Boat Launch Maintenance Dredge Authorization to Award

Laura Gurley
Port of Everett
October 12, 2021

@portofeverett | #portofeverett

PROJECT SITE

BACKGROUND

- Port obtained Boat Launch Maintenance dredging permits in 2017
- Additional sediment characterization and open water disposal authorization completed in early 2021
- Mid-2021 the Port pursued emergency authorization to also dredge a connector channel between the boat launch basin and the federal navigation channel to mitigate access impacts on emergency services from a sandbar in the river
- Commission authorized bidding of the dredging contract in August 2021
 - Bid Schedule A: Boat Launch Maintenance Dredge
 - Bid Schedule B: Emergency Connector Channel Dredge
- Requesting award of the dredging contract today

Bid SCHEDULES A and B
