Re: Bridge Replacement over Gills Creek
Road S-29-51 (Camp Creek Road Road) in Lancaster County
SC File No. 2989660

Dear Mr. Harper:

The South Carolina Department of Transportation (SCDOT) recently awarded a contract to Dellinger, Inc. for the replacement of the bridge over Gills Creek on S-29-51 (Camp Creek Road) in Lancaster County. This bridge is under contract for replacement due to its structural condition.

The planned date to start construction is February 6, 2021; however, this could change depending on any issues that may arise during the development of this project. The estimated duration of construction is eighteen months.

Due to the relatively low traffic volume, and in order to minimize the impact to property owners in the area, the road will be closed at the bridge site during the project and traffic detoured. The detour route will utilize Catoe Road (S-29-306), Pageland highway (SC 9) and Potter Road (S-29-36). The net detour length is approximately 1.58 miles. A map showing the detour is enclosed for your convenience.

If you have any questions, you may contact Ken Wilson, Resident Construction Engineer, at (803) 286-4607. If I may be of service to you, please contact me at (803) 377-4155.

Sincerely,

C. Jason Johnston, P.E.
