

FREMONT COUNTY

Bore, Cut, Overhead and Parallel Public Utilities Right-of-Way Permit

FREMONT COUNTY, acting by and through its Board of Commissioners, hereinafter referred to as the "Board," hereby evidences its permission that _____ (applicant) of _____ (company), State of _____, may conduct the following activities within the right-of-way easement granted heretofore to Fremont County for a county highway, to wit:

_____ ; that the location of such activity shall be limited to that portion of Fremont County Road Number _____, commonly referred to as _____ Road, located in: Section, _____ Township, _____ Range, _____.

GPS Coordinates _____.

The Permittee hereby acknowledges and agrees as follows:

- 1) That the permit is only granted to the extent of County’s right to do so, if the right-of-way was granted to the County with limited purposes. Permittee understands that the grantor of the County’s right-of-way and his heirs, executors, successors, or assigns may have the right to object and insist that Permittee cease activity and remove his equipment and staff from the area, if Permittee’s activity exceeds what the County was granted, and that Permittee may have to instead make arrangements with the landowner.
- 2) That the Permittee shall forever indemnify the County of Fremont, its Board and its agents and employees and otherwise hold them harmless from all liability or expense for damage to the property of others or for injury to or death of any person arising wholly or in part or in connection with the construction, maintenance or use of such facility by the Permittee.
- 3) That the permit herein given is exclusive and shall not be assigned, modified, or transferred without the prior written consent of the Board.
- 4) That the facility of the Permittee shall be placed in such a manner as will conform with recognized standards and applicable federal, state or local laws and ordinances and as otherwise directed by the Board.
- 5) That public utilities including, but not limited to, utility line poles, cables and all buried public utilities will be as far as possible from the center line of the road, and in no case will the poles be closer than Twenty Nine Feet (29’) from the center line of the road without the express consent of the Board of County Commissioners.

- 6) That utility lines and cables be buried at a minimum depth of thirty-six (36) inches. All other utilities shall be buried at the depth required by federal, state and/or local laws. All bores within the right-of-way must be a minimum of ten (10) feet under the right-of-way.
- 7) The facilities of the Permittee shall in no way interfere with, or encroach upon, the use of the county road by the public; provided however, that in instances whereby it becomes necessary for the Permittee to traverse the roadway, notice of such intent shall be given to the Fremont County Transportation Department, not less than five (5) days prior to commencing work.

Such activity shall be subject to the supervision and inspection of the Board or its representatives, and Permittee shall place permanent type markers on each side of the road, at places designated by the Transportation Department, locating the location, direction, and phone contact information of said traversing facility.

- 8) During all times of construction, maintenance and/or repair, the Permittee shall be responsible for the placement of proper advisory signs on either side of the work area, as regulated in the latest edition of MUTCD for streets and highways, additionally as the Board or its representative may direct, for the purpose of cautioning travelers upon county roads of construction activities and that danger exists. Permittee shall take all reasonable measures to prevent injury to persons and/or property.
- 9) The Permittee agrees to repair, to the satisfaction of the Board, any portion of the county highway or right-of-way to a condition of equal to or better than its condition prior to the commencement of the Permittee's operations.
- 10) The facilities of the Permittee shall not be installed within ten (10) feet of the traveled portion of the county road under any circumstances without prior written permission of the Superintendent of the Transportation Department .
- 11) Any alteration or modification of the facility, located within the right-of-way, requested or directed by the Board shall be commenced and completed without delay by the Permittee at its sole expense.
- 12) That, by signing this document, Permittee accepts all terms and conditions contained herein and agrees to be bound by them.
- 13) Permittee agrees to pay a fee of \$100.00 permit fee for each location to be cut, bored, or paralleled plus an additional: \$250.00 for cutting any gravel road; \$750 additional for cutting any paved road; and \$.10/ft for overhead or parallel easement.
- 14) The Fremont County Transportation Department Office is located at:

450 N. 2nd St., Room 310 Lander, Wyoming 82520

All permit application fees must be paid prior to action by the County.

IN WITNESS WHEREOF, the Permittee and the Board of County Commissioners have set their respective hands and seals this _____ day of _____, _____.
