

Morrow County has placed electric aggregation on the May 3rd ballot.

Government Aggregation is an easy and effective way for a large group of consumers to save money on their electric bills. By bringing citizens together, the aggregation gains group buying power and can negotiate competitive pricing.

By voting **for** electric aggregation, you will allow your local elected officials to purchase electricity at a competitive rate for the county. This is an opt out program, and you can leave the program at any time without penalty. Your local utility will be responsible for the delivery of power to your home or business. This is for residents and small businesses that have Ohio Edison or AEP as your utility.

If you are in a REA, you can still vote **for** the issue, but will not participate.
