

WATER METER UPGRADE PROGRAM

Dear Water Customer,

The City of Eastpointe has contracted with SLC Meter to upgrade the water meter reading system in your home or business. There is no cost to you for this service. The water does not need to be shut off to perform the work. Technicians will be going door to door to perform the work. Hours of operation are 8:00am to 5:00pm Tuesday through Saturday. All technicians will have city issued identification. The SLC Meter logo will be on their clothing and vehicles. The water meter is located inside, usually in the basement. Please make sure the area is clear around the meter and there is adequate room to perform the work. This includes removing a wall or box built around it. The service will take less than 1/2 hour to complete. If an adult is not home, SLC will leave a door tag as a reminder to schedule an appointment.

Three notices will be given, this letter and two door tags to complete this service. This letter serves as the first notification. After the third attempt your address will be considered non-responsive and water services may be discontinued.

You may contact SLC Meter to set up an appointment toll free at 1-800-335-1448

Your cooperation is necessary and greatly appreciated. Should you have any questions regarding this program, please contact the city at 586-445-5053 Ext 6007.

Sincerely,

City of Eastpointe
