SIDING, SOFFIT, FASCIA AND GUTTERS

OVERVIEW:

A permit is required to replace or install new siding, soffit, fascia, and gutters. This is no permit fee for soffits, fascia and gutters; however, siding replacement is based off of the cost of the remodel.

APPLYING FOR THE PERMIT:

The property owner will need to submit the following information when applying for this permit:

- Complete and submit a building permit application.
- Submit a copy of the proposal as it relates to the proposed work including material specifications. Please note that aluminum siding, vinyl siding and plywood siding (T1-11) are not permitted by the village zoning code unless it is to maintain and repair existing non-conforming siding.
- Submit Developers approval and or Homeowners Association approval if applicable to your subdivision.
- Contractor registration is required prior to issuance of the permit.
- **Required Inspections:** Final inspection to verify compliance with the Village of Frankfort Building Code.
