ITEM 2
ESCALATOR CLAUSE

All tariff rates, deposits, fees, rentals and charges may be automatically adjusted each year, effective September 1, to reflect inflation increases which have occurred since the previous rate adjustment as measured by the Consumer Price Index for Urban Wage Earners and Clerical Workers, CPI-W for Seattle-Tacoma Bremerton (or successor index or reasonable substitute). Inflation adjustments shall be calculated as the average annual percentage change in the index for all reporting periods during the previous twelve month period ending on July 1 plus 3%, not to exceed 10% in any given year. All inflation adjustments shall be rounded to the nearest \$.25 for ease of administration. The Executive Director may waive implementation of the automatic annual inflationary increase in any year for a specific tariff or tariff item if such increase would result in market imbalance, or would be technologically unfeasible or otherwise detrimental to Port interests.

Severance and Revival Clause: 1) In the event any portion of the tariff is determined to be invalid, the remaining portion of the tariff will remain in effect, and 2) If any tariff increase is ruled invalid, then the last valid tariff price will remain in effect.

Any Terminals Tariff No. 300 labor items reflecting the International Longshore and Warehousemen Union's negotiated contract rates will be adjusted by the actual increase/decrease notice from the Pacific Maritime Association of such adjustment.

If the Executive Director waives any portion of the automatic annual inflationary increase in a given year, the tariff may automatically increase the following year as if the full annual inflationary increase had occurred for the previous year(s).

ITEM 100

APPLICATION OF TARIFF

(A) NOTICE TO PUBLIC

This tariff is published and filed as required by law and is, therefore, notice to the public, shippers, consignees and carriers, that the rates, rules and charges apply to all traffic without specific notice, quotation to, or arrangement with, the public, shippers, consignees, or carriers.

(B) TARIFF EFFECTIVE

The rates, charges, rules and regulations named in this tariff, revision or supplements thereto, will apply on all freight received at terminals on and after effective date of this tariff, or effective dates of additions, revisions or supplements thereto, provided, however, that when terminal charges have been prepaid at point of origin, at the terminal tariff rates in effect on date of shipping, such rates will prevail even though the shipment is received at destination after effective date of the new tariff, revisions or supplements. Unless otherwise specified, all transit freight received at terminals and undelivered prior to effective dates of tariff, revision or supplement thereto, will be charged the rates in effect on the date such freight was received, until entire lot or shipment has been withdrawn.

(C) USE OF TERMINALS, DEEMED ACCEPTANCE

Use of wharves or facilities will be deemed as acceptance of this tariff, revisions or supplements, and the terms and conditions named herein.

(D) RESERVATION OF AGREEMENT RIGHTS

Right is reserved by Port of Everett to enter into agreements with common carriers, shippers, and/or their agents, concerning rates and services, provided such agreements are consistent with existing local, state and national laws governing the civil and business relations of all parties concerned.

(E) AUTHORITY FOR ADDITIONAL RULES AND REGULATIONS

The Port of Everett by resolution or ordinance may from time to time adopt additional rules and regulations supplementary to the general rules and regulations contained herein and when so adopted they shall have the same force and effect as though expressly set forth in this tariff.

ITEM 101

STEVEDORE AND OTHER FACILITY USER ACCESS TO, AND OPERATIONS ON, PROPERTY AT THE PORT

(A) APPLICABILITY

The provisions of this Item 101 are applicable to all persons, corporations, associations, companies and the like who in any manner come upon, use, or provide services at the Port facilities including stevedores, except for agents or employees of the Port and other Port Parties ("Facilities Users"). As used herein, the term person includes individuals, firms, partnerships, associations, companies, corporations, joint stock associations, trustees, receivers, agents, assignees and personal representatives ("Person").

(B) CARE IN THE PERFORMANCE OF OPERATIONS

In order to insure efficient and safe operations and maximize utilization of Port facilities, all Facilities Users shall exercise care in the performance of operations in order to prevent injury to or death of any person and damage to or destruction or loss of property, whether of the Port, of the Facilities User, of the vessel being stevedored, or of any other party.

(C) COMPLIANCE WITH FIRE AND SAFETY PRECAUTIONS

Facilities Users shall take all necessary safety and fire precautions, and comply with recognized commercial and marine safety practices, procedures, laws and regulations.

(D) STEVEDORE, FACILITY USERS AND PORT INDEPENDENT CONTRACTORS

In any service relationship the Port and the stevedore and all Facilities Users shall be independent contractors, each to the other, and shall not be agents or employees, one for the other, for any purposes.

(E) STEVEDORE AND ANY OTHER FACILITIES USER SHALL INSURE EFFICIENT AND EXPEDITIOUS VESSEL WORK

In order to insure efficient and expeditious loading and discharge of the vessels, and the maximum utilization of the full capacity of the Port, the stevedore and all other Facilities Users shall:

1. Make use of the appropriate facilities and equipment furnished by the Port.
2. Have at least one qualified supervisor present at all times while a vessel is loading or unloading.
3. Have at least one responsible officer or representative, with full power to make all operating decisions concerning the stevedoring of vessels at the Port, available for contact by the Port at all times and keep the Port informed at all times of how and where such officer or representative may be contacted by the Port.
4. Cooperate fully with the Port in all respects by (i) advising as far in advance as possible the type of vessels, Master's estimate of the quantity of cargo to be

loaded or discharged, and any special problems that may exist or arise; (ii) determining the equipment needed for the operations; and (iii) coordinating sequence and timing of operations for the convenience and efficiency of the Port.

5. Promptly restore terminal working areas to a clean, safe and orderly condition on completion of stevedoring operations.

(F) PORT SHALL SUPPLY EQUIPMENT, FACILITIES AND SERVICE

1. The Port shall furnish, subject to conditions and charges stipulated elsewhere in this tariff, the following:
 - i. Access, for Facilities Users' employees, to Port property at places and in the manner as may be approved by the Port;
 - ii. Emergency office and telephone usage; and
 - iii. Port equipment to the extent it is available, required, and dedicated to Facility User's use.
2. All Port equipment utilized by the Facilities User in performing its work is expressly understood to be under the direction and control of the Facilities User and the Facilities User is responsible for the operation thereof and assumes all risk for injuries or damages which may arise or grow out of the use or operation of such equipment. The Facilities User shall make a thorough inspection and become satisfied as to the physical condition and capacity of the equipment, as well as the competency of the operator, there being no representation or warranty by the Port with respect to such matters.
3. All such equipment will be properly used by the Facilities User and not subjected to abuse or more than normal wear and tear. If there is any such abuse or more than normal wear and tear, the Facilities User shall pay for the damage to such equipment.
4. Upon termination of the period of use, all such equipment shall be returned to the Port in the same condition as received, normal wear and tear excepted.
5. It shall be incumbent on the Facilities User to make a reasonable inspection of all accesses permitted to and from a work area and the work areas themselves to be satisfied that these are safe places for the access and the work to be performed. There is no representation or warranty by the Port with respect to such matters.

(G) FACILITY USER WARRANTY

As a condition to the right to conduct business or operate on Port property the Facilities User shall warrant that all its operations shall be conducted at all times with all necessary labor and equipment under competent supervision, with all proper dispatch and in good and workmanlike manner, and the conduct of such business or operations on Port property shall be deemed to be an offer of such warranty by the Facilities User and its acceptance by the Port.

If any breach of these warranties causes or subjects the Port to any losses, suits, claims, damages or liabilities, the Facilities User shall defend, indemnify and hold the Port harmless, and reimburse the Port in respect thereto.

(H) INDEMNITY

Every Person using the Port facilities shall indemnify and hold harmless the Port, its employees and agents from and against any claims, damages, losses and expenses (including attorney's fees) for injury to or death of any person, or for damage to or destruction of any property. Each Person using Port facilities (including roadways) shall also indemnify and hold harmless the Port, its employees, agents and invitees from and against any claims, damages, losses and expenses (including attorney's fees) for injury to or death of any persons (including employees of the Port), and for damages to or destruction of property (including property of the Port) in whole or in part, by any negligent act or omission or breach of these rules by the Facilities User, its employees, agents or anyone else for whose acts the Facilities User, is or may be liable.

Each Person using Port Facilities and/or premises owned by the Port (including roadways) specifically assumes liability for actions brought by its own employees against the Port and for that purpose specifically waives, as respects the Port only, any immunity under the Workers' Compensation Act, RCW Title 51, and any comparable or equivalent federal statute(s). In the event the Port incurs attorney's fees, costs or other legal expenses to enforce the provisions of this Item against any other Person, all such fees, costs and expenses shall be recoverable by the Port, which shall extend to and include any attorneys' fees and the cost of establishing the right of indemnification hereunder in favor of the Port.

1. The Facilities User, or any other Person using Port terminal facilities, shall obtain, and shall maintain, at a minimum, the following insurance coverages:
 - i. Workers' Compensation Insurance (including Longshore and Harbor Workers' Act and/or Jones Act coverage, if applicable). The coverage is required under all applicable federal and state statutes and municipal ordinances for all of user's employees performing its work on behalf of the user, and Employer's Liability/Stop Gap Insurance in the amount of not less than \$1,000,000.

This coverage shall include coverage for bodily injury, personal injury, products and completed operations, broad form contractual liability and broad form property damage covering property in the insured's care, custody and control. The insurance shall cover claims against the insured for bodily injury, death or property damage occurring on, in or about the vessels being loaded by a party on the premises of the Port, and the adjoining areas, with limits as to bodily injury or death and property damage of not less than \$5,000,000 per occurrence and in the aggregate.
 - iii. Automobile Liability covering all owned, non-owned or hired automobiles with limits of liability not less than \$1,000,000 per claim.

(B) CONDITIONS GOVERNING ACCEPTANCE OF CARGO FOR MONTHLY STORAGE

When space is available and arrangements are entered into prior to arrival of cargo at the terminal, storage may be permitted on in-transit cargo interchanged with or between water carriers at rates named below.

The Port of Everett reserves the right to terminate storage of any goods at any time upon giving reasonable notice to the owner or shipper, and if goods are not removed, the Port may cause them to be removed or otherwise disposed of at owner's expense.

Storage charges are payable prior to delivery of cargo to vessel or truck for furtherance, and will be computed on the following basis:

Cargo received for storage during the first fifteen (15) days of a month will be assessed a full month's storage.

Cargo received for storage on the sixteenth (16th) day of the month or later, will be assessed storage at one-half (1/2) the applicable rate named below.

(D) EXCEPTIONS
