Every buyer of an interest in residential real property is notified that the property may present exposure to dangerous levels of indoor radon gas that may place the occupants at risk of developing radon-induced lung cancer. Radon, a Class A human carcinogen, is the leading cause of lung cancer in nonsmokers and the second leading cause overall. The seller of any interest in residential real property is required to provide the buy with any information on radon test results of the dwellings.

PRIVATE SALES: Parcels Not Sold at Public Auction

Any parcel not sold at a public sale may be purchased after the public sale by paying the basic sale price, plus extra fees and costs (see above). This does not include parcels withdrawn from sale. The basic sale price cannot be changed until the parcel is reappraised, republished, and again offered at a later public sale.

The buyer will receive a receipt at the time of the sale. The Department of Revenue will issue a state quitclaim deed after full payment is made. A state deed has the characteristics of a patent from the State of Minnesota. However, services of an attorney may be necessary to make the title marketable.
