It's been a great year in 8th grade! It wasn't Hollywood, but we managed to get through it. We are now onto high school where we will be one step closer to our dreams of fame. We can all make it to the Golden State if we set our mind to it! We will all face challenges on the way, but we need to face them head on in order to get to the end of the red carpet.

Seventh grade rules!

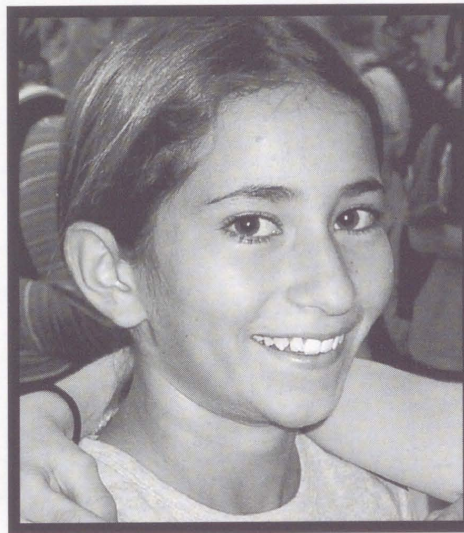

Next year is your year to rule the school and be the "star" of the show, but you've been prompted. There's a ton of work in store for you to learn your "part!" Always be prepared and study hard, and never procrastinate, so you'll be on "que" as an 8th grader!

Devin Cannon shows off his gummy worm while waiting for the bell.

NOW PLAYING...

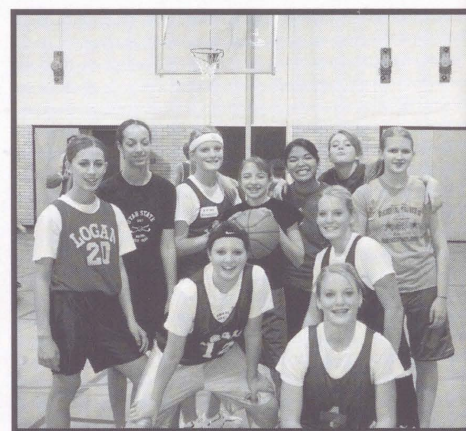

Faculty Games!!!

Faculty Games, the one time a year where students can thrash teachers in an intense game. Or just beat win with a satisfying score. Not only Faculty Games, but also the other many events at this school. What with the Talent Shows, Ski Days, etc., a lot of which other schools can't do. How cool is our school?! With a score of 60 students, 63-staff, unfortunately the students faced a loss. This years' 7th graders, practice hard for next years intense game against the faculty!

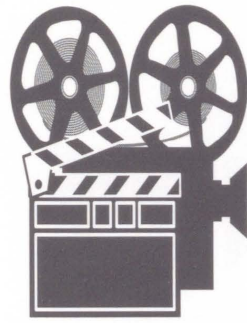

The 8th grade boys work out strategies for the game with high hopes of creaming the faculty.

★ That's A Wrap! ★

It has been a great year at our "hecka cool school". There have been days that are really terrible, and there have been days that are great. Everyone, the teachers, the staff, and all of the students have worked incredibly hard, and now after a very long year we finally get a break. Next year will be just as fun. Some of us are moving on to seventh or eighth grade, others are moving on to high school, but we'll always remember what a great time we had at MLMS. Now we are off to the premiere, and "that's a wrap!"
