

# Renewable Energy and Energy Conservation Advisory Board

*"If we do not change direction, we are likely to end up precisely where we're headed . . ."*  
– Chinese Proverb

## **I. Mission Statement**

*To conserve and use our resources efficiently, and to assist in transitioning the city of Logan toward a fully renewable energy portfolio that is secure, diverse, cost-effective and promotes security of environment.*

## **II. Goals**

- (1) Reduction of residential energy consumption (per capita) over the next 10 years
- (2) Improved energy efficiency of commercial and public customers
- (3) Implementation of demand-side management (DSM) programs with residential, commercial and public customers
- (4) Identify and research potential sources of renewable energy for Logan City
- (5) Identifying and promote green building standards
- (6) Identify and promote alternative forms of public transportation
- (7) Promote public education on issues of energy supply security, energy cost security, and environmental security
- (8) Reduce carbon emissions and assist with Logan City's carbon emission study.
