, the Board of Trustees requires that competitive proposals be solicited. This will ordinarily be accomplished by issuance of a Request for Proposals (RFP) that requires fee information to be provided by responsive bidders, or a Request for Qualifications (RFQ) with a fee and scope to be subsequently negotiated after Water Works staff review the qualifications of the responsive

professional consultants. At a minimum, Water Works staff will contact more than one qualified professional consultant and request a certificate of insurance; rates, fees, or charges; and qualifications of the professional consultant. After Water Works staff review the qualifications, charges, and insurance of the professional consultant, Water Works staff will recommend to the Board of Trustees that Water Works enter into a contract with a particular professional consultant. The Board of Trustees will vote on whether to approve entering into a contract with the professional consultant.

- 617.1.2 If the anticipated cost for the single-project professional consultant is less than the CEO's spending authority then the CEO has discretion to use procedures to identify and retain single-project professional consultants that are in the best interests of the Des Moines Water Works.
  - 617.1.3 Water Works staff may deviate from the selection procedures in 617.1.1 so long as the Board of Trustees receives appropriate detailed justification, regarding the reasons for selection of a specific professional consultant, and the reasons for the procedure utilized by Water Works staff. The Board of Trustees may approve the selection of the professional consultant if the Board of Trustees determines it is in the best interest of Water Works.
  - 617.1.4 After a professional consultant is identified and retained for any phase of the project, Water Works may execute amendments to the existing agreement to obtain additional services without re-soliciting the project. Subsequent amendments may be approved by the CEO if the anticipated cost of the amendment is within the CEO's spending authority or total authorized cost for the project. If the anticipated cost of the amendment exceeds the CEO's spending authority then the Board of Trustees must approve the amendment.
- 617.2 Selection and Use of Multi-Project Professional Consultants.
- 617.2.1 For engagements with professional consultants where Water Works Staff anticipate recurring or multiple project engagements with the same professional consultant, then the Board of Trustees shall approve the use of the professional consultant before Des Moines Water Works enters into a master service agreement ("MSA") with the professional consultant.
  - 617.2.2 Multi-project professional consultant engagements will be established by a Request for Qualifications process. At a minimum, Water Works staff will contact more than one qualified professional consultant and request a certificate of insurance; rates, fees, or charges; and qualifications of the professional consultant. After Water Works staff review the qualifications, charges, and insurance of the professional consultant, Water Works staff will recommend to the Board of Trustees that Water Works enter into a contract with a particular professional consultant. The Board of Trustees will vote on whether to approve entering into a contract with the professional consultant.

- 617.2.3 The term of the MSA will not exceed five (5) years.
- 617.2.4 After approval of the MSA by the Board of Trustees, the CEO has discretion to approve subsequent amendments to the MSA that apply to specific projects if the total anticipated cost of the work covered by the amendment is within the CEO's spending authority. If the anticipated cost of a particular amendment exceeds the CEO's spending authority, then the amendment must be approved by the Board of Trustees.
- 617.2.5 Multi-project professional consultant agreements may not be used for any projects where the anticipated cost of the project is over \$1,000,000.
- 617.3 Water Works staff will provide a list of all agreements signed and executed in the past 24 months in the monthly Board materials.

618 Security Procedures.

- 618.1 It is the policy of the Board of Trustees to protect the health and safety of Water Works' employees and facilities and its customers and guests. To that end, the Board of Trustees shall assure security measures are in place and reviewed periodically with staff. Such security measures shall include, but not be limited to, vulnerability assessments and resulting programs as required by law. Records pertaining to security matters shall be kept confidential to the full extent allowed by law.

620 Severe Emergency Conditions.

620.1 “Severe Emergency Conditions” shall include, but not be limited to, natural disasters, whether or not declared, acts of war or terrorism, and unanticipated major failures of any treatment plants, distribution systems or raw water supplies, and shall also include any contingency similar in scope and effect to the enumerated contingencies.

620.2 In the event Severe Emergency Conditions affecting the operation of utility arise that have a significant negative impact on the operation of utility, the Board may suspend application of any of these rules or any of its Rules and Regulations for Water Service (the “Affected Rules”), or may adopt temporary emergency rules that temporarily supplement or supersede the Affected Rules. Temporary emergency rules may be adopted by the Board of Trustees without notice, or if circumstances are such as to prevent the Board of Trustees from meeting, by the CEO, or, if the CEO is unable to act, by any Director appointed as part of the Administrative Team, within the scope of his or her responsibilities. Temporary emergency rules may provide for curtailment or termination of service to customers or other measures in the interest of public health, safety, and welfare.

620.3 In addition to the foregoing, and in addition to any emergency authority otherwise granted under these Rules or by law, in any emergency affecting the safety of persons or property, the CEO, or, if the CEO is unable to act, the Chief Operating Officer, shall act, at his or her discretion and without prior Board authorization, to prevent threatened damage, injury, or loss. If the cost of such work cannot be covered within the existing operating budget, the above authorized individual may use Capital Improvement Program (“CIP”) funds, and may, if necessary, postpone other work in the CIP to cover the cost of such emergency work. Notice to the Board of Trustees of any such emergency shall be provided within five (5) days of its determination, excluding weekends and holidays and shall include the corrective action taken or proposed to be taken to address the emergency.

SECTION 8  
NAMING RIGHTS POLICY

801 Policy Established.

This Naming Rights Policy is intended to describe the current policy of the Board of Water Works Trustees of the City of Des Moines, Iowa (“Board of Trustees or “Board”) with respect to naming of facilities of the Des Moines Water Works (“DMWW”) in recognition of donors to DMWW, to the City of Des Moines, or to the Des Moines Water Works Park Foundation (“Park Foundation”), or other recognized philanthropic beneficiaries. This policy extends to all facilities and grounds under the control of the Board of Trustees, including Water Works Park, the Dale Maffitt Reservoir and its grounds, all operational grounds and facilities, including treatment plants, water towers, and storage facilities. Significant gifts to the Des Moines Water Works offer the opportunity to recognize donors who have been instrumental in the development, implementation and success of the DMWW Park Master Plan or other objectives of DMWW. DMWW encourages private support through award of philanthropic naming rights while also showing appropriate recognition to donors for their generosity. This Naming Rights Policy provides transparency and guidance to donors, the Park Foundation Board, and the public.

802 Scope Of Policy.

The Board of Trustees establishes the following naming rights policy to provide guidance in approving philanthropic naming rights for DMWW owned or controlled property or facilities, recognizing financial and in-kind contributions by any individual, corporation or entity.

The Board of Trustees has and retains the exclusive right to name and rename its grounds and facilities at any time and for any reason, and nothing contained in this Policy shall be deemed to grant any naming rights to any third person unless and until expressly granted by the Board of Trustees by specific resolution or by authorized agreement. Without limiting the generality of the foregoing, the Board of Trustees expressly reserves the right to name any of its properties for reasons other than donor recognition, such as honoring community service or service to DMWW, and further withholds from the Park Foundation any right to make any binding commitment for naming rights that is not first approved by the Board of Trustees.

803 Definitions.

The following words will have the meaning ascribed to them in this Policy:

- A. “Civic or charitable group” shall mean a nonprofit entity, family, or group that has made a substantial contribution to the community, either through civic involvement, involvement in historic events relevant to specific DMWW property, or to the geographical location of specific DMWW property; or made a financial and/or in-kind donation to support a specific public service or DMWW

property. For-profit entities of any type shall not be considered a civic or charitable group.

- B. An “individual” shall mean a person who has made a financial and/or in-kind donation to support a specific public service or DMWW property.
- C. A “corporation” shall mean an external for-profit entity which has made a financial and/or in-kind donation to support a specific DMWW service or property.

804 Naming Criteria.

Major naming opportunities may reflect the names of individuals, families, organizations, foundations, corporations or memorials requested by donors.

Major naming opportunities are available when a gift of monetary value as outlined in a naming right opportunity plan (previously approved by the Board) is received.

Naming recognition should enhance the reputation of DMWW and the donor and not infringe any third party rights. As applied to any approved Sponsor Group, it is the responsibility of individuals negotiating on its behalf to advise potential donors that their gift may be recognized by naming, only subject to the approval of the Board of Trustees and consistent with this naming policy. The Board of Trustees has the sole right to name or rename DMWW property or facilities. A Sponsor Group may make recommendations for naming recognition to the Board of Trustees. While the Board of Trustees is grateful for and encourages donations from all individuals, businesses and organizations, the Board of Trustees has the right to decline any gift to DMWW, or reject naming proposals, or both.

805 Process.

The process to establish philanthropic naming rights for DMWW property shall be as follows:

The Park Foundation or other Sponsor Group may develop philanthropic and honorary naming rights opportunity plans to be implemented as approved by the Board of Trustees by resolution.

In developing said plans, or in reviewing nominations for philanthropic naming rights as provided herein, the following criteria shall be complied with:

- A. Philanthropic naming rights opportunity plans shall establish an aggregate campaign goal and assign minimum contribution amounts for specific features. Factors to be considered in development of the goal shall include, but not be limited to, capital costs, annual operating and maintenance costs, and desirability and marketability of the opportunity. Each campaign goal shall be developed on a case-by-case basis.
- B. All proposed names for DMWW property shall be held in confidence during the preliminary review process to the extent allowed by law, but shall be only approved in open session of the Board of Trustees.
- C. All naming rights shall be approved for a specific term. The maximum term of any naming agreement shall be 20 years, unless otherwise established in the naming rights opportunity plan or in a donor contract approved by the Board of Trustees and the donor.
- D. All named elements are subject to review by Board of Trustees at any time, subject only to approved naming rights agreements.
- E. The Board of Trustees and Park Foundation or other Sponsor Group shall reserve the right to remove naming rights without penalty or repayment of the initial gift should either or both organizations believe removal is in the best interests of DMWW or the Sponsor Group. The Board of Trustees, the Park Foundation or other Sponsor Group will not remove naming rights unless substantial new circumstance affecting the name or the donor arise that are deemed to be detrimental to the reputation, mission or goodwill of DMWW, the Park Foundation or the Sponsor Group.
- F. In the event the Board of Trustees determines in its sole reasonable and good faith opinion that circumstances have changed such that the donor's naming rights would adversely impact the reputation, image, mission or integrity of DMWW, the DMWW CEO and General Manager, in consultation with the Board of Trustees and the Sponsor Group, may, without recourse and without any obligation to return any gifts received, exercise its right to remove the name from DMWW property.
- G. Naming rights opportunity plans shall be approved by the Board of Trustees by resolution before implementation of the plan.

- H. Naming commitments are reflections on the mission and reputation of DMWW. Accordingly, each naming commitment should be reviewed carefully for compliance with applicable laws and ethical principles.
- I. Board of Trustees shall consider the following for proposed naming opportunities: compliance with the established naming rights policy; whether the proposed name or source of donation is incompatible with the mission, objectives, and goodwill of DMWW as a water utility; whether the name is suitable to the facility and appropriate to its identification; whether the proposed name is duplicative or infringing of the names of other facilities or otherwise confusing to the public; appropriate signage; compliance with the required approval process for accepting donations; whether a donor contract is appropriate, and if so, the terms thereof; citizen input; and any other relevant factors. In addition, Board of Trustees may refuse any financial and/or in-kind donation if it is deemed to not be in the best interests of DMWW for any reason.
- J. All naming agreements must be established with a donor naming agreement that has been approved and signed by the donor and by DMWW CEO and General Manager, following approval by the Board of Trustees. The naming agreement specifies the duration; termination and modification rights; any associated annual operating and maintenance costs; and any other restrictions and governing terms.
- K. As modifications are made to DMWW grounds and facilities over time, situations may occur where it is in the best interest of DMWW to relocate, modify or reallocate a named property. In the event modifications to a named property are required or recommended, the Board of Trustees will be involved in early planning. This is to ensure that the donor's wishes are preserved as appropriate and to the extent reasonably practical. Any such modification shall be reviewed and approved by the Board of Trustees.
