For Immediate Release

Masks Strongly Encouraged, New City Closures as COVID-19 Cases Increase in Cache County

Cache County is experiencing a sharp increase in the spread of COVID-19. Mayor Holly Daines asks residents to, “Be smart, be responsible, and be kind! Please do not be complacent. I encourage residents to go back to basics and wear a mask when visiting a business, stay six feet away from others not in your household and wash your hands or use hand sanitizer often.”

Because of this outbreak, masks are encouraged in all Logan City offices beginning Monday June 8, 2020. If individuals prefer to not wear a mask, we invite them to work with us online or over the phone. We encourage other businesses to do the same.

The library will close Monday June 8, 2020 until further notice. Options for checking out books will be available. For more information, call them at 435-716-9123 or visit the website at <http://library.loganutah.org>.

The Logan Community Recreation Center will close beginning June 9, 2020 until further notice, and staff will be evaluating other recreation programs. The City and School District are working together to determine potential future availability for school athletic teams.

To help with those impacted by the virus, Logan City will use federal COVID-19 mitigation funds to provide additional support to the Cache Community Food Pantry, and will provide City staff members to assist the Bear River Health Department to deliver food and supplies to families quarantined due to COVID-19.

General Logan City questions can be answered at 435-716-9000 and on our website at www.loganutah.org.

As a reminder to residents, if you feel sick, you should be tested for COVID-19. Intermountain Healthcare’s [online symptom tracker](#) is available for anyone. This site has valuable health care information related to COVID and locations for testing in the community. For additional questions the COVID hotline is also available at 844-442-5224. Other healthcare organizations may have similar symptom trackers.

The fastest way to receive your results from Intermountain Healthcare is to check the My Health+ app or visit intermountain.com/myhealthplus.
