

Additional Metering, Testing, and Controls

Except as provided in *Conditions of Interconnection A:5 and 6* and in *Metering, Billing, and Payment* as related to additional metering, no net metering customer shall be required to pay for additional metering, testing, or controls in order to interconnect with the City's distribution system. However, this shall not preclude a net metering customer or the City from installing additional controls or meters, or from conducting additional tests. The expenses associated with these additional meters, tests, or equipment shall be borne by the party desiring the additional meters, tests, or equipment.
