NEW

Permit hangtags have been replaced with stickers. Stickers are not valid unless attached to the interior driver's side windshield of the vehicle for which it was purchased. Permits are nontransferable.

Households are limited to 2 permits and both must be paid for. No complimentary additional stickers will be issued.

Loads are limited to any vehicle, trailer or combination thereof to a maximum carrying capacity of 3 cubic yards of material regardless of whether the capacity is achieved through factory design or after-market modifications such as sideboard, wood extensions, racks or other additions.

The Town no longer charges for disposal of passenger and light duty truck tires due to the Tire Extended Producer Responsibility Program (EPR). Tire disposal is limited to 4 tires per trip.

Info line (860) 448-4083

Dear Resident:

We want to make your experience at the Transfer Station a positive one. This brochure is intended to give you basic instructions for use of the facility and answers our customers' most "frequently asked questions". We hope that it helps you successfully prepare for a visit to the Transfer Station.

There are a few general guidelines to remember:

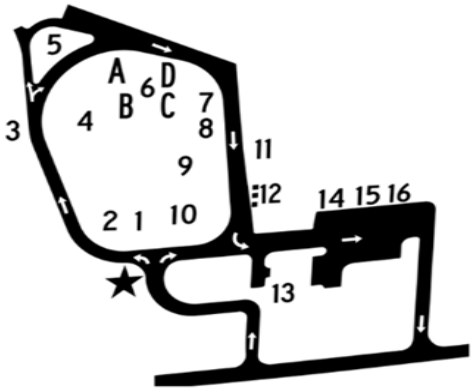

- Use of the Transfer Station is reserved for Groton residents to dispose of bulky waste originating from their Groton home address.
- Commercial waste, or waste resulting as a by-product of business activities, is not accepted. Any entity accepting payment is considered commercial and cannot use the Transfer Station.
- To allow us to efficiently manage waste disposal and help reduce costs, separation of your material by commodity is required. Please refer to the facility diagram for the disposal locations for acceptable materials or ask our staff for assistance.
- Please explore reuse options before using the Transfer Station for disposal.
- The Transfer Station does not accept all materials. Final determination of acceptability of materials brought in for disposal will be made by facility staff.
- All waste deposited at the Transfer Station becomes property of the Town. No person may remove waste from the facility except from the Give and Take shed, compost, wood chip, or pallet areas.
- There are restrictions on the size and types of vehicles that are eligible to use the Transfer Station. See information under "Passes" for more details.

Town of Groton Residential Transfer Station Guide
