**PUBLIC NOTICE**  
**MARTIN COUNTY WATER AND SEWER AUTHORITY**  
**BURN OUT 2021**

Burnout starts today, June 17, 2021, with the Martin County Water and Sewer Authority converting to Free Chlorine this morning. The Burnout should be completed by 7/28/21. As in the past, customers may notice a more intense smell of chlorine. There may be some discoloration in the water due to the increased volumes of water going through the mains. It will take a few days for the Free Chlorine to spread through the system and more flushing will occur as it spreads.
