The following are responses to Municipal Council inquiries from the January 7 Council Workshop regarding proposed fees from the Parks and Recreation Department.

#### Field Fees

Difference between Baseball Field per Day rate (\$60.00) and Softball Field per Day rate (\$75.00):

Department Response: Since the softball infields (16,000 square feet) are larger than youth baseball fields (7,200 square feet – Minor League and 13,000 square feet – Pony League), Department staff feels the distinction between infield type warrants fee differentiation. Furthermore, the majority of softball infields at the Willow Park Sports Complex contain a high clay content that requires additional watering and grooming for play whereas the baseball infields do not.

The department recommends that the rate per field per day use for baseball and softball remain as proposed.

#### Cemetery

Are there spaces at the Cemetery that are not owned?

Department Response: Yes, spaces not yet purchased are owned by the City. Currently, there are 8,763 unsold spaces to date. Each sold space has a title deed recorded for it. Annual burial totals range between 200 and 220 per year. It is estimated there is approximately 30 years of space capacity remaining in the Cemetery. This does not include unoccupied but already sold spaces. The Cemetery contains approximately 21,000 occupied spaces.

Future consideration for fee increases to address necessary improvements.

Department Response: The Department will prepare a recommendation during the Fiscal Year 2015 budget review with Council this spring. The recommendation will be tied to the necessary improvements for the Cemetery's irrigation overhaul to auto-controlled sprinklers and replacement of service roads.

Do we know how many unoccupied but sold spaces there are? Doesn't including them greatly increase the lifespan of the cemetery?

According to Mark Johnson, Cemetery Sexton, there are about 15,000 sold unoccupied spaces. Yes, at least for another 40 years or more because we don't know when people are going to die. And, it's possible a family member may have purchased a space or spaces for loved ones who are young children and may live another 70 or 80 years before a space is needed.

## Golf Course Fees

What is the possibility of tiered green fees based on peak times?

Department Response: This inquiry will be brought to the Golf Advisory Board for input at their January 16 Board meeting and feedback will be included in the Council packet for the January 21 Council meeting.

Is the \$50 proposed increase for Senior Season Passes priced appropriately?

Department Response: Yes, but read on. Currently, the senior season pass yields a value of thirty-six 18-hole rounds or seventy-two 9-hole rounds for \$725. At the proposed senior rate beginning April 1 (\$11 for a 9-hole round; \$22 for an 18-hole round), the cost without a season pass is \$792. The proposed senior pass is a savings of \$17 as compared to the daily senior rate for the same amount of rounds. However, for a senior holding a valid current season pass the proposed increase represents a lesser value in the amount of \$22 (two 9-hole rounds at the proposed rate of \$11 or one 18-hole round at \$22). At the proposed rate of \$775, the season pass yields a value of seventy 9-hole rounds or thirty-five 18-hole rounds. So, the proposed senior season pass does decrease in its "round" value unless the season pass holder plays more than seventy 9-hole rounds or more than thirty-five 18-hole rounds in a season. It is staff's opinion that the proposed rate is still considered a good buy for the senior who plays a moderate amount of golf. The approximate maximum number of golf days for our area is about 240 days (April through November), or about 32 weeks. For a season pass holder, seventy 9-hole rounds in 32 weeks is a little more than twice per week. For the avid senior playing golf at least two to three times per week, the proposed \$775 season pass is an ideal purchase.

What is the amount of revenue for passes versus green fees?

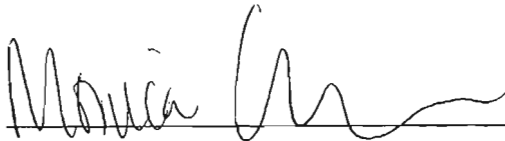

Department Response: Revenue generated from green fees (including daily fees, punch passes, and season passes) for FY 2014 (July 1, 2013 to date) is \$187,879.44. Punch and season passes for the same period total: \$59,102.
