Executive Summary

AP-05 Executive Summary - 24 CFR 91.200(c), 91.220(b)

1. Introduction

The City of Dunkirk is designated as an entitlement community based on the amount of its population suffering with poverty. The CDBG entitlement program allocates annual grants to assist in the development of viable communities by providing decent housing, a suitable living environment, and to expand economic opportunities, principally for low- and moderate-income persons. To receive an annual allocation of federal funds from HUD, the City is required to create a three-year Consolidated Plan (strategic plan) with an annual Action Plan.

The Consolidated Plan includes the amount of assistance the City expects to receive and the range of activities that may be undertaken including the estimated benefit to persons of low and moderate-income. The Annual Action Plan is required to include project or program information, such as location, cost, proposed outcome, and any additional descriptive information. Federal regulations require that funds be aimed where the greatest benefit may be attained for low- and moderate-income residents. To acquire public engagement in all aspects and phases of Plan development, the City of Dunkirk attempted to interact with various stakeholders in meetings, public hearings, and via website publications.

2. Summarize the objectives and outcomes identified in the Plan

This could be a restatement of items or a table listed elsewhere in the plan or a reference to another location. It may also contain any essential items from the housing and homeless needs assessment, the housing market analysis or the strategic plan.

Although the City has many needs, this plan identifies and prioritizes the following critical components to the City's development strategy:

Provide Safe, Affordable Housing - The City has some of the oldest housing stock in the nation and has identified the need to assist residents make their homes safe and habitable. This will be accomplished by providing emergency roof repair assistance, first time homebuyer down payment and closing cost assistance, housing rehab and code enforcement. Approximately 12 low-moderate income residents and the general population for local LMI Block Groups will benefit from these activities.

Infrastructure Improvements - In order to maintain a safe, healthy, enjoyable environment, the City needs to improve and to modernize its infrastructure, including roadways, streetscapes, community facilities, and parks. This will be accomplished by making improvements to Washington Park and performing demolition of blighted buildings. Approximately 6550 low-moderate income residents will benefit from these activities.

Provide Public and Youth Community Services - The City of Dunkirk has an extremely diverse population with a dense amount of youth and elderly seniors. The City is investing in programs to help residential youth remain in school, provide positive role models and prepare for positive careers. The City is also focusing on helping to alleviate food insecurities and give a creative outlet to youth in the local community. In addition, the City is targeting improvements to the senior center facility to help give a place for residential elderly to gather and receive services.

Planning and Administration - The City will be investing in the reimbursement for staffing and administrative work and publications for the management of it's CDBG Program.

3. Evaluation of past performance

This is an evaluation of past performance that helped lead the grantee to choose its goals or projects.

Many projects were delayed due to the recent COVID-19 pandemic, but were able to be completed in 2021 as things slowly opened back up. Despite the resonating effects the pandemic has caused, the City of Dunkirk achieved the following accomplishments in 2021:

COI Housing Rehab: In 2020 Chautauqua Opportunities Inc. was awarded \$15,000 to help 1 LMI housing owner with a rehabilitated single housing unit at 502 Deer Street.

CHRIC Roof Repair: This program was awarded \$60,000 in 2020, and \$64,000 in 2019, to assist a total of 14 LMI residents in Dunkirk make necessary repairs to the roofs of their homes that they could not do on their own. It's an important project and CHRIC has an extensive waiting list for assistance.

CHRIC Closing Cost Assistance Program: This project was awarded \$30,000 in 2020 to assist 8 first time LMI home buyers with the purchase of their first home.

Public Library After School Snack Program: This program was awarded \$2,000 in 2020, to provide snacks to neighborhood middle / high school students who visit the library on their walk home from school. 2016 area youth participated and benefited from this program.

Wright Park Phase II Project: This project was awarded 70,000 to install an all-inclusive ADA compliant playground at Wright Park, located within an LMI census tract, to benefit the 12,000 local area residents.

Adam's Center Improvements Project: This building rehab / improvements project was awarded \$35,000 in 2019 for the Adams Art Center to make the building safe including roof, electrical, plumbing, windows, and/or exterior work to make it safer for the possibility of opening to the area's census tract 700 residents.

Bridging The Gap: The Boys & Girls Club of Northern Chautauqua County was awarded \$18,000.00 in 2020 to address the academic needs of low/mod income children and teens ages 5 - 18 by providing tutors, extended learning time, and other supports to help improve performance and reduce high school dropout rates. COVID has required the program to switch gears dramatically from previous years and the organization was able to provide services in the school for remote learning students who needed daytime assistance. 117 Youth benefited from this program.

Planning & Administration: This 2019 project was awarded \$94,966 to fund the salary of the CDBG Program Administrator and Secretary. Also, this funded to pay part of costs to conduct feasibility study for the former NRG Power Plant site.

4. Summary of Citizen Participation Process and consultation process

Summary from citizen participation section of plan.

The City believes in continual communication with its local nonprofits, community leaders, and citizens. To guide this communication, the City of Dunkirk adopted a Citizen Participation Plan (CPP) which was prepared in accordance with Section 104(a)(3) of the Housing and Community Development Act of 1974, as amended, and federal regulation 24 CFR 91.105. The CPP has been amended to make this process even more effective, and was formally adopted on April 7, 2015 after a 30-day public comment period.

The City held two technical assistance meetings for potential CDBG subrecipients on April 11th and April 12th, 2022. The City will hold a Public Hearing on June 15, 2022 to review the Draft 2022 Annual Action Plan and that draft was posted on our website, in the planning office, the City Clerk's office, and a public notice published in the newspaper also on May 25, 2022. Written and verbal comments will be accepted until July 1, 2022 at midnight in City Hall by email, phone call, in writing, or in person.

5. Summary of public comments

This could be a brief narrative summary or reference an attached document from the Citizen Participation section of the Con Plan.

No public comments received.

6. Summary of comments or views not accepted and the reasons for not accepting them

No comments were rejected, as none were received.

7. Summary

The City of Dunkirk strives to recognize the issues currently facing residents of the City of Dunkirk, and address these issues to the best of its ability. Community Development Block Grant (CDBG) funds, in

conjunction with other resources, give the City of Dunkirk the opportunity to improve the lives of people within Dunkirk. In 2022, we will look to undertake projects involving housing improvements, infrastructure improvements, public facility improvements, public services, and elimination of slum and blight, with the stated goal of creating a happier, healthier community and environment throughout the City.

Citizen participation and community input has been, and will continue to be, essential for developing targeted strategies to shape the City's vision and to ensure that federal resources provide the maximum benefit to those citizens in need.

AP-10 Consultation – 91.100, 91.200(b), 91.215(I)

1. Introduction

The City of Dunkirk recognizes the importance of coordination and consultation with institutions within the community. As a result, in formulating this plan, the City of Dunkirk made all attempts to work with all organizations through public meetings and hearings, as well as working with organizations at their best convenience as things open back up from the recent COVID-19 pandemic.

Dunkirk is required by the U.S. Department of Housing and Urban Development (HUD) to create its own Consolidated Plan and Annual Action Plan in order to be considered for entitlement grant funding. The City of Dunkirk completed its 2021-2023 Consolidated Plan, which clarifies and defines the City's future objectives and illustrates how those objectives align with CDBG program objectives. This Annual Action Plan utilizes the priorities outlined in the Consolidated Plan and specifies the intended uses of CDBG funding for Dunkirk's second program year (2022) under the current plan.

Provide a concise summary of the jurisdiction's activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health and service agencies (91.215(I))

The City of Dunkirk strives to provide fair and accurate copies of its plans at every stage of their development. As such, the City provided public notices about public hearings via local media sources including print, online, community meetings and word of mouth sources. The City also worked with, and made all attempts to work with, housing providers such as Chautauqua Opportunities, Inc., the Dunkirk Housing Authority, as well as other agencies involved in healthcare and housing in some form. Notices of applications and copies of the City's 2021 CDBG Application were mailed to: Boys & Girls Club of Northern Chautauqua County, Dunkirk Housing Authority, Dunkirk-Fredonia Meals on Wheels, Chautauqua County Office for the Aging, Chautauqua County Rural Ministry, Chautauqua Opportunities, Chautauqua Home Rehabilitation and Improvement Corp., Northern Chautauqua Community Foundation, Salvation Army, Senior Center of Dunkirk, Southern Tier Environment for Living, Revitalize Dunkirk, Chautauqua Striders, Dunkirk Public Library, Dunkirk Historical Society, Dunkirk Little League, HOPE - Hispanics Organized for Progress and Education, Chautauqua Land Bank, Plus Farm (Access to the Arts), The Resource Center, Willow Mission, Wheel People, Catholic Charities, Lake Shore Humane Society, Kids At Promise and The Outpour Project. No one was intentionally left out and we encourage interactions, questions, and suggestions from all agencies.

The City of Dunkirk does not currently manage any public housing. Public housing within the City's jurisdiction is managed by the Dunkirk Housing Authority (DHA). The DHA currently maintains

243 housing units. City staff also maintains close relationships with local Community Housing Development Organizations (CHDO), including Chautauqua Opportunities, Inc. (COI).

Describe coordination with the Continuum of Care and efforts to address the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans, and unaccompanied youth) and persons at risk of homelessness.

Homelessness and chronic homelessness are issues individuals face throughout the United States. Residents of Dunkirk are, unfortunately, no exception to this rule. While efforts are ongoing to improve data collection on the exact amount of homelessness and chronic homelessness exists within the City, a support network has been established for those experiencing homelessness, chronic homelessness, or risk of becoming homeless. Chautauqua Opportunities, Inc. (COI) is the City's Continuum of Care provider. In October of 2014 the Chautauqua County Homeless Coalition signed and adopted a 10-year plan to end homelessness in Chautauqua County.

Chautauqua Lake Central School District, which is within the CoC geography, has a McKinney-Vento funding award from the NYS education Department to provide educational services to homeless children. The McKinney-Vento Liaisons in all of the county's 18 school districts have been contacted and asked to join the CoC or be provided with information about homeless services. Chautauqua County has a NY State licensed runaway and homeless youth shelter that is funded by the U.S. Department of Health and Human Services and operated by the CoC lead agency.

Providers regularly refer families to other providers when their family composition does not allow them to be accommodated in their facility. The CoC has also held a McKinney-Vento training in coordination with local school districts to improve coordination of services with school districts, and whenever possible, keep children in their school of origin.

If housing is not available for a specific family type, the local Department of Social Services will utilize a local hotel to keep the family together while other housing options are explored.

The Veteran's Administration's regional representative is a member of the CoC decision-making body.

The lead agency also coordinates with VASH as the Section 8 Housing Choice Voucher administrator for the county, and was recently awarded a Supportive Services for Veteran Families grant from the U.S. Department of Veteran Affairs to prevent homelessness among veteran families. The CoC participated in the Veteran's Administration needs assessment. All HUD-funded agencies in the CoC serve veterans as an integrated service.

The CoC lead agency operates a NYS licensed Runaway and Homeless Youth Shelter that is funded with

DHHS Basic Center funding, as well as a DHHS funded Street Outreach Program that makes contact with over 7,500 youth in the county annually, and a Transitional Living Program for youth ages 16-21 (DHHS funding). These programs frequently collaborate with other providers that serve the youth population such as Boys and Girls Clubs, YMCA's and YWCA's, church teen groups, municipal recreation programs, and other non-profit organizations. The lead organization and other youth serving providers will participate in strategic planning meetings to ensure that the needs of homeless youth are addressed in future plans.

Describe consultation with the Continuum(s) of Care that serves the jurisdiction's area in determining how to allocate ESG funds, develop performance standards for and evaluate outcomes of projects and activities assisted by ESG funds, and develop funding, policies and procedures for the operation and administration of HMIS

The City does not receive ESG funds.

Identify any Agency Types not consulted and provide rationale for not consulting

The City of Dunkirk contacted agencies and organizations associated with housing rehabilitation, economic development, community development, infrastructure development, or skills development. All applicable agencies were consulted and no person or group was intentionally omitted. Any and all agencies involving the needs of the people of the City of Dunkirk are always welcome to discuss the plan with

City Department of Planning and Economic Development staff and were given advance notice regarding the public hearings, release of draft plan, and public comment period.

We are working with them to find other solutions to the homeless problem including finding shelters for heating and cooling centers in incimate weather.

Table 3 – Other local / regional / federal planning efforts

Narrative (optional)

The City continually consults with Chautauqua Opportunities, Inc., Dunkirk Housing Authority, and Chautauqua Home Rehabilitation & Improvement Corporation (CHRIC) executives to better understand their needs. Through continued partnership with these organizations, the City anticipates improved quality and quantity of services and affordable housing for the homeless and low/moderate-income persons.

We have also undertaken new initiatives to further economic development as well as housing conditions within the City. We were awarded a LISC Zombie Property grant which we used for a survey of housing conditions in the City as well as taking a look at utility bills, sidewalk conditions, foreclosure information, and build dates for the homes. We’re using this information in conjunction with the Chautauqua County Landbank and Chautauqua Opportunities in order to direct homeowners on the verge of foreclosure to programs that can keep them in their homes, thereby preventing increased vacancy. This will also allow us to identify where the greatest needs are and to better allocate CDBG funding in the future.

The City is also exploring Certified Local Government (CLG) status. This will allow the city and its residents to control the future of its historical building stock, protect what’s important, and guide future development and reuse proposals, including infill in historic neighborhoods. It is the

goal of some neighborhood groups to use this tool to establish historic districts which would afford property owners historic tax credits for rehabilitation of their homes.

Expected Resources

AP-15 Expected Resources – 91.220(c)(1,2)

Introduction

Allocation announcements from HUD were made in May of 2022. The City of Dunkirk was awarded \$433,409 for the 2022 program year, a \$31,652 decrease over funding for the previous 2021 program year.

Assuming an annual allocation of \$473,395, the City is estimating \$450,000 for the remaining years on this consolidated plan.

Table 5 - Expected Resources – Priority Table

Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied

The City's Planning and Development Department is constantly looking for grant opportunities to improve our community. Where appropriate, we will make every effort to utilize CDBG funding to leverage additional funding for projects. For instance, in this plan we are planning on partnering funds with Chautauqua Land Bank on our demolitions.

If appropriate, describe publically owned land or property located within the jurisdiction that may be used to address the needs identified in the plan

The desire for additional recreation opportunities has been identified as a need in our community. If City-owned land can be used to help create additional recreation opportunities, this is an option we will strongly consider.

Discussion

Our community is one with high levels of need relative to available resources. We are keenly aware of this fact. Keeping this fact in mind, we will strive to spend available CDBG funds effectively and when possible will leverage additional funds with our CDBG award.

Projects

AP-35 Projects – 91.220(d)

Introduction

Our selection of projects for the 2022 CDBG program year reflects our best attempt to address the needs determined to be the highest priority in our community. Our application pool this year was smaller than previous years due to the recent pandemic effects still present, and included submissions from organizations that the City regularly partners with as well as organizations making their first submission.

Applications were made available on March 21, 2022. Notices of the applications availability were published in the local newspaper and on the City website. Additionally, applications were mailed and emailed to organizations who have applied in the past or those who requested to be notified when applications were available. The application window closed on May 2, 2021. In total, 12 applications were received.

Applications were reviewed at the staff level for program eligibility and then, following the procedure described in our Citizen Participation Plan, evaluated by a team consisting of the Director of Development, Deputy Director of Development, and the Mayor and then presented to the Dunkirk Common Council for final approval and adoption. This plan Will hopefully be approved and adopted by the Dunkirk Common Council on Tuesday, July 19, 2022.

Table 7 - Project Information

Describe the reasons for allocation priorities and any obstacles to addressing underserved needs

Our allocation priorities were decided based on a number of factors, including:

- Level of need for proposed activity
- Expected timeliness in spending
- Past history with subrecipients
- Measurability of outcomes
- Number of people served

We acknowledge that there is an imperfect match between our selected projects for 2022 and the needs/goals identified in the Comprehensive Plan. That being said, we have done our best to balance the factors listed above in selecting projects.

Obstacles to addressing underserved needs include:

- Availability of funding
- The limited number of potential subrecipients in the Dunkirk area to assist with projects/programs
- Insufficient data on some populations, including homeless
- Lacking public participation in the planning process

Where possible, we will continue working to improve these underserved needs

AP-50 Geographic Distribution – 91.220(f)

Description of the geographic areas of the entitlement (including areas of low-income and minority concentration) where assistance will be directed

For the 2022 program year, CDBG assistance will be directed to those areas of the City that demonstrate the highest levels of need. These neighborhoods are concentrated near downtown and/or along the Main St. corridor. Programs targeted to these areas include removal of blighted buildings, park improvements, housing rehabilitation and code enforcement, and low-income youth and senior services.

Geographic Distribution

Target Area	Percentage of Funds
DUNKIRK	100

Table 8 - Geographic Distribution

Rationale for the priorities for allocating investments geographically

Our rationale for directing assistance to these neediest areas is two-fold. First, it represents our best attempt to address the needs outlined in the Plan exactly where it is most needed. This aligns with the CDBG program objective of benefitting low-to-moderate incomes persons, who make up the majority of households in these neighborhoods. Second, it reflects where CDBG applicants have applied for their projects to occur. Our choice in where to distribute projects is constrained in part by the location of projects that have been submitted by applicants.

Discussion

Although directing program funds to the areas of Dunkirk that demonstrate the highest levels of need will always be justifiable, we also strive to be strategic in how exactly funds are distributed geographically. For instance, because many Dunkirk residents have limited transportation options, especially low-income residents, locating a facility to provide assistance to low-income residents near where these residents live make a lot of sense.

Affordable Housing

AP-55 Affordable Housing – 91.220(g)

Introduction

As demonstrated elsewhere in our Consolidated Plan, there is a strong need in Dunkirk for additional affordable housing options. Through the programs applied for through our CDBG process, we hope to continue tackling the issue of affordable housing.

Table 10 - One Year Goals for Affordable Housing by Support Type

Discussion

The programs that will help us reach these one-year goals for affordable housing include:

- Chautauqua County Land Bank Acquisition/Rehab of In-Rem Property
- CHRIC'S Down Payment and Closing Cost Assistance Program
- CHRIC's Roof Repair Program

While we recognize that the number of households helped by these programs is a drop in the bucket relative to the need for affordable housing in our community, these programs will make a meaningful impact in the lives of the households assisted. We hope that they can be a catalyst for additional improvements going forward.

AP-60 Public Housing – 91.220(h)

Introduction

The Dunkirk Housing Authority (DHA) provides a valuable supply of affordable housing options in our community. In the upcoming program year, we will look for ways to support and partner with the DHA and its residents.

Actions planned during the next year to address the needs to public housing

Our consultation process in preparing this plan suggests that public housing needs are less urgent than other housing needs in the community. The DHA, while acknowledging that some ongoing issues do exist, has conveyed that public housing in Dunkirk is in stable condition. With this in mind, we feel that other more pressing housing needs should be the focus of our efforts. The DHA currently has a plan to encourage and increase tenant participation on committees and coalitions by creating a Tenant Advisory Board (TAB) that spearheads the flow of information and communication among other developments and their tenants. Out of the TAB grow leaders interested in learning and communicating their role in the management of the HA.

Actions to encourage public housing residents to become more involved in management and participate in homeownership

We will continue working with local organizations including the DHA, Chautauqua Opportunities, Inc. (COI), and Chautauqua Home Rehabilitation and Improvement Corps (CHRIC) to make public housing residents aware of available housing programs. We also recognize that the majority of public housing residents in Dunkirk are Hispanic. In the next year we intend to look for ways to engage with and provide resources for our community's Hispanic population. We will be sure to include the DHA and its residents in any of this outreach. The DHA reports that they share the process of first-time homeownership and the availability of local resources that can assist through the general systems of communication such as a monthly newsletter and monthly tenant meetings. They also invite guest speakers familiar with the process to facilitate informational sessions. In addition to this, the City is conducting code enforcement inspections to monitor existing housing and keep it viable for the future.

If the PHA is designated as troubled, describe the manner in which financial assistance will be provided or other assistance

The Dunkirk Housing Authority is not designated as troubled.

Discussion

The housing challenges that impact our community are deep and widely felt. The resources necessary to ameliorate the full extent of housing challenges are far greater than the resources available to our

community to address these challenges. With this in mind, and considering the generally good condition of public housing in Dunkirk, we have prioritized funding for other housing programs during this program year. We will continue, though, to seek out opportunities to engage public housing residents in our community and to connect them with resources and services that may benefit them.

AP-65 Homeless and Other Special Needs Activities – 91.220(i)

Introduction

We recognize that homelessness is a real challenge for some members of our community. The data presented elsewhere in this Plan indicate that a variety individuals and families experience homelessness for a variety of reasons. There are challenges that the local Continuum of Care and other local service providers face in addressing the needs of homeless persons, including the lack of a dedicated homeless facility in northern Chautauqua County. We are aware of these challenges and will look for opportunities to assist these organizations where possible.

Describe the jurisdictions one-year goals and actions for reducing and ending homelessness including

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

Given the urgency of other housing challenges and the programs applied for by local agencies, our funding for this program year does not include homeless programs. That being said, we will continue working with our local Continuum of Care to provide assistance in reaching out to homeless persons and assessing their individual needs.

Addressing the emergency shelter and transitional housing needs of homeless persons

Addressing the emergency shelter and transitional housing needs of homeless persons is an ongoing effort in Dunkirk. These needs are largely addressed by our local Continuum of Care, which is coordinated by Chautauqua Opportunities, Inc. (COI). We will work with COI to provide assistance in this effort where possible.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

One of the ways we have been working towards this goal is by working with Southern Tier Environments for Living, Inc. (STEL) on their Dunkirk Renovation and Ownership Program, which in Phase 1 has created close to 50 new housing units in our community, a number of which have been targeted to homeless persons. Adding these new housing units and providing associated services have helped homeless persons make the transition to permanent housing and independent living.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs.

We will continue working with our local Continuum of Care to find ways to help low-income individuals and families avoid becoming homeless.

Discussion

Our first strategic plan goal is to provide safe, affordable housing for Dunkirk residents. With this in mind, in future program years we will consider funding any programs aimed at assisting low-income individuals and families avoid becoming homeless

AP-75 Barriers to affordable housing – 91.220(j)

Introduction:

As stated elsewhere in this Plan, quality affordable housing is one of the most pressing needs in our community. We are committed to providing expanded opportunities for affordable housing as well as removing any potential barriers to affordable housing.

Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment

We are currently unaware of any public policies that serve as barriers to affordable housing. However, given the importance of affordable housing to our community, we will continue to monitor for any policies that do have the effect of creating barriers to affordable housing.

Discussion:

We will continue to look for potential barriers to affordable housing and to remove those barriers where appropriate. For instance, one of the efforts we undertook in 2018 was to examine housing challenges in our community. We worked with a planning consultant, czb, LLC, to identify and develop strategies to deal with vacant and distressed housing. As part of this project, czb provided recommendations to the City regarding housing policies and programs. If any of these recommendations can help us improve accessibility to affordable housing then we will strongly consider implementing them

AP-85 Other Actions – 91.220(k)

Introduction:

This section outlines other actions that we will undertake to address the needs and advance the goals set forth in this Consolidated Plan. These actions include efforts to better manage our CDBG program internally as well as actions to better coordinate our CDBG work with other community agencies.

Actions planned to address obstacles to meeting underserved needs

The largest obstacle to meeting underserved needs in our community is a lack of funding. We will diligently look for additional grant opportunities, especially those that will allow us to meet underserved needs, of which there are many in our community. For instance, we will seek out additional future funding for CHRIC's Roof Repair Program through New York State's Affordable Housing Corporation.

Actions planned to foster and maintain affordable housing

. A number of the projects/programs that are proposed for funding in this program year are aimed at increasing housing accessibility or maintaining affordable housing for low- to moderate-income Dunkirk residents. These include:

- Chautauqua County Land Bank Acquisition/Rehab of In-Rem Property
- CHRIC'S Down Payment and Closing Cost Assistance Program
- CHRIC's Roof Repair Program

Actions planned to reduce lead-based paint hazards

We will continue working with local agencies, including Chautauqua Home Rehabilitation and Improvement Corps (CHRIC), the Chautauqua County Land Bank, and the Chautauqua County Department of Health and Human Services, that aim to reduce lead-based paint hazards in our community. Where possible, we will also seek out grant opportunities to address lead-based paint hazards.

Actions planned to reduce the number of poverty-level families

The most effective way to reduce the number of poverty-level families is to improve the local economy. The City's Planning and Development Department works constantly to do just that by supporting local businesses, finding ways to attract new businesses, and seeking out available grant opportunities to improve our community and its economy. This work will continue going forward.

Actions planned to develop institutional structure

The City of Dunkirk will continue to look for ways to improve our institutional structure both within City Hall and with community organizations. We will seek ways to communicate better amongst City departments and with the organizations doing important work in the community. Among the actions currently planned are:

- Creating checklists and procedures to better follow CDBG processes
- Continuing education of the CDBG program, taking advantage of learning resources provided by HUD
- Creation of systems and internal structure to guide the City's CDBG program in the future
- Continuing information sharing between organizations and City staff to ensure that all are aware of resources available and can guide residents appropriately
- Continuing to participate in the HUD Field Office CoC informational and planning discussions

Actions planned to enhance coordination between public and private housing and social service agencies

Prior to COVID the City's Planning and Development Department had started a business roundtable series that opens a dialogue between representatives from different sectors of the local economy. This idea could be extended to include public and private housing and social service agencies, which would help enhance coordination between the agencies and as the restrictions of COVID are loosening this is an idea that the City will look to pursue again.

Discussion:

We will continue to look for ways to improve our administration of the CDBG program and our efforts towards meeting the CDBG programs goals. While the CDBG program is an effective tool in and of itself, we realize that the work undertaken through CDBG occurs in the context of other work being done in our community by a variety of agencies. All of these agencies provide a valuable contribution towards the well-being of our community, especially those higher needs residents requiring additional services. We will continue to work to ensure that our CDBG program is well-coordinated with other work being done in our community.

Program Specific Requirements

AP-90 Program Specific Requirements – 91.220(I)(1,2,4)

Introduction:

Community Development Block Grant Program (CDBG) Reference 24 CFR 91.220(I)(1)

Projects planned with all CDBG funds expected to be available during the year are identified in the Projects Table. The following identifies program income that is available for use that is included in projects to be carried out.

1. The total amount of program income that will have been received before the start of the next program year and that has not yet been reprogrammed
2. The amount of proceeds from section 108 loan guarantees that will be used during the year to address the priority needs and specific objectives identified in the grantee's strategic plan
3. The amount of surplus funds from urban renewal settlements
4. The amount of any grant funds returned to the line of credit for which the planned use has not been included in a prior statement or plan.
5. The amount of income from float-funded activities
