AIDS TO PROPER MAILING

Write name and address plainly and completely.

Place name and address of sender on all matter.

Prepay postage fully on all letters and parcels.

Always address mail for city delivery to street and number and request correspondents to do likewise.

Use designation North or South, East or West when it is a proper part of the address and save delay in delivery.

Insure valuable parcels except those containing small articles of considerable value which should be registered.

Wrap parcel post carefully in heavy paper and tie knots securely.

You will often gain a day's time in delivery by depositing mail as soon as it is ready.

Use Postal Unit numbers on mail addressed to cities where Unit Numbers are required.

INTRODUCTION

R. L. POLK & CO., publishers of more than 750 city, county, state and national Directories, present to subscribers and the general public, this, the 1949 edition of the Logan City Directory, which also includes Cache County.

Confidence in the growth of Logan's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Logan to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Logan Directory will fulfill its mission as a source of authentic information pertaining to the city and county.

Eight Major Departments

The eight major departments are arranged in the following order:—

THE MISCELLANEOUS DEPARTMENT, pages 21 to 22, on white paper, presents lists of city, county, state and federal officials; statistical review; historical sketch; and manufacturing, resort, trade and civic surveys.

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 25 to 214, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Logan, and the name, official personnel, nature and address of each firm and corporation in the city.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, covers pages 217 to 257. In this section the names of the streets of Logan are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

The LOGAN RURAL ROUTES DIRECTORY will be found in pages 261 to 267, on white paper.

The CACHE COUNTY DIRECTORY, covering the towns and villages of the county, appears in pages 269 to 345, on white paper.

THE CACHE COUNTY FARMERS, RANCHERS AND RURAL RESIDENTS DIRECTORY appears in page 347 to 383 on white paper.

THE BUYERS' GUIDE, preceding the Classified and separately paged from 1 to 32, on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Logan and vicinity. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Logan, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 417 to 457, on white paper. This department lists the names of all business and professional concerns of the whole community in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site, as a resort and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Logan and Cache County. There are more than 600 of these Directory Libraries, installed and maintained in the chief cities of the U. S. and Canada through the courtesy of members of the Association of North American Directory Publishers, under whose supervision the system is operated and of which R. L. Polk & Co. is a member.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

General Review

Logan was settled in the early spring of 1859 by two small groups of families that came from the Salt Lake Valley to build homes in the beautiful Cache Valley. The plateau on which part of Logan is now situated, and the Logan River with its power and irrigation possibilities, soon convinced these pioneers that this was an excellent place to start a settlement.

This city is located on the lake bed and deltas of the ancient Lake Bonneville. The shore lines of this old lake are plainly visible on the slopes of the foothills of the east mountains. The site of the city was covered with 700 feet of water at the high level of the lake.

Logan was incorporated on Jan. 17, 1866, with Alvin Crockett as the first mayor. The city being near the center of the valley and with the largest stream for irrigation and power purposes, naturally made it the center of development, and it became the county seat soon after its settlement.

Until 1873 all freight and passenger service in and out of Cache Valley was with ox teams and wagons, horses and wagons, stage coaches and other light vehicles drawn by horses. In 1873 the Utah Northern Railway was completed from Brigham City to Logan. In 1874 it was completed to Franklin, Idaho. At present Logan and Cache Valley are well supplied with transportation facilities. The Oregon Short Line R. R. (Union Pacific System) and the Utah-Idaho R. R. furnish ample freight and passenger trains daily. This is supplemented by good bus service in Logan

and around the valley. A through daily bus service is given. The paved and oiled highways in the valley, with the good oiled roads over the county, make all the towns of the valley accessible the entire year. This has had a decided influence in helping to make Logan a center for the valley.

Other means of transportation soon will be provided. Logan and Cache County own jointly the Logan-Cache Airport, about 3½ miles northwest of the city. This is equipped to handle all present-day commercial planes. Regular air service for mail, express and passengers is established. A good private airport also is maintained and operated successfully northeast of the city.

All the towns of the valley are well supplied with electric light and power at very reasonable rates. Logan and Hyrum have municipal electric light plants and the users of electric current in these cities are favored with low rates. There is ample electric power for the present industries of the city and county and for many more. Some of the flour and feed mills use water power, which is an added advantage in keeping down operating costs.

There are three sound banking institutions in Logan, and several in the county. Those in Logan have total resources of over $20,000,000. They conduct their business along safe and conservative lines, but at the same time they are keen to give financial support to any worthy industry for the development of the city and valley.

Industries which are best suited for the crops and conditions have been established here. This being an agricultural section, those industries which use agricultural products have been fostered and supported. The chief crops are

hay, grain, sugar beets, potatoes, peas, beans, alfalfa seed, apples, small fruits and vegetables. Dairying is one of the main industries, with poultry, including turkeys developing very fast.

The reservoirs at Hyrum and at Newton, two Government reclamation projects, store more than 20,000 acre-feet of water for irrigation. These reservoirs, with other irrigating streams, make it possible for more intensive crops, diversified farming, and greater yields and income for the farmers.

In Logan and Cache County there are condensed milk and cheese factories, sugar plant, flour mills and elevators, pea and bean canning factories, knitting and wearing apparel factories, candy and ice cream factories, bakeries, chicken and fish hatcheries, floral companies, farm wagon factory and iron works, fur farms, sand and gravel plants, upholstering and tailor shops, harness shop, sawmill, lumber and millwork companies, monument companies, mattress factory, bottling works, turkey-processing plant, trout farms, honey culture, and an abattoir. Also, there are good prospects for some new industries to locate here.

Logan is proud of its retail stores. For a town of its size, there are no more artistic store-window displays or stores in the country. Merchandise to suit all fancies and needs of the people soon will be carried at reasonable prices.

As a center of culture and education, Logan is outstanding. There is a wholesome environment for the rearing of families. The Utah State Agricultural College is located here. There are excellent senior and junior high schools and five elementary schools. All the schools have substantial buildings and equipment to give the students good opportunities for training. Many families from the outside come to Logan to send their children to school. Students from many of the Intermountain states and some from foreign lands attend Utah State Agricultural College.

The Latter Day Saints Church has modern church buildings in all the wards; also three seminary buildings. The L. D. S. Institute building on College Hill, the Logan Temple building (lighted at night) on Temple Hill and the Logan Tabernacle in the center of the business district are monuments which attract considerable attention. The Presbyterian Church, St. John's Episcopal Church, and the Catholic Church own and maintain splendid church buildings that fill a need in the city.

Logan boasts one of the finest theatres in the West. This has made it possible to bring excellent theatrical pro-

ductions to Logan. Dramatics and public speaking are emphasized in all the schools, colleges and churches.

One of the best and most interesting nine-hole golf courses in the state is located here. It is just under the foothills of the mountain east of Logan, on a beautiful plateau, and commands a wonderful view of the valley. It is always cool with mountain breezes.

The Logan Chamber of Commerce acts as a clearing house for all the major activities of the city and county. It has fine cooperation from the Logan City and Cache County officials, the church officials, the luncheon clubs, the American Legion, the fraternal organizations, the Logan Junior Chamber of Commerce, and the school officials. It has 400 active members, and many worth-while projects are accomplished.

Logan Canyon

As a scenic attraction, Logan Canyon is unsurpassed anywhere. Starting just three miles east of Logan, the gorge cuts the mountain range and extends east and north for forty miles through the most beautiful scenery imaginable. A jagged and roughly-hewn canyon, yet it is green and verdant throughout. Very few canyons of this size and depth have the many camping flats with green foliage and grass that Logan Canyon has.

The gorge is as deep as the Grand Canyon and nearly as wide. The range of mountains towers above to a maximum height of 9,900 feet above sea level. This makes an almost perpendicular canyon nearly a mile deep. In many sections mountains are glaciated, having at one time harbored at least eleven glaciers. Several small lakes in the tops of the hills attest to this fact.

Logan River is lined with unusual springs. The one from which Logan gets it water supply results from a great

plunging truncated syncline in which the water is gathered underground at a width of more than nine miles east and west and twelve miles north and south. The canyon having cut across the structure, allows the water from this great underground drainage basin to issue to the surface in the bottom of the canyon. This type of spring always produces cold water, the temperature at the point of issue being 42 degrees. Ricks' Spring, in the left-hand fork on the highway, issues from a barren hill and is so cold that it seems iced. Most of the hollows in the canyon have clear, cold, tumbling springs.

At Beaver Mountain, 29 miles up Logan Canyon, a new ski area is being developed. When fully completed this will be one of the finest ski centers in northern Utah and southern Idaho.

Logan Canyon differs from most canyons of the Wasatch in that the bottom is always green and covered with vegetation. The hard and soft layers through which the water has cut have developed into numerous cirques and flats admirably suited for camping. Douglas fir, Engleman spruce, lodgepole pine, and fir balsa mare quite abundant. Large areas are covered with aspen, willow, alder and birch. Hard maples occupy the higher slopes, and junipers cover the dry ridges.

Logan Canyon has the distinction of having the oldest living juniper tree in the world. It is located on Cottonwood Ridge above the Logan Cave, about two miles from the road. The tree is nearly 27 feet in circumference, 44 feet high, and is estimated by authorities to be more than 3,000 years old. It was a sapling in the time of King Solomon.

Logan River always has been a good fishing stream. The river is stocked every year and the abundance of food in the stream contributes to rapid growth. A few years ago a German brown trout weighing 37 pounds was caught. Hundreds of elk roam the ranges, and thousands of deer live among the aspens and quite often are visible from the highway. A few moose are to be found in the lake regions, and colonies of beaver inhabit the river banks.

The CCC, under the direction of the Forest Service, made many worth-while improvements in the canyon, particularly in providing many fine public camp and picnic grounds with all modern conveniences. Thousands of people now can find rest and enjoyment in these beautiful camps all through the canyon. Many flats of particular excellence are now available. The most noted of these is Camp Guinavah (called by the Indians, Chicken Creek). This camp is about eight miles from Logan opposite the Malibu Lodge. The camp has 41 individual camps equipped with table, stove, bonfire place, garbage cans, etc. There are two picnic areas capable of handling 500 people at one time, also modern sanitary conveniences. Piped cold, spring water is available for all spots, and a drinking fountain is set in the center of the area. An amphitheatre with a seating capacity of 600 makes this one of the most ideal places for reunions, picnics and outings in northern Utah.

A beautiful oiled highway extends through the entire canyon, a distance of forty miles over U. S. 89, to Bear Lake.

Side trips are offered the tourist at almost every turn. Of these, the most beautiful is a few miles west of Tony Grove Ranger Station. Here, nestling amid mountain peaks

and pines, are Tony Grove Lake and White Pine Lake. These trips are made by horseback or hiking. The most inspiring sight of the trip through the canyon is withheld until the last, when, on topping the divide, Bear Lake is seen a scant ten miles away, sparkling in the sun like a giant emerald or turquoise, changing its colors as the light strikes it. This scene holds the observer in silent admiration and reverence for one of nature's most lavish displays.

All things considered, Logan Canyon offers the tourist one of the most delightful, coolest and cleanest areas for a vacation that it is possible to find.

Out of Sight - Out of Mind
★ *Out of Business* ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

★

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

LOGAN

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1949

Copyright, 1949, by R. L. Polk & Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The Δ preceding names denotes houses and places of business having telephones.

This section includes some listings reading "No return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.

More goods are bought and sold through the Classified Business Lists of the Directory than any other medium on earth.

MORE GOODS
ARE BOUGHT AND SOLD
THROUGH THE
CLASSIFIED BUSINESS LISTS
OF THE
DIRECTORY
THAN
ANY OTHER MEDIUM
ON EARTH

CITY DIRECTORY ADVERTISING IS *National* ADVERTISING

★ Each edition of your City Directory is widely distributed to free-reference City Directory Libraries located at the Chambers of Commerce of hundreds of other cities.

★

Therefore your ad in the City Directory is seen by buyers from coast-to-coast

WHY A *Buyers' Guide?*

*It is customary to include a Buyers' Guide in the City Directory because:

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . EXTENDED.

★ *Out of Business* ★

The importance of keeping firm and product names in the public eye is recognised by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

★

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

Out of Sight - Out of Mind
★ *Out of Business* ★

The importance of keeping firm and product names in the public eye is recognised by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

★

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

Steadfast Service

A funeral service should be a thing of sincerity, beauty, and quiet dignity. We know that the sudden passing of a loved one often places a severe strain on family resources and limits the amount of money available for last rites. Whatever your financial situation, we can arrange a funeral that need not be expensive. You pay only one reasonable fee and our experienced staff can be depended upon to handle all details faultlessly.

CAUTION....

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed theron. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

CITY DIRECTORY ADVERTISING IS *National* ADVERTISING

★ Each edition of your City Directory is widely distributed to free-reference City Directory Libraries located at the Chambers of Commerce of hundreds of other cities.

★

Therefore your ad in the City Directory is seen by buyers from coast-to-coast

WHY A *Buyers' Guide?*

***It is customary to include a Buyers' Guide in the City Directory because:**

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . EXTENDED.

CONSULT YOUR DIRECTORY FIRST

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.
