

IEPA PROJECT PLAN – PROPOSED PROJECTS

- Standpipe – rehabilitation, replacement or abandonment - \$500,000 (placeholder amount)
 - Project recommendation and associated costs to be determined upon completion of ongoing study
- IL 68 Water Tower Painting/Rehabilitation - \$900,000
- Water main Replacements - \$600,000 / project
 - Probable projects - Van Buren Street, Prairie Lakes Road, Dundee Ave
 - Explore water main lining as an alternative to main replacement
- Lead Services Line Replacements – approx. 400 services x \$16,000/service = \$6.4 million
 - Loan funding can only be used for full (house to water main) lead service replacements, not partial (b-box to water main) replacements
 - Additional discussion with the Village Board will occur in the coming months
- Other possible water-related projects that have not yet been identified

There may be a possibility of principal forgiveness associated with IEPA low-interest loans – however details have not yet been determined (specifically who will qualify or maximum amounts).
