Cool New Tools

City of Manassas, VA . . . The City of Manassas has launched 311GIS. This is an application that you can access on your computer, on your cellphone or on your tablet to let the City of Manassas know about your concerns. Concerns can range from potholes, graffiti and abandoned cars, to tree limbs near power lines, illegal parking and much more. Residents and visitors to the City can either sign in or create a request anonymously by visiting www.manassascity.org/311 or click on the Report a Concern button on any page of the City's website.

Also soon to be launched in the City of Manassas is a Development Services Division online customer interface system. Through this system customers will be able to check the status of building permit plan reviews, pay fees for permits, and schedule building inspections. Once completed, customers will have the ability to verify the status of building inspections. Staff is currently piloting the program, and will be conducting customer orientation sessions April 20-30. If you are interested in attending one of these sessions, contact staff at planstatusbuilding@ci.manassas.va.us.
