Re: 611 Main Street, Summit School Sign Variances

On October 9th the Planning and Zoning Commission held a public hearing on the application for variances requested OTTO. They proposed two signs. The first matter being discussed was a variance was to approve a large directional sign with the names of a few businesses. The second matter discussed was for variances to the setback of this signage due to the close proximity of the building along Route 72 due to the expansion of Route 72.

First, a variance from 156.04(A)(2)(a) which allows for a four (4) square foot directional sign and grant approval for an additional monument sign that can act as a large directional sign at the corner of Howard Avenue and Route 72.

Second, for a variance from the allowable fifteen foot minimum setback for signage from the property line at the corner of Route 72 and Howard to allow for a one foot setback from the property line along Route 72 and an eight foot setback from the property line along Howard Avenue. Lastly, a variance from the fifteen foot setback from the property line for the monument/electronic message sign along Route 72 to allow for a setback of five feet from the property line.

The Planning and Zoning Commission voted on the two matters before you separately. The first matter for the variance to allow for a large directional sign without the businesses listed below and to have the base of the sign no more than 18 inches off of the ground was approved (8 ayes, 0 nays, 1 absent). The second matter the commission addressed concern over the size and electronic message display although both items were within what is allowed by the Village Code. The motion was made to approve the setbacks for the directional sign was approved (8 ayes, 0 nays, 1 absent). The motion to approve the variance to allow the monument/electronic message sign five feet from the property line failed due to a tie (4 ayes, 4 nays, 1 absent).

The applicant was unable to attend the meeting and after the meeting came to the Village and expressed concern that the removal of the tenants under the directional sign on Route 72 and Howard may cause a tenant to not commit to that location and would like the Village Board to reconsider the Planning and Zoning's change to the variance.
