This application is to request Temporary Power to facilitate the completion of construction. This structure shall not *be occupied* until all work is completed and inspected by the Hertford County Code Enforcement Department. When the "Final Inspection" has been performed and passed, a permanent release will be submitted to the serving utility company and a "Certificate of Occupancy" shall be written. Only then can the structure be occupied.

*Any procedure different from the above is a violation of North Carolina State Building Administration Code.*
