Commerce Industrial Park Second Addition – Public Hearing on Preliminary Plat, approval of Preliminary Plat and Consideration of Resolution Number 4573, Second Series, Approving the Final Plat.

The final plat of Commerce Industrial Park was adopted by the City Council in 2016. Since that time the property has been designed and constructed in accordance with plans and specifications provided by Bolton & Menk, Inc.

The development plans included the construction of the connection of Michigan Road/Pacific Avenue and T.H. 68, the construction of Michigan Road, installation of utilities on Michigan Road, and construction of stormwater detention and treatment ponds for the entire site except for a small area on the northwest corner of the subdivision.

After this construction has been completed, it was desired to replat the area indicating developable properties and out lots where the stormwater drainage and detention and treatment areas were located. Copies of the proposed subdivision have been sent to the local utility companies for their review and comments. No adverse comments have been received.

At the Planning Commission meeting on December 12, 2018, Fox made a motion, seconded by Knieff to recommend approval of the preliminary plat to the City Council and to call for public hearing to be held on January 8, 2019. All voted in favor. The preliminary plat was introduced at the City Council meeting on December 18, 2018.

A draft preliminary plat was submitted to both the Office of the Lyon County Recorder and the City Attorney. The final plat has resolved the issues and concerns related to the replat of Commerce Industrial Park. As the State of Minnesota has some financial interest in the development of the property from the Business Development Public Infrastructure (BDPI) grant from DEED, the City Attorney will propose a consent to plat document to be signed by DEED and/or the MMB (see attached memo from City Attorney).

Conduct the Public Hearing on Amending Ordinance Sections and Adopt Ordinance Number 732, Second Series.

This summer, Paul Schierholz, owner of The Broadmoor Valley manufactured home park, informed the City staff that, in his mind, the City Zoning Ordinance is contradicting the State Statutes in its regulations of placing manufactured homes within residential districts other than R-5 Manufactured Home Park District.

The staff reviewed the Ordinance and the State Statutes and concurred with Mr. Schierholz, determining that our Zoning Code is indeed in conflict with the State Statutes. Since the State Statutes always have priority over local ordinances, it was necessary to revise the Zoning Ordinance to match the State Statutes. The staff then decided to review the entire Ordinance for regulations pertaining to manufactured homes, beyond Mr. Schierholz request, to better meet the current needs and conditions and allow for improved coordination of provisions within the Ordinance. As a result, Sections 86-101 R-5 Manufactured Home Park District and 18-101 Installation were also significantly revised.

State Statutes require that manufactured homes be permitted in R-1 One Family Residence District with no additional conditions, so the staff removed specific requirements for manufactured homes installed in R-1 One Family Residence District and adjusted those requirements to apply to all residential structures. State Statutes also requires that Manufactured Home Parks be permitted as a Conditional Use in all residential districts allowing multiple family structures and this change was also incorporated into the Ordinance.

Ordinances of several other cities have been analyzed and their provisions were considered in changing the City of Marshall Ordinance.

During the October 10, 2018, regular Planning Commission meeting, proposed revisions were discussed and tabled to the next regular Planning Commission meeting on November 14, 2018, to allow staff to make some suggested changes.

During the November 14, 2018, regular Planning Commission meeting, ordinance amendments, revised by staff to reflect Planning Commission comments, were discussed and recommended for adoption. All voted in favor of the motion.

At the meeting on December 5, 2018, Legislative and Ordinance Committee voted to recommend to council the approval of Amendments to sections 18-101 Installation, 86-71 Classes and enumeration of districts, 86-97 R-1 One Family Residence District, 86-98 R-2 One- to Four-Family Residence District, 86-99 R-3 Low to Medium Density, Multiple- Family Residence District, 86-100 R-4 Higher Density, Multiple-Family Residence District, 86-101 R-5 Manufactured Home Park District, and 86-165 Manufactured Homes as recommended by staff with one minor change. The Ordinance Amending Sections 18-101 Installation, 86-71 Classes and enumeration of districts, 86-97 R-1 One Family Residence District, 86-98 R-2 One- to Four-Family Residence District, 86-99 R-3 Low to Medium Density, Multiple-Family Residence District, 86-100 R-4 Higher Density, Multiple-Family Residence District, 86-101 R-5 Manufactured Home Park District, and 86-165 Manufactured Homes and Call for Public Hearing was introduced at December 18, 2018, City Council meeting.

Consider approval of 2019 Workers Compensation Insurance.

The workers compensation insurance covers the City employees, elected and appointed officials, Library and Marshall Municipal Utilities employees. The 2019 premium reflects keeping the deductible remaining at \$5,000. This will be an additional \$19,774 credit amount to the standard premium of \$263,648.

Manual Premium	\$ 387,718
Experience Mod. 0.68	-124,070
Standard Premium	263,648
Deductible Credit 7.50%	- 19,774
Premium Discount	- 28,499
Net Deposit Premium	215,375

This premium is paid by the following:

City Portion	\$181,195
Library Portion	\$2,438
MMU Portion	\$31,742

This is a \$8,567 or 4.14% increase from 2018 to 2019.

The experience modifier has increased very slightly from 0.67 in 2018 to 0.68 in 2019. That would indicate that staff have been diligent on working to keep a safe work environment as well as continued training for staff in safety at the workplace. The rate increase also reflects the upward trend in overall insurance costs. Council member Labat pulled the item for further discussion. Member Labat wanted to verify the City has reviewed its deductible amounts. Finance Director Karla Drown provided additional information on the item. Request to Move Dwelling into Residential District at 312 Warsaw Circle.

The house to be moved to 312 Warsaw Circle is currently located in Milroy, MN. It is a one story over basement 1,500 S.F. footprint house with a two-car attached garage built in 1968. This house was inspected by Ray Henriksen, Building Services Coordinator, and found to be in good condition suitable for moving. A photo, building diagram, and inspection report are attached. The plan is to set this house on a newly built basement at a new location; at that time the entire house will be brought up to the new Building Code. The site at Warsaw Circle Street seems to be adequate.

The residential area where this house will be moved in does have a covenant agreement, but this house seems to be generally in compliance with it. There are just a few dwellings in that area built in the mid-2000's, which are ranch and split type, that have about 1,200 SF average footprint. This house seems to be a relatively good match for the area. An aerial photo of the area is attached for Council's consideration. According to the City Ordinance, the aesthetics, i.e. how the house fits into the locale to which it is being moved, is the main concern for the Council and a deciding factor for approval. Which shall be granted in case it is determined that the house does fit into the area.

Ilya Gutman, Plan Examiner/Assistant Zoning Administrator presented the item to Council. There was further discussion by Council and Staff.

Change Order Authorization.

Director of Public Works/City Engineer Glenn Olson presented the item to Council. Periodically, construction contracts require the use of change orders for a variety of reasons-- unforeseen construction items not included in the original contract, variations of contract quantities, unit price changes, time extensions, or plan errors.

Currently, the department initiates a change order whenever any of these contract changes occur, but the work is normally completed prior to Council action.

The Council has requested City staff to review the current change order process and recommend revisions to streamline the process.

In order not to delay construction progress, in accordance with our standard construction Agreement, Article 2 indicates that the "ENGINEER shall act as OWNER'S representative, assume all duties and responsibilities and have the rights and authority assigned to ENGINEER in the Contract Documents in connection with completion of the Work in accordance with the Contract Documents."

Also, in accordance with the Standard General Conditions of the Construction Contract, Section 9.01, A, indicates "Engineer will be the Owner's representative during the construction period."

However, I believe it is necessary for the Council to be aware of changes to the work previously authorized by the Council. When a construction project is authorized, the Council approves the contract with the contractor plus 5% contingencies.

In the last 10 years of project history for all projects over \$100,000.00, change orders have fallen within the 5% range. For projects up to \$100,000.00, change orders vary widely from -3% to +45% and average just under 10% because of the small original contract amounts. In accordance with our current Purchasing Policy, Council approval is not required for contracts under \$25,000.00. If a sliding scale would be considered, use \$25,000.00 or 5%, whichever is greater.

After review, it is our recommendation to allow change orders according to the following administrative procedure:

(A) Change orders, cumulatively or singly, that do not exceed the project's contingency funding may be approved by the department director or their designee.

(B) Change orders that cumulatively or singly increase the value of a contract to exceed the project's contingency funding by twenty-five thousand dollars or less require the approval of the City Administrator. The City Administrator may choose to seek additional approval from the Council.

(C) The Council must approve change orders that increase the value of the contract to more than twenty-five thousand dollars beyond the project's contingency funding.

(D) The Council approve the final reconciling change order and final payment.

Councilmember Meister commented on the size and dollar amounts of the projects.

Councilmember Bayerkohler questioned if by adopting this policy regarding change orders would lessen Council oversight. Director Olson disagreed as all the information would remain in the Council packet.

City Administrator Sharon Hanson provided additional discussion on project size, percent increases, to costs to do these types of projects and that change orders are a common occurrence throughout the State.

There was continued discussion by Council and Staff.

Motion made by Councilmember Schafer, Seconded by Councilmember DeCramer to adopt the change order policy. Voting Yea: Mayor Byrnes, Councilmember Schafer, Councilmember DeCramer Voting Nay: Councilmember Labat, Councilmember Meister, Councilmember Bayerkohler. The motion **Failed. 3-3**
