

## RECAB Meeting Minutes

October 4, 2019

### Logan City Environmental Department

**Board members present:** Sarah Klain, Ryan DuPont, Jordy Guth, Sac Cook, Tyson Godfrey, Amy Anderson, Tom Jensen, Tim Woodruff

**Board members absent:** Andrew Hofmeister, Matt Perry, Mike Taylor

**Others present:** Emily Malik, Tim Woodruff, Drew Michener

Item 3: Tim Woodruff was approved by RECAB to send to council as our new student representative.

Item 4: We gave a general overview of what was discussed in both subcommittees. It was discussed that Sarah had a student who was willing to work on a solar survey for commercial customers, we wondered if there needed to be a commercial solar rate for community solar.

Item 5: Zac gave a brief overview of schedule 32 and 34 – indicating that large volume customers in Rocky Mountain Power can purchase renewable energy and the difference is made up in rate with Logan City. For the city, it is neutral. This is something RECAB would like to investigate further

Item 6: Emily passed along information about our resource mix.

Item 7: Future discussion items include looking at a 5 year electric history for Logan City Hall, having Mark present about battery storage options, blending new solar rates, the Logan Carbon Footprint study, Energy Star Buildings, and Tom Jensen would like to give a more detailed presentation about what his company is doing to be net zero.

Meeting Adjourned 9:20 am
