

**Statement of Evidence:**

The corner was originally established during the Public Land Survey which was completed in Tenhassen Township in 1854.

A survey made by Deputy County Surveyor, George Sawyer, recorded in Surveyor's Book E, page 116 $\frac{1}{2}$ , identified the corner and set another stone 20" x 11" x 11" with "+" above first.

The State Highway Department identified the corner as a stone 2' South of fence to the East.

On 5/6/82, I found a 3/4" rod in the bituminous paving.
