Water Made Still

City of Manassas, VA . . . Beginning March 17 at **The Hall** in City Hall, Photographer Hannele Lahti explores the visual fabric of life in photos. Have you ever watched the ebb and flow of water as it laps against the bank, whether it is a river or the ocean? **Ebb & Flow** is a photo exhibit capturing the fleeting moment when all of the variables meld together and are stilled. The exhibit opens on March 17 and runs through April 24 at the City of Manassas City Hall, 9027 Center Street in Manassas, Virginia.

Hannele Lahti is a nationally-recognized documentary and fine art photographer who creates images that explore the wonder and fragility of the natural world. She is the owner of Hannele Lahti Photography and a contract photographer for National Geographic. As a child, Lahti grew up on a lake and learned to respect the natural world, to honor its beauty as she sat by the water's edge with her grandfather.

Exhibits in The Hall rotate on a monthly basis and include different forms of visual art. Visiting The Hall is free and open to the public from 8 a.m. to 6 p.m. and later when evening meetings are held in the building.
