## WATER STREET AND NORTH STREET TO CLOSE FOR TREE REMOVAL ON SATURDAY MAY 11, 2024

The Village of East Dundee Public Works Department and the East Dundee Fire Protection District will be removing a log jam of trees and tree debris from against, and under, the Fox River footbridge on Saturday, May 11, 2024 starting at 8:00 a.m. This work is to prepare for an upcoming fireworks display.

The Fire Protection District will be utilizing their boats on the Fox River to access the trees, and Public Works will work with a towing company to winch the trees out of the water and cut up the trees on the Fox River bank for disposal.

In order to safely complete this process, Water Street will be closed from Michigan Avenue to Barrington Avenue. Additionally, North Street will also need to be closed from Water Street to First Street. Local residential traffic is allowed. Work is expected to be completed, and Water Street reopened to all traffic, sometime mid-day.

Questions can be directed to Phil Cotter, Director of Public Works at (847) 844-1256 or [pcotter@eastdundee.net](mailto:pcotter@eastdundee.net).
