

Mark A. Anderson

Mark has served Logan as a member of the Logan City Council for the last 4 years, one year as Council Chair. He has thoroughly enjoyed learning more about how the City runs and has especially grown to appreciate all the employees who work hard to make Logan great. When the time arrived to run again for re-election, it was an easy choice for Mark to want to serve our community more.

Born and raised in Logan, Mark and his wife decided early on in their career to make Logan and Cache Valley their home. Mark has a bachelors and a Masters degree from Utah State University. He also graduated from the Goldman Sachs 10,000 Small Business Program supported by SLCC. Currently he serves on the Logan City Council, the Cache Water District Board and on the Board of Directors for Voluntary Purchasing Group in Dallas, Texas, a National manufacturer of fertilizers and pesticides that supplies independent garden centers throughout the US. Locally he also serves on the Logan City Forestry Board and is a member of the Logan Downtown Alliance and the Cache County Chamber of Commerce.

Mark lives with his wife, Ronnette, and 3 of their 4 children in Logan where they are co-owners of both Anderson's Seed and Garden and Logan Extermination. Reading, gardening, backpacking, traveling, music and community service fill all of Mark's spare time.
