It is the responsibility of the owner, contractor, representative and all subcontractors to schedule any and all inspections pertaining to their specific trade.

If in doubt, call ahead to verify!

Inspections must be scheduled Twenty-Four (24) hours in advance. (All shop drawings are to be submitted and approved before that phase of work starts) NO SAME DAY INSPECTIONS.

Types of Required Inspections:

1. Before any concrete is to be placed. Such as: footers, stem walls, foundations, grouting, bond beams, slabs, retaining walls, ramps and sidewalks.
2. Under slabs, all trades, except electric.
3. Foundations before framing starts.
4. Rough-in of trades and framing (steel or wood).
5. Insulation
6. Above ceiling, before ceiling tile is installed.
7. Final Inspection to include accessibility, exits, emergency lighting, and completion of all work as approved per plans. Including civil, if applicable.

Issuance of Certificate of Occupancy (CO) will be issued at this time.

Current Codes Adopted: 2018 IBC, 2018 IRC, 2018 IPC, 2018 IMC, 2018 IFGC, 2018 IFC, 2018 IEBC, 2018 IECC, 2018 ISPSC, 2018 IPMC, and ALL ADOPTED APPENDICES

The permit, after issuance, becomes null and void if work or construction authorized is not commenced within 6 months, or if construction or work is suspended or abandoned for a period of 6 months at any time after work is commenced. In the event of misrepresentation of fact, false statement, or incorrect information on this application and/or on the plans on which the permit or approval was based, the permit may be revoked.

I hereby certify that I have read and examined this application and know the same to be true and correct. All provisions of laws and ordinances governing this type of work will be complied with whether specified herein or not, the granting of a permit does not presume to give authority to violate or cancel the provisions of any other state or local law regulating construction or the performance of construction.
