Total Fees _____

See below for plan review requirements before completing the section at right. Plans and specifications must be submitted when the wiring or alteration to an electrical system is over 400 amps and is in excess of 3,500 square feet in all buildings. * There will be an additional charge of \$50.00 per half hour for those permits requiring plan review.

What is the rating of the service or feeder in ampere? _____
 What is the building size, in square feet? _____
Have plans been submitted? Yes* No Not Required

Plans are required for all building types and shall be prepared by or under the direct supervision of an architect or engineer licensed pursuant to Act 299 of the Public Acts of 1980, as amended, and shall bear that architect's or engineer's signature and seal, except: 1) When the electrical system rating does not exceed 400 amps and the building is not over 3,500 sq. ft. in area. 2) Work is completed by a government subdivision or state agency costing less than \$15,000

Homeowner Affidavit: I hereby certify the electrical work described on this permit application shall be installed by myself in my own home in which I am living or about to occupy. All work shall be installed in accordance with the State Electrical Code and shall not be enclosed/covered up, or put into operation until it has been inspected and approved by the County Inspector. I will cooperate with the County Inspector and assume the responsibility to arrange for all necessary inspections.

Revised 11/22/2019
