

## RESAB Meeting Minutes

May 6, 2022

### Logan City Environmental Department

**Board members present:** Drew Michener, Ryan DuPont, Mike Taylor, Zac Cook, Tyson Godfrey, Paul Rogers, Patrick Belmont, Herm Olson, Ernesto Lopez, Tom Jensen, Emily Fletcher

**Board members absent:** Sarah Klain, Paul Campbell

**Others present:** Emily Malik, Amy Anderson, Mark Montgomery

Tyson Godfrey brought the meeting to order at 8:07 a.m.

- Emily said they reached out to all the HVAC installers around the valley to invite them to a meeting about the HVAC incentives. They had about 23 people from 15 different companies attend the presentation.
- Emily mentioned she spoke to one of the attendees after the presentation and they mentioned that the incentives didn't seem to be enough to help sale the higher units.
- Tyson asked if there was going to be a way for people to check to see if the incentive was still available before expecting the incentive and finding out the funding was gone.
- Emily said she will think of a process that would work for the more expensive incentives to maybe have a pre-application process.
- Tom motioned to send the new incentive programs for Logan City Council approval.
- Patrick seconded the motion.
- All board members present voted and approved to send the new incentive program to Logan City Council.
- Patrick said there needs to be a campaign to not only present the incentives but also the reasoning.
- Emily said she will get with Ernesto to see if they could come up with some videos to help get the message out.
- Mark said he doesn't have an update on the Resource Study as they are still gathering information.
- Emily presented the Gas Emissions Study.
- Tom recommended that Emily investigate airline travel and how it is being offset for the gas emissions and how that can be reported.
- Emily said that if anybody would like to serve on a subcommittee to go further in depth on the Gas Emissions Study reach out to her.
- Emily Fletcher said she would like to serve on the subcommittee.
- Tyson suggested sending out an email to see if anybody would like to serve on the subcommittees for community outreach and gas emissions study.
- Patrick mentioned that he would like to be part of the gas emissions subcommittee.
- Next meeting will be held on July 1, 2022, at 8 am.

NEXT MEETING – July 1, 2022  
Meeting Adjourned 9:10 am
