Excellent

PRIMARY MAP DESCRIPTION

This map illustrates the cumulative Level of Service (LOS) provided to the different geographic areas of the Town, based on the overall conditional assessment of indoor, outdoor and trail facilities and the overlay of these facilities' service areas. Areas with higher LOS (green) have a greater quantity and quality of parks and recreational facilities. Areas with lower LOS (red) have less access to adequate parks and recreational facilities, based on their geographic location.

BARRIER CLASSIFICATIONS

- RAILWAY
- ROADWAY
- HIGHWAY
- INTERSTATE

PRIMARY MAP DESCRIPTION

This map illustrates the cumulative Level of Service (LOS) provided to the different geographic areas of the City (similar to map B). However, the purpose of this analysis is to evaluate the accessibility of the City's parks and recreation facilities by pedestrians and bicyclists. Therefore, the service area of each facility is clipped by a line representative of each barrier. Barriers may include major roadways, railroads and interstates.

POPULATION DENSITY

199
250
500
1,000
1,500
2,500
3,670 PER SQUARE MILE

MAP DESCRIPTION

This map illustrates the distribution of the Town's population to various geographic areas and census tracts, based on Census data from 2007 estimates. It is important to note that census tracts are not necessarily restricted to straight or clear physical barriers, but may be more arbitrary in nature and therefore some areas reflect a higher or lower level of density than anticipated as a result of the overall tract.

MAP DESCRIPTION

This map illustrates the maintenance scores of each relevant primary and secondary asset within every individual park and recreation facility. The scores were provided by the Town's staff in regard to the amount of time and resources expended by the Department in maintaining the facility. This scoring was based on a scale of 1 through 5 for each asset, 1=low, 3=moderate, and 5=high. All assets within the park and/or facility were then summed for an overall score.
